Memorandum:

DEPUTY MINISTER

At six different places arrangements have been in effect for some time whereby a grant is paid to a white school for the education of Indian children for whom no Indian day school is available.

These schools are as follows:

PROVINCE OF ONTARIO

Hiawatha	-	Rice and Mud Lake Indian Agency
Honey Harbour	-	Parry Sound Indian Agency
Mattawa	-	Mattawa, Ont.
Michipicoten Harbour	-	Sault Ste. Marie Indian Agency

PROVINCE OF MANITOBA

Moose Lake	-	The Pas Indian Agency

PROVINCE OF SASKATCHEWAN

Round Plain	-	Carlton Indian Agency

Provision was only made in our appropriation for our grant to these schools for a nine-month period during the academic year 1940-41. However, they will be open for a ten-month period to accommodate the white children attending and I consider that we should allow the Indian children also to attend for the ten-month period.

To do so would require an amount of $265.00 more than provided in the current year's appropriation for the six schools mentioned above. There are two other combined schools to which we have been making grants; namely, Whitefish River in the Manitoulin Island Indian Agency, and Jack River in the Norway House Indian Agency. The attendance at both these schools has decreased to such an extent that the authorities in charge of the Whitefish River School were advised that no further grant would be allowed to them after June 30, 1940, and in the case of the Jack River School our yearly grant of $650.00 is being reduced to $175.00 from September 1, 1940. As a result there will be an unexpended balance in the case of these two schools of $867.50.

You will, therefore, note that we can allow the Indian children enrolled at the other six combined white and Indian schools to attend for the full ten-month period without any increase in the total expenditure.

I should appreciate having the Minister's approval.

Dear Sir:

While Indian day schools located on Indian reserves throughout Canada will only be operated for a nine-month period during the coming academic year it is noted that the elementary schools in the Province of Ontario will be open from September 16 to June 30, a period of nine and a half months. We will continue our grant to the Hiawatha Combined School at the same monthly rate as formerly for a nine and a half month period during the coming academic year.

Please advise those interested accordingly.

Memorandum:

PRIVATE MEMBERS

Each residential school forwards to this Branch a return at the end of each quarter. This return shows the name of each pupil enrolled and the number of days during which the pupil was present in the quarter covered by the report. The per capita allowance is paid on the average attendance, provided this is not in excess of 92.84% of the authorized pupilage at the school.

There has been considerable illness among the pupils enrolled at Indian residential schools during the current year. For instance, you will recall that infantile paralysis broke out in the Prairie Provinces about the latter part of August, 1941, and, as a result, the Medical Officers issued instructions to the effect that pupils should not return to Indian residential schools on September 1, the usual date for re-opening. As a consequence many of the children did not get back to school until October or even November.

The above has resulted in a decrease in the average attendance at many of our residential schools and, therefore, the schools have not earned the per capita allowance which they would otherwise have been paid. This means that at the present time there is approximately $80,000.00 left in the allotment for per capita allowances. The total authorized pupilage at all Indian residential schools is 8618. As the maximum per capita allowance to each school is 92.84% of the total enrolment, the maximum number for which grant is paid would be 7949.

Due to increased cost of many commodities and higher wages for staff members, the Churches engaged in Indian work have urged us to make a special grant this year. In view of the amount that remains in the per capita allowance allotment, I recommend that a special payment of $10.00 per capita be made on the average attendance at each school as shown by the quarterly returns. The maximum amount required in order to carry out this recommendation would be $70,490.00.

In making the above recommendation I suggest that the Churches concerned be informed that this payment must not be considered a precedent for future years.

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL

The undersigned has the honour to report:

THAT there are 77 Indian residential schools in the Dominion of Canada;

THAT the Churches co-operating with the Department in the operation of these schools have directed our attention to the increased cost of many commodities and the higher wages now being paid to staff members;

THAT, as a result, the Indian residential schools have been obliged to incur extraordinary expenditures and consequently the Churches have appealed to the Department of Mines and Resources for a special grant in order to assist them to meet their obligations;

THAT, due to various causes, funds to an amount of $78,676.00 are available in the appropriation for the current fiscal year and that this amount would be sufficient to make a payment of $10.00 per pupil based on the average attendance as shown by the quarterly returns for the calendar year 1941.

The undersigned, therefore, recommends that approval be given for the expenditure of a sum not in excess of $78,676.00 as a special grant at the rate of $10.00 a head on the pupilage at the Indian residential schools in the Dominion of Canada, same to be chargeable to Vote 106, Indian Affairs Branch, Department of Mines and Resources.

Memorandum to:

Dr. H.W. McGill

The Governor in Council has now approved of the special payment of $10.00 per capita to the Indian Residential Schools, based on the Recommendation enclosed with your memorandum of the 27th ultimo.

In submitting this recommendation to Council the Minister asked me to prepare a letter for the Secretary of Treasury Board. This was done and I am enclosing a copy. Your attention is specially drawn to the last paragraph. In sending out the cheques to the church authorities for the increased grant, you should advise them along similar lines.

W.C. Bonson, Esq.,
Secretary, Treasury Board,
Department of Finance,
OTTAWA, Canada.

Dear Mr. Bonson,

The attached Recommendation to Council, which has been signed by the Minister, refers to the matter which I discussed with you a few days ago, and that is, the request made by a committee of all the churches operating residential schools that some additional allowance should be made to the churches in order to assist them in meeting their increased expenditures arising from the higher cost of food, supplies and wages. You will recall that the matter was discussed by Treasury Board when our estimates were up for consideration and it was suggested then that an item might be included to provide for this additional assistance. However, no action was taken at that time.

In the current year's estimates, Vote 166, $1,398,944.00 was provided for grants to residential schools. It would now appear that all of this sum will not be used owing to the fact that the attendance at the schools was materially reduced during the summer and fall by reason of the epidemics that were prevalent at that time, particularly in western Canada. It is expected that there will be approximately $90,000 remaining in this vote at the end of the year. It is therefore recommended that a special payment to the churches be made of $10.00 per capita, based on the average attendance at each school, as shown by the quarterly returns. The amount required to provide this grant would be $72,876.90

In support of the request, the committee representing the churches has pointed out that the cost of maintaining the residential schools has increased very

materially since the beginning of the war and similar conditions existed in respect to the cost of food, household equipment, fuel and clothing.

In considering the request the Minister pointed out to the committee that if any additional assistance should be granted this year it would not in any way be considered a precedent and that there would be no obligation to grant similar assistance in other years. It was also made clear that if additional assistance were granted now it would only be because there were funds available in the estimates and that the Government could not, during the war, provide for additional funds for residential school training over and above the sums which have been provided during the past few years.

DEPARTMENT OF MINES & RESOURCES
INDIAN AFFAIRS BRANCH

Ottawa,
March 25, 1942.

Reverend Sir:

On the recommendation of the Minister an Order-in-Council was passed on March 16, 1942, authorizing payment of a special grant to the Indian residential schools for the calendar year 1941. This is being made on the same pupilage as per capita grant was allowed during the year 1941 and is at the rate of $10.00 per pupil.

The special grant being made for 1941 must not be considered as a precedent for future years, and the Department does not obligate itself to give similar consideration in other years. I, therefore, urge the Principals of our residential schools to effect every reasonable economy in the operation of their schools in order that the financial resources may be conserved to the advantage of all parties concerned.

You are no doubt aware that at this date there is an acute shortage of certain commodities. We have in mind gasoline, rubber, steel, tin, etc. and we have no assurance that the list will not be greatly extended in the immediate future. In view of these shortages we are requesting Principals to do everything humanly possible to conserve these and other commodities essential to our war effort.

Dear Dr. McGill:

I beg to acknowledge the receipt of your letter of the 25th ulto., #1-1-3, and with it the copy of your circular letter of the same date addressed to Principals of the Indian Residential Schools, in connexion with the special $10.00 per capita grant for the year 1941. I have not yet had an opportunity of presenting your letter to our Commission, but I am confident the members would desire me to express their high appreciation of this financial help, coming as it does at a time when it is very greatly needed.

As I have learned from our General Secretary that he also received a copy of your circular letter to the Principals, I am assuming that he will write to you direct in the matter, and convey to you an expression of our Society's hearty thanks for your kind consideration of our needs. On behalf of our Commission, on whom rests the responsibility for the administration of the Church of England Schools, I can assure you that every possible effort is being made to keep them in operation at a minimum cost. The standards of efficiency, possible under normal conditions, cannot easily be maintained, but you may rest assured that we will do our utmost to "carry on" until happier days have come back again.

With very kind regards,

Faithfully yours,

The Honourable Mr Crerar,
Minister of Mines & Resources,
Ottawa, Ont.

Dear Sir: May I personally thank you for the additional grant of $10.00 per pupil for the fiscal year just ended? This grant, I think, should be most appreciated by the smaller Schools which, handicapped by a comparatively higher overhead, have been most hard hit.

Even in normal times, the Kootenay School appears to be financially hard to conduct. Eight or nine years ago, the Oblate Fathers paid off debts amounting to $11000.00 In the three years preceding March, 1941, when I arrived, a deficit of over $5200.00 had accumulated & there was a Bank balance of only $37.00 on hand. We are now on our feet again thanks to a Contribution from the Oblate Fathers of about $7000.00 in the last twelve months - Of this, $4850.00 was in Cash & the balance was made up of meat, vegetables, etc Supplied free of charge from the Oblate farm -

I mention that to indicate that we sincerely appreciate the extra grant just received -

I beg to remain
Yours sincerely,

Hon. T.A. Crerar,

Honourable Minister,

We have heard that you had granted to our Indian boarding schools the sum of $10 per pupil for the year 1941-42.

In my name and that of the principals of our two boarding schools, I thank you sincerely for having made such a grant.

The boarding school of Albany, James Bay, was burned down in August, 1939; already partially rebuilt at the expense of the Apostolic Vicar and his missionaries, it has this year 48 pupils. On account of this reconstruction, the financial position of that house is far from being prosperous.

The boarding school of Fort George, also at James Bay, has almost 50 Indian pupils this year. The subsidy "per capita" of that school is for 20 pupils only (less 7.76%).

You may imagine how welcome will be the sum of $10 for each child that you grant this year. The personnel of our boarding schools makes every effort to give a formation which is best suited in their condition. All encouragement and cooperation from the Government is very much appreciated.

Wishing you all success in your work so full of responsibility, I remain,

Monsieur le Ministre,

Nous avons appris que vous avez octroyé à nos pensionnats indiens, la somme de $10.00 par élève, pour l'année 1941-42.

En mon nom et au nom des principaux de nos deux écoles-pensionnats, je vous remercie bien sincèrement de cet octroi.

Le pensionnat d'Albany, à la Baie James, a été incendié en août, 1939; déjà partiellement rebâti aux frais du Vicaire Apostolique et de ses missionnaires, il garde, cette année, quarante-huit élèves. Du fait de la reconstruction, les finances de cette maison sont loin d'être prospères.

Le pensionnat de Fort Georges, aussi à la Baie Jam reçoit près de 50 élèves indiens, cette année. Or, l'octroi "per Cap à cette école, n'est que pour 20 élèves (moins 7.76 %).

C'est vous dire combien sera bienvenue la somme de $10.00 par enfant, que vous octroyez cette année. Le personnel de nos écoles-pensionnats s'efforce de donner aux enfants indiens la formati qui leur convient le mieux dans leur condition. Tout encouragement et toute coopération de la part du Gouvernement sont très bien appréciés.

Vous souhaitant un succès plein et entier dans votre travail si chargé de responsabilité, je demeure,

Dear Doctor McGill,

I wish to thank you personally for your successful efforts to get us a special grant of $15 per pupil for the fiscal year just ended. While all schools will appreciate this grant, I believe that the smaller schools, being the hardest hit, should appreciate it more than others.

The Kootenay School appears to be in a particularly difficult position: a few years ago, the Oblate Fathers had to pay off debts amounting to over $11000.00. When Seame here, a year ago, I found about $37.00 in the Banks and bills amounting to about $5200.00. Thanks very much for your letter of May 13th, in which you report that the Department sees no serious objection to the Church's distributing these special cost-of-living grants to the Indian Residential Schools in the way that will help the financially embarrassed Schools to a greater extent than the Schools that are in a position to carry on for the time being at least without special aid. This ruling will help us to adjust this financial matter more equitably and we appreciate more than I can tell you the help you have given us in this connection.

Re: Special Cost-of-living grant
to Indian Residential Schools.

Dear Doctor Cochrane:

May I refer to departmental letter dated March 28, 1942, relating to the marginally noted subject.

When the desirability of paying this grant was under consideration, the opinion was expressed by one or two of the officials here that the special grant should be limited to certain schools that had been unable to meet their obligations out of the ordinary per capita grant payments. When an attempt was made, however, to study the problem more fully, we discovered that we had not at our disposal sufficient documentary evidence to indicate the actual number of schools that were likely to incur deficits as the result of the year's operations. It was finally decided, therefore, that a special allowance amounting to $10.00 per pupil should be made to the Churches responsible for the operation of our schools.

The suggestion has now been made that the churches should be permitted to disburse these special grants in a way that will help the financially embarrassed schools to a greater extent than the schools that are in a position to carry on for the time being at least without special aid. The Department can see no serious objection to this suggestion. In times as critical as these times through which we are passing, it would seem to us rather unwise to pass on special grants to schools that are not urgently in need of such funds. No objection will be

raised -

raised by the Department, therefore, should you decide to confine this assistance to the schools most urgently in need of help. This is a matter that, I feel sure, can be equitably adjusted between the Home Mission Board and the principals of the residential schools operated by the United Church.

Inspectors of white schools may find in Indian Schools the system they are used to well carried out by teachers trained and certificated in that system; may find the scholars bright,competent and praiseworthy but unless the home part of the education of these scholars is attended to in the school since it cannot be in the home,the results will be lost effort or effort almost lost. Experience has demonstrated that such loss,in fact,occurs.

It seems to me imperative that from the moment of entering to the moment of leaving school our Indian children should be first and foremost taught the lesson I have indicated,viz- what the qualities and privileges of citizenship are and how much they are to be desired and that teachers,inspectors,agents &c., should be instructed to see that they are taught this lesson.

The impetus if it is to be given must emanate from headquarters where the need is discerned and understood. Insistence upon that need being supplied must also emanate from central authority and from that authority compulsion should be applied.

It is not to be expected that isolated teachers should discern a truth that it has taken years of the accumulated experience and thought of many to bring to light,nor that inspectors of many white schools with perhaps one or two Indian schools to inspect should discover a fundamental fact in respect to Indian education,and differentiate between what is necessary for the white child and what is necessary for the Indian child.

I have the honour to be,

Memorandum:

DEPUTY MINISTER

Indian day schools will close for the Christmas holidays on December 22 and re-open on January 4, 1944. As you are aware, a teacher of an Indian day school resides on an Indian reserve and it is the usual custom to go home for the Christmas holidays.

We have always issued the salary cheque for the month of December in time for it to reach the school before the commencement of the Christmas holidays. However, I am advised by our Representative of the Treasury that the recent regulation regarding prepayment of December salaries of temporary employees previous to Christmas this year also affects teachers of Indian day schools and, if no exception is made, these teachers will not receive their December salary until December 31.

I believe that in many cases this would cause a special hardship, as it would, in all probability, prevent many teachers from enjoying their Christmas holidays at home.

Taking everything into consideration, I be[lieve] that an exception should be made in their case and I appreciate it if you could arrange to have the salar[y] cheques of the teachers of Indian day schools issue[d] previous years. The number of cheques to be issued slightly under 500.

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL

The undersigned has the honour to report:

THAT there are 76 Indian residential schools in the Dominion of Canada;

THAT the Churches co-operating with the Department in the operation of these schools have directed our attention to the increased cost of many commodities and the higher wages now being paid to staff members;

THAT, as a result, the Indian residential schools have been obliged to incur extraordinary expenditures and consequently the Churches have appealed to the Department of Mines and Resources for a special grant in order to assist them to meet their obligations;

THAT, due to various causes, funds to an amount of $72,000.00 are available in the appropriation for the current fiscal year and that this amount would be sufficient to make a payment of $10.00 per pupil based on the average attendance as shown by the quarterly returns for the calendar year 1942.

The undersigned, therefore, recommends that approval be given for the expenditure of a sum not in excess of $72,000.00 as a special grant at the rate of $10.00 a head on the pupilage at the Indian residential schools in the Dominion of Canada, same to be chargeable to Vote 186, Indian Affairs Branch, Department of Mines and Resources.

DEPUTY MINISTER

You will recall that among other requests contained in the representations made by the Church delegation who interviewed the Minister on January 18, 1943, there was a request for payment of a special grant at the rate of $10.00 per capita based on the average attendance to each of the Indian residential schools in Canada.

A similar payment was made last year (see P.C. 20/2057, March 16, 1942).

At the present time there is an amount of approximately $92,000.00 unexpended in our appropriation for per capita grants to Indian residential schools.

The reason for making this special payment last year was outlined in my memorandum of February 9, 1942, and I feel that the same conditions prevail this year.

With the above in mind, I recommend that a similar payment be made and I, therefore, attach Memorandum to Council which I trust the Minister will find it possible to approve.

On the recommendation of the Minister an order-in-Council was passed on March 8, 1943, authorizing payment of a special grant to the Indian residential schools for the calendar year 1943. This is being made on the same principle as the per capita grant was allowed during the year 1942 and is at the rate of $10.00 per pupil.

The special grant being made for 1943 must not be considered as a precedent for future years, and the Department does not anticipate it will give similar consideration to other years. I, therefore, urge the principle of our [illegible] schools to effect economies in the operation of their schools in order that the financial responsibility may be conserved to the advantage of all parties concerned.

MINES AND RESOURCES

The Board had under consideration a memorandum from the Honourable the Acting Minister of Mines and Resources, reporting,-

"That there are 76 Indian residential schools in the Dominion of Canada;

That the Churches co-operating with the Department in the operation of these schools have directed our attention to the increased cost of many commodities and the higher wages now being paid to staff members;

That, as a result, the Indian residential schools have been obliged to incur extraordinary expenditures and consequently the Churches have appealed to the Department of Mines and Resources for a special grant in order to assist them to meet their obligations;

That, due to various causes, funds to an amount of $72,000.00 are available in the appropriation for the current fiscal year and that this amount would be sufficient to make a payment of $10.00 per pupil based on the average attendance as shown by the quarterly returns for the calendar year 1942.

The undersigned, therefore, recommends that approval be given for the expenditure of a sum not in excess of $72,000.00 as a special grant at the rate of $10.00 a head on the pupilage at the Indian residential schools in the Dominion of Canada, same to be chargeable to Vote 167, Indian Affairs Branch, Department of Mines and Resources."

The Board concur in the above report and recommendation and submit the same for favourable consideration.

Dear Bishop Trocellier:

On the recommendation of the Minister an Order-in-Council has been passed authorizing payment of a special grant to the Indian residential schools for the calendar year 1942. This is being made on the same pupilage as per capita grant was allowed during that year and is at the rate of $10.00 per pupil.

I attach a statement showing the payments being made to the schools in your Diocese. All these cheques will be forwarded to the Canadian Bank of Commerce for credit to the Diocese of Mackenzie. We are not notifying the individual schools in your Diocese regarding this payment, as it was felt that instead of paying the amounts mentioned on the attached list to each of the schools you might want to use more at one school than another, owing to the financial condition of certain schools. If you wish to follow this procedure, the Department cannot see any objection to it.

You will note that we have not yet received the December quarter return of the Providence Mission Residential School. As soon as it arrives the regular grant and special grant will be paid.

Yours truly,

Dear sir:

Replying to your letter of the 5th inst., I am pleased to hear that the Minister has authorised payment of a special grant to the Indian Residential Schools for the calendar year 1942.

This decision, by making up somewhat for the higher cost of living and wages, will permit the management to give more effecient service in our schools.

The Canadian Bank of Commerce advises us that it has credited the Diocese of Grouard with the amounts you mentioned.

Since the general administration of our schools is centralised at McLennan, I do prefer that amounts granted by the Department be not sent directly to individual schools. You were well inspired when you adopted that procedure.

With every good wish and kind personal regards, I remain,

Dear Mr. Hoey: Your File 1-1-3

We are very grateful to you and to the officials of the Department, generally, for the help which the special grants are likely to prove to our Indian Residential School work. Your letter came whilst the Board was in progress and I had the pleasure of announcing to the members that the Government was making some additional grant to enable us to meet the cost of these schools.

We are also glad that the Department offers no objection to our making use of the money as we see fit - that is, there is no requirement for us to pay the amount to any particular school. However, most of our schools are in dire need, with the possible exception of Edmonton.

May I ask if further consideration is being given to the question of paying the schools the full amount of their just earnings? I think we are quite warranted in taking the position that the Department should pay one hundred cents on the dollar for the work which we do. I wish the Income Tax Department would allow me to get away with paying 98.24% of my income tax, but they require 100%. Further, they require this in advance - or at least when I get my pay cheque! I hope you can make some headway in connection with this vexatious matter.

Yours sincerely,

GD.MLT

ST. MARY'S INDIAN RESIDENTIAL SCHOOL

Under the Direction of the Oblate Fathers

MISSION, B.C.

November 16th,
1 9 4 5.

Mr. Philip Phelan,
Chief Training Division,
Indian Affairs, Ottawa.

Dear Mr. Phelan:

First of all I would like to express my gratitude for your kind assistance in expediting the cheque for the September quarter. I would not have troubled you, had it not been a matter of extreme importance. Now, I wish to lay the following situation before you, for your consideration and with the intention of asking for your good offices in helping solve the matter.

It is getting more and more difficult each month to finance this school. This is due to three things: the reduction in the grant; the increased cost of living; and above all to the extraordinary number of children that we are forced to maintain above the paid quota. You are well aware of the first two, as they have been discussed quite a bit between schools and the Department. However, it is about the third, that I wish to treat in this letter. We are carrying, at this time, 32 children above the quota, for whom we do not receive one cent from the Department. In dollars and cents, this means an added expense of about $5440.00 each year. One might say, why carry so many over; or, why not get rid of some. The answer is that it is impossible to reduce the number. Far from soliciting enrolment, we have been, for the past years, discouraging and putting off the entrance of children into the school, and furthermore, trying to get the parents to try other schools more distant. This, in itself, is a really miserable business; especially when it has been the aim of the Department and the priests to encourage among Indians, the desire to send their children to school for education. Here we are destroying a principle that we have worked so long to establish. Yet, apparently it has to be done, and I mention it, not with any satisfaction, but merely to show that we have taken extraordinary measures to keep down our pupilage. I have taken abuse and plenty of it from Indians, whose children I could not admit into school, and God only knows that they needed it. It is, of course, the responsibility of the Department of Indian Affairs to provide educational facilities for the Indians; but the Indians take it out on the principal when they cannot get their children into school. I guess we can "take it" all right; it is part of our job; but it is well to note and note well, that, while in the past, there were only a few such scenes, they are now more frequent and the particular dissatisfaction of individual parents is working together into a general movement of unrest and consequent bitterness. I dare say that this is not a common condition among other schools; they may even have difficulty in getting enough children in to fill

their minimum quota. Their difficulty is in getting the children in to school; ours, in keeping them out. The whole thing goes back to a problem that has been present in our area for years. There have never been adequate school facilities for the number of children in our district. And this is not some outlying district, remote and isolated, but the Fraser Valley, the most thickly populated portion of British Columbia. It is growing rapidly and war industry has given it added impetus; consequently, our Indians are in daily contact with white people. They discuss problems with them, see what they have and want the same for themselves. Education is important for everybody, but it is doubly important when it is needed not only for its aesthetic qualities, but for survival. Our young Indian boys and girls have to compete with others for jobs; what chance will they have if they have no education, and I am not referring to higher education, but merely grade school. The days are past when one could make a living panning gold, or trapping, along the Fraser.

It is not my intention to bring any religious issue into this discussion, but, since this is relative to the matter, here is a very pertinent point. Children apply to come into school -- we cannot take them in for maybe three years -- they are now ten and eleven years of age, instead of seven and eight -- the result: they leave school at sixteen with a five or six grade education instead of eight or nine. Therefore many of the Catholic children in our district are more poorly educated than others, because <u>they have not had equal opportunities</u>.

This crowded condition of our school continues, in spite of the fact that day schools have been erected by the Department, in our area, wherever possible. During the past years, I have not taken in a child from a day school district, unless for very special reasons, such as : 1. Very poor conditions at home and with recommendation of agent. 2. No responsible guardianship. 3. Parents living at considerable distance from day school. 4. Ill health and with recommendation of doctor. In other words, our residential school with its present limitations together with all the day schools possible are by no means adequate for the number of children.

Another point to be considered is, that we are so constantly filled up with pupils, we can never co-operate with the agents, should they have a special case arising during the year, where some child should be admitted to school. I imagine that the agents think that I am "stalling" sometimes, when I tell them I have no room for their emergency cases; however, they realize my great difficulty and are very understanding.

I have gone to great lengths here, merely to show how impossible it is to reduce the pupilage, because I can understand that this will be the Department's obvious answer to my problem. And I also maintain that this is a very definite and particular problem of our school. Hence, to solve it, I am not asking for an increase in the pupilage grant, but rather for a supernumerary grant for the children that we are maintaining over and above the paid quota.

The Department of Indian Affairs have willingly taken on the responsibility of providing education and care for Indian children at the rate of $170.00 per year. In spite of this fact the same

Department allows us to provide for about thirty-two children, without it costing them one cent. Thus, we are burdened, at a time when expenses are so hard to meet, with an amount of $5440, which, in all justice, should be the burden of the Department. Or, look at it this way. If I should turn out these children, quite apart from the loss of education, there would be the matter of maintaining them in dollars and cents. Many of them are orphans and some one would have to be paid for keeping them.

I am sorry that this letter is becoming so lengthy; but, it is necessary that you be aware of every angle so that my case will be well understood. I always felt that it was unfair for us to be placed in such a position, but I was willing to be patient as long as I could maintain the school even with its extra burden. Now, the situation has become critical. I had to appeal to you to try and have our last quarterly cheque rushed, because all my money was gone. It was bound to happen sooner or later, and the crisis was held off mainly by two things: 1. We provided from our Oblate farm to the utmost. 2. We cut down expenses to the absolute minimum. It took very little to upset the balance. A complete fruit failure and the present increase in prices did the job nicely.

I wish therefore, to obtain a supernumerary grant, extending back to the first of September, for twenty-five of the pupils, who are at present not maintained by the Department. I will have their names prepared and the agents' recommendations attached, with whatever other data, that the Department would require. This is, I believe, a very just request. But, because it so just and so minimal, I am exceedingly serious about its fulfilment. I would ask you, therefore, to take this matter up with the proper officials, so that our present acute situation may be speedily remedied.

Please remember the following points:

1. It is impossible to reduce the present pupilage.
2. It is not altogether merely a problem of education of children, but one of welfare and maintenance.
3. The situation has been present for some time.
4. The financial situation is serious.
5. The loss of staple produce and the very high cost of living.
6. It is a simple question of allocating responsibility for the children.

I sincerely hope that the Department will give full and just consideration to my request. I have tried very hard to build up a good school. It is held in high respect in the locality. It is the oldest Indian residential school in British Columbia. Your inspectors, agents and doctors have given us good reports. The care and affection of the fathers, sisters and brothers is something that cannot be reckoned in dollars and cents. Yet all this good redounds to the credit of the Department of Indian Affairs. Surely, where so much is given freely, it is not much to ask for simple justice. It is good to remember that the money asked for, is not for ourselves, but, for the Indian children, that they may be trained, clothed and fed.

Very sincerely,

(Sgd.) A.H. Fleury, O.M.I.,
Principal.

Mr. Ashbridge

Ottawa,
November 25, 1943.

Memorandum:

DEPUTY MINISTER

An unusually large number of requests for an increased enrolment at Indian residential schools has reached the Department during the last two-year period. These requests can be attributed, in part, to the difficulty experienced by principals in financing the operation of their schools. Recent audit reports indicate that few of our schools have escaped deficits. These requests can also be attributed to the tendency, or, one might state, the insistence of the Department, that accommodation be provided at residential schools for orphans and neglected children. I am sending forward herewith a letter dated November 16, 1943, received by the Chief of the Training Division from the Principal of the St. Mary's Indian Residential School, Mission, British Columbia. This letter is typical of a number recently received.

I am sending forward also a statement showing the authorized pupilage at this date, the actual number of pupils in attendance at June 30, 1943, or at the close of the last academic year, and the actual number in attendance on the 1st of September, 1943, the opening date of the present academic year. These figures indicate that we have enrolled at residential schools at the present time 578 pupils for whom no grant is being paid. The average per capita grant amounts to $171.00. This being the case, it would appear that the churches are providing food, clothing and instruction to pupils at an annual cost of approximately $99,000.00. The representatives of the churches feel that they should not and cannot continue to assume this obligation. These representatives point out that the cost of living has increased at least 17% during the last two-year period and that this, coupled with the 8% reduction in the amount paid annually by

the Government in the form of per capita grants, means that they are operating with a 25% reduction in their regular revenues. They remind us also that during the period 1914-18 they received cost-of-living bonus amounting in all to $30.00 per pupil per annum.

The officials of the Welfare & Training Division find it difficult to convince themselves that an increased enrolment at any particular school, or group of schools, would prove adequate in the solution of this problem. They rather feel that the grants should be restored and paid on the 100% basis. In addition to this it is just possible that an adjustment in the enrolments now authorized may be necessary. It will be noted that Indian parents in the southern sections of the Dominion, who are gainfully employed, appear to be increasingly reluctant to send their children to these institutions. Enrolments at the Mount Elgin and Mohawk Institutes are far below the authorized figure. May I suggest, therefore, that consideration be given to:

1. The payment of per capita grants on the full authorized enrolment, rather than on a basis of 98.24%. To do this will require an additional appropriation of approximately $70,000.00.

2. That representatives of the churches be called into conference to discuss certain adjustments that might be made in the authorized pupilage at a number of residential schools, particularly schools established on northern reserves.

3. That consideration be given to the desirability of having a thorough survey undertaken at our residential schools with the object of determining the number of pupils for which per capita grants should be paid and the number of day school pupils that might attend such schools, on the understanding that only a noonday lunch would be provided.

The officials here feel that these are matters of extreme urgency. It is scarcely necessary to remind you again that our school population is increasing at the rate of 300 pupils per annum, while our school building programme has been practically suspended in recent years. In addition to this a large number of schools have been destroyed by fire during the war period. With the exception of two or three schools built to replace schools destroyed by fire, the last residential school (Shubenacadie) was built in the year 1930. It would appear, therefore, that, unless provision is made for the accommodation of Indian pupils in either Indian day schools or residential schools, the conditions to which I have referred are apt to become increasingly acute during the period immediately ahead of us.

An unusually large number of requests for an increased enrolment at Indian residential schools has reached the Department during the last two-year period. Memorandum:

DEPUTY MINISTER.

In response to the suggestion made by the Minister, immediately following his interview with representatives of the Churches on December 1, I am submitting herewith, for your consideration, certain proposals relating to the payment of per capita grants and a cost-of-living bonus to Indian residential schools.

In this connection may I refer to my memorandum to you dated November 25, 1943?

You are probably aware that, in addition to the regular per capita grant payments, made in recent years on a 92.24% basis, we have during the last two years made an additional grant amounting to $10.00 per pupil of the authorized enrolment at all residential schools. We recommend that a similar amount be paid for the fiscal year 1943-44 and that this payment be made at an early date. This extra disbursement would enable a number of the principals to purchase coal at this season of the year and other supplies in bulk and thus effect certain economies. There are sufficient funds in this year's appropriation to make this payment.

In addition, we recommend that provision be made in the 1944-45 estimates for the payment of a cost-of-living bonus to residential schools at the rate of $15.00 per pupil. This payment, if approved, will amount to approximately $125,000.00 and it will be necessary to make provision for this amount in the estimates now under consideration.

We have already intimated that in recent years per capita grants have been paid at the rate of 92.24%.

143

We -

We recommend that for the year 1944-45 these grants be paid at the rate of 100%. No provision has been made in the 1943-44 estimates for this payment, which will amount to $70,000.00.

The officials of the Welfare and Training Division are constantly confronted with the spectacle of Indian pupils, many of them illegitimate children and others from disrupted homes, for whom it is necessary to provide accommodation and institutional care at residential schools. A number of such cases are invariably brought to the attention of the officials after the residential schools have recruited their full enrolment. For a time these children were accommodated by the discharge of senior pupils, but during the last two years there have been few senior pupils sufficiently advanced to be discharged from the schools, with the result that principals have been asked to provide, without remuneration, for an additional number of pupils. We recommend that p rovision be made in next year's estimates for the sum of $25,000.00. This sum would enable the officials, with ministerial approval, to pay supernumerary grants to certain residential schools that are at the present time, without cost to the Department, providing care and instruction for a number of Indian pupils.

It will be noted that the additional amount for which provision should be made in the 1944-45 estimates, should these recommendations be approved, would be $220,000.

You may remember that the Churches, in presenting their case to the Minister, expressed the opinion that a cost-of-living bonus, in certain cases at least, should be voted to the Churches, as such, and not to individual schools. The representative of the United Church emphasized in his remarks that this procedure enabled him to extend a greater measure of assistance to certain schools where the need was most urgent, and that a distribution made in this way was on the whole the most equitable. We can see no serious objection to the payment of this cost-of-living bonus in the manner suggested. Cheques could be issued to the Home Mission Board of the United Church and to the Missionary Society of the Church of England in Canada.

In the case of the Catholic Church it may be somewhat difficult to follow strictly this procedure. Where schools are grouped, however, under a particular Bishop, as in the case of Grouard, this method can be followed and it might be possible to work out this method with the Oblate Provincials in the case of the Prairie Provinces and British Columbia.

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL

The undersigned has the honour to report:

THAT there are 76 Indian residential schools in the Dominion of Canada;

THAT the Churches co-operating with the Department in the operation of these schools have directed our attention to the increased cost of many commodities and the higher wages now being paid to staff members;

THAT, as a result, the Indian residential schools have been obliged to incur extraordinary expenditures and consequently the Churches have appealed to the Department of Mines and Resources for a special grant in order to assist them to meet their obligations;

THAT, due to various causes, funds to an amount of $72,000 are available in the appropriation for the current fiscal year and that this amount would be sufficient to make a payment of $10 per pupil based on the average attendance as shown by the quarterly returns for the calendar year 1943.

The undersigned, therefore, recommends that approval be given for the expenditure of a sum not in excess of $72,000 as a special grant at the rate of $10 a head on the pupilage at the Indian residential schools in the Dominion of Canada, same to be chargeable to Vote 164, Indian Affairs Branch, Department of Mines and Resources.

Respectfully submitted,

Minister of Mines and Resources.

Memorandum:

DEPUTY MINISTER

You will remember that among other representations made by the church delegation who interviewed the Minister on December 1, 1943, there was a request for payment of a special grant at the rate of $10 per capita based on the average attendance at each of the Indian residential schools in Canada. A similar payment was made last year (see P.C. 31/2340 of March 24, 1943). In my memorandum of December 8, 1943, I recommended a similar payment for the fiscal year 1943-44.

At the present time there is an amount of approximately $120,000 unexpended in our appropriation for per capita grants to Indian residential schools. I trust that the Minister will find it possible to approve this payment and I, therefore, attach Memorandum to Council.

Director.

Re: Adjustment of Per Capita Grant Payments to Residential Schools.

Dear Doctor Dorey:

The estimates for the fiscal year ending March 31, 1945, have been tabled in Parliament. I note that the appropriation under the heading "Grants to Residential Schools" has been increased from $1,347,866.00, the amount voted last year, to $1,522,774.00. This additional amount will enable us to pay our regular grants to residential schools at the rate of 100% rather than at the rate of 98.24%. It will enable us also to pay a cost-of-living bonus at the rate of $15.00 per pupil for the calendar year 1944, based on the average attendance.

In addition to these payments, a cost-of-living bonus, amounting to $10.00 per pupil and based on the average attendance, will be paid to residential schools for the fiscal year ending March 31, 1944.

I am naturally anxious to discuss the details of these payments and the effect they are likely to have on attendance at our residential schools, at the time of your next visit to Ottawa.

Yours sincerely,

R. A. Hoey,
Supt. of Welfare & Training.

Dear Sir:

In the event of the Department making a supplementary payment in connection with the per capita grants to the residential schools as it has been done in the past two years, I would request that as far as the schools under the direction of the Very Reverend Provincials Scannell, Lavigne and Routhier are concerned, cheques be issued directly to them instead of to each principal. You will recall that this was one of the requests made by the members of the committee who interviewed the Minister last December.

Enclosed please find the list of the schools operated under each one of the above named Provincials.

Thanking you, I remain,

Yours very truly,

My dear Mr. Hoey: Your File 1-1-3

Your letter of February 17th, which has reached the office in Dr. Dorey's absence, is being copied and forwarded to him at Sault Ste. Marie, where he expects to be over the week-end. He will thus have an opportunity of reading it before he visits Ottawa on Tuesday the 22nd, when I hope it will be possible for him to discuss its contents with you.

I am very glad to note the substantial increase in the amount included in the Estimates for the fiscal year ending March 31st, 1945, under the heading "Grants to Residential Schools." This should be of considerable help in solving some of the problems with which the Churches have been faced in the administration of these Schools during the war years, and before.

With kindest regards,

Believe me,

PRIVY COUNCIL

CANADA

Certified to be a true copy of a Minute of a Meeting of the Committee of the Privy Council, approved by His Excellency the Governor General on the 1st FEBRUARY 1944

FEB 1944

The Committee of the Privy Council have had before them a report, dated 11th February, 1944, from the Minister of Mines and Resources, stating that there are 76 Indian residential schools in the Dominion of Canada;

That the Churches co-operating with the Department in the operation of these schools have directed our attention to the increased cost of many commodities and the higher wages now being paid to staff members;

That, as a result, the Indian residential schools have been obliged to incur extraordinary expenditures and consequently the Churches have appealed to the Department of Mines and Resources for a special grant in order to assist them to meet their obligations; and

That, due to various causes, funds to an amount of $72,000 are available in the appropriation for the current fiscal year and that this amount would be sufficient to make a payment of $10 per pupil based on the average attendance as shown by the quarterly returns for the calendar year 1943.

The Minister, therefore, recommends that authority be given for the expenditure of a sum not in excess of $72,000 as a special grant at the rate of $10 a head on the pupilage at the Indian residential schools in the Dominion of Canada, same to be chargeable to Vote 164, Indian Affairs Branch, Department of Mines and Resources.

The Committee concur in the foregoing recommendation and submit the same for approval.

A. D. P. Heeney.

Clerk of the Privy Council.

A special payment of $10 per capita, based on the average attendance, is being made for the year 1943. This is a similar payment to the one that has been given in the past two years. Dear Mr. Hoey: Re - Payment of Per Capita Grants

The other day when I was in Ottawa, in the course of conversation, the matter of the time of payment of per capita grants came up. Quite frankly, I do not see why the Church should finance the Schools. The United Church receives from the Department approximately $120,000 a year - which is $30,000 every quarter. We have to wait until the end of the quarter - and a couple of weeks beyond, before we get the payments. In the meantime, we have advanced to our Principals $30,000, which we have had to borrow from the Bank. I think that the Department should pay us one-tenth of the per capita grants each month, making an adjustment at the end of every three months when the returns come in; or, as an alternative, pay one quarter in advance, with the understanding that there should be adjustments.

So far as we are concerned, we do not think it is fair for the Church, not only to have to provide grants in connection with some of our Schools and provide for the retirement of the Principals, including, in the case of ordained ministers, payment of $100.00 to our Pension Fund, and at the same time to finance the Government to this extent. In view of the fact that taxation, including income tax, is collected on a pay-as-you-go basis, we expect the Department to put the Indian Schools on the same basis.

I should be very glad if you would take this matter up with the Treasury Department.

Yours sincerely,

Re: Payment of Per Capita Grants
to Indian Residential Schools.

Dear Doctor Davey:

This will acknowledge receipt of your letter of February 25, in which you discuss the desirability of certain adjustments in the payment of per capita grants to residential schools.

I have already discussed the subject matter of your letter with the Chief Treasury Officer and it is my intention to send forward your communication to the Director, for submission to the Minister. The present payments, I may state, are made in conformity with the provisions of an agreement entered into by the Churches responsible for the operation of our residential schools and the Government, early in the year 1911. Article 8 (Section 1) of this agreement reads:-

"To pay the management at the rate of ..... per annum for each pupil, but the number of pupils so to be paid for shall not exceed ..... in accordance with the restrictions hereinbefore set out; the payments shall be made quarterly and each quarterly payment shall be computed on the average attendance of each pupil; provided, however, that the said grant shall be allowed and paid during the vacation; but no payments will be made until returns have been received by the Superintendent General duly certified by the Indian Agent for ..... that the said school has been maintained and managed according to the true intent and meaning of this contract."

It is true that this contract or agreement

was entered into for a period of five years, but it is also true that the agreement, as such, has never been formally rescinded or abrogated by either the Government or the Churches. I am disposed to think, therefore, that the passage already quoted is looked upon by the Treasury officials and the Auditor General as their authority and direction for the quarterly per capita grant payments.

It is just possible, of course, that the time has come when the payment of these per capita grants and more particularly the method of payment should be carefully reviewed and perhaps an agreement worked out, somewhat similar to the agreement in 1911. This is a matter that might be taken up by the representatives of the Churches with the Minister, at the time of their next visit to Ottawa.

Yours sincerely,

Dear Mr. Hoey,

I am in receipt of your communication of February 23rd. The good news contained therein will certainly prove a boon to the Residential Schools. With the prices of so many commodities having risen so high many of the Principals had written to me saying how difficult it was to make ends meet, and at the same time to carry out the requirements of the Department. The cheque for the special payment of $10 per capita, which is to be forwarded to me will be distributed amongst the various schools in proportion to their special needs.

Thanking you for the kindly interest you have shown, not only now, but also in the past on behalf of the Indian Schools.

Dear Mr. Hoey:- Re: Per Capita grant payments

I have to thank you for your letter of the 17th inst. (Ref. #1-1-3) and have noted with pleasure the increased appropriation which will meet some of our requests for increased income. While all we ask for has not been granted we are grateful for this measure of response and I need scarcely say that it will be most welcome.

We find it increasingly difficult to secure certain types of agent by reason of high wages being paid in other directions. It has not been possible for us to meet this competition on the existing scale of income, and this increase will certainly strengthen our hands.

Thanking you and with kind regards, I remain,

Dear Sir:-

Referring to your letter of the 17th ultimo, addressed to Dr. Alderwood, and re adjustment of per capita grant payments to Residential Schools.

May I request confirmation of my understanding of the various points:-

1. Under the heading "Grants to Residential Schools", the increase at the rate of 100% will come into effect as from March 31st, 1944.

2. The cost of living bonus of $15.00 per pupil for the calendar year will operate as from Jan. 1st, 1944.

3. In addition to these payments a cost of living bonus of $10.00 per pupil will become available as from March 31st 1943 to March 31st 1944.

I greatly regret that it was not possible for Dr. Alderwood to fully discuss these details with you when he was last in Ottawa, but as we shall need to know what income is in sight when preparing the Commission's estimates, I shall be most grateful for this confirmation.

Yours faithfully,

Reverend Sir:

I have your letter of the 3rd instant, with reference to adjustments of per capita grant allowances to Indian residential schools.

The statement made in paragraph No. 1 of your letter is not exactly correct. Provision is being made for paying per capita allowance for the authorized pupilage at each school, provided the quarterly returns show that this number is in attendance. As you know, for some years past we have only been allowing 98.84% of the authorized pupilage at each residential school.

The cost-of-living bonus of $15 per pupil will be for the calendar year 1944.

The bonus of $10 per pupil for the year 1943 has been computed and paid to your General Treasurer in Toronto for all Indian residential schools conducted under the auspices of the M.S.C.C. whose returns have reached this office. As yet we have not received the return for the Whitefish Lake Residential School for the quarter ended December 31, 1943.

Your File 1-1-3

This will acknowledge receipt of your letter of March 1st. I can quite understand that the Department of the Treasury pays these grants quarterly, but, as a matter of fact, they used to pay them in two instalments - long after 1911. Is there any reason why, having done it for so long, they could not return to that practice? However, what you say has merit, namely, that the Churches should discuss this matter and bring it to the attention of the Minister through the Co-operating Committee.

MAR 8 19[illegible]

Dear Mr. Hoey:

Would you let me know if, following the new Order-in-Council that has been passed governing the addition of cost-of-living bonus to the basic salary of all employed persons in the Dominion - or at least that is the way I understand it, - the salary of teachers in Indian Schools, some of whom are acting also as missionaries of the United Church, will be increased by $18.42 for married men.

I should also be glad if you would let me know what cost-of-living bonus has been paid to single persons.

Yours sincerely,

Geo. Dorey

Dear Doctor Dorey:

With reference to your letter of the 6th instant, I am advised by the Treasury Branch that no provision has yet been made to add the cost-of-living bonus to the basic salary in the case of persons employed by the Government.

Married teachers of Indian day schools who qualify as head of household are allowed bonus at the rate of $16.42 a month. All other teachers are paid bonus at the rate of 17% of the basic rate.

Yours truly,

R.A. Hoey,

Dear Mr. Hoey:

May I thank you sincerely for your eight cheques to the amount of $8,670.28 for our Indian Schools. All have been forwarded except two which I am retaining for the time being until I can see the principals.

Would you kindly notify Mr. Jackson that the drilling of the well at the Sacred Heart shall begin this week. I know that we are taking a big chance, but I still hope. I shall let you know if we meet with success.

With kind personal regards, I remain,
Yours Sincerely,

Dear Mr. Hoey: Re - Per Capita Grant Payments to Residential Schools (File 1-1-3)

May I refer you to your letter of February 17th, in which you state: "It will enable us also to pay a cost-of-living bonus at the rate of $15.00 per pupil for the calendar year 1944, based on the average attendance." We have received cheques covering per capita payments for Mount Elgin, Edmonton and Norway House. We note that these have been paid at the old rates of $160, $170 and $175, respectively. I should be glad to know what has happened to the $15.00 cost-of-living bonus premised in your letter, as the Principals were advised of this and they will want to know.

Yours sincerely,

Dear Doctor Dorey:

I have your letter of the 16th instant, with reference to payment of cost-of-living bonus to residential schools.

While my letter of February 17 did not state definitely when, or in what manner, this bonus would be paid, I intended you to infer from the last sentence in the first paragraph of my letter that payment of the bonus would be made at the end of 1944. However, officials here have recently considered the matter and it has been decided to pay the bonus for the March and June quarters as soon as the June quarter returns are received and the bonus for the September and December quarters as soon as the December quarter returns are received.

I presume you are aware that our estimates have not yet been approved by Parliament and only one sixth of the appropriation has been voted. This amount has already been totally expended in paying the regular per capita allowance for the March quarter.

Yours truly,

R.A. Hoey,

Ottawa,
June 9, 1944.

Dear Major MacKay:

In your annual report which recently reached the Branch I note you refer to salaries at the Indian day schools in British Columbia. We are well aware that throughout the Dominion there is an upward trend in teachers' salaries in the white schools and consequently we will have to give serious consideration to increasing the salaries at Indian day schools.

It is sometimes overlooked by our teachers that we are paying 17% bonus to unmarried teachers and a flat rate of $16.42 a month to those with dependents. On several occasions the fact has been brought to my attention that many teachers compare their basic salary with the salary paid at white schools and do not allow for the bonus just mentioned. However, I simply mention this in passing, because I feel it is a point which should be kept in mind by all of us.

I enclose a list showing the day schools in British Columbia and the amount that we have provided for salaries for the academic year 1944-45. It would be appreciated if you would review this list and suggest any changes which you think should be made in order to bring all salaries in line with your ideas. When this is received your recommendations will have very careful and sympathetic consideration. Although it may not be possible to adjust all salaries during the coming year, changes could be made at those schools where new teachers are being appointed.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Mr. Hoey:

Your File 1-1-3

I have to refer to your letter of June 9th regarding salaries at Indian Day Schools in this Province which was prompted by the reference made by me to the matter in my annual report.

The list of salaries provided for the academic year 1944-45 has been reviewed and, as suggested, I enclose herewith a new list in duplicate indicating certain changes for your consideration. I regret the delay in furnishing this information but it was difficult to supply it sooner owing to heavy demands on my time and the need of enquiring into the set-up at each school.

It is realized that the Department may not be in a position to allow all the increases recommended. It will be appreciated, however, if consideration could be given to the following which are listed in order of priority:-

School	Present Salary	Proposed Salary
1. Pentieton Teacher - Miss McDonald. No quarters at this school	$900 plus bonus	$1000 plus bonus
2. St. Catherine's Mr. Morrison - Manual Training Instructor	$950 plus bonus	$1000 plus bonus
3. Saanich (East) Teacher - Miss Finan. No quarters at this school.	$900 plus bonus	$1000 plus bonus

Memorandum:

MR. HOEY.

On this file you will find Commissioner MacKay's letter of August 9. You will remember that we wrote to him on June 9, suggesting that he submit a revision of the salaries of the day school teachers in British Columbia.

The amount involved to cover all the increases recommended on the attached list by Commissioner MacKay is $3,790.00 for basic salary. In addition, of course, there would be the bonus.

To handle only the increases mentioned on the two pages of Commissioner MacKay's letter would involve an amount of $650.00.

Both amounts - $3,790 and $650 - are annual amounts. For the balance of the current fiscal year we would only require to spend seven tenths of these amounts, which would mean 7/10 of $3,790 and 7/10 of $650.

I have today reviewed our expenditures under the headings of Salaries and Bonus for the three months of April, May and June and I feel certain that the appropriation provided in the current year's estimates is sufficiently large to handle all the increases suggested by Commissioner MacKay. I have not replied to his letter as I thought it advisable to have your opinion before doing so. If you wish to let the matter stand until I return on Friday or Saturday, I will discuss it further with you.

Further to my airmail letter of the 9th instant, I beg to advise that it was my intention to include the Campbell River Day School with the three schools mentioned in the last paragraph regarding which an early decision would be appreciated. I may say that the applicant for this school is Mrs. Waywell, a well qualified and experienced teacher whose services should be secured if possible. As there are no quarters provided by the Department at Campbell River, it is considered that the increase recommended is indicated.

Memorandum:

DEPUTY MINISTER.

This Branch is in receipt of a letter from Reverend George Dorey, D.D., Associate Secretary, Board of Home Missions, United Church of Canada, requesting that the per capita rate at the Alberni Residential School be increased from $170.00 to $180.00 per annum. I understand that Dr. Dorey also spoke to Mr. Jackson regarding this matter.

There has been no radical change in the basic per capita rate at Indian residential schools since 1931. At that time certain basic rates were established at all residential schools and the rate at the Alberni School was set at $170.00 per capita, while the rate at the Christie School, which is also on Vancouver Island but is more inaccessible, was placed at $180.00. Dr. Dorey has pointed out to me that while, geographically, Christie appears more inaccessible, as a matter of fact it costs the United Church practically the same rate to ship their supplies to Alberni. Taking everything into consideration, I would appreciate receiving the Minister's approval to increase the per capita rate at Alberni from $170.00 to $180.00 per annum, effective January 1, 1945.

At this time it might be interesting for you to have a review of the per capita structure at Indian residential schools. An Order-in-Council, passed on October 22, 1892, authorized the per capita grant method of financing what is now known as "Indian Residential Schools". At that time per capita grants

varied from $60.00 to $145.00 and the average grant for the succeeding twenty years was $84.00.

In response to a request from the Churches for larger grants for residential schools, the Department in 1911 prepared a schedule by geographic divisions and types of buildings and a formal agreement was made between the Department and the management of the residential schools. This agreement was in effect from April 1, 1911, to April 1, 1916. The average grant during that period was $115.00.

In 1919 a bonus or flat increase of $10.00 on the basic rate was allowed all residential schools and in 1921 an additional $10.00, or a total bonus of $20.00, made the average rate for all residential schools in Canada $135.00. In 1924 this bonus was incorporated in the regular scale of grants. In January, 1926, there was another upward revision and an effort was made to deal more fairly with the small school, also the school remote from markets and the school where farming and other facilities were inadequate. This particular revision was continued for five years, and by 1931 the average per capita grant paid to Indian residential schools in Canada amounted to $172.00. Owing to economic conditions existing following the year 1930, the per capita rate was reduced by 10%, or, in other words, the average per capita grant in Canada for 1932-33 was approximately $155.00. A further 5% deduction was made during the years 1933-34 and 1934-35, bringing the average to $147.00.

In 1935-36 and subsequent years the 15% deduction was restored, bringing the average per capita rate back to the same as existed in 1931-32, namely approximately $172.00. As a result of representations made by the Churches co-operating with the Department in the operation of residential schools, a special payment of $10.00 per capita, over and above the regular per capita rate, was made for the calendar year 1942 and a similar amount for 1943. For the year 1944 this special allowance was increased to $15.00. 1945

WALKERTON, May 31st, 1945.

To the Rural School Secretaries:

For the coming school year there will still be a very definite shortage of teachers. If advertising in a widely circulated paper like The Globe and Mail brings no results consult your local inspector, who, if necessary, will recommend that Temporary Permits be granted to suitable persons.

School Boards would be well advised not to dispense with the services of teachers who are giving satisfactory service as they are not easily replaced. Teachers must notify boards by June 1st if they wish to terminate their services at the end of June This also applies to boards wishing to dispense with the services of teachers. When engaging experienced teachers it is always advisable to obtain confidential statements from their former inspectors.

It might be of some assistance when considering the salary of your teacher for 1945-46 to know the present trend of salaries. Below is a list of the average salaries paid to rural teachers in this Inspectorate at the beginning of each school year since 1931.

September	1931	$915	1935	601	1939	758	1943 $1,058.
	1932	814	1936	625	1940	768	1944 1,153.
	1933	664	1937	654	1941	837	1945 1,271
	1934	625	1938	704	1942	955	

Salaries are continuing on the up-grade. The average for the coming year will probably be $1,300. Three School Boards have already engaged teachers for next year at $1500. If a new teacher is required, the earlier the Board advertises the less likelihood there is of difficulty in obtaining the services of one.

A questionnaire concerning your teacher for next year is inclosed. Contr... forms have been mailed to each secretary this month.

Yours very truly,

J. M. Game

N.B. School Boards considering the wiring of their schools may have plans and specifications prepared, at no cost, by the Provincial Hydro Commission by writing to the school inspectors' office. These plans are approved for grant purposes by the Department of Education. Other plans may not meet the required standards.

Dear Mr. Arneil:

For some time I have been intending to write you concerning the salaries being paid to the teachers in the Indian schools. At the present time it is extremely difficult and often impossible to obtain the services of teachers in the white schools even when salaries of $1500.00 and $1600.00 are offered. I am inclosing a circular showing the average salaries paid in my rural schools during the past years. I wish to recommend that your Department seriously consider raising the stipend of the Indian school teachers in the very near future. Unless something is done shortly it will be impossible to continue staffing these schools with teachers having the necessary qualifications. It is actually a fact even now that teachers with the lowest qualifications are not being attracted to the Indian schools.

Yours very truly,

TREASURY OFFICE

Ottawa, September 9, 1946.

MEMORANDUM: SUPERINTENDENT OF WELFARE AND TRAINING.

School Teachers' Salary Rates.

I would direct your attention to Treasury Board Minute P.C.1/3287 of August 30, 1946, which establishes the new consolidated salary rates to be applied to new employees and continuing employees as at September 1, 1946.

Paragraph 7 reads as follows:- "On and after September 1, 1946, an appointee assigned to a classification involving a salary rate or salary rates of less than $1,620 per annum, shall be assigned at a rate in the range established in accordance with the terms of sub-paragraph (b) of Paragraph (2), regardless of his status under the definition of head of household laid down by Order in Council of August 26, 1941, P.C.6702, as amended."

I take this to mean that all new appointees come under the class to receive the percentage bonus. Continuing employees will come under the flat rate (or partial bonus) or the percentage bonus according to what they were paid previously.

The consolidated salary rates appropriate to the present basic salary rates are taken from the schedule, but converted to a monthly rate, as per attached schedule.

Memorandum:

REPRESENTATIVE OF THE TREASURY

As you are aware, the teachers in the Indian Day Schools for the past few years have been affected by the general order which did not permit the payment of salaries to temporary Civil servants previous to Christmas.

It is a regular practice in White schools and was the practice in this Department for a great many years to issue the December salary cheques of the teachers in Indian Schools so that they would be received by the teachers on or about December 21st.

In view of the scarcity of teachers at the present time, we have had great difficulty in securing teachers for many of our Indian schools. All of the teachers are aware of the fact that in White schools their salary is paid previous to Christmas and if we continue to follow the same practice as in recent years, it will cause us additional difficulty in securing qualified teachers.

In view of the above, I would appreciate it if arrangements can be made to pay the salaries of all teachers in our Indian Day Schools on or about December 21st, 1946.

MR. HOEY

The per capita allowance to Residential Schools was reduced by 10% during the fiscal year 1932-33. This reduction was increased to 15% in the fiscal years 1933-34 and 1934-35.

A restoration of 10% took place in the fiscal year 1935-36 and the remaining 5% was returned in the fiscal year 1939-40.

An extra allowance of $10.00 over and above the regular per capita grant, based on the average attendance, was paid for the calendar years 1941, 1942 and 1943 and an extra amount of $15.00 for the calendar years 1944, 1945 and 1946.

Manual Training Instructor's Grants

Provision was made in the Main and Supplementary Estimates for the fiscal years 1945-46 and 1946-47 for the payment of allowances towards the salaries of manual training instructors whose qualifications meet the requirements of the Department. In the appropriation for the fiscal year 1947-48 provision is being made for the payment of practically the whole salaries.

Ottawa, November 29th, 1946.

Mr. Hoey.

In your memorandum of the 20th instant it is suggested that perhaps representations should be made to Treasury Board on behalf of teachers in Indian Day Schools to permit their being paid December salary before Christmas.

School teachers appear to be in exactly the same position as other temporary employees of the Dominion Government and there would seem to be a matter of general policy involved in that apparently pre-Christmas spending is not to be encouraged. It is realized that provincial public school teachers usually receive the December salary cheques at the completion of the term which occurs before Christmas but an early payment in their case is made to facilitate closing the books for audit prior to the end of the calendar year. In any event it would not appear that receiving the salary cheque on the 21st or 31st of December will make much difference in the actual securing of qualified teachers.

MR. HOEY.

Increased per Capita Grants
for Indian Residential Schools

Further to our meeting on Monday morning, I submit herewith recommendations of this Service for increased grants to Indian Residential Schools.

Where at all possible, these have been based upon Auditors' reports. Where recent auditors' reports have not been available, we have settled the amount by placing the school in the same category as other schools in the same geographic locality. For example, in the Far North, we have recommended an increased grant of $50.00 for Fort George C.E., Fort George R.C., Moose Fort, Aklavik C.E., Aklavik R.C., Fort Resolution and Providence Mission. This brings the total grant for these schools to $265.00 per pupil. The only school exceeding this amount is the Carcross School in the Yukon, for which we have recommended a grant of $315.00.

In accordance with your recommendations, we have endeavoured to keep this emergency grant to a reasonable figure. As it now stands the increased sum required in the Estimates would be $248,350.00.

MEMORANDUM:

- The Acting Deputy Minister -

Re: Increased Per Capita Grants for Indian Residential Schools -

I am sending forward herewith a statement relating to the marginally noted subject received by me from the Superintendent of Welfare and Training.

The utmost care has been exercised by the officials of the Welfare and Training Division in the preparation of this statement. A thorough review of the audit reports received from residential schools in recent years has been undertaken. I am personally disposed to think that the recommendations submitted by Colonel Neary are on the whole as fair, as equitable and as liberal as can be made at this time. It is a matter, however, that you will no doubt be anxious to discuss with the Minister. The officials of the Welfare and Training Division and myself would be glad to discuss the matter more fully with you personally at any time at your convenience.

Director.

Increased per capita Costs
for Indian Residential Schools

On November 29, 1946, I received a delegation from the four denominations who are operating our Indian Residential Schools. They presented to me a long brief detailing the rising expenditures with which the managements of these schools are faced. Their operating costs are largely concerned with the purchase of food and the hiring of teachers, cooks, farming instructors and other staffs for these schools. The recent prices in food alone have resulted in much heavier expenditures at these institutions. For example, a recent Treasury Auditor's report on one of these schools reveals the following increases in food costs:

	Average Cost per Mo. for previous audited period Mar. 1/43 - Apr 30/45	Average Cost per Mo. for current audited period May 1/45 - Dec.31/46	Increase
Food	$556.90	$725.27	$168.37

Rising labour costs have also made it very difficult for these schools to operate. This is especially the case in the payment of salaries for teachers.

The picture they painted was indeed a very black one, particularly especially in the instance of the Church of England. In spite of every effort to cut expenditures as low as possible, the Indian School Administration of this Church finds itself faced with an operating deficit of $143,226.00 in the 1947-48 year. Our auditors' reports show that during the fiscal year ending on 31 December, 1945, this denomination lost $73,890.81 in the operation of its Indian residential schools. This is indeed a serious situation for this Missionary Society and they are greatly worried

as to whether or not they will have to withdraw entirely from the operation of these schools and let the Dominion Government carry on this educational duty.

The Chairman of the delegation was the Reverend Doctor George Dorey, Secretary of the Board of Home Missions of the United Church of Canada. He has recently written to the Indian Affairs Branch as follows:

> "I should also like to say that we are anxious to hear from the proper authorities as to what has happened to our request for increased per capita grants. This is the time of the year when we are dealing with our church budgets; and I may say that we do not contemplate, with any sort of happy feeling, having to put in church money to do the Government's work; and further, that any request for an increased grant of church funds for the operation of Indian Schools is going to create quite a feeling in our Board that the Government is not discharging its obligation for the educational needs of the Indian people".

Other delegates represented the Roman Catholic Church and the Presbyterian Church in Canada. The information which they presented is very much the same as that of the other two denominations.

I have attached herewith for your information recommendations for increased grants to Indian residential schools. These figures have, where at all possible, been based upon our own auditors' reports. Where recent auditors' reports were not available, the amount was decided by placing the school in the same category as other schools in the same geographic locality. For example, in the Northwest Territories, we have recommended an increased grant of $85.00 for the four schools in this area. This will bring the total grant for these schools to $300.00 per

pupil, an amount exceeded only by the Carcross School in the Yukon, for which a grant of $315.00 is recommended. The reason for this large increase is partially based upon a recent ordinance of the Northwest Territories Council whereby a restriction has been placed upon the number of moose which can now be shot annually in the Territories. This will mean the importing of large quantities of meat from Alberta and a resultant sharp increase in operating expenses.

Every effort has been made to keep this emergency grant to a reasonable figure. It is felt that this need is temporary and you will note in the attached scale that it is entitled "Emergency Grant". It is hoped that this grant can be eliminated when living costs are reduced.

I would emphasize the need for immediate decision in this matter. The Churches are now preparing their annual budgets and they are frankly in a quandary as to how to plan their expenses for the coming year. It is recommended therefore that the Treasury Board approve now a sum of $256,575.00 for inclusion in the Supplementary Estimates for this expenditure, as detailed herewith.

Yours sincerely

MR. HOEY.

I have been anticipating arguments which will be presented by the various denominations when they present their briefs to the Parliamentary Committee. I feel certain that they will not be satisfied with the amount of the increase, especially after they had requested as high as a flat $90 increase. In other words, they will not be too happy about $256,000 when they asked for $720,000.

As you know, one of their strongest demands was for the provision of labour saving devices. It is my feeling that if the Minister is further approached by the denominations for additional per capita grant increases, we should consider advising him that such an increase should come in the form of a mechanical equipment grant.

If, for example, it was decided to bring the amount of the increase in per capita grants from $256,000 to approximately $300,000, then I would suggest that we allot a sum of $5.00 for each student for whom a school is entitled to receive grant.

For example, Kamloops School is entitled to 300 students. Then the Reverend Father O'Grady would be entitled to request that we purchase through the Departmental Purchasing Agent mechanical devices to the extent of $1,500. (300 x 5). These labour saving devices permitted would only be those listed by the Nutritionists of the Department of National Health and Welfare as previously submitted by this Branch to the Minister's office.

Dear Father Plourde:-

Careful consideration has been given to the request made some months ago for increased per capita allowances for Indian Residential Schools.

I enclose for the information of yourself and the principals operating residential schools under your auspices, the new schedule of per capita allowances as approved by the Treasury Board.

Payment will be effective from January 1st, 1947.

Yours sincerely,

Attention: Col. B. F. Neary,
Superintendent of Welfare and Training.

Dear Colonel Neary: Per Capita Allowances

I have to thank you for your letter of April 21st, giving information about the increases which are to go into effect from January 1st, 1947. I need scarcely say that this information is most gratifying and the total addition to our income will represent a very considerable relief. The amount will not of course enable us to advance very much and we regret that we cannot pay the increased salaries which seem to be necessary to secure qualified workers. We are, however, grateful for the assistance which the Branch is now making in connection with the salaries of Manual Training and Handicraft instructors and this is proving most helpful.

May I point out a slight error in the statement appended to your letter. In connection with the Sioux Lookout School, I estimate the total grant as $210.00 instead of $205.00 as shown. I shall be glad if you will kindly verify this; but for the present we are assuming that the figure of $210.00 is correct.

Thanking you, I remain

Yours sincerely,

H. A. Alderwood.

Ottawa, March 17, 1947.

J. 32405

C.W. Jackson, Esquire,
Secretary and Executive Assistant,
Department of Mines and Resources,
Ottawa, Canada.

Dear Mr. Jackson,-

The Board have recently considered your submission of March 7, 1947, respecting the provision in the Supplementary Estimates, 1947-48, of an amount of $256,575 to provide for increased grants of an emergency nature to Indian Residential Schools.

I am pleased to advise that the Board have indicated their willingness to give favourable consideration to the inclusion of this item in the Supplementary Estimates for 1947-48.

It is understood that this assurance will substantially aid the Churches in planning their expenses for the coming year.

Yours very truly,

(Sgd.) W. Smellie,
For Secretary.

MR. GEORGE W. CAMPBELL

Mr. George W. Campbell died on April 10 at Guelph, Ontario, in his 97th year. He started teaching at the age of 18 in the Owen Sound area, and in 1903 came to Carman, where he began a service in the schools which lasted until 1924. He then went into business which he continued until a few years ago when he went to Guelph where his daughter was Superintendent of the General Hospital. Mr. Campbell during his long, active life entered into the activities of the community whole-heartedly. It was a long life full of service for the people with whom he lived.

MRS. GLADYS A. CLINE

Mrs. Gladys A. Cline died on March 28th at the age of 43 years. Her service in the Manitoba schools covered a period of fourteen years and was of a very high order. Whilst her span of life was comparatively short, it was full of deeds of service.

MISS JESSIE ELLIS

On February 14th Miss Jessie Ellis, a retired Winnipeg teacher, died at the age of 64. She rendered a splendid service over a period of more than thirty years before her retirement in 1932. We bear tribute to the excellence of her work.

MRS. C. V. GUNN

The funeral service for Mrs. Hazel Adele Gunn, wife of the Principal of the Glenella school, who was burned to death on March 11th, in the garage of her home, in Glenella, was held March 15, in the Arden United Church, with burial in the local cemetery. Formerly of Arden, Mrs. Gunn taught school for a number of years before her marriage, and all her life showed keenest interest in the welfare of boys and girls.

MISS S. ANNIE HODNETT

Miss S. Annie Hodnett died on April 18th at the age of 76 years. Her people came to Birtle in 1882 but most of her teaching service was in Alberta. We bear tribute to her because of her service in the early and formative days in the rural schools of Manitoba.

MISS FLORENCE IRWIN

Miss Florence Irwin who died on March 15, aged 57 years, taught for more than thirty years in Winnipeg. She came to the city staff in 1914 as a teacher of Household Science and served at Aberdeen, Earl Grey, Kelvin and Gordon Bell Schools. She travelled widely in the interests of her profession, taking courses particularly in Columbia University and University of Chicago. Her interests were very broad and she was a member of the Professional and Business Women's Club. Her service was of a very high order.

MR. WEBSTER DANIEL LAMB

Mr. W. D. Lamb died at the age of 81 in Plumas on April 3rd. In the early days he taught school in Ontario and came to Plumas in 1898, becoming postmaster. He did a great deal of writing all his life and the rural press particularly from time to time carried articles by him. During a short period in the United States he became a leader in the Plebian Forum and before his death confirmed his belief that the de-

COLLEGIATE INSTITUTE — $2,800.00, with ten annual increments of $100.00 each in addition to $50.00 per classroom.

REGULATIONS

1. No teacher to be required to accept a salary on this schedule lower than that received on present schedule.

2. Change of status (marital—undergraduate to graduate) salary to be the same as it would have been had new status applied from time of appointment.

3. Probation—one year—all new teachers to receive minimum salary for their classification during this period.

4. (A) Teachers transferring from one district to another shall receive one year's credit on schedule for each two years' experience up to a limit of three years' credit on schedule. A maximum of three years' credit is to be allowed for experience of six years or more limited to classification to which teacher is being appointed.

(B) In the case of teachers who are already on the staff, credit shall be given for experience on the staff plus outside experience as outlined in the clause above.

5. All teachers must take, at least once every five years, some course of study to improve or refresh his or her academic or professional qualifications in order to advance on schedule or to maintain schedule level if on maximum.

6. In all cases, "number of rooms" means total number, both High School and Elementary.

KODAK SAFETY ▲ F

The General Secretary later addressed one hundred representative students at a special assembly in the Normal School which resulted in a resolution of thanks from the group and a request that the special meeting with the Executive of the M.T.S. be cancelled.

Pensions

The first meeting of the Pensions Committee was held on Thursday, April 17th with the following members present: Mr. H. Murphy, Chairman, Mrs. L. Houston, Misses E. Miller, E. Dewar, and Messrs. Gray, Quelch, MacKay, Sigurdsson, Wallace and the General Secretary. Apologies for non-attendance were received from Mr. W. Hawn, Mr. F. D. Baragar and Miss Hilda K. Kinney.

The Chairman welcomed all members, old and new, and proceeded with a resumé of the work of the Committee for the past year.

A general discussion re plans for the coming year took up the major part of the two-hour meeting.

Research

The first meeting of the Research Committee was held on April 12th with the following in attendance: Mr. C. S. Quelch, Chairman, Misses Hilda K. Kinney, Sybil Shack, Messrs. Laurie, McMurchy, Newfield, Shearer and the General Secretary.

The Chairman outlined two immediate projects for the consideration of the Committee, viz:

A. An enquiry into teacher-shortage, initiated primarily by a subcommittee of the C.T.F.

B. An enquiry into the distribution of the new provincial grants to education, initiated by the Provincial Executive and requested by June 7th.

It was agreed also that the Rural Questionnaire be studied in order that additions be made to it if necessary. It is the hope of the Committee that more rural teachers will reply to these questionnaires in future thereby giving us a more adequate sampling of conditions and trends.

Finance

The first meeting of the Finance Committee was held on April 28th with the following members present: Miss M. R. Conway, Chairman, Messrs. Beer, Gendron, Hall, MacDonell, Marshall and the General Secretary.

Rulings were made in connection with certain claims for expenses other than those provided by the authority of Provincial Council. In all cases, the policy laid down by Council was maintained.

The setting-up of a new system of bookkeeping was discussed at length. The society's business has developed to such an extent that more frequent audits and a more streamlined, up-to-date method of posting seemed necessary.

A special sub-committee of Messrs. Gendron, Beer, Herron and the General Secretary was appointed to work with a firm of Chartered Accountants in order that the new system be established on a perfectly adequate and sound basis.

Increase in Per Capita Grants

The total sum included in our Main and Supplementary Estimates for 1947-48 for the payment of per capita grants to Residential Schools is $1,933,220.00. This sum includes the $296,000 increase made after the request of the Churches for a larger per capita grant last year.

A 17% increase in per capita allowance to the Churches, as was requested by the Church of England deputation to the Minister yesterday, would therefore involve an expenditure of approximately $330,000.00. It is felt that this sum should be borne in mind when the combined delegation meets the Minister at a near date in the future.

Mr. Bernard Neary,
Superintendent, Welfare and Training,
Indian Affairs Branch,
Department of Mines and Resources,
Booth Building, Sparks Street,
OTTAWA, Ontario.

Dear Sir:

Further to our conversation and in reply to your letter of December 15, we have calculated an index on the basis of the breakdown of the Residential School dollar over January, 1947, and this shows a cost increase of 17 per cent.

The indexes we have used to determine this figure are quite accurate, with the exception of salaries. We were unable to obtain any information concerning teachers' salaries in 1946, and we took as the closest approximation an index of salaries paid in financial institutions. Similarly, domestic help is based on an index of salaries paid to waitresses in hotels and restaurants. The latest dollar figure obtainable for these two groups is October 1. In the case of farm labour, the figures are quite representative, and the latest available are for August 15. The resultant figure showed a salary increase of 10.9 per cent.

Yours very truly,

L. R. Rowebottom,
Statistician,

Increased Per Capita Grants for Residential Schools.

You will recall that it was decided to work out an overall cost increase for the various items included in the normal budget of an Indian Residential School. This was done as follows:

(a) Working with the Auditor's reports our Treasury and Schools officials worked out the items listed as to how the Residential School dollar is spent. These figures are based on a sampling of twenty Residential Schools selected across Canada and representatives of all the various denominations.

Food	36 cents
Light, Fuel and Water	9 cents
Clothing	8 cents
Salaries	30 cents
Houses Expenses and Sundries	17 cents
Total:	$1.00

(b) I then went to the Dominion Bureau of Statistics with the above figures and requested that they calculate an index on the basis of a breakdown on the Residential School dollar. I requested them to work out this index as showing the increase in costs of the above items since January 1, 1947. Their index figure is seventeen percent. You will find attached hereunder a letter from Mr. Rowebottom, Statistician, Prices Branch of the Dominion Bureau of Statistics.

(a) If the grant is to be dated from October 1, 1947 the sum of $400,000.00 would be required.

(b) $70,000.00 of the above amount would be required to provide an increase from October 1 to January 1 and $330,000.00 from January 1 onwards.

I would appreciate an indication from you as to whether I should prepare a memorandum to the Minister's office based on the above figures.

In order to arrive at this index, the following steps were taken:

(a) Our Treasury and Schools officials carefully considered a sampling of auditors' reports in order to derive the various items upon which the residential school dollar is spent. The figures below are based on a sampling of twenty (20) residential schools selected across Canada and representing the four denominations concerned.

dollar. They were asked to work out this index as showing the increase in costs of the above items since January 1, 1947. We have now received this figure from them, namely a 17% increase. You will find attached hereunder a letter from Mr. Newbottom, Statistician, Prices Branch, Dominion Bureau of Statistics.

The total sum included in our Main and Supplementary Estimates for 1947-48 for the payment of per capita grants to Residential Schools is $1,933,220.00. A 17% increase in these per capita grants would require an additional sum per fiscal year of $330,000.00.

Therefore, if it is desired to recommend to the Minister that increased grants based on this figure be provided, it will be necessary to consider provision of the following supplementary amounts:

(a) If the grant is to be dated from October 1, 1947, an amount of $330,000.00 will have to be included in the 1948-49 Supplementary Estimates. You will note that two quarterly payments (namely December 31, 1947, and March 31, 1948) at the increased amounts, can be met from our present funds because of the following facts:

1. Our present Vote is in a sound position and we are far enough ahead in funds to pay out an extra $80,000.00 for the quarter ending December 31, 1947.

2. As payments to residential schools are made at the end of each quarter, based on quarterly returns, we will make payments for the March 1948 quarter out of funds provided in the Main 1948-49 Estimates.

(b) If the grant is to be dated from January 1, 1948, an amount of $250,000.00 will have to be included in the 1948-49 Supplementary Estimates.

starting these grants from October 1, 1947, as requested by the denominations. This will then adjust per capita to the present cost of living and enable them to prepare their 1948 Budgets with the knowledge that all back accounts have been settled.

The Secretary,
The Treasury Board,
O T T A W A, Ontario.

The undersigned has the honour to report:

THAT there have been requests and delegations to me from the various denominations operating Indian Residential Schools that an increase be made in the per capita grants made to them for the conduct of such schools;

THAT their requests were that this increase should be based upon the increased costs of operating such schools in view of the rise in prices;

THAT Treasury and Education officials of the Indian Affairs Branch considered a sampling of the auditors' reports upon these residential schools in order to derive the various items upon which the average residential school dollar is spent;

THAT the figures below are based on a sampling of twenty (20) residential schools across Canada and representing all four denominations:

Food	36 cents
Light, Fuel and Water	9 cents
Clothing	8 cents
Salaries	30 cents
House Expenses and Sundries	17 cents

THAT the Dominion Bureau of Statistics was then requested to calculate the cost increase index from January 1, 1947 to April 1, 1948; based on the above breakdown of the residential school dollar;

THAT the Prices Branch, Dominion Bureau of Statistics, reported as follows:

INSERT

"Further to our conversation and in reply to your letter of December 15, we have calculated an index on the basis of the breakdown of the residential school dollar over January, 1947, and this shows a cost increase of 17 per cent."

THAT the total sum included in our Main and Supplementary Estimates for 1947-48 for the payment of per capita grants to Residential Schools was $4,933,838.00;

THAT a 1½% increase in these per capita grants would require an additional sum per fiscal year of $330,000.00. ——?

It is, therefore, recommended that approval be given for the inclusion in the 1948-49 Supplementary Estimates of $330,000.00 for an increase in per capita grants to Indian Residential Schools.

It is further recommended that the undersigned be authorized to pay, in addition to the already approved grants, this increased grant effective from 1 October, 1947, out of the monies at present on hand in Vote 182 because of the following facts:

(a) This Vote is at present in a sound position and funds are available for the payment of an extra $80,000.00 for the quarter ending December 31, 1947.

(b) As payments to Residential Schools are made at the end of each quarter, based on quarterly returns, payments can be made for the March 1948 quarter out of funds still available for 1947-48 and the balance from funds provided in the Main 1948-49 Estimates.

DEPUTY MINISTER

Increased per capita Grants
for Indian Residential Schools -

We have received a request from the Indian School Administration, Missionary Society of the Church of England in Canada, for information concerning the increased per capita grants for Indian Residential Schools.

It is understood that the Executive of this Society is meeting at Toronto on February 3 and is anxious to have definite information concerning the grants so that they can plan their budget for the next year.

It would be appreciated, therefore, if we could be advised as to the reception which has been given to our submission to the Treasury Board regarding these increased grants.

BOARD OF HOME MISSIONS

Toronto 2 B, Ontario

February 11th,

The Honourable J. A. Glen,
Minister of Mines and Resources,
O t t a w a, Ontario.

Dear Mr. Glen:

I am writing you to-day, enclosing a copy of a letter which I have just received from the Principal of the Alberni Residential School, and a copy of the accompanying letter from the Bank of Montreal.

You will remember that on November 28th, a delegation from the Churches waited on you to put before you the need of substantial increases in the per capita grants, if the Schools are to continue to function.

You will see that there is an accumulated deficit at Alberni of over $7,000.00. I hope it will be possible for the Government to make some grant that will be retroactive, as well as to increase the grant substantially, because I can assure you that, although it will be with the greatest regret, it will be impossible for The United Church of Canada to continue to operate the Alberni Residential School, if it means the putting in of substantial amounts of our missionary funds. I am quite sure that the condition in a number of the other Schools is similar, and I hope that the Government will be able to do something without delay.

I regret having to add to your troubles at the present time, but you can understand that when a man has the Bank of Montreal pushing him like this, he is in a bad way.

With kindest regards,

Yours sincerely,

ALBERNI RESIDENTIAL SCHOOL

United Church of Canada

Alberni, B. C.
Feb. 5th, 1948.

Rev. George Dorey, D.D.
TORONTO, Ont.

Dear Dr. Dorey, Re - Finance

I am enclosing a letter I have received from the Manager of the Bank of Montreal which carries our account. Mr. Wylie spoke to me about the increasing overdraft. He is not, of course, worried about the account, but only about the irregularity of permitting a $7000.00 plus overdraft where the authorization is only for $4000.00. You will remember that this matter came up before when I first took over. The prospects then, however, were that the overdraft could be reduced. This was done, down to the approximate amount of $3000.00 at one time. The situation now has changed, however, and I see no prospect of anything but ever increasing expenditure if the present price and wage trend continues.

The overdraft for January is $6221.00, with a total adverse Cash Book balance of $7425.00. January accounts and salaries are still to be paid (on February 15th, when the remittance advance of $4000.00 is received). This will approximate $6000.00. The arrears of revenue due to the school amount to $1500.00, leaving an overall deficit of some $11,000.00, bringing us back to where we were three and one-half years ago.

First, there is the absolute necessity of increased Government revenue. Procrastination should no longer be tolerated. Also, the Government should either assume definite responsibility for the deficit to date, either by payment of the deficit or satisfying the carrying banks that it is a Government responsibility. In the meantime it is necessary that the Principal should have authorization to incur an overdraft to the amount of his expenditure under the present and prospective operating cost..... to what amount I cannot estimate, but I would say the authorization should be for $10,000.00. I still suggest that the expenditure over revenue should be carried as a deficit and Bank overdraft. Subsidization by the Church in the reduction of deficit or the augmentation of current revenue would simply encourage the Government to continue its policy of evading its Indian education responsibilities.

Further, may I suggest that the deferring of proper action on the part of the Government and the Church in dealing promptly and decisively with the matter of school finance tends to debase the functional value of the school

personnel. I have already lost one of the best Boys' Supervisors in the educational system, a man who has made this work a vocation, because of lack of opportunity and security afforded in employment by the school. There is no inducement given to the teachers to continue employment in a residential school. They are sacrificing salary, experience scale increases and superannuation by teaching in a residential school. It might be noted here that teachers in all the Alberni Public Schools have this week been awarded an "across the board" increase of $200.00 (retroactive) by an Arbitration Board. I have been fortunate in obtaining a very good slate of teachers this term, but I cannot hope to engage them for another year. We must be able to offer teachers inducements at least the equal of the Public Schools, otherwise we must put up with the left-overs (if there are any) to the detriment of our standard of teaching.

Also there is the functional value of the Principal to consider. No Principal could be expected to continue to give efficient attention to all the many duties that make for the efficient operation of an institution such as Alberni School, and carry, at the same time, the constant burden of ever increasing debt, about which one can do nothing and of which there is no end in sight.

Surely the Churches ought to be able to impress the urgency of the emergency on the Government, so that immediate action can be taken. It is absolutely useless for the Government or the Church to counsel retrenchment or economy. This has been practiced to the limit beyond which we cannot go. It is false economy, and functional suicide, to attempt further economy in food. The late Principal of the Alert Bay School foolishly tried this experiment at the beginning of this term, resulting in his resignation, and a loss in prestige of that school with the Indian people from which it will take them a long time to recover. Salaries must be held down, at the cost of operating with a mediocre staff. The present supply situation in clothing, boots and shoes, soaps, and in practically every necessary line, is such that we cannot bargain or question either price or quality.

I will note some comparative costs as of January 1947 and January 1948:-

	Account of Jan. 1947.	Account of Jan. 1948.
Meats and butter.....	634.02.....	861.86
Groceries.....	505.63.....	952.40
Coal.....	306.60.....	542.30

Dry Goods cannot be compared, as we are now replenishing supplies not obtainable a year ago. However, the Dry Goods account for January of this year is $1106.56, and the Boots and Shoes account $575.16. It can also be noted that stoker coal, which cost us $12.20 per ton a year ago ($9.45 per ton two years ago) is now $19.50 per ton. May I say also that in the matter of food and fuel our consumption quantity has not been increased.

Will you please attend to the matter of the Bank letter as soon as possible? Further than that, I would at least like to be assured that the condition of the finances of this school, and the deficit, is approved by the United Church as far as the efforts of the Principal is concerned.... or, of course, should a contrary viewpoint be taken, I would like to be advised.

Yours sincerely,

(Signed) A. E. Caldwell

I enclose Financial Statements for the Dec. quarter and the month of January. All accounts are paid with the exception of Fuel and Clothing. Dear Mr. Caldwell:

Overdrafts in the school account have been gradually increasing and the high point in December was $5721, in January $6221, and at present time $7,181 with approximately ten days before you receive your next cheque. It is therefore reasonable to expect that this total will be in somewhat larger figures before this cheque arrives. The Executive meeting of Board of Home Missions of United Church of Canada, on 8th of June 1944, authorised you to borrow by way of overdraft up to but not exceeding four thousand dollars. Owing to increased cost of operation it is now apparently impossible for you to finance within this amount and in order to put the account on a proper basis we should now be furnished with a new authority authorising the operation of the account within an amount which you consider will enable you to finance.

We should be glad if this matter could be attended to without delay and a new authority in increased amount furnished under seal from the Board of Home Missions of the United Church of Canada.

Yours truly,

Dear Doctor Dorey:

I have for acknowledgment your letter of February 11th and also copy of a letter received by you from the Principal of the Alberni Residential School sent forward therewith.

I have hesitated to reply to this communication until now in the hope that I would be in a position to state definitely the amount of additional assistance to residential schools authorized by the Government.

I am glad to be able to state that an increase in the present per capita grant to residential schools amounting to seventeen per cent was authorized by Order-in-Council, dated February 20, 1948, this addition to be retroactive to October 1, 1947. I am sure it will be gratifying to you to know that the additional financial assistance granted to the Churches this year is in conformity with the request made by the delegation which interviewed me on November 28th. It is the opinion of the officials of the Indian Affairs Branch that the grants now authorized should enable the Principals of residential schools to escape financial embarrassment at any time during the present fiscal year.

With kind personal regards,

My dear Archbishop:

I duly received your telegram of today's date, setting forth the views of the Executive Committee of the Missionary Society of the Church of England in Canada, with regard to the matter for increased grants to meet rising costs relative to the operation of Indian Residential Schools in Canada.

I understand that the Honourable J.A. Glen, the Minister of Mines and Resources, informed Canon Dixon by telephone yesterday that this matter was at present under consideration. I am having a copy of your telegram forwarded to Mr. Glen with a request that he let Your Grace know immediately of the decision that is arrived at.

Yours sincerely,

(Sgd.) W. L. Mackenzie King.

The Church House - 604 Jarvis Street,

Toronto, Ont.
(5)

9th December, 1947.

The Honourable J. A. Glen,
Minister, Dept. of Mines and Resources,
Ottawa, Ontario.

Honourable Sir:

At the recent meeting of our Executive Committee a report was made of our deputation to you on the 7th November, and of the letter to you from Canon Alderwood of the 8th November confirming the requests which the deputation had made.

The Executive was very appreciative of the sympathetic hearing which had been given to the deputation and of the acknowledgment of Canon Alderwood's letter received from the Acting Minister under date of 17th November addressed to General Turner.

As the financial situation which had alarmed our Board of Management in September has continued to get steadily worse, due to the continuing rise in the cost of maintaining the schools, and as it becomes increasingly evident that our Church cannot continue the present partnership with the Government without some additional relief, I was directed to write to you and point out again how necessary are the two requests which the deputation laid before you. They are:

1. That to meet the alarming deficit for 1947 which is impending, the emergency grant now being provided for 1947 be increased in accordance with the advance in the cost of living revealed in official statistics.
And

2. That for 1948 the per capita grants be paid in accordance with the actual cost of living so that we may be able

to continue our administration of the schools with the assurarce that it will not be necessary to place further burdens upon the missionary funds of our Church.

On behalf of our Society I would express the hope that Government may see fit to grant these requests and that it may thus be made possible for us to continue our partnership with Government in the service of the Indian children,

I am, Honourable Sir,

Yours sincerely,

MEMORANDUM of a PRESENTATION regarding the need for increased Grants to Indian Residential Schools, made by the Representatives of the Churches co-operating with the Government, to the Minister, the Honourable James A. Glen, Friday, November 28th, 1947.

****

The Committee representing the Churches which co-operate with the Government desires, first of all, to express thanks for the increase made during the year by the Department in the per capita grant. We trust that we shall not be misunderstood if we describe this increase as in the nature of 'small mercies' for which we should be thankful. To-day, however, we desire to put before you certain facts which make it necessary for us to ask for further increases in the per capita grant. The reason for the request for these increases is based on the following:-

I. SALARIES

The Schools have been paying a very low salary to the teachers and other personnel employed. As an example, The Church of England in Canada pays an average of $600.00 in cash to its teachers. In addition, they receive board, etc., which is conservatively estimated to cost another $400.00 a year, making a total salary for the teacher of $1,000 as an average.

May we point out that we cannot expect to continue to engage teachers that are even modestly qualified unless salaries are raised very considerably, and we should point out to you that one reason why we cannot do this is because we have such competition from another section of the Department, namely, the Training Division, which employs day school teachers, and according to whose schedule a second-class teacher, with two years' experience -- which, after all, is just a modest professional qualification -- is to be paid $1260 a year. If you deduct $400 for board, that would mean that the Department is paying $860 to a teacher as against the average of $600 which is being paid currently by The Church of England.

The Department is continually pressing -- and we think rightly so -- for teachers with better professional qualifications; for more supervision; for more specialized activities; and this will add to the salary budget.

The Schools are also faced with the fact that they are paying salaries to other personnel, such as cooks, engineers and supervisors, etc., which are ridiculously low. Here, again, they come into competition with the Department of National Health in some cases. There has been brought to our notice an instance where the Church was paying a cook $60.00 a month and she was offered and accepted a salary of $125.00, which was paid by the Department of National Health.

May we point out with all due respect that if the Government of Canada can find money in the Estimates to pay teachers $1260, and cooks

at the rate at which they are being paid by the Department of National Health, there would seem to be, on the face of it, no reason why it could not find money to enable the Church to pay at least the same salaries to the same quality of personnel.

The Churches are also faced with the fact that in certain of the Provinces, Labour Relations Boards are insisting on minimum wages, beyond those which we are paying, and on hours of work which are very considerably less than our staffs are giving, and also on such general conditions as will make it necessary, not only to pay higher salaries, but to increase the personnel very greatly.

II. OTHER ITEMS OF EXPENDITURE: Food - Fuel - Clothing and Home Furnishings:

We are setting before you a Schedule extracted from a Dominion Bureau of Statistics Bulletin, which shows the increase in the cost of various items: first, in relation to 1939, and, secondly, the increase in the calendar year 1947.

From this table it will be seen that food costs have increased 71 per cent. over 1939, and also that there has been a further increase of 21.3 per cent. in this calendar year.

The figures for fuel, clothing and house furnishings show a similar sharp increase in 1947.

Special emphasis is now being placed on better diet in the schools, and the rations which are furnished by the schools have been examined by the Department of National Health and recommendations made that the ration of fish and meat should be increased by 25 per cent.; fats, by 40 per cent.; and that the consumption of milk should also be increased. This would, of course, mean a reduction in the amount of bread and certain other items, such as potatoes, which would be consumed.

Nevertheless, the Principal of a Residential School, with an enrolment of one hundred, operated by one of the Churches, has calculated that the change in the diet for his School would cost $3,200 a year.

The Churches are honestly trying to raise the standard of operation of the schools, but up to the present the increase in the per capita grant has hardly met the increase in the cost of living, and has not made possible the higher standard of maintenance which is desired by everybody.

Clothing is an item which should be improved. The Principal of a School operated by one of the Churches estimates that it would cost, on the basis of the prices in a mail order catalogue, an average of $55 to clothe a girl for a year, and $70 to clothe a boy. This would mean that in a school of 125 pupils, the clothing budget would be $7,868.00.

The Indians themselves are demanding that the children be sent from the School to their homes, at holiday time, with a complete new outfit, but they send them back after the holidays with very little clothing,

and the School has to start all over again with a clothing issue.

The members of the deputation are quite well aware that the standard of clothing in the schools is not that mentioned above, nor can it be, because the policy of keeping per capita grants down to the minimum has simply meant that, in order to make ends meet, the Churches have had to find large sums of money from their missionary budgets and at the same time to keep the maintenance of the schools at a lower standard than is desired.

With regard to the estimated cost of higher standards, - we beg to place before you the estimates prepared for the Committee by the officials of the Indian School Administration of the Missionary Society of the Church of England in Canada, which show that if salaries of teachers were to be raised $200.00; if an average increase of $10.00 were to be given to engineers, cooks, etc.; if 10 cents per day were to be added to the cost of diet; and if an increased staff of twelve were added to the whole of the Schools operated by that Church -- it would mean a total of $93,000, which is 27 per cent. on the present per capita grant.

The figures submitted by the representatives of The Woman's Missionary Society of The Presbyterian Church in Canada show that, for the period January 1st, 1946, to November 30th, 1947, for the maintenance of the work at two residential schools and at the Mistawasis day school, the Society has contributed $36,500.

The Church of England in Canada has already submitted to the Department figures showing how much it has contributed, in addition to the per capita grants, for the maintenance of its Indian Residential Schools.

The United Church of Canada in 1946 and 1947 spent, in addition to the per capita grants, an amount of $32,000 from its Missionary Funds. The figure is considerably lower than it normally would be because the Norway House Residential School was destroyed by fire in the middle of 1946 and has not yet been rebuilt.

We therefore request the Minister to consider some way of tying up grants which are being paid for the maintenance of these Schools to the increased cost of living, and that these grants be adjusted half-yearly. Specifically, we request that there be a special grant for 1947 so that the actual costs of operating the Schools may be met.

From the figures which we have submitted, there is no question that the increase in the cost of operation is far more than was estimated when the figures were being prepared for submission to Parliament. With a jump of 21.3 per cent. in the cost of food in the period - January 1st, 1947, to October 1st, and in the prices of other commodities accordingly, it is quite obvious that, if the Government does not come to the help of the Schools by making grants to cover this increased cost, it will have to be met out of the Missionary funds of the Churches, or else by making

further drastic cuts in the operation of the Schools, which simply cannot be faced.

The Committee further requests that, as a general policy, consideration be given to adjusting the per capita grant every half year so as to meet any increase in the cost of living. This might be done by making an examination of the expenditures of the Schools at the end of the first six months' period and a supplementary grant being paid, and the same thing being done at the end of the next six months. We feel that in a day of rapidly increasing cost of living, it is impossible for the Churches to bear the burden.

III. There are certain other matters which may be minor but which affect our operation of Schools, which we present for the attention of the Minister:

(a) Transportation of Pupils: The Act says that the Department "may" pay the cost of transportation of pupils to and from their homes, but we find that it is very difficult to get this item met. It is really thought that the Indians themselves should pay the amount necessary for the transportation of their children to their homes and back again to school -- and many of them are able to meet this, -- but, unfortunately, it is left to the Principal to collect this money and he has very little success. We think that this ought to be the responsibility of the Agent.

(b) Recruiting: We also believe that the onus for recruiting should be on the Agent and not on the Churches. We are quite prepared to co-operate to the fullest possible extent with the Department; but the law says that the children must go to school; it also lays on the Government, through the Indian Agent, the responsibility for enforcing attendance.

(c) Enforced Closing of Schools: There are cases in which Schools are closed, or attendance is seriously depleted, because of epidemics. The children are kept at home and not allowed to go to school, but the expenses of the school, apart from the actual expenditure on food, have to go on.

The same thing is true when a school is closed for a considerable time because of the need for major repairs, in which case the Church again has to bear the full brunt of the cost.

We would point out that, whilst it is an excellent principle that the Department should not be asked to pay for the education of children that are not actually in school, yet there are cases where the Churches have to keep the schools open even though the children may not be in attendance, and that works a hardship on the Church.

We believe that the Minister should have a wider latitude of authority so that he could authorize the payment of the grant where it is clearly proven that the lack of attendance is due to circumstances that are beyond the control of the Churches.

The representatives of the Churches would like again to thank the Minister, and everybody concerned, for the opportunity of presenting their case.

INDIAN RESIDENTIAL SCHOOLS

ESTIMATED COST OF HIGHER STANDARDS

42 teachers now receive average of $600 per year
plus board estimated at 200
and actually worth at least 400

Say - $600 plus $400 = $1,000 average salary.

This should be at least $1,200 - calling for increase of $200 per teacher - which equals total of - - $8,400

Other salaries are far below what is generally paid, especially for Engineers, Cooks and Farmers.
An average increase of $10 would be helpful but still below par

This would require 180 x 120 = - - 21,600

Improved diets are demanded and with rising prices we can count on higher food costs.

Say - 10 cents more per person daily = - - 55,000

Increased staffs are demanded.

More classrooms are to operate and more supervisors and assistants are required.

Say - twelve more at average $44.00 = - - 8,000

TOTAL - - $93,000

DOMINION BUREAU OF STATISTICS

Ottawa

December 18, 1947.

Mr. Bernard Neary,
Superintendent, Welfare and Training,
Indian Affairs Branch,
Department of Mines and Resources,
Booth Building, Sparks Street,
OTTAWA, Ontario.

Dear Sir:

Further to our conversation and in reply to your letter of December 15, we have calculated an index on the basis of the breakdown of the Residential School dollar over January, 1947, and this shows a cost increase of 17 per cent.

The indexes we have used to determine this figure are quite accurate, with the exception of salaries. We were unable to obtain any information concerning teachers' salaries in 1946, and we took as the closest approximation an index of salaries paid in financial institutions. Similarly, domestic help is based on an index of salaries paid to waitresses in hotels and restaurants. The latest dollar figure obtainable for these two groups is October 1. In the case of farm labour, the figures are quite representative, and the latest available are for August 15. The resultant figure showed a salary increase of 10.9 per cent.

Yours very truly,

L. E. Rowebottom,
Statistician,

PRIVY COUNCIL

CANADA

Certified to be a true copy of a Minute of a Meeting of the Treasury Board, approved by His Excellency the Governor General in Council, on the 20th February, 1948

Mines & Resources

MINES AND RESOURCES

The Board had under consideration a memorandum from the Honourable the Minister of Mines and Resources reporting:

"That there have been requests and delegations to me from the various denominations operating Indian Residential Schools that an increase be made in the per capita grants made to them for the conduct of such schools;

That their requests were that this increase should be based upon the increased costs of operating such schools in view of the rise in prices;

That Treasury and Education officials of the Indian Affairs Branch considered a sampling of the auditors' report upon these residential schools in order to derive the various items upon which the average residential school dollar is spent;

That the figures below are based on a sampling of twenty (20) residential schools across Canada and representing all four denominations:

Food	36 cents
Light, Fuel and Water	9 cents
Clothing	8 cents
Salaries	30 cents
House Expenses and Sundries	17 cents

That the Dominion Bureau of Statistics was then requested to calculate the cost increase index since January 1, 1947; based on the above breakdown of the residential school dollar;

That the Prices Branch, Dominion Bureau of Statistics, reported as follows:

> "Further to our conversation and in reply to letter of December 15, we have calculated an index on the basis of the breakdown of the Residential School dollar over January, 1947, and this shows a cost increase of 17 per cent."

That the total sum included in our Main and Supplementary Estimates for 1947-48 for the payment of per capita grants to Residential Schools was $1,933,220.00;

That a 17% increase in these per capita grants would require an additional sum per fiscal year of $330,000.00.

It is, therefore, recommended that approval be given for the inclusion in the 1948-49 Supplementary Estimates of $330,000.00 for an increase in per capita grants to Indian Residential Schools.

It is further recommended that the undersigned, be authorized to pay, in addition to the already approved grants, this increased grant effective from 1 October, 1947, out of the monies at present on hand in Vote 182 because of the following facts:

(a) This Vote is at present in a sound position and funds are available for the payment of an extra $80,000.00 for the quarter ending December 31, 1947.

(b) As payments to Residential Schools are made at the end of each quarter, based on quarterly returns, payments can be made for the March 1948 quarter out of funds still available for 1947-48 and the balance from funds provided in the Main 1948-49 Estimates."

The Board concur in the above report and recommendation, and, submit the same for favourable consideration.

Dear Doctor Dorey:

I have for acknowledgment your letter of February 11th and also copy of a letter received by you from the Principal of the Alberni Residential School sent forward therewith.

I have hesitated to reply to this communication until now in the hope that I would be in a position to state definitely the amount of additional assistance to residential schools authorized by the Government.

I am glad to be able to state that an increase in the present per capita grant to residential schools amounting to seventeen per cent was authorized by Order-in-Council, dated February 20, 1948, this addition to be retroactive to October 1, 1947. I am sure it will be gratifying to you to know that the additional financial assistance granted to the Churches this year is in conformity with the request made by the delegation which interviewed me on November 28th. It is the opinion of the officials of the Indian Affairs Branch that the grants now authorized should enable the Principals of residential schools to escape financial embarrassment at any time during the present fiscal year.

With kind personal regards,

Yours sincerely,

Dear Archdeacon Cook:-

Attached are statements showing the additional grant being paid to the schools operated under the auspices of the M.S.C.C. for the quarter ended December 31st,1947.

These payments are in accordance with the authority granted by the recent Order in Council which authorized an increase of 17% on the per capita allowances of residential schools effective from October 1st, 1947.

We have not yet received the December quarter return of the Whitefish Lake Residential School but we have forwarded an air mail letter to the principal requesting him to send same immediately.

Dear Miss Evans:-

Attached are statements showing the additional grant being paid to the schools operated under the auspices of the M.S.C.C. for the quarter ended December 31st, 1947.

These payments are in accordance with the authority granted by the recent Order in Council which authorized an increase of 17% on the per capita allowances of residential schools effective from October 1st, 1947.

We have not yet received the December quarter return of the Whitefish Lake Residential School but we have forwarded an air mail letter to the principal requesting him to send same immediately.

Yours sincerely,

Ottawa, March 4, 1948.

Dear Mr. Mills,

It is understood that Major Stevens of the Royal Canadian Engineers discussed at some length with Mr. R.A. Gibson, Director of our Lands and Development Services Branch, and other officials, the feasibility of having our 1948-49 school building program in the North carried out under supervision of your department.

Although our 1948-49 estimates have not as yet been finalized, we have included therein amounts for the construction of the following two-room schools and attached teachers' residences in the Mackenzie District of the Northwest Territories. These are listed in order of priority:

1. Fort Norman
2. Rocher River
3. Fort Franklin
4. Fort Good Hope
5. Arctic Red River

We have included an amount of $40,000 for each of these buildings, which will be of standard type construction.

We are also contemplating the construction of a similar school at Coppermine, Northwest Territories, but it is not likely that much progress can be made with this particular project this year.

Under separate cover, I have already requested the supervision of army engineers for the construction of the Indian Residential School at Teslin, Y.T. What I would like to know is whether your department could assume responsibility for the construction of these schools provided we

transferred the funds. Possibly you would prefer that we arrange to have the work done on a contract basis, which, of course under present conditions, would be a cost-plus-fixed fee arrangement requiring careful supervision. If you could not undertake construction possibly you could undertake to supervise construction by contract.

Accountable Advances.

The Consolidated Revenue and Audit Act, Section 32 (2), directs that accountable advances (such being standing advances and those issued for a specific purpose) outstanding at the end of the fiscal year shall be either repaid or accounted for within fifteen days thereafter.

The fiscal year 1947-48 ends on March 31st, and consideration should now be given by you to accounting for all advances whether made from Trust Fund or Vote.

Credit vouchers covering expenditures already made, and remittances covering the unexpended balance, should be forwarded to Ottawa as soon as possible, but in no case later than indicated in paragraph 1 above.

From this date forward, all vouchers representing payments made from standing advances will be applied to the advance upon arrival at Headquarters. To facilitate this work it is requested that you mark such vouchers as "Credit Voucher", the usual term used when reimbursement is not indicated.

Your prompt attention and co-operation will be appreciated.

Dear Sir:-

I just heard that you give an encrease of seventeen per cent on the grant given to the Indian Residential Schools.

I thank you very sincerely in my name and in the name of our fathers who have the direction of those schools under the care of your Department. This increase of the grant in a time when the cost of life is so high will help us to solve many a problem specially for those schools who have no farm as a source of certain food items. It will also help us greatly to realize your wishes in favor of the Indian children.

With my sincere gratitude, accept Dear Mr. HOEY my most respectful regards.

Re: Grant for Maintenance of Children in Residential Schools.

You will recall that the Northwest Territories Council - Special Meeting May 25, 1947 - agreed that the Northwest Territories Administration should pay the same grant for the maintenance of children in the residential schools as your Branch pays for Treaty Indians.

It has recently been ascertained that you increased the rates by 17% with effect from October 1, 1947 and in keeping with the policy of uniform pay for equal service we have adopted the same rates. However, it would be appreciated if you would keep me posted of any further adjustments as it is sometimes difficult to finance these retroactive payments particularly when we are nearing the close of the fiscal year.

Memorandum:

DEPUTY MINISTER

Increased per capita grants to certain residential Schools operated by the M. S. C. C.

You will recall that one of the agreements reached at a meeting with M.S.C.C. officials on March 25, was that adjustments be made in the per capita grants made to certain northern residential schools.

We have now received from our Auditor the attached report with regard to the operating expenses of the schools conducted by the Indian School Administration of the M.S.C.C. The following table will illustrate the difference between the per capita grants paid and the operating expenses at, the residential schools particularly mentioned by M.S.C.C. officials.

	Dollar cost per pupil, 1947.	New per Capita
Aklavik	$344.19	$351.00
Jabasca	380.61	280.80
Moose Factory	447.77	310.05
Whitefish Lake	449.68	280.80
Fort George	548.56	310.05
Carcross	590.26	368.55

I would like to point out that the above per capita amounts only came into effect on October 1 and that therefore the M.S.C.C. did lose considerably on the operation of these schools during 1947. Please remember that the M.S.C.C. operates on a calendar fiscal year.

Re: Anglican Indian School Administration
102 Bank St.,
Ottawa, Ontario.

An audit of the books and records of the above-noted organization for the fiscal (calendar) year ended December 31, 1947 reveals the following information:

(1) The Anglican Indian School Administration, 102 Bank St., Ottawa handles the accounting and administration of the following Anglican Indian Residential Schools: Cardross, Alert Bay, Aklavik, Whitefish Lake, Wabasca, Old Sun, Blood, St. Cyprian, Prince Albert, Elkhorn, Sioux Lookout, Shingwauk, Chapleau, Moose Factory, Fort George, Lac La Ronge and Gordon's. The Administration also handles the affairs of three Anglican Hospitals and two Missions.

(2) The firm of Welch, Anderson & Co., Chartered Accountants of Toronto have been employed as auditors. Audits were conducted regularly (quarterly) and one was made at the end of the fiscal (calendar) year. Annual financial statements were prepared by the audit firm and will be presented to the Administration in the near future.

(3) In the year ended December 31, 1947 the total expenditures for the 17 Indian Residential Schools and Head Office amounted to $440,133.00 (1). The per capita grant earnings for the same period was $337,344.63. The net difference (deficit) was $102,788.37 (1).

....

(1) The Administration also handles the accounts and administration of 3 Hospitals and 2 Missions. The total Head Office expense of $20,297.00 is included in the amount $440,133.00.

.....

(4) The Residential school at Lac La Ronge was burned in February, 1947. Gordon's Residential School has been temporarily closed (July 1947) so that major repairs to the plumbing and heating equipment could be made.

(5) Statements prepared are as follows:

(a) Statement #1 - An analysis of per capita grant earnings and relative expenditures for the year ended December 31, 1947.
(b) Statement #2 - A comparative analysis of the Dollar cost per pupil and related information for the year ended December 31/47.
(c) Statement #3 - A budget picture of per capita grant earnings and relative expenditures for the year 1948.

(6) The cost analysis is concerned only with the per capita grant earnings and the relative expenditures. The Branch provided other assistance such as manual training grants, night watchman salaries, preventorium allowances, repairs etc. The cost of maintaining an Indian pupil would be influenced accordingly.

(7) In paragraph (3) a footnote qualifies the total expenditures in so far as it pertains to Head Office expense. There appears to be no satisfactory method to allocate the $20,297.00 expense. It is felt that the part of this expense relative to the Hospitals and Missions was negligible.

(8) The W.A. Dorcas Society provided clothing, bales, bedding etc. to the various Residential schools which was valued at $9,243.00. Information in this respect is shown in statements #1 and #2. The information is supplementary and not a part of the cost analysis.

(9) Freight rates in 1947 to some of the distant schools are shown below:

To	From	Rate per 100 lbs.
Ft. George	Moosonee	$ 2.72½
Aklavik	Waterways	5.00
Carcross	Vancouver, B.C.	A B C L.C.L. $3.10 3.70 4.50 Car lot (10 tons) 2.65 3.00 3.65 plus a terminal charge of $1.25 a ton.
Moose Factory	Cochrane, Ont.	.80¢
Wabasca		$ 5.00 (summer rate) 1.50 (winter rate)

(10) The Residential School at Carcross had the highest per pupil expense. An examination of paid December vouchers indicated prices as shown below:

Stew beef	.35¢ a lb.
Lamb leg	.60¢ " "
Sausage	.50¢ " "
Beef kidney	.45¢ " "
Eggs	.75¢ a dozen
Lard	.35¢ " "

....

The vouchers did not detail the freight expense, therefore, the freight costs must have been included in the prices indicated above. With the exception of eggs the prices compare favourably with those in Ottawa.

(11) For fifteen of the 17 schools (those in operation for the entire year) the dollar cost per pupil per year is shown below:

	Analysis of the Dollar cost per pupil for the year ended December 31, 1947 (1)	Percentage cost of the total cost
Salaries	$87.00	29.6%
Food	93.23	32. -
Fuel, Light & Water	40.55	14. -

Clothing	11.14	4. -
Office & Special	6.45	2.2
Miscellaneous	.50	.2 -
	$292.96	100%

It will be noted that salaries and food represents approximately 61.6% of the total expenditures.

(12) A budget picture of per capita grant earnings and relative expenditures for the year 1948 is shown in statement #3. It will be appreciated that this estimate is based upon figures obtained in 1947.

(13) While the examination of the books and records was confined to a test-audit, it was sufficiently extensive to indicate the accounts were properly and accurately kept.

(14) The staff and General Turner afforded every assistance during the course of the audit.

MR. HOEY

Re: Per Capita Allowances.

The increased per capita allowances from October 1st, 1947, were based on information obtained from the Dominion Bureau of Statistics and in setting the new rates effective from the date mentioned, per capita grant at each residential school was increased by 17%. For instance, in the case of the Chapleau Residential School, per capita allowance paid to this school as of October 1st, 1947 was $205.00. Owing to the 17% increase, the per capita rate at this school from October 1st, 1947 has been paid at the rate of $239.85.

In a letter dated May 5th, 1948 from the Dominion Bureau of Statistics it is stated that there has been an additional increase of 7% since October 1st, 1947. If the schools were allowed this rate it would mean 24% increase over the amount allowed them previous to October 1st, 1947. In the case of the Chapleau School this would mean they they would be paid at the rate of $254.20 (24% additional to the rate of $205.00 which they were receiving previous to October 1st, 1947).

The provision of the 17% increase involved an additional expenditure of approximately $330,000.00 which will be included in the supplementary estimates for 1948-49 as authorized by P.C. 86/666 dated February 20th, 1948. To allow all residential schools 24% effective from April 1st, 1948 would involve an additional expenditure of $127,737.00.

Dear Sir:

Further to our telephone conversation, it would be sincerely appreciated if you would calculate an index on the basis of the breakdown of the residential school dollar, based on increasing costs between 1 October, 1947, and 1 April, 1948. It is understood that the indexes which you will use to determine this figure will be the same as you used in calculating the former index as advised me in your letter of December 18. The itemized list below shows how the residential school dollar is spent:

Food	36¢
Fuel, light and water	09
Clothing	08
Salaries	30
House expenses and sundries	17

Bernard F. Neary, Esquire,

OTTAWA, Ontario.

Dear Sir:

In reply to your letter of May 4th, we have calculated a cost index for maintaining residential schools as between October 1947 and April 1948. This index shows an increase of 7%.

The increase was calculated on the basis of the following changes:

Groups	Percentage Change Between October 1947 and April 1948.
Food	9.0
Fuel & Light	.5
Clothing	12.1
Salaries	4.1
Household Expenses	8.1

As mentioned in my letter of December 18th our information on salaries is not very satisfactory for this purpose. For teacher's salaries we have used as most closely comparable those paid in financial institutions. For cooks we have used salaries and wages paid in hotels and restaurants. The wages paid in agriculture are only available for August 15, 1947 and January 15, 1948. They show the usual seasonal decline between these two periods.

Yours very truly,

Ottawa.

Canada. May 5, 1948.

Bernard F. Neary, Esquire,
Superintendent of Education,
Department of
Mines and Resources,
Indian Affairs Branch,
OTTAWA, Ontario.

Dear Sir:

In reply to your letter of May 4th, we have calculated a cost index for maintaining residential schools as between October 1947 and April 1948. This index shows an increase of 7%.

The increase was calculated on the basis of the following changes:

Groups	Percentage Change Between October 1947 and April 1948.
Food	9.0
Fuel & Light	.5
Clothing	12.1
Salaries	4.1
Household Expenses	8.1

As mentioned in my letter of December 18th our information on salaries is not very satisfactory for this purpose. For teacher's salaries we have used as most closely comparable those paid in financial institutions. For cooks we have used salaries and wages paid in hotels and restaurants. The wages paid in agriculture are only available for August 15, 1947 and January 15, 1948. They show the usual seasonal decline between these two periods.

Yours very truly,

MR. HOEY

Re: Per Capita Allowances.

The increased per capita allowances from October 1st, 1947, were based on information obtained from the Dominion Bureau of Statistics and in setting the new rates effective from the date mentioned, per capita grant at each residential school was increased by 17%. For instance, in the case of the Chapleau Residential School, per capita allowance paid to this school as of October 1st, 1947 was $205.00. Owing to the 17% increase, the per capita rate at this school from October 1st, 1947 has been paid at the rate of $239.85.

In a letter dated May 5th, 1948 from the Dominion Bureau of Statistics it is stated that there has been an additional increase of 7% since October 1st, 1947. If the schools were allowed this rate it would mean 24% increase over the amount allowed them previous to October 1st, 1947. In the case of the Chapleau School this would mean they they would be paid at the rate of $254.20 (24% additional to the rate of $205.00 which they were receiving previous to October 1st, 1947).

The provision of the 17% increase involved an additional expenditure of approximately $330,000.00 which will be included in the supplementary estimates for 1948-49 as authorized by P.C. 86/666 dated February 20th, 1948. To allow all residential schools 24% effective from April 1st, 1948 would involve an additional expenditure of $127,737.00.

In a telephone conversation on Friday, May 7th, Mr. Jackson mentioned the Church of England Schools and I prepared a statement showing what amount they would draw if they kept the enrolment at each school up to the authorized number.

The expenditure for the calendar year 1947 as shown on the attached statement, was prepared from the reports of our own auditors.

Increased Per Capita Costs at Indian Residential Schools.

Our Superintendent of Education attempted to obtain the information you required from the Wartime Prices and Trade Board but was unable to do so. He was referred by them to the Dominion Bureau of Statistics, from whom we obtained information last Fall as to the increased cost of maintenance at our Schools.

We have now received a reply from the Statistician of the Prices Branch at the Dominion Bureau of Statistics indicating the increase in operating expenditures of seven percent between October 1, 1947 and April 1, 1948. Please find attached a copy of the letter received from the Dominion Bureau of Statistics.

Dear Sir:

In reply to your letter of May 4th, we have calculated a cost index for maintaining residential schools as between October 1947 and April 1948. This index shows an increase of 7%.

Memorandum:

MR. HOEY

Attached is detailed information regarding each residential school. This was obtained from the Auditors' reports on the schools that are regularly visited by the auditors.

In conversation with Father Plourde he advised me that the Oblate schools under his jurisdiction have expended an amount of approximately $40,000.00 in purchasing shoes, clothing, etc., from War Assets Corporation. Father Plourde states that if the same amount of goods had been purchased in the ordinary way, the expenditure would have been approximately $200,000.00.

From the attached statement you will note that many of the schools have been financially assisted by the church under whose auspices they are operating, either by means of grants or loans. If this assistance had not been received, the deficits would have been much greater.

The Secretary,
The Treasury Board,
O T T A W A, Ontario.

The undersigned has the honour to report:

THAT there have been requests and delegations to me from the various denominations operating Indian Residential Schools that an increase be made in the per capita grants made to them for the conduct of such schools;

(3) THAT their requests were that this increase should be based upon the increased costs of operating such schools in view of the rise in prices;

THAT Treasury and Education officials of the Indian Affairs Branch considered a sampling of the auditors' reports upon these residential schools in order to derive the various items upon which the average residential school dollar is spent;

THAT the figures below are based on a sampling of twenty (20) residential schools across Canada and representing all four denominations:

Food	36 cents
Light, Fuel and Water	9 cents
Clothing	8 cents
Salaries	30 cents
House Expenses and Sundries	17 cents

THAT the Dominion Bureau of Statistics was ~~then~~ namely requested to calculate the cost increase index from October 1, 1947 to April 1, 1948 based on the above breakdown of the residential school dollar:

THAT the Prices Branch, Dominion Bureau of Statistics, reported as follows:

"We have calculated a cost index for maintaining residential schools as between October 1947 and April 1948. This index shows an increase of 7%.

"The increase was calculated on the basis of the following changes:

Groups	Percentage Change Between October 1947 and April 1948
Food	+ 9.0
Fuel & Light	- .5
Clothing	+ 12.1
Salaries	+ 4.1
Household Expenses	+ 8.1

THAT the total sum included in our Main Estimates for 1948-49 for the payment of per capita grants to residential schools is $1,907,420.00;

THAT P.C. 86/666 dated February 20th, 1948 authorized the inclusion of an amount of $330,000.00 in the Supplementary Estimates for 1948-49;

THAT a seven percent (7%) increase in these per capita grants would require an additional sum in the current fiscal year of $128,000.00.

It is, therefore, recommended that approval be given for the inclusion in the 1948-49 supplementary estimates of an additional amount of $128,000.00 for an increase in per capita grants to Indian Residential Schools.

Respectfully submitted,

Minister of Mines and Resources.

That these additional funds would be used to adjust the per capita grants of those residential schools which because of their location are in need of increased grants, particularly those schools which would be affected by the increased freight rates

Memorandum:

DEPUTY MINISTER

Increased Per Capita Grants.

Please find attached submission to Treasury Board requesting $128,000.00 in additional funds for the increase of residential school per capita grants.

These adjustments in individual school grants have been made by the officials of the Education Division and are based on,

(a) latest auditors' reports
(b) location of school and anticipated effect of increased freight rates
(c) availability of farming land at school site
(d) personal knowledge of local conditions at various schools.

In the instance of the fourteen main schools operated by the M.S.C.C., the following figures present the financial benefit which should result:

1947 Expenditures	$ 389,627.00
New Rate (at Authorized Enrolment)	$ 407,702.50
Surplus	$ 18,075.50
Percentage Surplus on Expenditures --	4.63%

Even with the actual 1947 enrolment, a surplus percentage of 2.72 can be anticipated. Every effort will be made to raise the enrolment at the M.S.C.C. schools to that authorized.

Dear Archbishop Kingston:

Please find attached a list showing the proposed per capita grants which have been recommended by the Department to the Treasury Board for approval. We hope to be able to advise you further concerning these grants in the near future.

You will note that considerable increases have been recommended for several of the schools and that the northern schools in particular have been selected for large adjustments.

Based on fourteen schools (excluding Chapleau, Lac la Ronge and Gordon's) our Auditor's statements indicate that your total 1947 expenditure amounted to $389,627.00. We have omitted Lac la Ronge and Gordon's from these figures because they were closed during the 1947 calendar year. Under the new rate you should have an income from these fourteen schools (at authorized enrolment) of $407,702.90. Last year (1947 calendar) the per capita grants paid the M.E.C.C. for these fourteen schools totalled $302,404.00.

It is realized that one of your problems is the operation of schools with enrolled pupilages less than those authorized. It is our intention to send a circular letter to all our field officials, impressing upon them the importance of assisting actively in the recruiting for residential schools. It is felt that this matter is one for the utmost co-operation between the Department and Church officials. We will again remind our field officials of this fact.

You will note that no reference has been made to the Chapleau Residential School in the above calculations. It is our feeling that this school should be closed at the end of June. We understand that the dollar cost per pupil at this school

Dear Canon Dixon:

Please find attached a list showing the new per capita grants which will be paid to the sixteen schools operated by the M. S. C. C.

You will note that considerable increases have been made in several of the schools and that the northern schools in particular have received large adjustments.

Based on fourteen schools (excluding Chapleau, Lac la Ronge and Cardens) our Auditor's statements indicate that your total 1947 expenditure amounted to $389,627.00. We have omitted Lac la Ronge and Cardens from these figures because they were closed during the 1947 calendar year.

Under the new rate you should have an income from these fourteen schools (at authorized enrolment) of $407,702.50. This should mean a surplus of $18,075.50.

It is realized that one of your problems is the operation of schools with enrolled pupilages less than those authorized. It is our intention to send a circular letter to all our field officials, impressing upon them the importance of assisting actively in the recruiting for residential schools. It is felt that this matter is one for the utmost co-operation between the Departmental and Church Officials. We will again remind our field officials of this fact. However, we would point out that even if these schools operate on the same pupilage as last year a surplus of some $8,000.00 can be anticipated.

You will note that no reference has been made to the Chapleau Residential School in the above calculations. It is our feeling that this school should be closed at the end of June. Those children who cannot be looked after in day schools, can be accommodated at the Mohawk Institute, Brantford, Ontario, and at the Moose Fort Residential School. We understand that the dollar cost per pupil at this school during the 1947 year amounted to $339.35. This was based on an average attendance of 80, which is 20 under the authorized pupilage.

The Most Reverend F. G. Kingston, D.D.,
Missionary Society of the Church of England in Canada,
Church House,

Toronto 5, Ontario.

Dear Archbishop Kingston:

We have today received approval from the Treasury Board for increases in per capita grants to our Residential Schools, effective from April first, 1948.

I have sent a lengthy letter to Canon Dixon advising him of how these increases will affect the schools operated by the M. S. C. C.

Based on the fourteen schools which were in operation last year and which it is intended to operate this year, the financial picture should be as follows:-

1947 Expenditures	.....	$389,627.00
New Rate (at authorized enrolment)	.....	407,702.50

This should mean a surplus of $18,075.50, provided that there is no great increase in the cost of living. It is hoped that these increases, which particularly affect your northern schools, will provide the financial relief so needed by your Society, and will thus ensure the continued partnership in the operation of these schools.

Yours sincerely,

MEMORANDUM

The following agreements were reached at a meeting held on Thursday March 25 :-

I. An amount is to be included in the 1948-49 supplementary estimates for the purchase of the following Church of England Residential Schools:-

(1) Aklavik
(2) Whitefish Lake
(3) Wabasca.

II. An adjustment, based on auditors' reports, is to be made in the basic amounts paid to the following Anglican Schools:

Whitefish, Moose Fort, - albany
Cacross Aklavik. CE + RC
Fort George, CE & RC

III An adjustment is to be made in the cost of operation amounts paid to the various residential schools (in the 1948-49 estimates).

IV We are to consider the payment of passed receipted accounts for equipment purchased by the M.S.C.C. for these schools (as far back as 1 April, 1947).

V At schools in which the pupilage is below that authorized, a letter is to be prepared to each Indian agent concerned, concerning the recruiting of pupils. This letter must be for the Director's signature.

VI We are to consider the further development of combined day and residential schools as projected for Alert Bay.

ACTING DEPUTY MINISTER

I enclose Memorandum to Council covering the amount provided in Vote 219, 1948-49, for the purchase and maintenance of equipment, repairs and improvements to the church-owned Indian residential schools.

As such expenditures constitute a grant, it is considered desirable to have the approval of the Governor General in Council.

A similar Order in Council was secured in the last fiscal year - see P.C. 65/4200 of October 18th, 1947.

I understand that my Superintendent of Education discussed the attached memorandum with Mr. Odell by telephone.

Audit Reports - Indian Residential Schools.

It is noted from your memorandum of July 23 that arrangements have now been completed for future audit reports at the residential schools in the Lesser Slave and Fort Vermilion Agencies.

Our records show that as of May 1948 16 residential schools had apparently never had their accounts audited. Five of these will be subject to audit in future as they are in the Lesser Slave and Fort Vermilion Agencies.

This leaves the following eleven schools for which we understand audit reports have never been received:

Northwest Territories:

Aklavik R. C.
Fort Resolution
Providence Mission.

Quebec:

Memorandum:

ACTING DEPUTY MINISTER

Increased Per Capita Grants.

On May 25, 1948, I sent to Dr. Keenleyside a submission to Treasury Board requesting $128,000.00 in additional funds for the increase of residential school per capita grants. This submission was approved and this sum was included in our Supplementary Estimates for 1948-49.

You will recall that this amount of $128,000 was arrived at by making adjustments in individual school grants. These adjustments were recommended by the officials of the Education Division and were based on

(a) latest auditors' reports,

(b) location of school and anticipated effect of increased freight rates,

(c) availability of farming land at school site,

(d) personal knowledge of local conditions at various schools.

Please find attached a statement (Appendix A) on these schools showing the rate of operation as revealed by the latest auditor's reports. You will recall that when we discussed this matter you felt that efforts should be made to get auditor's reports for every school. At that time 16 schools, due to their isolation, had not had auditor's reports.

Since then our Chief Treasury Officer reports that arrangements have been made to carry out audits in future in the

Roman Catholic Indian Residential Schools in the Lesser Slave and Fort Vermilion Agencies. As soon as Reverend Father Plourde, O.M.I returns to town, a meeting will be held with him to determine the best way of including the eleven other schools (all of which are R.C.) in future audits.

In the meantime it would be appreciated if we could have your direction as to whether the Minister would consider advising the denominations concerned as to the increases in per capita grants for which funds are now available. You will find attached as Appendix B a statement showing the new per capita grants recommended for each school.

Director.

MEMORANDUM TO MR. HOEY:

Referring to our telephone conversation of this afternoon, I am returning the statement marked Appendix "A" showing the operation of the Residential Schools as revealed by the latest auditors' reports. Also a statement marked Appendix "B" setting out the proposed new per capita grants recommended for each school.

You will recall that when this matter was last discussed by Colonel Neary and yourself with the Deputy Minister it was agreed that this additional grant was provided for the purpose of assisting only those schools which needed higher grants to cover the cost of operation. It should not be given to schools which were able to meet their expenses from the present grants.

Encl.

The proposed new grants as set out in Appendix "B" would seem to include a number of schools where there is no evidence to indicate that such additional assistance is needed.

C.W. Jackson,
Director, Administration and Personnel.

ACTING DEPUTY MINISTER

Increased Per Capita Grants.

On May 25, 1948, I sent to Dr. Keenleyside a submission to Treasury Board requesting $128,000.00 in additional funds for the increase of residential school per capita grants. This submission was approved and this sum was included in our Supplementary Estimates for 1948-49.

You will recall that this amount of $128,000 was arrived at by making adjustments in individual school grants. These adjustments were recommended by the officials of the Education Division and were based on

(a) latest auditors' reports,

(b) location of school and anticipated effect of increased freight rates,

(c) availability of farming land at school site,

(d) personal knowledge of local conditions at various schools.

Please find attached a statement (Appendix A) on these schools showing the rate of operation as revealed by the latest auditor's reports. You will recall that when we discussed this matter you felt that efforts should be made to get auditor's reports for every school. At that time 16 schools, due to their isolation, had not had auditor's reports.

Since then our Chief Treasury Officer reports that arrangements have been made to carry out audits in future in the

Roman Catholic Indian Residential Schools in the Lesser Slave and Fort Vermilion Agencies. As soon as Reverend Father Plourde, O.M.I returns to town, a meeting will be held with him to determine the best way of including the eleven other schools (all of which are R.C.) in future audits.

In the meantime it would be appreciated if we could have your direction as to whether the Minister would consider advising the denominations concerned as to the increases in per capita grants for which funds are now available. You will find attached as Appendix B a statement showing the new per capita grants recommended for each school.

Audit Reports - Indian Residential Schools.

Dear Father Plourde:

Our records show that the following residential schools have never been the subject of an audit report from one of our Auditors:

Northwest Territories:	Aklavik R. C. Fort Resolution Providence Mission
Quebec	Fort George R.C.
Ontario	Albany Fort William
Manitoba	Cross Lake
Saskatchewan	Beauval Onj
Alberta	Holy Angels Youville

In view of rising living and freight expenses, we are anxious to have such audit reports available.

It would be appreciated if you could discuss this situation with me when you return to town. I realize that

DEPUTY MINISTER

New Residential School Per Capita Grants

Please find attached the new per capita rates for our Indian Residential Schools. Funds for these increases were voted in the 1948-49 Supplementary Estimates after Treasury Board had approved our submission of May 25.

As discussed with you recently, these changes affect only those schools for which we have audit reports.

If the Minister will indicate his approval of these amounts, we can then arrange for payments to the schools at the new rates effective 1 January, 1948.

Dear Mr. Rowebottom:

Increased Cost of Operation -
Indian Residential Schools

It would be sincerely appreciated if you would calculate an index on the basis of the breakdown of the residential school dollar, as determined by increasing costs between 1st April, 1948 and 1st October, 1948.

It is understood that the indexes which you will use to determine this figure will be the same as those used in calculating the former index as advised me in your letter of May 5th.

The itemized list below shows how the average residential school dollar is spent.

Food	.36¢
Fuel, light and water ...	.09
Clothing	.08
Salaries	.30
House expenses & sundries	.17

Sincerely yours,

Dear Sir:

In reply to your request of October 22 we have calculated an index on the cost of maintaining residential schools as between April 1 and October 1, 1948 on the basis of calculation similar to the type used in determining the increase between October, 1947 and April, 1948. We have established a cost increase of 5.5%. The breakdown of this total index is as follows:

Groups	Percentage Change Between April and October, 1948
Foods	+9.2
Fuel and Light	+5.9
Clothing	+4.0
Salaries	+3.8
Household Expenses	+1.3

Memorandum:

DEPUTY MINISTER

Increased per capita rates for Residential Schools.

You will recall that instructions were given at the end of October we were to approach the Bureau of Statistics with regard to the increased cost of maintaining Indian children at our residential schools.

Therefore, on October 22, the letter attached hereto was sent to the Statistician of the Prices Branch of the Dominion Bureau of Statistics. We have now received his reply which reads as follows:

"In reply to your request of October 22 we have calculated an index on the cost of maintaining residential schools as between April 1 and October 1, 1948, on the basis of calculation similar to the type used in determining the increase between October, 1947 and April, 1948. You are aware of representations which have been made that per capita grants be increased in accordance with the increased cost of maintenance of Indian children. We would appreciate your direction as to whether we should prepare a submission to Treasury Board requesting authority to include an amount of $112,000.00 in our next supplementary estimates in order to provide for a 5.5% increase in the per capita rates paid to the various denominations operating these schools.

COLONEL NEARY

Re: Per Capita Grants

1. Please note that memorandum of November 12th has not yet been forwarded to the Minister's office. You will recall that you delayed this until after Dr. Dorey's visit.

2. The following three residential schools were not allowed any increase in per capita due to oversite in preparing the original calculations.

(a) Qu'Appelle -

last financial statement covered the period ended May, 1947.

This showed cost per pupil per year $221.40

We have been paying them at the rate of $239.85

In view of increases allowed to other schools and the fact that the last auditors' report is considerably out of date in view of the rising cost of commodities, I recommend that they be allowed an additional $10.15

This would make their per capita $250.00

(b) Kamloops, B.C. -

last financial statement - ~~Sept. 30, 1946~~. Oct 1, 1946 & Sept 30/47

The above showed cost per pupil ..... ~~$197.97~~ 220.52

We have been allowing this school per capita grant of $239.85

~~In view of the fact that the last auditors' report is considerably out of date and does not take into account rising cost of living and~~ the further fact that this school is under considerable expense in renting additional land to provide farm products. I recommend that they be allowed an increase of $15.15

This would make their per capita $255.00

(c) Alert Bay, B.C. -

The last audit report covered period ended December 31st, 1947.

The cost per pupil shows $230.35

We have been paying them $251.55

In view of the location of this school and other matters of which you are aware, I recommend that they be allowed an increase of $18.45

This will make their per capita $270.00

PRICE MOVEMENTS, NOVEMBER, 1948 (PRELIMINARY)

COST OF LIVING: The Dominion Bureau of Statistics cost-of-living index remained unchanged between October 1 and November 1, 1948 at 159.6. This interruption came after a series of 21 consecutive increases dating from January, 1947. The food index fell from 205.4 on October 1 to 204.7 on November 1 as declines in meats and vegetables overbalanced further increases in egg prices; other food groups showed no appreciable changes. The decline in foods exactly balanced small advances in four other budget groups. Homefurnishings and services moved up from 165.1 to 166.0, clothing from 181.0 to 181.5, fuel and light from 128.8 to 129.0, and miscellaneous items from 124.4 to 124.6. The rent series is computed at approximately quarterly intervals and the next reckoning of the rent index will be for December 1; the latest figure is 121.0.

From August, 1939 to November 1, 1948, the increase in the cost-of-living index was 58.3 per cent.

Dominion Cost-of-Living Indexes (1935-39=100)

	Combined Index	Food	Rent	Fuel and Light	Clothing	Home furnishings and Services	Miscellaneous
November 1, 1948	159.6	204.7	121.0	129.0	181.5	166.0	124.6
October 1, 1948	159.6	205.4	121.0	128.8	181.0	165.1	124.4
November 1, 1947	143.6	173.6	119.9	122.6	157.0	151.4	118.2

WHOLESALE PRICES (WEEKLY): (1926=100) The index of Industrial Material Prices advanced from 161.6 for the week ending October 29 to 162.0 for the week ending November 26. Price movements were mixed, with oats, rosin, steel sheets, raw cotton and lead showing increases, while steers, hogs, raw rubber and linseed oil declined. The index for Canadian Farm Products fell from 143.2 to 142.6 in the same period. Tobacco, wool, hides and skins moved up, but lower quotations ruled for potatoes, onions, hay, livestock and eggs. Comparable indexes for the third week of August, 1939 were 64.8 and 58.2 respectively.

SECURITIES: The October rally in common stock prices continued into the first week of November but thereafter prices generally registered a declining tendency. The Investors' index for 100 common stocks, which rose from 117.5 for the week of October 28 to 120.5 for the week of November 4, receded to 116.2 for the week of November 25. Weakness was evident in both industrials and utilities, an index for the former series declining 1.5 points to 111.5 and for the latter 2.1 points to 120.5. Bank shares, on the other hand, were slightly firmer during November, an index for this group registering an increase of 2.6 points to 132.9 between the weeks of October 28 and November 25. Mining stock price movements paralleled industrials and utilities and the composite index for 30 issues, after touching 86.7 in the first week of November, dropped back to 80.7 by the 25th for a net loss of 2.3 points. The gold shares index weakened 3.7 points to 58.2, while the base metals index stiffened 0.8 points to 126.5.

Memorandum:

DEPUTY MINISTER

Increased per capita rates for Residential Schools.

You will recall that instructions were given that at the end of October we were to approach the Bureau of Statistics with regard to the increased cost of maintaining Indian children at our residential schools.

Therefore, on October 22, the letter attached hereto was sent to the Statistician of the Prices Branch of the Dominion Bureau of Statistics. We have now received his reply which reads as follows:

"In reply to your request of October 22 we have calculated an index on the cost of maintaining residential schools as between April 1 and October 1, 1948, on the basis of calculation similar to the type used in determining the increase between October, 1947 and April, 1948. We have established a cost increase of 5.5%. The breakdown of this total index is as follows:

Groups	Percentage Change Between April and October, 1948
Foods	+9.2
Fuel and Light	+5.9
Clothing	+4.0
Salaries	+3.8
Household Expenses	+1.3

You are aware of representations which have been made that per capita grants be increased in accordance with the increased cost of maintenance of Indian children. We would appreciate your direction as to whether we should prepare a submission to Treasury Board requesting authority to include an amount of $112,000.00 in our next supplementary estimates in order to provide for a 5.5% increase in the per capita rates paid to the various denominations operating these schools.

Acting Director.

Dear Mr. Rowebottom:

Increased Cost of Operation -
Indian Residential Schools

It would be sincerely appreciated if you would calculate an index on the basis of the breakdown of the residential school dollar, as determined by increasing costs between 1st April, 1948 and 1st October, 1948.

It is understood that the indexes which you will use to determine this figure will be the same as those used in calculating the former index as advised me in your letter of May 5th.

The itemized list below shows how the average residential school dollar is spent.

Food	.3[illegible]
Fuel, light and water	.0[illegible]
Clothing	.08
Salaries	.30
House expenses & sundries .	.17

Sincerely yours,

Bernard F. Neary,
Superintendent of Education.

Dear Mr. Rowebottom:

Increased Cost of Operation -
[redacted]

It would be sincerely appreciated if you would calculate an index on the basis of the breakdown of the residential school dollar, as determined by increasing costs between 1st April, 1948 and 1st October, 1948.

It is understood that the indexes which you will use to determine this figure will be the same as those used in calculating the former index as advised me in your letter of May 5th.

The itemized list below shows how the average residential school dollar is spent.

Food	.36
Fuel, light and water	.09
Clothing	.08
Salaries	.30
House expenses & sundries .	.17

Sincerely yours,

Bernard F. Neary,
Superintendent of Education.

Dear Sir:

Upon receipt of your letter of November 1, we decided to make a further investigation into recent auditors' reports in order to check the figures sent you in our letter of October 22. Based on the latest auditors' reports available, the following list shows how the average residential school dollar is spent:

	1947	1948
Food, Farm and Garden Expenses	34¢	(36¢)
Fuel, Light and Water	10	(09)
Clothing	08	(08)
Salaries	30	(30)
House Expenses, Freight and Sundries	18	(17)
	$1.00	$1.00

E+T

The figures in brackets indicate those used in your former calculations.

It would be appreciated if you could calculate a similar index on the cost of maintaining residential schools as between April 1 and October 1, 1948. This calculation should be similar to the type used in determining the increase between October 1947 and April 1948.

Sincerely yours,

Bernard J. Neary

DOMINION BUREAU OF STATISTICS

OTTAWA
CANADA

December 14, 1948.

Mr. B.F. Neary,
Superintendent of Education,
Department of Mines and Resources,
Indian Affairs Branch,
OTTAWA, Ontario.

Dear Sir:

I have for acknowledgment your letter of November 29 giving us a new expenditure breakdown of the Indian residential school dollar.

Based on this revised information we have prepared an index on the cost of maintaining residential schools between April 1 and October 1, 1948. The increase in costs has been established as 5.9%. The breakdown of this total index is as follows:

Groups	Percentage Change Between April and October, 1948
Foods	+10.0
Fuel and Light	+ 6.2
Clothing	+ 4.7
Salaries	+ 3.8
Household Expenses	+ 2.0

I wish to draw to your attention a typographical error in our letter of November 1. The period covered should have been April 1 to September 1, 1948 not April 1 to October 1, 1948. I am,

Yours sincerely,

L.E. Rowebottom,
Statistician,

Memorandum:

DEPUTY MINISTER

Adjustments in Individual Residential School Per Capita Grants.

As decided in a recent conference in your office on per capita grants, we are carefully reviewing all residential school audit reports received here. I would recommend the following cases for increases for consideration by the Minister:

Kamloops Residential School (B.C.)

This is our largest school with a pupilage of 306. Unfortunately, the last audit available until recently was made in October, 1946. The new audit report has been received and shows the following:

Present Per Capita (effective 1 January, 1948)	$239.85
Auditor's Report Cost per pupil per year (1 October, 1946, to 30 September, 1948)	250.52
Deficit	$2,263.19

Unfortunately, the auditor's statement of cost per pupil per year covers a 24 month period and does not reveal the present cost of feeding and clothing the children.

In a letter of December 13, the Principal of the School states as follows:

"With reference to the recent audited statement of this School, I wish to advise that in computing the deficit the outstanding account of $1966.85 for rental and grazing fees for the year 1947-48 only was taken into consideration.

.... A

A further outstanding account of $2000.00 for the current year, which is due and payable, was overlooked by mistake. The deficit should be computed as follows:

Current	$2263.19
Borrowed Loan	3000.00
Rental & Grazing fees 1947-48	1968.85
Rental & Grazing fees 1948-1949	2000.00
	$ 9232.04

"In arriving at a new per capita grant for this School I would appreciate having the above figures taken into consideration."

In view of the above I would recommend that the present rate of $239.85 be increased by an amount of $15.15 per pupil to total $255.00 effective 1 January, 1948. The nearest school to Kamloops is St. George's (C.E.) at Lytton, B. C., now receiving $257.00 per pupil.

Shubenacadie Residential School (R.C.)

This school has an authorized pupilage of 160. The latest audit report shows the cost per pupil for the period 1 August, 1947, to 31 July, 1948, was $259.88. The present per capita rate effective 1 January, 1948, is $240.00.

As you are personally aware, this school is operated directly by the Branch and does not come under the Oblate Marist or Jesuit Orders as is the case with our other R. C. schools. It has therefore no financial backing other than the per capita grant of the Department. Therefore I would recommend an increase in grant to $265.00 effective 1 January, 1948.

Fort George (B.C.) Residential School.

The first audit report on this school has just been received and covers the period 1 September, 1947, to 31 August, 1948. As you are probably aware, this is a church-owned school with 8 Indian 9 Nskims and 6 White pupils in attendance. The cost per pupil per year is shown by the auditor to be $884.83. However, in making his

report the auditor states that some of the factors for this very high cost per pupil are:

(a) The very low average attendance (16.85 pupils).

(b) Materials purchased for building and repairs amounted to $323.28 per pupil per year. Building supplies to the amount of $1519.37 were on hand as inventory. A large stock of food was also on hand.

(c) Construction during the period under review included a laundry house, a baking house, foundation for the school and some work on the chapel.

Therefore it is recommended that the per capita rate at this school be set at the same as that allowed the Fort George C.E. Residential School, namely $311.00 per pupil, effective 1 January, 1948. The present rate is $310.05.

Albany Residential School (R.C.)

The first audit report on this school has also been received and covers the period September 1, 1947, to August 31, 1948. It shows 75 pupils in attendance with an average of 62.2. The cost per pupil per year is $470.17. The present per capita rate is $310.05.

I would recommend that the new rate for this school be set at $411.00 which is the same amount allowed the Moose Factory C.E. Residential School. Unfortunately, the auditor was unable to isolate all costs in connection with this school as a small hospital is also operated in the same building by some of the same staff. I feel that the recommended rate of $411.00 would therefore be fair and reasonable.

Alert Bay Residential School (C.E.)

We have received strong representations with regard to increasing the per capita rate at this school. We are now paying a grant of $251.55 and the last audit report dated December 31, 1947, indicated an operating cost per pupil of $280.35. However, this was under the former Principal, who has now been replaced and our inspector's reports indicate that a much higher standard of clothing and food is now being provided. This inadequate food and clothing was the cause of much dissension under the former principal and it has undoubtedly

caused the M. S. C. C. a considerable expenditure to have conditions remedied. I would therefore recommend that the new rate for this school be set at $255.00, effective 1 January, 1948.

As other auditors' reports are received, similar recommendations will be passed for your consideration. To summarize therefore, I would recommend that you authorize payment of the following per capita grants effective 1 January, 1948:

School	Present Rate	Recommended Rate
Kamloops (B.C.)	$239.85	$255.00
Shubenacadie (N.S.)	240.00	$265.00
Fort George R.C. (Que.)	310.05	311.00
Albany (Ont.)	310.05	411.00
Alert Bay (B.C.)	251.55	~~255.00~~ 260

Ample funds are available in our Vote to meet this additional expenditure.

We have received the increased living cost index figure from the Dominion Bureau of Statistics and will shortly be making a report concerning a cost of living increase in per capita grants to all schools.

MEMORANDUM TO THE DIRECTOR

Increased per capita rates for Indian Residential Schools

You will recall our recent discussion concerning the period covered by the last increase in per capita rates granted to Residential Schools.

I am sending you herewith the two files concerned. You will note (flag one) a memorandum sent to the Deputy Minister on November 12, 1948, concerning this increase and indicating that a sum of $112,000.00 would be required. No action was taken as a result of this request. Another letter was sent to the Dominion Bureau of Statistics and a reply was received from them on December 14, 1948 (flag 2).

Another memorandum was sent to the Deputy Minister on February 12, 1949 (flag 3). No decision was made and we again wrote to the Dominion Bureau of Statistics bringing the revised figure up to March 8, 1949.

On March 19, a further memorandum was sent to Dr. Keenleyside (flag 4) and finally a decision was reached to include a sum in the 1949/50 Supplementary Estimates.

You will recall that we then prepared a new statement of proposed grants and that this matter was discussed with Mr. Jackson in May.

Approval was given by the Minister for the new rates and the Churches were informed in August, 1949.

What I believe Canon Cook to be requesting is an increase covering the change in the cost-of-living index between January 1949 and February 1950.

Dear Colonel Neary:

Cost of Living Index and
Per Capita Grants

During the past few months we have drawn attention several times to the increasing cost-of-living indexes as published in the OFFICIAL DOMINION GOVERNMENT publications - the releases of the Dominion Bureau of Statistics in their monthly Price Movements Circulars - and have pointed out the difficulty of operating residential schools on Per Capita grants established with effect from 1st April, 1948.

The latest of the above - mentioned circulars, released on 4th August, 1950, indicates clearly the enormous difficulty of even trying to operate these schools to a reasonable standard of feeding, clothing and general care of the children, as will be seen from the following figures:

Cost of Living Indexes

	Combined	Food	Fuel & Light	Clothing	House
1st April,1948	151.6	186.8	121.3	172.9	161.9
3rd July,1950	167.5	214.3	137.7	180.7	166.9

Dear Mr. Phelan:

Some time ago we sent you a copy of CONSERVATION ILLUSTRATED, with our compliments. We asked for your valued opinion of this book as an educational medium. May we have your reply? Your criticisms and suggestions will be of value to us in planning future editions.

You will be interested to know that the Department of Lands and Mines, New Brunswick, have ordered 4,000 copies of this book, to be placed in the school classrooms of that Province. The Department of Lands and Forests, Nova Scotia, purchased 3,500 copies for the same purpose. Hundreds of schools, inspectors, and others interested in the preservation and wise use of our natural resources, have also purchased copies of CONSERVATION ILLUSTRATED. Of the 10,000 copies of this edition printed a few months ago, only 1,300 copies remain in stock!

If your Branch is in a position to purchase copies of this important book for the schools under your jurisdiction, we feel sure that the influence it exerts will be of the greatest benefit. Remember, 25 or more copies cost only 75¢ each! Surely a very modest price for such an informative and authoritative publication!

Whether or not copies can at present be purchased, we should be pleased to hear from you. Your opinion of CONSERVATION ILLUSTRATED is important to us.

Yours sincerely,

Dear Mr. Hoey:

Herewith I am returning to you your copy of "Conservation Illustrated". I have looked it over carefully and have discussed it with other members of this Division. It deals with a subject of very great importance, it is written in lucid style by competent and well-known authorities, and it is attractively and effectively illustrated. I think that it is both suitable and desirable for use in Canadian schools for either Indians or whites. It will be most useful in the hands of teachers who already have a good grounding in its subject-matter.

Dr. A. Moore
Secondary School Inspector
187 Queenston St.
Winnipeg, Man.

Dear Dr. Moore:

We are proud to submit for your examination a copy of CONSERVATION ILLUSTRATED, second edition.

Educational authorities have long realized the pressing need for a more enlightened public attitude toward Canadian soil, water, forests, grasslands and wildlife. As publishers of CANADIAN NATURE, with a deep feeling of responsibility toward nature education in the Dominion, we also have a strong desire for greater popular interest in the restoration and intelligent use of our natural resources.

CONSERVATION ILLUSTRATED is our answer to this need.

Prepared with the collaboration of government officials, educators and conservationists, it is so comprehensive and authoritative that it may be used with complete confidence in the elementary and secondary schools of Canada. As well as a clear, vigorous and direct treatment of conservation in its many phases, it contains teaching suggestions, review questions and pupil activities. The subject matter has been organized with a particular view toward classroom use, and the many excellent pictures are designed to convey the basic principles of conservation in concrete visual form. We have tried to make CONSERVATION ILLUSTRATED so comprehensive that it will be unnecessary to look elsewhere for source material.

What is your opinion of CONSERVATION ILLUSTRATED as a teaching aid? We are anxious to know your reaction to this handbook and to receive your suggestions for improvement of future editions. Will you be so kind as to fill in and return to us the section provided for your comments at the end of this letter?

If, after reading it through, you consider CONSERVATION ILLUSTRATED to be an important source book, we urge that you bring it to the attention of your teachers in your next bulletin, and encourage them to order it for their school or classroom libraries. Such an investment can only have the highest returns. Conservation is nature study carried through to its logical end. It is sound, practical and economically beneficial. It begins with an attitude of mind which should be acquired by every child before leaving school.

Get All Six for Your Nature Library

A library has been defined as "a collection of books . . . kept for study and reading". When you acquire a library of Canadian Nature publications you will have to expand that definition; you will realize that you have more than just "a collection of books"—you have a key to the vast stores of enjoyment held in trust for everyone in Nature's treasury.

CANADIAN NATURE magazine follows the cycle of the seasons, bringing you up-to-the-minute information on mammals, insects, birds and plants; it contains interesting, authoritative material on every phase of natural science. CANADIAN NATURE tells you of new things to look for outdoors; it helps you to understand the fascinating relationships which exist among all living organisms, from the highest to the lowest; it guides you unerringly to a real and lasting appreciation of Nature's imperishable gifts. Each year you will look forward to adding five splendid issues of CANADIAN NATURE to your library. These will be the "backbone" of your collection. Then you will certainly want a copy of each of our helpful, inexpensive booklets, all of which are described fully elsewhere in this folder.

You will be delighted with the beauty of WILD FLOWERS, which contains 15 full-colour reproductions of enchanting flower-paintings, especially designed for framing . . . Our newest booklet, NATIVE FERNS, is also a feast for the eye. Its exquisite photographs seem to draw you into the secret places of the woods . . . CANADIAN BIRDS offers a fund of information for both the beginner and the "dyed-in-the-feather" bird-lover . . . You who are teaching or otherwise directing young people will greet NATURE ACTIVITIES with high enthusiasm. It gives hundreds of answers to that often-disconcerting question, "What shall we do?", and helps you to make greater use of the abundant source-material in CANADIAN NATURE . . . Every intelligent person is aware of the importance of conserving our natural resources. Read CONSERVATION ILLUSTRATED, get all the latest data on the subject, and then do your bit for conservation by discussing it with friends and neighbours.

Canadian Nature publications are for everyone—children or adults; they are of inestimable value to teachers, students, nature leaders, Girl Guides and Boy Scouts. They come to you as a non-commercial public service, with emphasis on accuracy, beauty and simplicity; they are not cluttered with advertising. Use them outdoors or in the classroom. Use them as gifts or prizes (see our special low-cost bulk subscription rates), and make sure that you keep copies in your library. You will want to refer to them constantly. Canadian Nature publications are valued assets in thousands of homes, schools and libraries throughout Canada and the United States. Order your copies today!

FOR YOUR NATURE LIBRARY

CANADIAN NATURE MAGAZINE. This popular magazine presents in attractive form brief, interesting, up-to date information on subjects in all the natural sciences, and contains questions and activity ideas, art work and projects for each season. It is written by authorities and illustrated by the best photographers and artists. *Canadian Nature* is issued in September, November, January, March and May. The five numbers contain approximately 200 pages, 90 articles, 35 colour plates, 160 photographs, 220 figure drawings. It was founded in 1949 in memory of Mabel Frances Whittemore, teacher and naturalist, and is conducted as a non-commercial public service. The press run now exceeds 35,000 copies of each issue. By encouraging an intelligent interest in nature and emphasizing the need for conservation of our natural resources, this magazine is making a real contribution to individual and national character. It is recommended for supplementary reading and reference work by Departments of Education in all nine Provinces and in seventeen States. It makes an ideal gift. It should be in every home, school and library. Prompt service on mail orders

NATURE ACTIVITIES. A practical, usable handbook for teachers, students, librarians, camp counsellors and all others actively interested in nature and conservation. The new edition of 64 pages and cover is simply brimming with hundreds of suggestions for the teaching of Natural Science. It contains chapters on the organization and leadership of indoor activities and field trips, the making of collections, exhibits and classroom museums, instructions for nature arts and handicrafts, and hundreds of definite activity suggestions, arranged seasonally week by week throughout the year. Profusely illustrated with photographs and 192 drawings by D. E. Farwell. Articles by J. A. Partridge, Marie Gaudette, Betty Price and Edwin Way Teale. Since first published in 1944, six editions totalling 30,000 copies have been printed. Single copies 50 cents, 25 or more, each 40 cents, 50 or more, each 30 cents. May be obtained free with two year *Canadian Nature* subscriptions at $2.00 each, or with twelve bulk one-year subscriptions at 75 cents each.

WILD FLOWERS. This booklet contains fifteen beautiful reproductions in full colour of favourite wild flowers, painted for *Canadian Nature* by Barrie Reonie, noted Canadian artist. The subjects are: Skunk Cabbage, Trailing Arbutus, Hepatica, Dutchman's breeches, Adder's tongue, White Trillium, Jack in the-pulpit, Blue Violet, Showy Lady's Slipper, Yellow Lady's Slipper, Twin-flower, Bloodroot, Joe pye Weed, Bunchberry and Bittersweet. When framed the pictures make ideal gifts or decorations. Each page is printed on one side only, so that single pictures may be conveniently detached. One booklet $1.00, two or more, each 80 cents, five or more, each 70 cents, ten or more, each 60 cents. May be obtained free with two year or 12 bulk one year subscriptions. Seven editions totalling 22,000 copies have been printed.

CANADIAN BIRDS. Seventy-five birds in their typical environments. A fascinating panorama of native bird life by L. L. Snyder, Curator of Birds, Royal Ontario Museum of Zoology. Beautifully illustrated with pen and ink drawings by T. M. Shortt. One booklet, 35 cents, 25 or more, each 30 cents, 50 or more, each 20 cents. May be obtained free with two-year or 12 bulk one-year subscriptions. Two editions totalling 8,000 copies have been printed. You will like this booklet!

CONSERVATION ILLUSTRATED. This authoritative and important volume of 128 pages and cover presents a graphic picture of our natural resources, the part they have played in the development of Canada, the manner and consequences of their use—and misuse. Through stimulating reading, basic information, and approximately 200 photographs and drawings, *Conservation Illustrated* makes clear the imperative necessity for conserving our woods, waters, soil and wildlife, and tells how this may be done. Price $1.00 a copy; 25 or more, each 75 cents.

NATIVE FERNS. Our newest booklet! Read the fascinating story of liverworts, mosses, ferns and their kin. This beautiful booklet describes them and tells how they differ from other common plants, where to find them, their economic significance, how they grow and develop. You will be thrilled with the beauty of 75 photographs of ferns by Bruce Metcalfe. Many other illustrations and drawings. 64 pages and cover. Price $1.00 a copy, 25 or more, each 75 cents.

SECOND EDITION

Conservation ILLUSTRATED

In view of the urgent need for material suitable for use in promoting public interest in conservation, the publishers of CANADIAN NATURE sought the collaboration of government officials, educators and conservationists in preparing the booklet CONSERVATION ILLUSTRATED. The first edition was sold out within six weeks!

This enthusiastic reception encouraged us to prepare a second, greatly enlarged edition. In order that it might be as comprehensive and authoritative as possible, a copy of the first edition was submitted to three hundred authorities from coast to coast with a request for their suggestions as to improvements and further topics to be included in the new edition. Based on their advice, the new 128-page edition of CONSERVATION ILLUSTRATED came into being.

This important volume presents a graphic picture of our natural resources, the part they have played in the development of Canada, the manner and consequences of their use and misuse. Through stimulating reading, basic information, and approximately 200 photographs and drawings, CONSERVATION ILLUSTRATED makes clear the imperative necessity for conserving our woods, waters, soil and wildlife, and tells how this may be done. Contributors include Robert Cushman Murphy, J. R. Dymond, A. F. Coventry, Grace F. Malkin, D. E. Farwell, James Savage, Robson Black, Ira N. Gabrielson, Marie Gaudette. Contains up-to-the-minute Canadian reference material, teaching suggestions, review questions and pupil activities.

LET'S WORK FOR CONSERVATION!

CONSERVATION ILLUSTRATED demands the attention of every public-spirited person. Act now to interest friends or schools! Encourage them to order the book and spread the message of conservation!

Price $1.00 a copy; 25 or more, each 75 cents. Mail Orders filled promptly.

Dear Father Plourde:

Further to our recent conversation concerning the replacement of the Corona Readers in Grades One and Two with a Catholic series that would be better suited to Indian children, I would like to present to you the following proposal for your consideration:

(a) That ten copies of the Faith and Freedom Series, published by Ginn & Co., be sent to a selected group of Roman Catholic day and residential schools;

(b) That ten copies of the Cathedral Basic Readers Series, published by Gage & Co., be sent to the same selected group of Roman Catholic day and residential schools;

(c) That the principals of the schools selected be requested to submit to the Department, by April 31st, a written report as to which of the two series would be, in their opinion, the more suitable for use with Indian children.

Tentatively, Mr. Phelan and I would suggest that the following schools be used for this experiment:

Dear Col. Neary:

As a result of our conversation yesterday, I am sending you now sample copies of the CARIBOU ARITHMETICS. These four workbooks are, as you know, adaptations of the corresponding ones in the JOLLY NUMBER Series. It may be that the CARIBOUS will prove even more suitable in the Indian schools.

I am also mailing to you the pupil's texts for LIVING ARITHMETIC. These, you will note, have been revised and bear the 1947 copyright date. Accompanying pupil's workbooks and teacher's manuals are in preparation, and these will be available in a short while. You will be interested to know that the Grade Three text is now being adapted to include Canadian usage. The rest of the books will be similarly adapted within the next year or two, and I think you will agree that this will provide the most up-to-date Canadian arithmetic series available.

You will be particularly interested, I think, in the sample copy I am sending you of HERE COME DAVID AND ANN. This is the Wall Chart or Big Book which accompanies HERE WE COME, which, in turn, is the introductory pre-primer to the Faith and Freedom Basic Readers. For your further reference, I now list the price of each book of the pupil's books in this series:

FAITH AND FREEDOM READERS

Our First Book (a reading readiness book) (workbook)	$0.32
Here We Come (preparatory pre-primer)	$0.28
This is Our Home (basal pre-primer)	$0.28
Here We are Again (absorption pre-primer)	$0.28
Workbook for Here We Come and This is Our Home	$0.28

CORONA READER SERIES

It is our intention to review carefully the possibility of replacing the following books in the above Series with a new series in September:

Grade I: Our First Book (Reading Readiness)
Let's Play (PrePrimer I)
Come With Me (PrePrimer II)
Happy Days (Reader)
Workbooks for Happy Days
Teacher's Manual for Happy Days

Grade II: Playmates
Workbook for Playmates.

Therefore, will you arrange to stock these books in small quantities from now on.

It is not our intention to change the books of the Corona Series in Grades Three and upwards. Therefore, will you arrange to stock such quantities of these books as to bring your totals to one hundred (100) copies each.

TREASURY READERS

It is understood that the books in this Series are identical with those of the Highroads to Reading Series. Therefore, will you please arrange to substitute the Treasury Readers for the Highroads to Reading where teachers request the latter. I am informed that the Highroads to Reading Series is out of print and will be out of print for some time.

Quarterly Report,
Babine Indian Agency,
December 31, 1946.

x x x

It is not the hardships of this country that make it difficult to hold good teachers but small matters such as slowness of pay when they first arrive and most of all the difficulty of securing needed school supplies. They order according to the "Bulletin" which is enthusiastically received, to find that what they consider the essential items of their requisitions are left off. It seems that it is easier to get a new school than half a dozen text books and this means long hours in the evening for a progressive teacher preparing material for the next day.

In the Babine perhaps more than anywhere, it will be a great day for Indian Education when our teachers are rated as Civil Servants without regard to institutions other than that required by our Act in respect to Protestants and Catholics.

Grades V-VI

THE STORY OF OUR PRAIRIE PROVINCES

By Joseph M. Scott, Provincial Normal School, Calgary, Alta.
With Maps and Line Drawings by Lloyd Scott and Kathleen Mair.

In the pages of this new book, History, Geography, and Science meet to unfold the romantic story of the Canadian prairie lands for pupils of Grades V and VI.

It will be found equally useful whether the enterprise is the adopted technique or the traditional approach is still in use.

The following are among its outstanding features-

1. All material used was carefully tested with Grade V classes for interest, language difficulty and general suitability before it assumed final form. The word count is well within the bounds set by standard authorities for the grades in question.

2. The integration of history, geography and science broadens the basis of the content and leads the pupil to a more complete appreciation of life in our prairie lands both past and present.

3. Varied and stimulating activities are suggested at the end of each chapter.

4. Black and white sketch maps enable the pupil to fix the location of all features of the area as the story proceeds. Simplicity is the keynote of these maps which are specially drawn for use by children of 10 or 11 years of age.

5. Every illustration has definite value as a teaching device. The line drawings are the outcome of careful research on the part of the artist. They are authentic. In addition over eighty half-tone reproductions are used.

Dear Sister Elizabeth Marie:

I have for acknowledgement your letter of February 14th, and attached and amended Form "C" of the Educational Survey.

With reference to the Cathedral Basic Readers, which is the Catholic adaptation of the Basic Readers now used in our non-Catholic Indian schools, this Series has been carefully examined and we are now conducting a survey of the relative merits of the Cathedral Basic Series and the Faith and Freedom Series. It is our intention to use the better of these two Series in Grades One and Two as replacement for the Corona Series.

We are providing them for a selected few schools so that they can use both Series and advise us as to which is the more suitable for use in Indian schools.

Dear Major Davey:

We are going to try both the Cathedral Basic Readers and the Faith and Freedom Readers in several of our schools before deciding which is the better series to use for Catholic children. We intend to send ten of each series to St. Mary's Mission and Kamloops Residential Schools, and to St. Catherine's Day School - and, of course, to schools in other provinces. The Cathedral Basic Readers have minor adaptations from the Basic Readers used in non-Catholic schools.

You might have a look at both Series when you are visiting these three schools and let me have your opinion.

Ottawa, February 21st, 1947.

Dear Sir: **Highroads Series of Readers**

As you are probably aware, the above Series of Readers is now considered by all Provincial Departments of Education to be out of date. It is being replaced in Grades One, Two and Three by the Basic Readers of the Curriculum Foundation Series (Publishers: W. J. Gage & Company, Toronto).

Realizing the above, we have been, this year, replacing the Highroads Readers in Grades One and Two with the Basic Readers. It is our intention, next year, to replace the Grade Three Highroads Reader with the Grade Three Basic Reader, which is entitled "Streets and Roads".

It is understood that your stock of Grade Three Highroads Readers is now depleted, and rather than re-stock with Treasury Readers, which is also outmoded, it has been decided to start issuing the Basic Readers for Grade Three.

Therefore, would you kindly arrange to stock the following quantities of Grade three texts in the Basic Readers:

200 copies - Streets and Roads (Book Three),
200 " Think-and-Do Book for Streets and Roads (Book Three) (Workbook),
50 " Guide-Book to Third Grade Programme.

The Provincial Departments of Education have not, as yet, decided on the Series which will replace the Highroads Series in Grades Four to Six. Therefore, we will have to continue to substitute the Treasury Readers in these Grades.

Yours truly,

Bernard F. Neary,
Supt. of Welfare and Training.

Pursuant to a recent conversation with your office (Miss Johnson - Procter) in which it was agreed that you would forward to Indian Schools, copies of this publication, we are forwarding a list of schools and, in accordance with Miss Johnson's suggestion, an insert to introduce the booklet.

The introduction has been written by Mr. Neary, Supervisor of Welfare and Training of Indian Affairs, Department of Mines and Resources, at whose instigation we are putting forward the requested distribution.

Following the name of each school is the number of teachers in the school and it is requested that a copy be made available to each teacher. This mailing list is the only existing copy and it is requested that it be returned to Mr. Neary or to this office where we will ensure that Mr. Neary receives the list again.

Your ready co-operation in the distribution of the books is sincerely appreciated by Mr. Neary and the undersigned.

Dear Colonel Neary:

I am in receipt of a communication from the United Church authorities in the Montreal Conference, drawing my attention to a book, "Think-and-Do to accompany: Our New Friends," which is one of the Cathedral Basic Readers, and which I am advised has been sent for use in Indian Schools conducted under Protestant auspices - that is The United Church of Canada - in the Province of Quebec.

I want to say, first of all, that this is a very fine book but that it has in it certain passages which seem to me to be out of place, in their present form, in a school conducted under Protestant auspices to which children of that faith are sent. I should particularly draw your attention to Page 9. You will, I know, not misunderstand me when I say that such instruction should not be given to children in our schools -- not that we have any objection to children of the Roman Catholic faith going to mass; but simply that we feel that, if instruction is to be given to children concerning the forms in which the religious faith of their fathers finds expression, it should be given in that form and not in the form of another Church.

I feel that the circulation of these books in schools conducted under Protestant auspices is an error which needs only to be mentioned to be corrected by the withdrawal of the books from these schools.

Yours very sincerely,

Geo Dorey

Dear Dr. Dorey:-

We have your letter of the 20th inst., with reference to certain books supplied to one of the schools conducted under the auspices of the United Church of Canada.

Previous to receipt of your letter we had a similar complaint from another school and upon investigating the matter it was found that the mistake was made by the shipper in the Department of Public Printing and Stationery.

There are two series of books, "Our New Friends" with a blue cover is intended for non-Catholic schools. "Our New Friends - Cathedral Basic Series" with a green cover is intended for Catholic schools. The shipper apparently did not understand the difference.

We regret very much that this mistake occurred which was unintentional on our part. While you do not mention the school conducted under your auspices to which the wrong series of books was sent, we are under the impression that it was the Oka Country School and we are writing to the teacher to return the books which she has received and arranging to supply the proper series.

WAX CRAYONS.

From a study of the supply sheets recently sent to me it would seem that crayons are out of stock in your warehouse. We have recently received samples of a crayon manufactured by the Canada Crayon Company, Limited, Lindsay, Ont.

As the children in the lower grades of our schools do not appreciate the value of a more expensive crayon, it is felt inadvisable to supply them with Reeves' crayons in future. Therefore, would you please arrange to stock ten (10) cases No. 28-8 Peacock crayons. We have received the following quotation from the Canada Crayon Company for this particular brand:

No. 28-8 Peacock crayons $20.00 per 5 gross case.

It is understood that this price is F.O.B. Lindsay, tax extra.

The blackboard chalks which you have been providing for our schools from this particular Company have proven very satisfactory and it is felt that these crayons will prove just as satisfactory.

Dear Bishop Jordan:

Catholic Reader Series.

We have been receiving representations from Principals and Teachers of our Indian day and residential schools that the texts of the Corona Series in Grades One and Two are unsatisfactory for use with Indian children. This has been more seriously aggravated since the Department has been providing the Basic Reader Series for use in Protestant schools. As you are probably aware, this latter Series contains many teaching aids that are valuable for use with Indian children.

We have decided, therefore, to select a few Indian day and residential schools, as hereunder, to test two series of Catholic texts:

Qu'Appelle Indian Residential School, Lebret, Sask.,
St. Mary's Mission Residential School, Mission, B.C.,
Sandy Bay Residential School, Marius, Man.,
Kamloops Residential School, Kamloops, B.C.,
St. Catherine's Indian Day School, Duncan, B.C.,

It is our intention to provide each of the above five schools with ten copies of each of the texts in Grades One and Two of the following Series:

No. 1 - Faith and Freedom (Published by Ginn & Company),
No. 2 - Cathedral Basic Readers (Published by Gage & Company).

We would like to point out the following features in these two Series for your considerations:

Most Reverend A. Jordan, D.D.,

FAITH AND FREEDOM.

This Series has been especially designed for use in Catholic schools by the Commission on American Citizenship of The Catholic University of America. The material of all the books centers around the social-religious life of the child in the home, neighbourhood, local community and nation. It provides him not only with interesting experiences similar to those which he himself has had but also with the types of conduct most in harmony with the teaching of faith and the ideals of the Christian life.

CATHEDRAL BASIC READERS.

This Series is an adaptation for use in Catholic schools of the Basic Readers, as already being provided to our Protestant Schools. This adaptation has been carried out, with ecclesiastical approval, by the Reverend Father J.A. O'Brien, of the University of Notre Dame.

As you are aware from Volume I of Indian School Bulletin the Basic Reader Series has been widely accepted throughout provincial schools as being most satisfactory.

The Department, therefore, wishes to have an expression of opinion from the Principals and Teachers of the above five schools as to which of these two Series should be supplied throughout our schools in Canada.

It would be appreciated if you would select two groups of students within your school and use these texts with them in a controlled experiment; then report your findings and recommendations to the Department as soon as possible after June 30th, 1947.

It is not our intention at present to replace the Corona Series in Grades Three and upwards.

Yours sincerely,

Bernard F. Neary,
Supt. of Welfare & Training.

Dear Sir: Catholic Reader Series

With further reference to our letters of October 8th and January 22nd, in which you were advised of our intention to test two series of Catholic readers with a view to replacing the Corona readers now in use in Grades One and Two of our Catholic schools, we enclose, for your information, copy of a letter we are forwarding to the principals whom we have chosen to make this test.

We are also enclosing Requisitions Nos. 27300-1-2-3-4 covering ten copies of each of the texts in the Cathedral Basic Series and ten copies of each text in the Faith and Freedom Series which the principals require for this test.

In our letter of January 22nd, we requested you to order fifty copies of each of these texts for our stock. We understand that they have not, as yet, all been received. We would appreciate it if you would fill the enclosed requisitions as soon as the texts are available. One series is plainly marked "Cathedral Basic Readers". This series is intended for Catholic schools. The other series is for Protestant schools. In forwarding requisitions we will state which series of readers is to be sent to any particular school.

You should direct your shipper's attention to this matter so that the "Cathedral Basic Readers" will not be sent to any school where we specifically request the "Basic Reader".

Dear Sir: **Modelling Clay**

As you are probably aware, we have been unable to obtain supplies of modelling clay for use in the primary grades of our schools for some time. We formerly used Harbutt's "Plasticine", which was made in England.

It has now been brought to our attention that modelling clay is being manufactured in Canada by the Art Chemical Products, Limited, 310 Davenport Road, Toronto 5, Ont. This clay has been examined carefully and has been found to be satisfactory for our purposes. They have quoted a price of 25 cents a pound, sales tax extra.

Would you please arrange to stock the following quantities:

50 Lbs. No. 39 Klean Klay (1-lb. carton), Blue,

We have received your letters and samples of February 27th and March 3rd.

We are arranging today with the Department of Public Printing and Stationery to order fifty (50) pounds of your modelling clay in each of the following colours:

Blue, Red, Green and Orange.

The crayon package contains a rather wider selection of colours than we have been using. Have you one containing only eight or ten colours?

Can we please be advised also if you put out Klean Klay in packages with two or more assorted colours in each.

This is one of the texts in a series called CANADIAN SOCIAL STUDIES UNIT READERS. It tells of the habits and customs of the three separate Indian groups:

Dear Mr. Neary:

I received your kind letter of Feb. 26th for which I am grateful, giving me the information regarding the Catholic Reader Series for our Indian schools.

I am confident they will be appreciated by the Missionaries, the Sisters and the children and undoubtedly the principals and teachers in the four schools named for a test will be able to give you a report that will help you to decide which series would be more beneficial for the children.

I must thank you for sending me the information which indicates the progress you have been able to make so far in improving the educational facilities for our little Indian children.

With kind regards, I remain

Gratefully yours in Christ,

Silent Reading Exercise Books

The enclosed books are the new Silent Readers in Social Studies, published by The Copp Clark Company. I have looked them over carefully and think that they will be useful in our Indian schools, by combining:

(1) Silent reading practice,
(2) Useful material in Social Studies.

I thought that we could use this series to replace Reading Exercises (Dent) at present in use and which costs us 32 cents each.

You will find that Book Three deals with life in other lands and Book Four deals with social history then and now. Most of the material is action accounts as revised from original texts and - I think - most effective.

I would appreciate your comments.

Dear Colonel Neary,

Re apportioning of the cost of school materials for Eskimo and others attending Indian day-schools.

This will acknowledge receipt of your letter of March 6th in regard to the apportioning of the cost of school supplies. As a result of discussions with officials of the Indian Affairs Branch and Northwest Territories Administration, an agreement was reached whereby the apportioning of the cost of school supplies would be on a pro rata basis between Indian Affairs Branch and Northwest Territories Administration. This policy is in accordance with a decision of the 169th Session of the Northwest Territories Council (January 14th).

We thank you for your kind letter of Mar.17th, and we are very sorry that we have no copies at present of catalogues of prayer and hymn books, though we are preparing a new list very soon. At the present time very few of the prayer and hymn books and prayer books only are available. We have none of the cheaper books for congregational use such as a cloth covered one at $1.25. There is also the second type one in cloth at $2.50 and a larger type, Small Pica edition, at $3.00. We have of course the individual prayer and hymn books in small type at $3.50, $4.00 and $6.00 and in the other bindings in larger type from $4.00 upwards. We have placed your name on our list and immediately we have a new list ready it will go forward to you.

Ottawa, March 31st, 1947.

Dear Sir:

We have been in correspondence with several firms concerning a supply of Dry Tempera Colours to replace the Liquid Colours at present being supplied. As you are probably aware, the Liquid Colour comes in bottles and is difficult to transport.

We would like you to stock the following quantities of "Regal" Dry Tempera Colours, from the L. A. Reeves Ink Company, 215-217 Niagara Street, Toronto 3, Ont.:

36 - 8 Oz. tins Red,

Mr. Bernard F. Neary:

P.S.

(Pardon us for putting our Post Script first, but we think it perhaps more important than anything else we have said.)

Presumably you are a busy man.
We suggest that you submit to us a statement of your requirements and permit us to make recommendations with some knowledge of what your needs actually are.
We have the necessary experience to advise you intelligently, and the necessary integrity to do so honestly.
Given the necessary information to work on, we will be pleased to advise you to the best of our ability. No obligation, of course.
After all, we are trying to be of service, not merely trying to sell you something which may or may not meet your needs.

To do this properly we would require to know in some detail:
Number & Classfiication of schools for which you wish to provide:
No. of Ungraded Schools: Approximate Average of Pupils in each:
Graded Schools: Grades in each:
Amount of money you wish to spend, per pupil, or per grade or per school as the case may be.
Approximate percentage of inexperienced teachers. (We have some items which only experienced teachers could handle properly, some unsuited to ungraded schools, etc.)
Any other information you might think pertinent

Respectfully submitted,

TRANS-CANADA TEACHERS' SERVICE

7 HEATHER STREET, TORONTO 12, ONT.

March 31, 1947.

Mr. Bernard F. Neary,
Superintendent of Welfare & Training,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Sir:

Thank you kindly for your enquiry of March 28. Under separate cover we are sending you samples as requested. The following pages will give you some details concerning the lines we handle.

The prices quoted to you are those quoted to Departments of Education, and are considerably lower than our regular prices to the individual teacher.

Permit us to add that we have a profound interest in education (as well as over twenty years experience), and we are attempting to provide a service which we feel will benefit both the over-worked teacher and the pupils in her care. In these times when so many teachers lack experience, there is a particular need for the type of material which we have available. Please note that many of the items listed not only provide work for the advancement of the pupil, but also tell the teacher how to make the best use of it.

Since we have such a large number of items, we do not as yet carry a large stock of any one, and orders of any size should allow us approximately 30 days for delivery.
Prices quoted are F.O.B. Toronto.
Re Terms: Please advise what you consider reasonable.
(We are presuming goods would be shipped to Ottawa for distribution by your office under frank. We could handle distribution, of course, at the prices quoted plus postage & handling.)

We will cheerfully provide any further information which you may require, and will send additional samples on request.

Yours very truly,

W. E. Lennon

President.

HECTOGRAPH WORK BOOKS:

The Duplicopy folder attached is self-explanatory. Prices on these items, to your Department, are as in the folder. (Our regular prices to the individual teacher add 25¢ to each price.)

Morgan-Dillon folders are temporarily out, but we have written for a further supply and will send you one as soon as we receive them. The mimeographed list (also attached) lists Morgan-Dillon books only. Prices to your Department are 25¢ less than those listed. This line numbers 40 books in all and includes, in addition to those listed:

	Pioneer Days	$1.00
	Over Land & Sea (Beginning Geography)	$1.00
	England-Scotland-Wales (Geography--History--Literature-combination)	$1.00
	Sweden-Norway-Denmark	$1.00
x	My Health Book (Intermediate Grades)	$1.25
x	My Eskimo Book (Intermediate Grades)	$1.25
	My Flower Book.....40 pages	$1.25
	Reading Work Book for Grade 3	$1.25
	Elementary Steps in Multiplication & Div.	$1.25
	Third Grade Arithmetic	$1.25
	Fourth Grade Reading	$1.25
	Water Life Miracles	$1.00
	Language Drills (Various grades) each book	$1.25
	First Lessons in Written Language	$1.25
	Birds & Flowers	$1.00
	Common Birds & Garden Flowers	$1.25
	(and others)	

x. These are in addition to those listed on the mimeographed sheet which are for primary grades.

Frankly, we are of the considered opinion that these two lines are the finest Hectograph Work Books available. In any case, you will receive samples of both, and can judge for yourself.

We hope to have a Hectograph available shortly, but have not yet completed the necessary arrangements.

STECK PUBLICATIONS:

The WORKTEXT is a new development in the field of education, designed particularly to enable the pupil to help himself. Samples have been sent.

This is a very recent acquisition with us, and while we have the entire line available less one title, we have not yet been advised which title is not available. At a rough guess, it is most likely to be one of the Primary Reading items.

Prices on STECK items: the retail price as listed on the attached folder, plus 25%. This may be applied to the total order rather than to the single item, which has the effect of giving you the fraction.

We have lines of four other publishers available, but have not yet sorted these out to our satisfaction. Samples of two lines are submitted with prices as follows:

Phonics We Use: Lyons & Carnahan.....40¢ each.

The World We Live In.....Harlow.60¢ each.
(The price is tentative, being probably to low from our standpoint, but in any case we have better books covering the same ground at lower prices. See STECK folder. We include this largely for comparative purposes.)

Friends & Playmates.....Harlow...60¢

(Correlated studies. See inside front cover. Six books in the series.)

Arithmetic: Grade 3; Form 2:.....50¢

(The set-up of this complicated series, with each book in 3 forms is too complicated for general use. Submitted for comparison only.)

The top number (Phonics we Use) is excellent. There are 4 books in the series, A; B; C; & D, giving a progressive course.

McCormick-Mathers: (Folder enclosed) may interest you. We have not yet priced this line.

Prepared Seatwork:

This is mimeographed material, prepared and sent out monthly.

It is based very largely on the Ontario course of study, a circumstance which makes very little difference to the other provinces except in the case of Social Studies, in which the teacher may require to use material provided for Grade 8 in Grade 7 (or vice versa).

We have sent a set for 1 pupil for each grade from 1 to 8 for the month of April. Personally, we do not think that this type of material would serve your purposes because of the amount of handling that it would entail; but the teachers who have used it, from Nova Scotia to British Columbia, keep coming back for more. It is not a pretentious item by any means, but it has proved to be exceedingly popular with teachers.

DUPLICOPY DUPLICATING WORKBOOKS HELP YOU
Because... They are

1 TIME AND LABOR SAVERS

In some right drudgery. Lessons are already prepared. Simply remove a sheet and reproduce desired number of copies on any gelatin or liquid duplicator.

2 PROPERLY EDITED

Classroom teachers of recognized ability in scientific and educational fields are authors of DUPLICOPY Workbooks. Familiarity with actual present day problems enables them to present the latest developments in the art and science of teaching.

3 PROGRESSIVE

All of the material is well within the scope of pupils for the intended grades. The language is simple and the units are flexible. All vocabularies have been checked for proper grade levels with Thorndyke and Gates' word list. Special attention has been given to development of proper eye movement.

4 MECHANICALLY CORRECT

Length of line, mechanics of type, and spacing were selected after careful research in visual perception tests by Dr. Carl F. Sheppard in Betts' Survey of reading.

5 PRACTICAL

Every book contains many of material which has been tested and tried in actual classroom practice. The diagnostic and achievement tests provide the teacher a basis for measuring individual progress.

6 ECONOMICAL

DUPLICOPY Workbooks are printed in positive form with hectograph ink for use on any gelatin duplicator. For the first time they are also printed in reverse for use on any liquid duplicator. Each sheet in a DUPLICOPY book is a master which will produce 50 or more copies.

GUARANTEE

All books are guaranteed to please you. If for any reason you are not satisfied after examination you are privileged to return the merchandise and the amount paid will be promptly refunded or full credit given. All books are new and of recent copyright and not reprints of old books now on the market.

Important When Ordering!

Cash with order. Add postage of 10c for first book or item on order and 5c for each additional book or item on same order. Illinois purchasers add 2% occupational expense.

Terms: To School Boards, Superintendents or School Principals —Thirty Days Net.

Indians of Canada

As you are probably aware, I have been obtaining sample copies of various books published in Canada dealing with our Indians. One of the most satisfactory which I have obtained at the present time is attached hereto. It is published in Regina and Toronto and I feel it would be more suitable than the one which I sent up to you recently dealing with the stories of three Indian boys. You will find the photographs in this book are very good and the work on the B. C. Indians as submitted by the Reverend Mr. Raley is exceptionally good.

3. Resignation of Dr. Camsell as Commissioner of the Northwest Territories - 8559

Council unanimously adopted the following resolutions

Resolved,

That the Northwest Territories Council records its profound regret that Dr. Charles Camsell has resigned as Commissioner of the Northwest Territories.

In the twenty-six years that Dr. Camsell has served on the Council and particularly during his more than ten years as Commissioner, he has made an outstanding contribution not only to public knowledge of the resources of the Northwest Territories but to their development as well. It was indeed fitting that he should play such a prominent part in the affairs of the land of his birth.

His Majesty the King and learned societies in Canada and other lands have honoured his distinguished efforts and ability.

The members of this Council join in paying tribute to their retiring colleague with the heartfelt wish that he may long enjoy

The Chairman explained that a certain sum was provided by the Northwest Territories Administration for the construction of this road and the Giant Yellowknife Gold Mines Limited did the work. The Minister and he saw the road and found it far superior to anything that had been expected. There is a balance of $14,011.24 to be paid and the company have requested that the Administration pay half - $7,005.62. The company makes no charge for that part of the road (about one mile) between its shafts. A motion was passed to the effect that $7,005.62 be paid from the Liquor Fund.

7. Travelling expenses of Rev. Maurice Flint re preparation of Eskimo Grammar - 7043

The Secretary explained that it had been decided to translate and publish a certain amount of literature in Eskimo syllabics. In addition to that Dr. Peck's Eskimo Grammar was revised and put in more modern form by Rev. Maurice Flint of Toronto who is an expert on the Eskimo language. It has been agreed to publish this in mimeographed form. This would be largely for white people to learn Eskimo. There is also an Eskimo lesson book prepared largely from data from Greenland to enable Eskimo children to learn English. Twenty-two pamphlets for the education of Eskimo will be completed in the syllabic. Mr. Flint is translating these for the Administration. He came to Ottawa about the grammar and about the other work and has submitted travelling expense accounts. It was agreed that they should be paid.

Consideration is also being given to paying Mr. Flint for the time he devotes to this translation work. It was explained that Mr. Flint is doing this work because he offered to do it and is very able. The Roman Catholic authorities who have a slightly different type of syllabic, have been told that if they want to go ahead with similar work they will receive the same consideration and treatment as Mr. Flint. A discussion followed regarding the honorarium to be paid Mr. Flint for his work on all these publications. It was agreed that a fair honorarium should be paid but the amount was not fixed. Stand.

Officer at Aklavik he reported on the 14th January, 1946, that the police were having difficulty in enforcing his order to the owners of the local hotel in regard to dumping garbage and night soil into the river. It was doubtful whether they had the authority to enforce this order.

On the 19th February, 1946, the departmental solicitor advised that the Ordinance to Prevent the Pollution of Running Streams should be amended to give the medical health officer the necessary authority. The final draft of the proposed amendment gives the Medical Health Officer authority to issue such orders as he considers necessary. The amendment was approved in principle.

9. Education (Mackenzie District) -

(i) Verbal report of Mr. McKinnon, School Inspector 17

The Chairman explained that it had been decided to do something about the matter of improving educational facilities in the Northwest Territories and the Administration succeeded in recruiting as School Inspector on it's staff a man who has all the qualifications necessary for the job. The settlement of Yellowknife has been offered $150,000 to put in a school of opportunity and that will be one of Mr. McKinnon's first charges. He has an individual problem in each settlement, no two exactly alike, and in every case he will work with the Indian Affairs Branch to bring into existence whatever improvement is possible within the limits of the budget for that locality. It was thought that after his first trip to the Mackenzie District and the limited opportunities which he has had to observe conditions, it would be well to hear Mr. McKinnon's impressions on what he found there and his suggestions in a broad way as to what steps might be taken. In due course he will prepare a report which will be studied by Council but in the meantime the budget must be prepared as, in order to accomplish anything in the Northwest Territories, everything has to be started well in advance.

Mr. McKinnon said he appreciated very much the opportunity of meeting the members of Council. On August 10 he reached the Northwest Territories and spent two months investigating educational conditions in the north. He visited the tents of the natives along the Mackenzie River as far as Aklavik and one of the questions he asked was, "Did your wife attend a school?" He noticed that in every case where the mother had attended a school, conditions were much superior to those in settlements where the people had received no education. Mr. McKinnon was firmly convinced of the good effect of education in the life of the natives. He noticed that in many of the schools there was very little equipment and practically no library facilities; that the certification of teachers ranged from Grade VII standing to First Class. In other words, one of the things that impressed him was the lack of uniformity. He noticed that some of the schools used Canadian Readers which were in use thirty years ago; the Alberta curriculum is used in some schools and none at all in others.

Mr. McKinnon recommended that an Office of Education be set up where education would be co-ordinated and unified; that a grant of $7 per pupil be paid; that a salary of $1,800 per teacher be provided as this is the salary paid by Indian Affairs Branch throughout Canada; that $50 per class room be provided as a library grant; that a radio be provided for each class room; that a film library be set up, and that a qualified educationist be appointed as his assistant. The estimated pupilage of the Mackenzie District would be 2,000 children of school age and it is absolutely impossible for one man to attempt to give the services which are required at the present time.

Considerable progress has been made at Fort Norman, Fort Rae, and Hay River on an agreement made between the Northwest Territories Administration and Indian Affairs Branch. Plans have been made to open three temporary schools until the situation is clarified and it is known just what will be needed in various areas. The arrangement is that Indian Affairs will pay the

teachers' salaries and pay for text books, desks, and equipment; the cost will be taken on a pro rata basis between Indian Affairs Branch and the Northwest Territories Administration. There were some 70 children of school age at Fort Norman and the residents were very anxious for some type of education. The older boys and girls mentioned the idea of adult education and asked if classes could be given in the evenings. At Fort Rae the residents submitted a petition requesting a school. They plan to have a temporary school but the School Inspector would advocate this only as a temporary measure. A residential school will be needed ultimately.

He was convinced the schools at Fort Norman and Rae must be residential schools in the future because the Indian and Eskimo are both nomadic and that is the only way educational facilities could be provided for them. These views are endorsed by Bishop Trocellier, Bishop Fleming, and the residents in these various areas. There is also some talk of Fort Rae becoming a port when the mining development takes place in that area and that may be another factor in support of setting up an appropriate residential school there. Mr. Gibson explained that the chief reason why there has not been more done in the past at this point is that it is generally believed that Rae is situated on a very poor site where there is poor water and everything has been against it. Even with the amount of business going up to the Snare River through Rae, it is found to be a very difficult place. Mr. McKinnon and Mr. M. Meikle looked for a site and there was only one where a residential school could possibly be built. It was planned to have temporary schools at Rae, Fort Norman, and Hay River, sometime in the near future. The one at Hay River would be in the old residential school. The residents there are in need of education and are very concerned about it; they have presented a petition.

Mr. McKinnon inspected educational facilities at Fort Smith. He had a talk with Mr. Capell the Secretary of the Public School, and there was a deficit of $6.67, $200 owing to the Hudson's Bay Company from the previous year and the teacher's salary coming due. Fort Smith emphasizes the fact that the Administration's financial policy towards the Northwest Territories has to be revised within certain limits and Mr. McKinnon has tried to make arrangements in the 1947-48 Estimates whereby that will be done. In the meantime the Fort Smith Public School is in vital need of financial assistance and he recommended the grant be increased from $700 to $1,000 to take care of this special emergency and that the residents carry on as in the past until such time as the Administration's policy goes into effect. Council approved of increasing the grant to the Fort Smith Public School effective January 1, 1946.

The School Inspector noticed that the classes are too large. At Aklavik the teacher had 76 children and 50 of them were non-English. One teacher was teaching as many pupils as the four teachers were at Yellowknife last year. Allowance will have to be made in the future for smaller classes in order to obtain greater efficiency.

In his 1947-48 Estimates Mr. McKinnon has made allowances for $1,600 for a teacher's average salary based on qualifications and experience; for an Office of Education--office rent, $50 a month; supplies $600; equipment $750, total $1,950--an educational library containing books and periodicals $200; film projecting outfit to screen pictures before sending them to schools, $1,000; the salary of a supervisor of training, $3,000-$3,600; a stenographer $1,200. In his estimates he tried to make a very modest and small beginning in certain special projects--$50 per class room for a library, $1,400; 24 radios at $50 each, $1,200; $500 as a beginning in adult education; $250 for correspondence courses; $250 for handicrafts; home economics $500 in certain selected areas; manual training $500 in certain areas; and $2,500 for beginning teachers' institutes. The total for special projects is $7,100, half of which should be paid by the Northwest Territories Administration and the remainder by Indian Affairs Branch.

If possible, allowance should be made in the estimates for educational facilities at Good Hope where there are about 60 children of school age and also at Arctic Red River as the residents are alarmed about

the lack of educational facilities. Council decided that in addition to those two points the matter of opening a school at Fort Franklin be investigated and action taken to meet the needs.

In order to bring about the reorganisation of education and extend existing facilities, the sum of $45,000 has been included in the 1947-48 Estimates for the Government of the Northwest Territories under the following consolidated headings:-

Grants	$34,150
Printing and Stationery	500
Supplies and Materials	3,555
Travelling Expenses	3,000
Freight, Express, Telegrams, Postage, etc.	350
Equipment, Maintenance and Repairs	2,625
Sundries	820
Total	$45,000

Owing to conditions existing in the Territories it may not be possible to confine expenditures as indicated above. Council, therefore, agreed that whatever reallocation is needed to meet requirements should be carried out.

At this point in the proceedings Mr. McKinnon was asked if he was of the opinion that the Administration should pay the salaries of all teachers in the Territories. He replied that this should be the policy with the exception of those within organised school districts. Council concurred.

It was reported that the Indian Affairs Branch have a proposal before Cabinet Council to make all teachers of Indian day schools permanent Civil Servants. A new salary schedule has been worked out and the teachers will contribute to the superannuation fund. Grants to Indian schools are also being substantially increased this year. The Northwest Territories Council expressed the opinion that the teachers appointed to the main settlements of the Territories should be full-time Civil Servants and responsible to the school inspector. The matter of setting up appropriate positions is to be dealt with as soon as possible.

It was agreed that the Administration should buy equipment, modern text books, etc., as needed and be reimbursed on a pro rata basis by the Indian Affairs Branch. Alberta school books will be used and the Alberta curriculum followed. Requisitions for such equipment, etc., will be prepared by the Northwest Territories Administration after consultation with the Indian Affairs Branch.

It was also agreed by Council that wherever children of a school or a community desire to purchase a motion picture projector for educational purposes, the Northwest Territories Administration will contribute 50% of the cost either from the Territorial Liquor Fund or the Administration Vote.

(ii) Arrangements for school at Port Radium - 16635

Eldorado Mining and Refining Ltd. wish to have a school at Port Radium and are preparing a room to be used for this purpose. They will also employ temporarily at $75 per month, the wife of one of their employees who is a qualified teacher. Later the company intend to provide a new school building and employ a qualified teacher on a full-time basis. The school will be operated in accordance with the regulations.

Council agreed that the Northwest Territories Administration should pay half the cost of opening and maintaining the temporary school and also half the cost of all expenses connected with the permanent school.

(ii) Use of poison on wolves by trapper at Eskimo Point 15091

... The Secretary explained that D. C. Turner, a trapper at Eskimo Point who is an ex-R.C.M. Policeman and well versed in the law, found that wolves were taking about one-half his fur catch. He set out poison around his traps in an attempt to reduce the number of wolves. He was arrested and tried last summer before a Justice of the Peace. He was fined $5 but immediately wrote out an appeal, his object being to force to the attention of the Administration the necessity of doing something to control the wolves. He wants the law modified to permit responsible trappers to poison wolves or, failing that, he wants the government to employ paid wolf exterminators. The wild life authorities were consulted and said nothing could economically be done to reduce the wolf population in such an extensive area as the cost would probably exceed the value of the fox catch. Poison cannot be permitted owing to danger to other wild life. He has appealed but has paid no deposit in this connection.

It was suggested that the trapper in question be informed of the views of the wild life authorities in regard to wolf control and that any further use of poison by him may result in the cancellation of his trapping licence. He might be advised that since no deposit accompanied his appeal it is doubtful if it would be entertained by a stipendiary magistrate. He may wish to withdraw his appeal.

(iii) Education -

(a) Mr. J. G. Wright's report. 17

The Secretary read a memorandum on education in the Eastern Arctic dated November 19, 1946 (copy attached).

Regarding literature, the Secretary said there would be an Eskimo Grammar, a lesson book to teach Eskimo children English based on books used in Greenland (this book was distributed last year and the local dialects are being put in so the book will be of use in any part of the north); a phrase book which will be useful to people going in to the north for a short time, and a book which may be called a Book of Wisdom and will cover,-

The Chairman was of the opinion that since the Eskimo live so much of a family life, the older people will have to be included in any scheme of education. Teachers will have to be sent among them and it might be a good idea to employ teacher-welfare workers. It was also suggested that Eskimo might be trained as teachers in the north as they would not require to be brought out every two or three years.

Ottawa, November 19, [illegible]6.

Mr. Gibson

Re: Education in the Eastern Arctic.

The problem of education in the Eastern Arctic is very complex. The thinly scattered population, the transportation difficulties over great distances, the nomadic habits of the natives, the necessity for Eskimo children to learn the native way of life, the frequent changes in the personnel of the white population and, to some extent, the language and religious question, all have a bearing on the subject.

White Education

The white population numbers about 150 comprised of doctors, nurses, weather and radio station attendants, Royal Canadian Mounted Police, missionaries, traders and trappers. The majority of these people seldom remain longer than three years in the country without a furlough. Some missionaries remain longer and a few white trappers may remain indefinitely. The distribution of white children or those of mixed blood desiring education in English is approximately as follows:-

Lake Harbour	5	Chesterfield	6
Port Harrison	5	Pangnirtung	3
Southampton Island	1	Pond Inlet	1
Eskimo Point	2	Moffet Inlet	2
Term Point vicinity	10	Fort Ross	4

A Total of 38

Of the above, 10 are infants under school age and the parents may move out before the children reach school age. There are, therefore, roughly 25 white or mixed blood children of school age widely scattered in the Eastern Arctic. Most of these children follow the correspondence courses supplied by one or other of the provinces and where the parents devote sufficient attention to teaching them, many of these children are said to be unusually well advanced for their age. Last summer I received requests for Ontario Department of Education correspondence courses from the following families:-

Mr. (Foxey) Brown, Rankin Inlet -
Sons aged 7 and 1
Daughters aged 16, 14, 10, 5, 3.

Mr. Ernie Lyle, Fort Ross -
Children aged 9, 6, 4, 3.

Arrangements will be made to have the courses supplied by the Department.

When the Patrol was at Chesterfield Cpl. Corey informed me that there are several white trappers and independent traders along the west coast of Hudson Bay centering at Term Point who intend to live permanently in the country and want a school for their children. There are also some well-to-do natives in this region who would be prepared to pay to send their children to school. Cpl. Corey thinks there should be a government residential school near Term Point where at least 15 children would attend.

I had a discussion with Father Fafard at Chesterfield in regard to education of both white and native children on the west coast. He said that in the Chesterfield region 95% of the population were Roman Catholic and that as far south as Eskimo Point over 50% of the population were Roman Catholic. He did not favour anything but separate schools or religious schools on the west coast. Father Fafard is, I think, more or less satisfied with the day school education they are giving the Eskimo and does not seem to be enthusiastic about starting a residential school. They would have to erect a building. I have no

information as to the religion of the group of whites and those of mixed blood who want a residential school at Term Point but it should be noted they request a government school.

Owing to transportation difficulties I can see no way of educating the scattered white children in the Eastern Arctic except by correspondence which has, so far, worked satisfactorily. The one exception might be the group on the west coast of Hudson Bay but it seems doubtful if the school could be run for 15 children only.

Eskimo education

There are only two residential schools for Eskimo in the Eastern Arctic both operated by missions at Fort George. The Roman Catholic mission has an average attendance of 8 Eskimo and the Church of England has 8. We pay these schools an annual grant of $200 per pupil.

The missions operate day schools at the following points which are attended by Eskimo children when they are in the vicinity:-

Location	Religion	Average Attendance	Annual Government Grant
Eskimo Point	R.C.	7	$250
Eskimo Point	C. of E.	33	350
Chesterfield	R.C.	21	250
Baker Lake	R.C.	14	250
Baker Lake	C. of E.	6	250
Igloolik	R.C.	22	250
Mistake Bay	R.C.	6	250
		Total 109	

Funds have been provided in the Estimates for grants to day schools at a number of other points but hitherto there has not been sufficient attendance of children for a long enough period to warrant the schools being operated except at brief intervals.

There is considerable difference of opinion amongst the white residents in the north as to how much education should be given the Eskimo and how it should be provided. Some of the missionaries, of course, insist on religious schools. Those laymen who recommend education for the Eskimo want government schools. Some do not think the Eskimo should be given much education or he will become dissatisfied with his lot. There is little but the fur trade to support him in the north and he would have a hard time competing with whites outside. Practically all agree that any education given should be provided in the north and that it would be a grave mistake to transport native children any distance from their homes for education since they rapidly become unfitted for the native way of life. This has been amply demonstrated in the case of children brought outside for hospitalisation.

I have discussed this subject with many people in the north and the following seems to be the consensus of opinion of those best informed:-

1. Education of the Eskimo should be designed to equip him to meet changing conditions in the north but should not make him discontented.

2. He should be taught English, as opportunity offers, so that he can read published matter.

3. He should learn simple arithmetic, hygiene, animal conservation, and the use and care of such white man's equipment as he needs.

4. His morale must be sustained and the development of any race inferiority complex avoided. The pride of race which he still has should be fostered

and instruction in suitable folk lore should be encouraged. This is rapidly disappearing under missionary instruction.

5. Pending instruction in schools, much can be done to educate the Eskimo by supplying him with suitable pamphlets in syllabic. Nearly all Eskimo are literate in their syllabic script. Such pamphlets are now in the course of preparation.

6. When the Eskimo has been grounded in hygiene and sanitation, it may be possible to allow him to live in portable fabricated houses. There are already requests by well-to-do natives to purchase such houses but they would introduce a danger to health at present.

7. Medical health centers, operated by the government, should be the basis of all improvement in native welfare. Such a health center could be staffed by a man and his wife, skilled in first-aid, who would prescribe for patients under radio advise. Some young natives would be employed and taught hygiene, infant feeding, and care of the sick. These would be changed from time to time and new ones taken on to learn while the older ones carried their knowledge back to the native camps. Under-nourished and ailing children would be nursed back to health at the centers. Reading, writing and arithmetic, and other useful subjects could also be taught at these centers and the Eskimo Grammar and book of Eskimo Lessons which we are preparing would prove valuable here.

8. Any children who showed marked promise at these centers could be taken outside for higher education and fitted to carry on work at the medical centers, hospitals, weather and radio stations, etc. No child should be taken out until he is at least 14 years old and he should be returned to his people for a month or two each year so he would not forget the native language and way of life.

Frankly, I can see no other suitable way than the above whereby we can begin the education of the Eskimo. It is, of course, closely linked up with the medical health programme but, as in most efforts in the north, the co-operation of all interested parties is essential. I think we should urge the Department of National Health and Welfare to proceed along the line of providing health centers and offer our co-operation in the matter of education. I doubt if a policy could be laid down in time to do much in the coming year and for this reason I have not recommended anything extra in our Estimates.

Dear Madam:

You will recall that I wrote you in July concerning health texts suitable for Indian children.

At that time, in your letter of July 29, you indicated the possibility of the publishers preparing modified editions of standard health texts for use in Indian schools.

Could you please inform me whether any action has been taken in this regard. We are at present using the Safe and Healthy Living Series in the senior grades but are still anxious to obtain a more suitable series for the junior grades.

Sincerely yours,

I - STORY APPEAL

Are the stories well-built, with beginning, middle and end?
Do they contain some action, humour, suspense?
Do they stand on their own feet as reading, or do they tend to rely too much upon the pictures?
In short, which stories would you prefer to teach to Indian children who are beginning to read?

Order of Preference for Story Appeal:

1. _____
2. _____

II - INTEREST CENTRES

Which series has chosen topics of most interest to young Indian children?
Which series has chosen topics which best fit in with your course of studies in Religious Instruction, Health, Science and Social Studies?

Order of Preference for Interest Centres:

1. _____
2. _____

III - ILLUSTRATIONS

Consider the following:
(a) Artistic appeal, quality of drawing and colour, is colour saturation too high, taking eye away from the reading or properly subdued to reading?
Is art on children's or adult appreciation level?

(b) Teaching value: Is there enough relevant detail to provide good conversation material? Do the illustrations reinforce the story or steal the story away from the printed [illegible]?

Order of Preference for Illustrations:

1. _____
2. _____

IV - MAKE-UP OR FORMAT

Consider this from the point of utility in the classroom: Binding, quality of paper, cover-stock, size and quality of type and printing, balance of illustrations and printing on pages.

Order of Preference for Make-up:

1. _____
2. _____

V - VOCABULARY

Consult word lists at back of each page of Pre-Primer, Primer, etc., for list of new words:
Work out the ratio of total number of words used to number of new words. This will mean the counting of the total number of words in each series and dividing into it the number of new words. The higher this ratio, the better will be the amount of practice per word.
Do this only for the Pre-Primer, Primer and Grade One Reader.

Order of Preference for Vocabulary Practice:

1. _____
2. _____

VI - SPECIAL FEATURES

Are there any special features about these Series not covered by any of the topics listed above?
Do these features seem desirable in a primary reading series?

Order of Preference for Special Features:

1. _____
2. _____

SUMMARY

Award five points where you consider the series to be Excellent, Four for Very Good, Three for Good, Two for Fair and One for Poor.

	FAITH & FREEDOM	CATHEDRAL BASIC

Dear Mr. Zimmerman: Grids for Evaluating Physical Fitness.

We are anxious to have tested in our schools the above Grid as prepared by Dr. Wetzel. The Physical Fitness Division of the Department of National Health and Welfare is keenly interested in the use of this Grid in public schools throughout Canada, and has asked that we try it out in our schools. Your school has been selected because of the fact that your school doctor - Dr. H. I. Palmer - is a qualified pedriatrician.

Therefore, you can anticipate receiving 100 copies of this Grid and an instruction manual in the near future. Dr. Palmer will be receiving a separate letter concerning this from the Medical Division.

Dear Doctor Palmer:

re: Wetzel Grid

In a co-operative effort, the Indian Affairs Branch Training Division and Indian Health Services, are going to introduce the Wetzel Grid method of recording growth and development into Residential Schools.

The initial trial will be made at the Mohawk Institute, a very important factor being your special interest in children.

No doubt you are familiar with the Wetzel technique but we are enclosing samples and literature from which you will easily see the method. Supplies of cards are being sent to Rev. Mr. Zimmerman.

While much of the recording can be done by the Institute staff it has been the general experience that it is very difficult for lay persons to do this work without professional supervision and it is our hope that you will assist Mr. Zimmerman in keeping this record.

We would be most interested in having your comments on the progress of this experiment and your recommendation about expanding the system into other schools.

Yours very truly,

Dear Sir,

With this letter comes the introductory number of "My Foreign Correspondent" a new series of fortnightly illustrated travel letters which will soon be available for use in schools.

These letters are designed for boys and girls between the ages of 9 and 16 and they will bring up-to-date and informative accounts of a young travelling artist's experiences amply illustrated with sketches made on the spot and with route maps that can easily be followed.

They will be sent out every two weeks throughout the school year omitting holidays, a total of 20 consecutive letters.

Geography Teachers will find these Pictorial letters helpful in giving the more intimate and homely details of life in other lands which can so seldom be gained from textbooks. They are in no way intended as ready made Geography lessons but can be used to amplify class work or for extra-curriculum activities such as the club or library.

The first issue will be published at the end of August and continue each fortnight throughout the school year, but orders should be sent at once if you wish to make sure of getting them.

A subscription form is enclosed which we invite you to fill in and return to us with your remittance. We shall be glad to send further copies of this letter to any schools or friends that may be interested if you will send us their names and addresses.

Yours truly,
for MEIKLEJOHN & SON LIMITED.

"MY *foreign* CORRESPONDENT"

Published by MERKLEJOHN & SON LTD, 16 BEDFORD ST., LONDON, W.C.2

" My Foreign Correspondent " is a series of 20 fortnightly illustrated travel letters to be issued during the school year, designed for young people between the ages of 9 and 16 whether in schools, in clubs or at home.

Each number is a fresh up-to-date account of the experiences of a young travelling artist, who describes and illustrates on the spot what she sees of life in other lands.

To use her own words : " I am here to describe the things about other countries that you really want to know—about the people, their homes and children, their games and food, their songs and flowers, their animals and birds, and their ways of getting around."

Bridget Moss, the author, is an artist of experience whose work will be recognised by those familiar with the educational literature published by the National Association of Girls Clubs and Mixed Clubs.

Her tour begins in the West Indies. After visiting many of the fascinating islands in those parts she will visit other countries, including parts of South America, the United States, and Canada.

These first-hand accounts of life in other countries will go far to arouse a healthy interest in people and places beyond our shores.

Youth groups, schools, clubs, etc., can benefit by Group Subscriptions. Rates and Order Form are printed overleaf.

★ A FORTNIGHTLY LETTER FOR YOUNG PEOPLE ABOUT LIFE IN OTHER LANDS.—No. 1.

On board the S.S. "Ariguani".

Dear Reader,

I am writing this letter on board the 6,746 ton ship "Ariguani" which is now more than half way on her 13-day voyage from Avonmouth, the port of Bristol in England, to the West Indies. The reason I am on the ship is because I am going to travel around the West Indies seeing everything possible by land, sea and air, and then I shall write personal letters to you, like this one, describing how people in these parts live. I expect you know that men and women who go abroad and write for newspapers or magazines are called foreign or special correspondents. Well, that is what I am - a special correspondent for young people in clubs, in school, or at home - in short your own foreign correspondent. I hope to describe the things about other countries that you really want to know - about the people, their homes and children, their games and food, their songs and flowers, their animals and birds and their way of getting around - in fact I hope to show you that they are people similar to those you know, but with all those little differences which make travel exciting and worth while.

I am very pleased at the opportunity of doing this trip for you. It is so thrilling to be setting off in the direction which so many explorers and travellers have taken, and if I come across traces of Drake or Magellan, Columbus or Cortes, I shall be sure to let you know.

In the lounge of this ship there is a chart which shows the Atlantic Ocean, on which there is pencilled a line marking the route the ship is taking. If you want to follow it, draw a pencil line from Bristol to the Azores in the middle of the ocean, then from the Azores to Barbados and from Barbados to Trinidad.

The first night of the voyage, after we had been about three hours at sea, I was sitting in the lounge when suddenly I saw a large red light floating past the porthole. I ran on deck, and looking

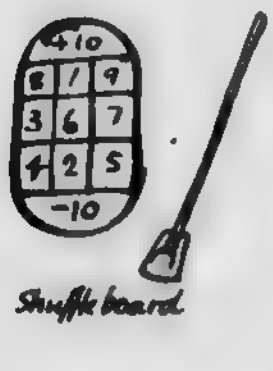
down into the sea, I saw a small steamer which had stopped right by the "Ariguani". She had a tall mast on which were two lights, one red and one white, and on her side, in very large white letters was painted "Bristol Pilot". The pilot climbed down a ladder from our ship into the pilot ship, and all our officers leaned down and called out goodbye messages, and then the pilot ship turned and steamed away very quickly. As she turned, I saw her name painted on the stern, "Queen Mother".

playing Quoits

Our ship, the "Ariguani" (the name of a river in South America) is a small, but very comfortable cargo vessel, having only one funnel which is painted banana yellow and black. I share a cabin with three other people. The cabin has four bunks, two on either side, two portholes, four cupboards for our clothes, a wash-hand-stand-cum-dressing table, a chair and a long mirror. Each of the bunks has a reading lamp at its head, and we have a thermos jug of iced water and an electric fan for use in the hot weather. The ship has a pleasant dining saloon and three sitting rooms, but most people prefer to sit on deck. At the beginning of the voyage we wrapped ourselves in coats and rugs and used the long, comfortable chairs, but now we have reached warmer parts, we are wearing shorts, cotton frocks and sun-glasses.



Shuffleboard

There are four games which people can play on deck, shuffleboard, deck tennis, deck golf and quoits.

Shuffleboard is played by pushing circular wooden disks into numbered spaces with a long pole which has a kind of wooden hoe at the end of it. The game is rather like shove-halfpenny, but on a larger scale. Deck tennis is similar in rules and scoring to lawn tennis, but is played on a smaller scale by throwing a rope quoit instead of hitting a ball with a racquet. Deck golf is played by pushing a numbered disc round the deck with a pole like that used for shuffleboard, but in the place of the holes on a golf course, chalk circles are drawn on the deck. For quoits a board, similar to an archery target is marked on the deck, and the idea is to try to throw rope rings into the numbered spaces. Many different games are arranged

for the evenings, and there is also a library on board.
Among the 128 passengers there are 40 children, as well as 5 babies under one year old who do not count at all .
The older children join in all the ship's sports, but the smaller ones rush, stagger and crawl everywhere.

Before dinner every evening, I have a bath. It is rather an unusual sort of bath, too, as it is full of clean, hot salt water, and balanced across it there is a plank on which rests a basin full of fresh water. You soap yourself with the fresh water, because salt water will not produce a lather, and then rinse off with the salt. It is rather odd lying in the bath, because as the ship rolls gently from side to side, the water stays straight, and the bath tips !

The food is very good, and well cooked. Tea is served to everybody together in the lounge, but all the other meals are served in two shifts, the people with children having to go to the first sitting. We have ice-cream for dinner every day, and there is usually some kind of dessert in the form of a banana, apple or orange. The first two look quite normal, but the oranges, although quite ripe, are bright green, and I am told people often eat them like this in the West Indies.

Unfortunately we passed the Azores at night, and at first we could only see the distant flash of a light-house, but soon the little twinkly lights of a small town appeared. While I was admiring these, I noticed that the whole sea was also full of little twinkling lights, only these did not stay alight, but just flashed as the sea moved. They were formed by phosphorus, which is only found when the sea gets warmer.

Nine days out of Avonmouth the sky cleared, the temperature rose and the sea became a very dark blue, with here and there floating pieces of ginger-coloured weed. This is called Sargassum weed or Gulf weed, and is found in what is usually called the Sargasso Sea, but which is really not a sea at all, but a sort of backwash of the Gulf Stream, where all the weed collects. We also saw flying fish which are very much smaller than I had imagined - in fact they are rather like martins or swallows as they have white or silvery bellies, and they skim or dart over the water. They come out in the cool of

the morning and evening.

The Chief Engineer, a Belfast man, thinking you might be interested, invited me to see the engine room. It is a very high room,and, as we entered, we were met by a blast of hot air, which of course, always rises to the top, but we had three ladders to go down, and, using dusters to protect our hands from the heat of the rails of the ladders, we found when we reached the floor it was much cooler - only 10b degrees. There was also a cool air shaft under which we could have a showerbath of cool air ! In the engine room I saw the Glasgow-made triple expansion engines which drive the twin screws. I met the three trimmers and five firemen who keep the boilers going. I saw the machines which work the water system, and the extra machine which is used for making clear water out of salt, if supplies of clear water run short. Here, too, was the refrigeration plant which keeps the provisions fresh for the voyage, and will preserve the bananas which the ship will take home on her return journey from the West Indies.

It will not be long now before we pass Barbados, where we shall not stop, and so my next letter will be written from Trinidad.

Sincerely yours,

Bridget Moss

In answer to your letters of April 9th, to the School Book Branch and the Deputy Minister of Education, we are mailing under separate cover, today, a complete selection of our current School Book Catalogues. In these, you will find a wide listing of Text and Reference Books which are authorized for use in the Alberta Schools.

We should point out that there are many price changes applicable to the various titles set forth in these catalogues. You are doubtless aware, that the over-all increase on School Books during the past 12 months has amounted to about 30 per cent. In case of future orders which you may desire to send to the School Book Branch, will you please take this advice into consideration.

If there is any other way in which we can be of service, we shall be pleased to hear from you.

Ypurs very respectfully,

Memorandum:

Mr. DOUCET.
Major CLARK. case
Miss DAVIS.

Inspector D. C. Smith, in reporting upon the No. 2 Oneida Indian Day School, comments as follows:-

"I think it would be advisable to discontinue printing the multiplication tables on back of exercise books. Both in this school and in Number 1 Oneida, pupils carried out multiplication work at seats correctly but were completely lost in trying to do the same work on the blackboard. Both teachers attribute this to slavishly using the tables on the back of the exercise books."

This has long been my own opinion regarding the printing of multiplication tables upon the back of exercise books. I would like to substitute something more practical and less likely to cause "cribbing". It has been suggested that we use Canada's food rules and I like the small brown folder entitled "if you eat" attached hereto. It is possible that the National Film Board would design a similar one using an Indian boy in place of the man.

The front covers might also be dressed up with assorted pictures. Present cover is unattractive.

CANADA'S FOOD RULES

Approved by the Canadian Council on Nutrition, 1944.

These are the foods for health.
Eat them every day.
Drink plenty of water.

1. **MILK** – Adults, ½ to 1 pint. Children, 1½ pints to 1 quart.

2. **FRUIT** – One serving of citrus fruit or tomatoes or their juices; *and* one serving of other fruit.

3. **VEGETABLES**–At least *one* serving of potatoes; at least *two* servings of other vegetables, preferably leafy, green or yellow, and frequently raw.

4. **CEREALS AND BREAD** – One serving of a whole-grain cereal *and* at least four slices of Canada Approved Vitamin B bread (whole wheat, brown or white), with butter.

5. **MEAT AND FISH** – One serving of meat, fish, poultry or meat alternates such as beans, peas, nuts, eggs or cheese. Also use eggs and cheese at least three times a week each, and liver frequently.

A fish liver oil, as a source of vitamin D, should be given to children and expectant mothers, and may be advisable for other adults.

Iodized salt is recommended.

HOW WELL FED ARE YOU?

-For teachers of Residential and Day Schools. This pamphlet asks if parents feed their children as well as their farm animals. It mentions noticeable symptoms which may be a result of foods you eat or don't eat. Nutrition surveys, carried out by the Nutrition Division, are described. It offers suggestions on making one food do for another. It could be used by teachers for nutrition discussion amongst the children and the parents.

Deformed bones, anaemia, skin affections, goitre, sore eyes, loss of weight, digestive disturbances and even milder unnoticed conditions may occur in humans as a result of the food they eat—or don't eat.

Is this true in your case?

How To Find Out If You Need To Eat Better

This is not easy, nor is there any single procedure that will give the answer, but here are some things you can try:

1. A medical nutrition study of your community by specialists from the Dominion Department of National Health and Welfare can be arranged by your health officer through the Provincial Health Department. This is a search for evidence of poor nutrition, designed to assist the work of your family doctor and local health officer. In the meantime try the next suggestion.
2. An individual can get useful information by scoring meals for one or two weeks on the "Score Sheet for Each Day's Meals", available from every Provincial Health Department.

To find an average for a community or group, follow the "Directions for using the Score Sheet in a Survey", obtainable from the Division of Nutrition, Department of National Health and Welfare, Ottawa.

What Can You Do About It?

THE BEST ASSURANCE OF ADEQUATE NUTRITION IS OBTAINED BY EATING A VARIETY OF FOODS. If this variety follows the pattern suggested in Canada's Food Rules, which is also used in the "Score Sheet", then you are on the safe side. Grow these foods if you can, but be sure to get them—for your health's sake.

1. Follow Canada's Food Rules

Approved by the

Canadian Council on Nutrition, 1944.

These are the foods for health.
Eat them every day.
Drink plenty of water.

1. *Milk*—Adults, ½ to 1 pint. Children, 1½ pints to 1 quart.
2. *Fruit*—One serving of citrus fruit or tomatoes or their juices; *and* one serving of other fruit.
3. *Vegetables*—At least *one* serving of potatoes; at least *two* servings of other vegetables, preferably leafy, green or yellow, and frequently raw.
4. *Cereals and Bread*—One serving of a whole-grain cereal *and* at least four slices of Canada Approved Vitamin B bread (whole wheat, brown or white) *with butter.*
5. *Meat and Fish*—One serving of meat, fish, poultry or meat alternates, such as beans, peas, nuts, eggs or cheese. Also use eggs and cheese at least three times a week each, and liver frequently.

A fish liver oil, as a source of vitamin D, should be given to children and expectant women, and may be advisable for other adults.

Iodized salt is recommended.

2. Start A School Lunch

This makes it easier for all the children in the neighborhood to eat the above foods regularly.

Making One Food Do For Another

MILK—Nothing can conveniently replace milk and milk products in our Canadian diet.

FRUITS AND VEGETABLES—The important nutritional value in fruits is vitamin C, and this is richest the year round in citrus fruits. Money to purchase these for children is available from family allowances. Tomatoes are a close second. Berries in season are good. When fruits are difficult to obtain, your vitamin C may partially come from using vegetables, either raw or carefully cooked, especially potatoes, cabbage, kale, string beans, broccoli, turnips, peas, spinach.

CEREALS—If you eat more than half your cereals as refined ready-to-eat breakfast foods and white bread (except Canada Approved) rather than whole grains you will have difficulty making up the vitamins and minerals lost in milling.

MEAT OR ALTERNATE — A small amount will provide your absolute needs—even if it does *not* satisfy *you*. See Canada's Food Rule No. 5. *Cereals* also provide protein and make the meat go farther.

FATS, SUGARS, AND EXTRAS like pickles, add palatability to meals, but not much food value except energy.

Food values are easily lost in storage and preparation, such as cutting, shredding and peeling. Overcooking or high temperatures, standing, and whipping, also reduce the food value. So serve fresh and raw with no delay, where possible.

Many good sources of information are available, such as the booklet "Healthful Eating", free from your Provincial Health Department.

HON. BROOKE CLAXTON,
Minister of National Health and Welfare.

Water Colour Paints and Refills

We understand that you have been encountering considerable difficulty in obtaining a supply of the above articles.

Under separate cover, I am forwarding samples of paints from the Art Chemical Products, Limited, 310 Davenport Road, Toronto 5, Ont. This firm has quoted us as follows:

#100 - 10 paint tablets and brush, $1.65 dozen,
#101 - 8 poured colours and brush, $3.45 dozen.

Sales tax included, F.O.B. Toronto.

Therefore, we would appreciate it if you would place in stock the following:

4 Doz. boxes No. 100 (for primary use),
5 Doz. boxes No. 101 (for senior pupils).

The above firm does not supply paint refills or brushes.

However, we have a quotation from the Artists' Supply Company, Limited, 105 King Street West, Toronto, on water colour refills in half pans at $.05 each, less 20% discount. This firm has also informed us that they can supply Lifan brushes. They also supply paint boxes, but they are considerably more expensive than those quoted on by the Art Chemical Products, Limited, Toronto.

I should like to remind you, too, of three library-type books which I sent to you some time ago. These are: Gadd--WHITE HAWK, LA BONTE, X BAR Y RANCH. These books, as the titles suggest, deal with life on a cattle ranch, and in the unspoiled forest lands. I think there is no disagreement that these books have a strong appeal for boys, especially those who are not interested in the traditional school programme. If you will take the trouble to look at these books, you will note that the author has made them exceedingly easy to read, not only by using graded vocabulary, but more important, by expressing his ideas in short sentences. This last seems to me a notable feature of these very readable books.

I have been wondering how you have been getting along with your examination of the FAITH AND FREEDOM Basic Readers for Catholic Schools. Some time ago I sent you the Wall Chart for this series entitled HERE COME DAVID AND ANN. I should be glad to send you also the WORD PHRASE AND PICTURE CARDS which accompany the Grade One and Two pupils' books. I should be grateful if you would let me know your wishes in this matter.

Yours sincerely,

Richard M. Litch.

GINN AND COMPANY: PUBLISHERS

FOUNDED IN 1867 BY EDWIN GINN

April 17th, 1947.

Col. B. F. Neary,
Indian Affairs Branch,
Booth Building,
OTTAWA, Ontario.

Dear Col. Neary:

I am sorry that I missed seeing you and Mr. Doucett when you were in Toronto attending the O. E. A. Since you were here, I have had an opportunity of looking at the manuscript on woodwork. Mr. Ingram and I are much interested in this material, and he will be writing you shortly concerning it.

There are a number of new books that I would like to put before you now that are particularly suitable for school libraries and supplementary reading. Consequently, I am mailing you today the following books:

Horn: Progress in Reading
(eight pupils' books)
Stoval: You and Your Reading
Underwood: Wilderness Adventures
Buswell-B: Jolly Number Tales Bk. One
" Jolly Number Tales Bk. Two
Craig: Our World of Science
(eight pupils' Books)

The Horn Series, as well as Stovall: YOU AND YOUR READING, is particularly suitable for remedial and corrective reading. The reading difficulty of these books is somewhat lower than the interest level, and there is gradual progression of difficulty throughout.

JOLLY NUMBER TALES for Grades One and Two are books that you will want to use since they correlate closely, from a vocabulary standpoint, with the Jolly Number Workbooks.

Craig: OUR WORLD OF SCIENCE is the latest of a long series of successful science readers by Dr. Gerald Craig. The Craig books are authorized in British Columbia, Alberta, Manitoba, and, just this year, in Quebec Province. Not only will you find the science ideas carefully graduated in difficulty, but the vocabulary, too, has been given the same attention in the preparation of each book.

Dear Mr. Litch:

I wish to thank you for the text-books for elementary grades which you forwarded me recently. At the present time we have placed fifty sets of the Faith and Freedom Readers for grades one and two and fifty sets of the New Cathedral Basic Readers in some five of our better schools. We have asked the principals and teachers to report upon their wishes concerning these two series. These reports are due in about the middle of July and we will then decide which series we will use.

Dear Mr.Neary:-

We have your order #27240 for books to be shipped to Mr.R.F.Davey, Inspector of Schools, P.O.Box 70, Vancouver, B.C., and are sending out at once the Cathedral Edition of the NEW BASIC READERS. On this order the following books are mentioned:

1 copy Our First Book
1 " Here We Come
1 " each Teaching First Grade Reading, 1, 2, 3

and we are not sure just what is required. May we have more information from you by return mail, so that we in turn may take care of Mr.Davey's order.

After my conversation at the Easter convention of the Ontario Educational Association, I am wondering if the above books would be the titles for the new Ginn Series. If so, you might let me know and we will telephone the order to this firm.

Very sincerely yours,

F.R.Strowbridge.

RECEIVED JUN 16 10 Department of Mines and ...

Dear Col. Neary:

Since my return from Ottawa, I have checked our records and discover that you have ordered all the manuals connected with the FAITH AND FREEDOM books for the first two grades. These, I believe, you must have sent to the schools which were making an examination of the FAITH AND FREEDOM Readers for you.

This morning we received an order from the Department of Public Printing and Stationery, No. 29449, which was to be rushed to Mr. R. F. Davey, Inspector of Schools, Vancouver, B.C. This included one item, "Guide Book to Grade One Programme". We are a little bit at a loss to understand what is meant by this, since you have included in the same order, "Teaching First Grade Reading One", "Teaching First Grade Reading Two", "Teaching First Grade Reading Three", which are the guide books for the first grade FAITH AND FREEDOM. A note has been put upon the invoice to the Department of Public Printing and Stationery explaining this.

Mr. Litch has brought back the information from Saskatchewan that just last week these four books of the FAITH AND FREEDOM Series, This is Our Home, This is Our Family, These are Our Friends, These are Our Neighbours, were adopted by the Department of Education of the Province of Saskatchewan for use in the separate schools. I know this information will be of interest to you because of your desire to direct your school's programmes so that the pupils will not be at any disadvantage should they enter the Provincial high schools.

I regret that I cannot give you, at this time, any definite dates for the production of the workbooks for the Norton-Boyce: LIVING LANGUAGE Series. We should be able to send you sample material of the first book within the next couple of weeks since it is at present on the press. The other workbooks have been promised by August, and we hope that we may be able to supply examination copies for you before that time.

Yours truly,

James B Robinson

Dear Col. Neary:

A circular on the FAITH AND FREEDOM Readers, which might be of great interest to you, is being enclosed. The statements which I made about these Readers to you when I was in your office are amplified to quite an extent in this circular, and you might appreciate having this information at hand when reaching your decision about the usefulness of FAITH AND FREEDOM.

The statistical material about vocabulary control appearing on pages 3, 4, and 5 shows how carefully the material in these books has been prepared for beginning reading. The following pages show how and where the skills of auditory and visual descrimination are developed in Grades One and Two. Pages 13, 14, 15 and 16 describe the additional material, Reading Readiness book, Word Phrase and Picture Charts, David and Ann Book, which is available for intensifying the reading programme.

This morning I discovered that two additional books in the basic series are being prepared in order to supplement the programme in the second and third grade--THIS IS OUR PARISH and THIS IS OUR VALLEY. When these become available, I will see that examination copies are sent to you.

If there is any further information which you think we might provide for you, we would be pleased to undertake it. Do not hesitate to ask.

Yours very truly,

Dear Sir:

We are receiving an increasing demand for loose leaf scribblers for students in Grades 7 and 8. In view of the fact that Elementary Science is now being taught in these grades, the Inspectors are insisting that pupils use a proper note book. This can only be done with loose leaf books because of the drawings of science equipment which have to be included.

Could you please advise me of the cost per dozen of the present loose leaf note books which you are stocking so that we can determine whether or not we should supply these in any great quantities to our schools.

Dear Sir: Requisitions Nos. 27474 - 27454 - 27457.

Our records show that Requisition No. 27474 was dated April 25th, 1947. It was clearly marked for delivery to "Redwood Dock, Winnipeg, Man., by May 24th, 1947". We have now received your Delivery Records which indicate that shipment was made on May 23rd. Therefore, it is most unlikely that it would reach its destination on time.

Another instance is of Requisition No. 27454 for the Jack River C. E. Day School. This Requisition was dated April 23rd, 1947, and your Delivery Records indicate that it was only sent out by C. N. Freight on the 23rd of May; yet we specially requested that it should arrive at the Selkirk Navigation Company's docks in Winnipeg about May 24th.

Still another instance is of Requisition No. 27457 for the Little Grand Rapids United Church Day School. This requisition is dated April 24th and was clearly marked to reach Winnipeg by May 24th. Your Delivery Record shows that it left Ottawa on May 28th.

This year we have had many complaints from our teachers in the North about the non-arrival of supplies. This is especially serious in the case of day schools where there will be no teacher to accept delivery of school material during the summer. These parcels lie around while the school is closed and are often broken into, with a resulting loss of many items.

It would be appreciated if every effort could be made to have requisitions which have a delivery date marked on them given a priority. We are making every effort here to speed up delivery of supplies for these northern schools and hope that you will be able to do the same.

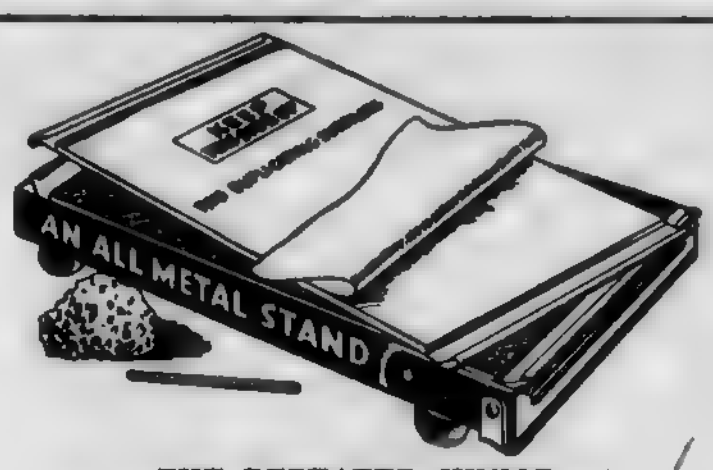
MODERN HEKTOGRAPHS

Inexpensive Duplicators that will duplicate anything written, typed, printed or drawn in Hektograph —without the need of a stencil. An inexpensive classroom necessity for the modern teacher.



THE REPEATER JUNIOR

Duplicator Set

Only $5.00 Postpaid

The stand for this set is made of all metal, with rubber feet. It is built to last a lifetime, and is equipped with two Repeater Pads, a Sponge and a Violet Kopy-Rite Pencil.

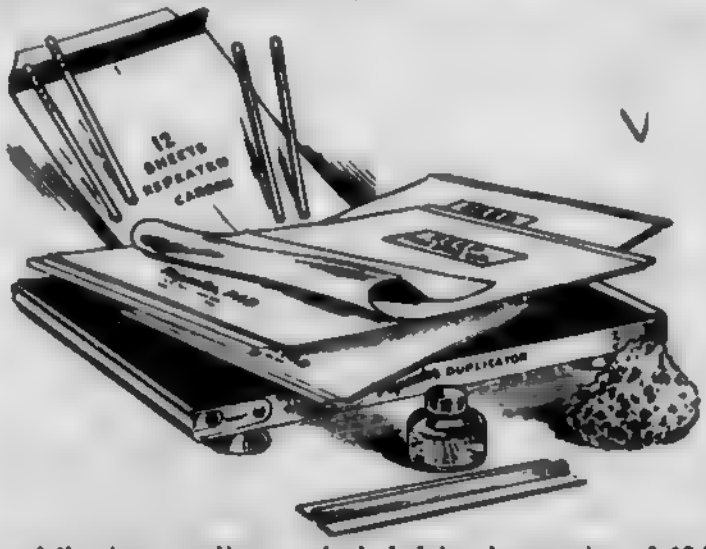
Two Duplicating Surfaces, each 8½" x 14".

THE REPEATER DUPLICATOR

Duplicator and All Supplies

Only $8.50 Postpaid

The Repeater Duplicator, size 8½" x 14" is similar to the Repeater Junior and the Kopy-Rite, but it is more fully equipped. It has a covered stand for the base, rubber suction cups for the feet, and all the supplies you require to type, draw or write your master copy.



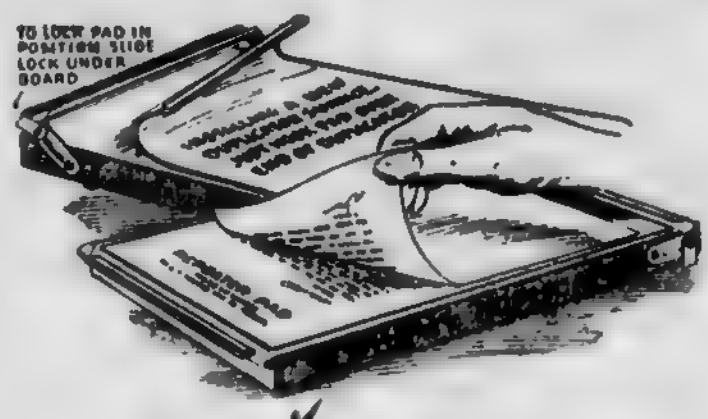
The following supplies are included in above price of $8.50

2 Repeater Pads 1 bottle Repeater Ink

4 Kopy-Rite Pencils—Red, Green, Blue, Violet.

12 sheets Repeater Carbon 1 Aligner 1 Sponge

All prices quoted on this circular are delivered. Christie's pay the Freight, Express or Postage (not airmail).



THE KOPY-RITE DUPLICATOR

Only $3.00 Postpaid

The least expensive of the three Hektographs illustrated —but equally as efficient. Size 8½" x 14".

It has a metal stand, with rubber feet, to which is attached one Repeater Pad. This Repeater Pad is detachable and additional Repeater Pads may be secured, as desired, to give as many duplicating surfaces as you may require.

Repeater Pads are attached to or detached from the Kopy-Rite Duplicator by merely unhooking from the metal end on the stand. This takes but a second or two. No tools are required, as nothing need be removed but the Pad.

SUPPLIES FOR ALL DUPLICATORS

Repeater Pads, size 8½" x 14" is the duplicating surface for the Repeater Junior, Repeater and Kopy-Rite Duplicators. Each extra pad on hand gives you an extra duplicating surface.

Dear Sir:-

Catechism Survey.

The problem of catechism manuals has been studied by the whole staff. We are of the opinion that the teaching of religion in classrooms depends on the organisation and modernization of our methods. Religion should benefit of the modern pedagogy as applied to secular matters viz:-

Induction: the manual of catechism is no more the starting point but a reference book.
Activities:- according to modern methods and tests.
Unit system:- divided in the 40 weeks, Quality and importance taking the place of quantity of tests to memorize.
Gradation:. age and grade being considered throughout the whole curriculum.
Cycles- to cover progressively and under new angles the same matter according to the evolution of the mind and the needs of each age.
Attractive texts and methods.

This called for an elaborated program set for the whole school as well as for each grade. A program which gives to the teacher the weekly details, the references to Bible, History, Liturgy etc. Of course such teaching requires more than a manual to be memorized and explained as it was done in the past.

In our school, we gave away the use of the old little manual of catechism furnished by the Department. We replaced it by " Catholic Faith" by Kirsch in three graded books. This book has a good wording , presentation, activities and tests. But it can be used only for references or for memorization. It cannot be the base of whole course of religion for nine years.

We must admit that "Father McGuires'New Baltimore Catechism No I and Dr. Horan Baltimore Catheschism NoI present a real improvement on the old manuals and can be of good use in many school especially day schools. We still use here the catechism by Kirsch for reference book and use the testbook for the reduced memorization required.

We have adopted , for the time being, the course of the Diocese of Chicago by Schorsch , for the Grade II, III, IV, V. It gives us the framework of our organization in units. Furthermore each teacher is given, for every weekly unite, a number of references in suitable books in order to make good use of the Bible, Liturgy and History as a base of induction.
For the higher grades(VI, VII,VIII,) , we give the teacher the three books of Baierl, supplemented for activities, induction etc. with other reference books.

We are still receiving from the Department a very old fashioned manual for Bible study, we mean Gilmour's. Its vocabulary and presentation are not in accordance with modern pedagogy. In the past years we tried , in vain, to get, from the Department , the more up to date manuals of Johson- Hannan ,or Newton's.
As for the Grade I, we have abandoned the idea of giving the children a textbook . It is only after many months that they can read it. The nice little manual" My First Communion Catechism" can be used only at the end of the year. These young children who are preparing themselves for first communion, learn by hearing their teacher telling them the Bible story, the whole process is based on induction: story-telling, pictures discussions, projections, projects, drawing etc. No textbook is used for the memorization required from them. Full initiative is left to the Primary grade Teacher. This is more or less the attitude we have with Grade II also.

In brief , this is our standing:

1.. Schorsch- a course in religion- gives us the framework for Grade II,III,IV,V, . We do not say that it is the best author but it has a good value. We did not have the opportunity of comparing it with Fitzpatrick's " Highway to Heaven"and to The Kingdom of God " by Newton - Harran.
2.. In Grade I, the children do not use books but the teacher finds the proper didactic material for inductive teaching .
3.. Baierl's books are used by the senior boys and girls with Johnson's Bible history books which are far superior to the old and inadequate Gilmour's Bible.
4.. All the other adaptations of Baltimore can be good but we find that they will always prouve to be inadequate for a whole program of religious teaching during a period of 7 or 9 years. They are poor and feeble remedies to a great mistake in religious pedagogy which should not be different of profane pedagogy.

We do not expect that the Department will consider giving all the books mentioned: Schosch-Fitzpatrick-Harran...but the teacher at least, should be supplied with them. And the pupils should have Jonhson's Bible instead of Gilmour's.

Dear Mr. Neary,

Re: CATECHISM SURVEY

1) For the past three years we have been using "Father McGuire's New Baltimore Catechism #1.

For the first year we had a rather difficult time as the children found the wording quite difficult and it took much patience and time to get them to understand how the study sections were worked. Last year they did well, but this year they have handled them almost as well as any white child. I am now speaking of Grades 5 to 8. The Study sections (answer these questions in your notebook or on a sheet of paper as your teacher may direct) have proven very developing in English for Grades 6, 7, and 8. Grade 5 have a hard time to couch the answer into good English.

2)Baltimore Catechism #1 (Dr. Horan)

Since the word content of the questions and answers are the same as in Father McGuire's Catechism the children had no difficulty. They found the Study Exercises most simple. I found that the illustrations had more appeal for them and were more readily understood than those in the McGuire's Catechism.

Personally I like the lay-out of the Horan's Study Exercises. They are less congested. This along with the fact that the children had already worked on the McGuire's for three years was the reason they found the Horan Catechism so simple. They rarely made a mistake on any exercise assigned.

3) My First Communion Catechism.

This is a splendid little book. We find that many of the words are far beyond the Indian child's comprehension e.g. serve (GOd), quarrel, allowed, offered, satisfy for sin, gain (heaven), but the illustrations are so appealing that they do the greater part of the explaining to the child mind. The majority of our Indian children in this district have a very, very meagre comprehension of the English language. Many can read like parrots, but lack the reading comprehension.

Very truly yours,

Sister Mary Sheila

Col. B. F. Neary — 2 — April 29, 1947.

With regards to the ENGLISH PRACTICE BOOKS, as yet we have not produced Canadian editions of the ENGLISH PRACTICE WORKBOOKS to accompany Grades VII and VIII although we have this in mind.

We are submitting the two publications in the Mother Hubbard Series, namely, GETTING READY TO READ and GETTING READY FOR NUMBERS. These are published by the E. M. Hale Company whom we represent in Canada. They have received considerable interest and attention from teachers right throughout the Dominion and we understand that the teachers in the primary grades have found them very helpful in their work.

We are also sending to you examination copies of the Arithmetic For Use Series. These are published by the D. C. Heath Company of Boston whom we have represented in Canada for the past 40 years. Here again we find that the publishers have produced very up-to-date set of Workbooks. At the present time, we contemplate the publishing of same here in Canada.

We are sending a copy of the GARDEN OF STORIES WORKBOOK. This Workbook has been prepared to accompany the Authorized Grade Two Reader used in the province of Ontario.

We are also including the first three volumes of our Social Studies Silent Reader Series. Those we are sending to you are for Grades one, two, and three.

We shall be glad to hear further from you in connection with any of these publications. Incidently, if there is any other books contained in our catalogue that you would like to receive examination copies of, please do not hesitate to call upon us. Within a few days we shall send you a complete list of our publications which are authorized in each of our Canadian provinces.

Order of Preference for Story Appeal:

1. Faith and Freedom Readers
2. Cathedral Basic Readers

II - INTEREST CENTRES

Which series has chosen topics of most interest to young Indian children?
Which series has chosen topics which best fit in with your course of studies in Religious Instruction, Health, Science and Social Studies?

Order of Preference for Interest Centres:

1. Faith and Freedom series
2. Cathedral Basic series

III - ILLUSTRATIONS

Consider the following:
(a) Artistic appeal, quality of drawing and colour, is colour saturation too high, taking eye away from the reading or properly subdued to reading?
Is art on children's or adult appreciation level?

(b) Teaching value: Is there enough relevant detail to provide good conversation material? Do the illustrations reinforce the story or steal the story away from the printed words?

Order of Preference for Illustrations:

1. Faith and Freedom
2. Cathedral Basic Readers

IV - MAKE-UP OR FORMAT

Consider this from the point of utility in the classroom:
Binding, quality of paper, cover-stock, size and quality of type and printing, balance of illustrations and printing on pages.

Order of Preference for Make-up:

1. Faith and Freedom
2. Cathedral Basic Readers

V - VOCABULARY

Consult word lists at back of each page of Pre-Primer, Primer, etc., for list of new words:
Work out the ratio of total number of words used to number of new words. This will mean the counting of the total number of words in each series and dividing into it the number of new words. The higher this ratio, the better will be the amount of practice per word.
Do this only for the Pre-Primer, Primer and Grade One Reader.

Order of Preference for Vocabulary Practice:

1. Faith and Freedom
2. Cathedral Basic Reader

VI - SPECIAL FEATURES

Are there any special features about these Series not covered by any of the topics listed above?
Do these features seem desirable in a primary reading series?

Attached is completed form used for the grading of the "Cathedral Basic" and "Faith and Freedom" series, together with a summary of a word count.

With regard to the heading "Order of Preference for Story Appeal", I have indicated on the form that I consider the teachers are in a better position to rate the two series under this heading. However, I have given an equal score to both series in the summary at the end of the form. The word count which I performed on these two sets indicates that the Cathedral Basic readers are somewhat superior in the matter of word practice. This is very important in teaching Indian children.

Under "Special Features" I have ranked the Faith and Freedom series ahead of the Cathedral Basic because of the greater amount of direction given to teachers in the former series in the matter of pre-school activities, particularly ear and speech training. The Faith and Freedom series give considerable attention to these factors which are very important in the training of Indian children. This direction is included in the manuals.

On the whole, my preference is for the Cathedral Basic series.

This is a confirmation of my call of this afternoon when I spoke to Mr. Doucette in connection with the three scribblers.

We suggest you use one cover design and plan on changing the colors - either ink or paper to achieve the differences you had in mind.

Our estimate for the art work involved is approximately $65.00. If you will set up an FE for this we'll get ahead with designs for your approval.

GINN AND COMPANY: PUBLISHERS

FOUNDED IN 1867 BY EDWIN GINN

863 Bay Street, Toronto 5

April 22, 1947.

Dear Sir:

We are proud to announce the forthcoming appearance of a work of first importance, Taylor-Seiveright-Lloyd: CANADA AND HER NEIGHBOURS. This book will be published in August in time for school opening.

CANADA AND HER NEIGHBOURS approaches the regional study of Canada from the standpoint of the occupations of the people who inhabit the regions. This text tells how the daily life of people in a given region is influenced by geography, and how the people, in turn, have modified the geographical aspect of their communities.

CANADA AND HER NEIGHBOURS will be an outstanding book. The text is being printed by offset process which will enhance the illustrations, sixteen of which will be printed in four colours. Eight pictures representative of Canadian life have been painted especially for this book. Copious use is made of photographs that teach. Many of these photographs have been taken expressly for use in CANADA AND HER NEIGHBOURS.

New physical maps of Canada in full colour, drawn by Richard Edes Harrison, will be a feature of CANADA AND HER NEIGHBOURS. In addition, there will be six double-page regional maps, and more than seventy single-purpose black-and-white maps. Some are drawn by Erwin Raisz.

The manuscript has been used experimentally and revised in the light of classroom experience. As a result, CANADA AND HER NEIGHBOURS meets the needs and interest of pupils in the elementary grades.

Professor Griffith Taylor is head of the Department of Geography, University of Toronto. Miss Dorothy Seiveright, Macdonald College, McGill University, has had long and successful experience both as an author and as teacher of geography and methods. Dr. Trevor Lloyd, formerly of the Winnipeg Public Schools, is an outstanding Canadian geographer, and one who has had wide teaching experience.

CANADA AND HER NEIGHBOURS is a book that will broaden rather than limit the Social Studies programme. It is so written that it provokes pupil-participation through questions, varied things to do, and informal stories. We are sure your pupils will profit immeasurably through its use. An order form has been enclosed for your convenience.

Yours truly,

GINN AND COMPANY.

Dear Bob:

Please find attached sample advance copies of the 'Living Language' series which we are going to adopt for use in our schools. The series runs from Grades I to VI, and we are adopting it for Grades III to VI for this year. Next year, if funds are available, we will take it down to Grade I.

I know you will be interested, especially in the Teachers' Manual. It will give you something to check your teachers against, as it is quite detailed, and especially written for teachers of one-room schools.

You will note that Miss Norton works on the basis that there should be two main groups - Primary (Grades I to III) and Junior (Grades IV to VI). These books have been worked out accordingly and on a level basis.

The other sample is the Grade II Book, and I will forward these for the other Grades when they become available.

We do not intend to upset present texts that are in use, if they are found satisfactory, but we will no longer continue to supply the 'Workbook in English Usage and Composition'.

After you have had an opportunity of looking over these books, I would appreciate hearing from you as to how suitable you think they will be for our needs.

Sincerely yours,

Bernard F. Neary,
Supt. of Welfare and Training.

Dear Sirs: Attention Mr. J. E. Robinson.

Please let me know if you can supply us with four hundred (400) copies of the Faith and Freedom pamphlet (607-11, 44) which you enclosed with your letter of June 9th.

The information contained in this pamphlet would, no doubt, prove useful to our teachers when we are introducing into our schools the Faith and Freedom Series for Grades One and Two.

Yours sincerely,

Bernard F. Neary,

Ottawa, July 15th, 1947.

Dear Mr. Driscoll: Faith and Freedom Catholic Readers.

The Corona Readers will not be supplied for Grade One after June 30, 1947. As a result of experiments which have been conducted in five of our Indian schools, it has been decided that the Faith and Freedom Series is more adaptable for use with young Indian children, and we have decided, therefore, to adopt this Series. The results of the experiments are as listed below:

School	Faith & Freedom	Cathedral Basic
St. Mary's Mission	30	28
Kamloops	27	28
Qu'Appelle	23	17
St. Catherines	23	22
Sandy Bay	30	19
Points ...	133	114

The Corona Readers will continue, at present, to be the authorized texts in Grades Three to Six.

In line with our gradual replacement of the Coronas by Faith and Freedom, we hope to be in a position to replace the Grade Two Corona Reader with the Faith and Freedom Reader by January 1, 1948. Would you please, therefore, order from the publishers - Ginn and Company, 563 Bay Street, Toronto 5, Ont. - the following quantities of Faith and Freedom Readers.

Mr. B. F. Neary,
Indian Affairs Branch,
Booth Building,
OTTAWA, Ontario.

Dear Mr. Neary:

Since returning to Toronto, I have mailed you two copies of HERE WE GO. This is the Level II text-workbook in the LIVING LANGUAGE Series by Norton and Boyce. The other two books in this series will go to you at about two-week intervals. This means that the first four will be ready by the end of August. It is difficult to be exact about the dates for the books for grades five and six, but these will not be later than the middle of September. Following are the net prices of the LIVING LANGUAGE Series:

Teaching Living Language		$0.60			
Let's Begin	I	$0.24	Words at Work	IV	$0.36
Here We Go	II	$0.28	More Progress	V	$0.36
Word Ways	III	$0.32	Carry On	VI	$0.36

In the same parcel with the Language books, you will receive a copy of the Workbook to accompany THIS IS OUR TOWN. THIS IS OUR TOWN is the third reader in the Faith and Freedom Series which, as you know, is being revised for Canada. I have sent you the workbook, however, so that you may be acquainted with the excellent supplementary material available for the books in the Faith and Freedom Series. I think I mentioned to you, also, the literary readers which are in preparation as a companion series to Faith and Freedom. There is, of course, a teachers' manual available, too, to accompany THIS IS OUR TOWN and the Workbook.

We are looking into the matter of combining the Grade Three and Four volumes of the Andress health Series, and I shall write to you further about this a little later.

Yours sincerely,

Richard M. Lilah.

Dear Mr. Neary:

Yesterday afternoon, just as we were closing, I got the copy of the letter you sent to Mr. Driscoll regarding our "Living Language" series, and this morning I have a copy of your second letter regarding the "Faith and Freedom" readers.

It is, of course, tremendously pleasing to me that you have decided to use these books of ours. I honestly think you are making no mistake. "Living Language" has been prepared with a special eye to situations such as you have in the majority of Indian schools.

It is also most encouraging that you will use the "Faith and Freedom" readers which we are, as Mr. Litch and Mr. Robinson explained, engaged in Canadianizing. For many years I have had a rather detailed knowledge of conditions in the Indian schools, both from personal observation in the schools and from my contacts with the members of your Department. Long, long ago I realized that many books contained statements which, from the point-of-view of the Indian schools, are unfortunate and it has been our constant aim in the production of Canadian books to make sure that they would contain nothing offensive to Indians and, indeed, that they should be especially suitable for use in the Indian schools. It is therefore doubly pleasing to me to have your seal of approval put upon our work.

We have only a handful of the circulars to which you refer here in Toronto, but we can probably get the 400 you require from our Boston office. I am enquiring about this and will write you as soon as I hear further about it.

I want to thank you for the courtesy you showed to Mr. Litch and Mr. Robinson the other day. I am hopeful that before long I may make a trip to Ottawa and meet you. If, of course, you are in Toronto at any time, I hope you will give me a call and perhaps we may have lunch together.

Cordially yours,

I - STORY APPEAL

Are the stories well-built, with beginning, middle and end?
Do they contain some action, humour, suspense?
Do they stand on their own feet as reading, or do they tend to rely too much upon the pictures?
In short, which stories would you prefer to teach to Indian children who are beginning to read?

Order of Preference for Story Appeal:

1. Faith + Fundamentals
2. Cathedral Bans
3.
4.

II - INTEREST CENTRES

Which series has chosen topics of most interest to young Indian children?
Which series has chosen topics which best fit in with your course of studies in Religious Instruction, Health, Science and Social Studies?

Order of Preference for Interest Centres:

1. Faith + Fundamentals
2. Cathedral Bans
3
4

III - ILLUSTRATIONS

Consider the following:
(a) Artistic appeal, quality of drawing and colour, is colour saturation too high, taking eye away from the reading or properly subdued to reading?
Is art on children's or adult appreciation level?

(b) Teaching value: Is there enough relevant detail to provide good conversation material? Do the illustrations reinforce the story or steal the story away from the printed words?

Order of Preference for Illustrations:

1. Faith + Fundamentals
2. Cathedral Bans
3
4

IV - MAKE-UP OR FORMAT

Consider this from the point of utility in the classroom:
Binding, quality of paper, cover-stock, size and quality of type and printing, balance of illustrations and printing on pages.

Order of Preference for Make-up:

1. Catholic Vision
2. Fundamentals
3

V - VOCABULARY

Consult word lists at back of each page of Pre-Primer, Primer, etc., for list of new words:
Work out the ratio of total number of words used to number of new words. This will mean the counting of the total number of words in each series and dividing into it the number of new words. The higher this ratio, the better will be the amount of practice per word.
(Do this only for the Pre-Primer, Primer and Grade One Reader)

Order of Preference for Vocabulary Practice:

1. [illegible]
2. [illegible]
3.
4.

VI - SPECIAL FEATURES

Are there any special features about these Series not covered by any of the topics listed above?
Do these features seem desirable in a primary reading series?

Order of Preference for Special Features:

1. [illegible]
2.
3.
4.

SUMMARY

Award Five points where you consider the series to be Excellent, Four for Very Good, Three for Good, Two for Fair and One for Poor.

File No. 1-1-4 (WT) September 15, 1947.

Colonel B. F. Neary,
Superintendent of Welfare and Training,
Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Canada.

Dear Colonel Neary:

On my return to Toronto this morning I find on my desk your letter of September 11 regarding the Jolly Numbers books. This is one of the matters you discussed with me in Quebec and, as Mr. Robinson was able to explain, Book One was due here on September 11. Actually the books arrived on September 12 and shipment has already been made to the Stationery Office. We expect Book Two, First Half, around the end of this week and it will go out to you immediately.

The "Living Language" series, as I explained to you, is in press. We are sending you today 500 copies of the Level-Three book, "Word Ways," and the balance of your order for this book will go out to you within the next two or three days. The books for the higher levels will follow on in quick succession.

We also have an order from you for the workbook for "These Are Our Friends." We expect to ship this around the first week in October.

Apart from the books mentioned above, we have no outstanding orders from the Stationery Office. Therefore, if any other books are short, you should request them to order immediately and we will do our best to get them to you promptly.

I am sorry that we are late with some of these books, for I realize just what an annoying situation this means in the schools. However, as you know, manufacturing conditions are quite chaotic and the delays are beyond our control.

It was a great pleasure to meet you in Quebec and I shall look forward to seeing you again soon when both of us have more time to sit down and chat. If you are in Toronto any time, I hope you will give me a call and perhaps we can have a bite of lunch together.

Cordially yours,

NGSI/MMS

Dear Bernie:

I received Mr. Clark's letter of the 29th today in connection with the Indian school scribblers and must confess slight confusion at his last paragraph in connection with exercise book C.

I tried to reach either of you by phone but found that he is out of town for a month and that you would be back Tuesday.

This is the point:- reading the paragraph as such, I gather what you have in mind is not one exercise book to be designed, but nine as he says "we should like to have individual maps of the nine Canadian provinces.

Would you be good enough to phone me when you return and we can no doubt clear up this point in a few moments.

Kindest personal regards,

Norman Chamberlin,
Production Liaison Officer.

Exercise Books for use in Indian Schools

Dear Mr. Chamberlin:

Further to our recent telephone conversation, I would like to confirm the following points made with you at that time:

(A) That in all three scribbler covers the words "Indian Schools" be deleted, because of the fact that these exercise books will be used in National Defence schools as well as our own.

(B) That Scribbler A (in error a "C" has been put on the front of this Scribbler) should have on the back page "Canada's Food Rules" rather than "O Canada". If the artist wishes to use, as an outline motif, illustrations of the basic points in these Food Rules it will be entirely satisfactory.

(C) That the back page of Scribbler B be amended by placing thereon "O Canada" in place of "Canada's Food Rules". In other words, these last two suggested changes involve a switch in scribbler back pages between A and B.

(D) Scribbler C is entirely satisfactory in its present form except that we would suggest that the capital city of the province and also Prince Rupert be marked in.

Liaison Officer,

We will forward to you, in the near future, a print of Joseph Brant which we would like used for the cover of Scribbler B. We are also looking for a suitable cut of Crowfoot as the second portrait cover in this series.

In Scribbler C, I would suggest that we do Ontario and British Columbia as a beginning. These two provinces contain the largest number of Indians and we have the largest number of schools situated therein.

Dear George:

We intend to prepare a series of scribblers depicting famous Indians. The first two selected were Joseph Brant and Crowfoot. On the back of the scribbler there will be a short biographical sketch of the Indian whose picture appears on the front. From our Archives here we have prepared such a sketch on Crowfoot. It is somewhat short, but this is due to the fact that we are limited to eighty words.

I would certainly appreciate it if you would read this over and let me have your comments as to its suitability.

Dear Col. Neary:

It is very pleasant to hear through Mr. Robinson, who called on you recently, that you are making a beginning with Taylor-Seiveright-Lloyd: CANADA AND HER NEIGHBOURS. This new book is already re-vitalising the teaching of Canadian geography everywhere it is being used, and I have no fear that your schools will be any exception.

Mr. Robinson has also written me regarding your interest in library materials. We have drawn up the following list of suggested titles, and sample copies have already gone forward to you:

Gadd: La Bonte.....$1.00
White Hawk.....$1.00
X Bar Y Ranch.....$1.00
Fiske: Bo, The Cave Boy..$1.60
Mason: Smiling Hill Farm.$2.20
Seeley: Chinook and His Family.....$1.40
Fitzgerald: Never Surrender.$1.25
Murphy: Peter's Wonderful Adventure.....$1.30
Andrews: Stories Mother Nature Told Her Children.$0.90
B-B-J: Jolly Number Tales Book One.....$1.00
Spyri: Heidi.....$1.35
B-T-G: How the Old World Found the New.....$1.35
Hudspeth: Oregon Chief...$1.35
Underwood: Wilderness Adventures....$1.50
Spyri: Moni, The Goat Boy.....$1.00
Rhoads: All Out For Freedom.....$1.25
Bailey: When Grandfather Was a Boy.....$1.15
B-B-J: Jolly Number Tales Book Two.....$1.10
Cherubini: Pinocchio in Africa.$0.90
Collodi: Pinocchio, Adventures of a Marionette.....$1.00
Patri: Pinocchio's Visit to America.....$1.10

There are one or two items on the above list on which I would like to make special comment. First of all, the three titles LA BONTE, WHITE HAWK, and X BAR Y RANCH are particularly suitable for slow or indifferent readers. You will find, on examining these books, that the reading structure is simple and the sentences short, while the interest level is high

and especially appealing to boys due to the outdoor setting of the stories. These three books are being extensively used here in Ontario as remedial readers in the upper elementary grades.

JOLLY NUMBER TALES Book One and Book Two have a special place in your libraries since they are closely correlated with the JOLLY NUMBER workbooks which you are supplying for arithmetic in Grades One and Two. These two readers present informal arithmetic at its best, and, at the same time give added use of vocabulary introduced in the workbooks.

An important social studies text that we have sent you is GIFTS OF OTHER LANDS AND OTHER TIMES. This is cast at about the Grade Four level, and deals with early civilization down to the discovery of America presented from the Catholic point of view. Other library materials particularly suitable for the Catholic schools are, of course, the upper books of the FAITH AND FREEDOM Series. I would recommend to you particularly the sixth grade book, THIS IS OUR HERITAGE.

If there is any other information you would like, please do not hesitate to write us.

Yours sincerely,

COPY to be returned to INDIAN AFFAIRS
when letter is signed 1-1-4 (W T)

Ottawa, October 31, 1947.

Dear Sir:

It is noted that in a Circular Letter of October 10th, the Comptroller of the Treasury has informed all Chief Treasury Officers of the necessity for Departments to secure written permission of the King's Printer in order to purchase certain articles, or things, on local purchase orders.

During recent inspections of Indian schools, both the schools officials of the Indian Affairs Branch and the inspectors of provincial Departments of Education have commented on the long delays which our teachers are experiencing before receiving their school supplies.

These requisitions call for supplies which fall mainly into two broad groups:

(a) STANDARD SUPPLIES such as Readers, Arithmetics, scribblers, pencils, etc., which are more or less common to the various courses of study of the provinces in which our Indian schools are located.

The Indian Affairs Branch informs the Stationery Branch of its requirements in these supplies, and a stock is held to be sent out when requisitions are received.

(b) SPECIAL SUPPLIES consisting mainly of text-books which are specifically authorized by a provincial Department of Education for that province.

As we have Indian schools located in each of the nine provinces and as each province has an entirely

different course of study, the Stationery Branch cannot be expected to stock these widely different text-books. This is particularly evident in the Senior Grades from Seven upwards. In the past, this has not presented too great a problem, but now Indian pupils in increasing numbers are passing into these grades and the situation has now become very difficult due to the non-arrival of the necessary text-books. Last year we were criticized by provincial inspectors for not providing required text-books for entrance pupils until November; yet these requisitions had been passed to the Stationery Branch during the summer holidays.

It is felt that the Stationery Branch is required to spend so much time in filling orders for these special text-books that it is not able to cope with our requisitions for standard supplies. At the present time, it has been estimated that a requisition goes through the following steps before the supplies actually arrive in the hands of the teacher concerned:

1. Teacher fills out requisition form.

2. Agent countersigns requisition form.

3. Requisition reaches Indian Affairs Branch where it is checked and typed on a special form required by the Stationery Branch.

4. This special requisition form is signed by the Superintendent of Welfare and Training.

5. It is signed by a Treasury Official.

6. It is sent to the Stationery Branch, where apparently two separate actions may take place.

   (a) If an item is listed as in stock, it is copied on a Delivery Record.

   (b) If it is an item of a special text-book not in stock, an order is prepared for the Text-book Bureau of the province concerned or publishing company or school supply company.

7. The order is filled

   If an outside order is to be placed,

8. This order is sent to the firm or bureau concerned. The order is filled by the firm or bureau.

9. This firm or bureau sends bill to the Stationery Branch.

10. A monthly account is sent by the Stationery Branch to the Indian Affairs Branch for payment.

The schools officials of the Indian Affairs Branch have carefully studied the foregoing procedure with a view to eliminating as much of the delay as possible. At the present time it takes four to five months for supplies to reach our schools. Therefore, it is felt that you will agree with the following recommendations:

A. For standard items which are common to all schools or to most schools, such as Readers, Arithmetics, pencils, chalk, etc., the following procedure is suggested:

   (1) The teacher completes a standardized requisition form, such as attached hereto.

   (2) The Agent countersigns this and sends it to the Indian Affairs Branch.

   (3) The Branch attaches eight or ten of these special requisition forms to the form required by the Stationery Branch; the covering form is signed by a Training Division Official and a Treasury Official and sent to the Stationery Branch.

   (4) The Stationery Branch carries out its normal procedure with a requisition.

B. For special items which are peculiar to the province concerned and more especially for text-

books required for the senior grades, the following procedure is suggested:

(1) The teacher completes a special supplies requisition form.

(2) The Agent countersigns this and sends it to the Indian Affairs Branch.

(3) After checking to ensure that the text-books are as authorized by the provincial Department of Education concerned, that the Indian Affairs Branch be permitted to order these text-books directly from the provincial Text-Book Bureau concerned or the publishing company.

If it is decided to place a limit on these Purchase Orders, it is suggested that this be $100.00.

(4) That the Text-Book Bureau, or the publishing company, bill the Indian Affairs Branch for these items.

Practically all provincial Departments of Education now maintain efficient Text-Book Bureaux. These Bureaux have a large supply of text-books - particularly those required in the province concerned. These have been established by the provinces in order to provide text-books at the lowest cost possible. Attached please find an order form from the Manitoba Text-Book Bureau, which should illustrate the scope of these Bureaux.

It is felt that by the above two procedures we can eliminate those long delays at present being experienced, and thus greatly increase the efficiency of our Indian schools. At the present time a teacher will send in a requisition for school books and also a requisition for janitor

supplies. The janitor supplies, which we authorize the Agent concerned to buy by local purchase, reach her in ten days or two weeks, while the school books - so urgently required - often take four to five months to reach her. It is felt that action is definitely required to remedy this situation.

Yours sincerely,

Deputy Minister.

OFFICE OF THE COMPTROLLER OF THE TREASURY

Circular Letter No. 1947-65
Ottawa, October 18th, 1947

TO THE CHIEF TREASURY OFFICERS:

Attached is a copy of Cabinet Directive No.1 of September 19, 1947, prescribing a procedure to govern departmental requisitions for printing and stationery and the distribution and sale of official publications by departments and agencies of Government.

The concern of the Treasury in this Directive is twofold, namely:

(1) The effect of the Directive on the requisitioning of printing and stationery for Treasury use;

(2) The policing action required of the Treasury to ensure that departments comply with the prescribed procedure.

Department of the Treasury
RECEIVED
NOV 10 1947
INDIAN AFFAIRS.

With regard to No.1, Treasury Officers are instructed that under no circumstances should an agent of any printing or stationery firm be permitted to proceed with the work of drafting Treasury forms or furnishing specifications and prices for printing and stationery requirements on an understanding given by a Treasury Officer, verbally or otherwise, that the agent's firm will get the business. Should it become necessary to enlist the aid of agents of printing and stationery firms in determining the specifications of printing jobs or the drafting of forms to do the job in question, Treasury Officers will request the approval of Central Office before discussing the project with agents. Central Office will in turn seek the approval of the King's Printer.

With respect to the policing action required of the Treasury over the actions of departments, Treasury Officers are instructed that no suppliers' accounts for printing and stationery should, at any time, or under any circumstances, be paid directly from departmental appropriations, either by Receiver General cheques issued by Treasury Officers, or by payments made locally from Imprest Accounts, provided that if a department secures the written permission of the King's Printer to purchase certain articles or things on local purchase order, Treasury Officers may pay accounts which conform to such written agreement or may honour the relevant items in an Imprest Account, as the case may be.

If a claim for reimbursement of an Imprest Account contains an item of printing and stationery of a type which the department was not permitted, by the King's Printer, to purchase on its own authority, Treasury Officers will delete the item from the claim and advise the department to forward a covering requisition to the King's Printer for approval. When submitting such requisition the department must clearly endorse on the face thereof a statement that the account of the supplier has been paid in order to protect against a duplicate payment being made.

Comptroller of the Treasury.

I have pleasure in sending to you, under separate cover, copies of the Grades V and VII new English texts, USING OUR LANGUAGE, which we have just published. We plan to have texts for Grades III to VIII in this series, which is Canadian throughout both as to authorship and production. I shall be pleased to know what you think of these books.

Incidentally, in connection with new and forthcoming ventures, the Macmillan Company and ourselves will probably not have copies of our new Arithmetic texts ready to show you until next year, but we believe the texts will be well worth waiting for.

We are doing everything possible to limit teachers' requests for normal school supplies to the articles shown on the attached list. You have already received this order form, and an article describing its use to our teachers, in the November issue of the Indian School Bulletin.

I would particularly draw your attention to the items marked "1, 2, 3, 4, 5". In attempting to limit our teachers to these five items, we hope to prevent them requesting drawing, construction and poster paper of unusual sizes and qualities.

It is, therefore, requested that you place in stock five hundred packages of each of these five items: -

White Water Colour Drawing Paper, 6x9 (100 sheets to a package),
White Water Colour Drawing Paper, 9x12 " " " " ,
Construction Paper, 9x12, asst. colours (50 sheets to a package),
Poster Paper, 9x12, asst. colours (100 sheets to a package),
Poster Paper, 6x9, " " (" " " ").

Dear Mr. Neary:-

We have in stock, about 1500 copies each of ten large pictures in colour which were published in connection with the little primer that was used by the Department of Indian Affairs some years ago, called "JOE AND RUTH". We will be very pleased to dispose of these to the Department if you feel that you could use them. Mr. Phelan will know what they look like, but we are sending you a sample set, under separate cover.

We would be willing to let you have 1500 sets, each of ten large pictures, at 10 cents a set, or $150.00 for the lot. I believe that we sold the original set of ten pictures mounted for $1.00 each.

It seems a shame to waste these pictures which are particularly suited to Indian schools and I hope that you will be able to make use of this surplus stock.

Yours sincerely,

J. M. DENT & SONS (CANADA) LIMITED.

Dear Mr. Eustace:

I have for answer your letter of November 19th, and wish to advise you that we will be only too pleased to purchase the Joe and Ruth chart series at the special price which you offer.

I have today written to the Superintendent of Stationery requesting that he place an order with you for these charts as soon as possible. We sincerely appreciate this offer on your part, and feel certain that our schools will be able to use these charts to good advantage. I have used them myself and like them very much.

We are still awaiting your new arithmetic series, as we have not yet settled definitely on a new arithmetic for our Indian schools in Grades Three and upwards. We are using your new Geography Workbooks for Eastern and Western Canada, and our teachers are finding them very useful and satisfactory.

Yours sincerely,

Dear Mr. Driscoll: Joe and Ruth Charts

You will recall that J. M. Dent & Sons prepared special sets of ten large pictures in colour which were used in connection with the Joe and Ruth Primer.

They have now advised us that they have 1,500 sets of these pictures as surplus stock. They are willing to let us have these 1,500 sets (each of ten large pictures) at 10 cents a set, or $150.00 for the lot. It is believed that the original price was $1.00 for each of these pictures.

Would you please order the 1,500 sets of these pictures from J. M. Dent & Sons Limited, 224 Bloor St. W., Toronto, Ont., at this special price.

Dear Bernie:

On a recent visit to the Interior of this Province I have been confronted with a large number of complaints from teachers concerning the failure of the Department to supply books and materials requested. Much of this material may be secured locally and this has aggravated the situation.

I have asked the Indian Agents to purchase the most urgently needed supplies locally, and have asked the Department to approve my action. I do not know the reason for the failure to supply these things, but have tried to explain to the teachers that it is no doubt due to the present shortages. In one school in particular, [redacted] teacher had visited schools in the east and [redacted] made unfavourable comments concerning the difference in which materials are supplied to this Province.

In some cases, no doubt, requisitions were late in being sent in to the Department but I feel that this is not the whole explanation, as it seems unlikely nearly all the teachers would be late in forwarding their requisitions. If there is anything that you can do in the way of speeding up the delivery of the supplies requisitioned, it would be greatly appreciated.

I recently visited Bill Mouat who is expecting a by-law for the addition to his school to be put before the Municipality in January. He is very hopeful about the outcome. Bill and his family are well.

Best wishes to you, Betty and Patrick.

Yours sincerely,

Bob.

Dear Bob:

By now you will have received my letter of November 25 and will note that I dealt at some length with failure of the Department to supply books and materials as requested.

If the proposals which we have before the King's Printer at the present time are agreed to, I feel confident that we can expedite this delivery of school materials. In my letter to the King's Printer I pointed out that requisitions pass through no fewer than eleven hands before the supplies are finally delivered to the teacher. Rest assured that I will let you know as soon as a reply is received from the King's Printer regarding my proposals for cutting short this long procedure.

Dear Mr. Neary:-

Thank you for your letter of November 20th advising us that you will purchase the "JOE AND RUTH CHART SERIES" at the special price of 10 cents per set of ten for 1600 sets.

We shall await the order from the Superintendent of Stationery and in the meanwhile we shall prepare the sets for shipment.

I am very interested in what you say about postponing any definite decision regarding the use of a new arithmetic series. Macmillan's and ourselves do not expect to have these new books ready for examination until next year, and you may be sure, that we will at that time, send you copies of the new books and workbooks as they appear.

We are glad that our new "SOCIAL STUDIES WORKBOOKS FOR EASTERN AND WESTERN CANADA" are found useful. We shall send you a copy of our new workbook in this series, "FAR AWAY NEIGHBOURS", by the same author, which is graded a little lower than the other workbooks, and which I think you will find even more useful.

We hope to publish, in the spring, a new book on Canadian citizenship, written for Grades 7 and 8 youngsters. Would you be interested in seeing a copy of this when it is ready?

Kind regards,

Dear Mr. Driscoll:

Faith and Freedom Readers.

On a recent visit to the Stockroom, I noticed that you have received 1,000 copies of the teachers' manuals for the above Reader Series. These books are:

Teaching First Grade Reading, No. I,
" " " " No. II,
" " " " No. III.

If you will refer to my letters of July 15th and September 24th, you will find that we requested you to place in stock 200 copies and 50 copies, respectively, of each of these books. Therefore, it would seem evident that Ginn & Company have supplied you with a much larger order of these books than we can ever use. I would estimate that the 250 copies of each which we have requested would be sufficient to satisfy our needs for the next academic year at least.

GINN AND COMPANY: PUBLISHERS

FOUNDED IN 1867 BY EDWIN GINN

December 22nd, 1947.

Colonel B. F. Neary,
Supt. of Welfare & Training,
Department of Mines & Resources,
Booth Building,
OTTAWA, Ontario.

Dear Colonel Neary:

Thank you very much for your two letters of December 12th and 13th which were waiting at the office for me when I returned this morning from the Maritimes.

(1) Mr. Stevenson, our office manager, tells me that there are no back orders unfilled from the Department of Public Printing and Stationery with regard to the four books of the JOLLY NUMBER Series. If you require further quantities of the JOLLY NUMBERS Primer in order to fill orders, we are in a position to supply these immediately. The stock of JOLLY NUMBERS Book One and JOLLY NUMBERS Book Two First Half is in somewhat scarce supply, and we doubt that we will be able to arrange reprinting of these two titles until some time in February.

We appreciate very much the intimation that you will use approximately 3,000 of these books during the 1948-49 academic year. Such information enables us to arrange paper supplies and printing schedules so that we will not default on any of the orders.

I am unable, at the present, to give you a quotation on the CARIBOU ARITHMETIC Grade Three. Our prices, and those of other publishers, have to be increased in the near future. As of December 1st, the price of cloth went up $0.14 a yard, and is now double the pre-war price and paper is likely to go up following the increase, a week or so ago, in the price of newsprint. As you probably know, pressmen are on strike at present and there is no indication that a settlement may be arrived at immediately. It is unpleasant to contemplate that the price of books is likely to be increased over those prices of last spring, but it is a problem which all publishers have to face at the present. I regret that for these reasons it is difficult to quote a price on CARIBOU ARITHMETIC, Grade Three. As soon as we are able to give you a quotation, we shall be pleased to let you know.

The Workbook for STORIES FOR EVERY DAY, the fifth-grade book in the Corona Readers, is now in the second-proof stage, and we had hoped to have the Workbook ready before Christmas. Again, the date of publication of this Workbook is very dependent upon the settlement of the afore-mentioned strike, but we hope that this Workbook will be available early in the new year. The work on the Workbook for TREASURE TROVE has not progressed as far as that for STORIES FOR EVERY DAY.

Dear Mr. Driscoll:

The following titles are for workbooks to accompany readers of the Corona Series:

Workbooks for Stories for Every Day,
Workbooks for Treasure Trove.

We wrote to the publishers, Ginn & Co., with regard to the delays which have occurred in the publication of these two workbooks. We have now received a reply reading as follows:

"The Workbook for Stories for Every Day, the fifth-grade book in the Corona Readers, is now in the second-proof stage, and we had hoped to have the Workbook ready before Christmas. Dear Sir:

It is with great pleasure that we send you our Tex-made Cotton Kit consisting of a display box and a simplified description of the Manufacture of Cotton Yarns and Fabrics.

We hope that this kit will prove useful in helping you to provide object lessons for your classes and if you should require an additional kit, or know of another teacher who could use a kit, we will be only too pleased to provide same on receipt of request.

Your comments on this teaching aid would be greatly appreciated.

Yours truly,

Mr. Bernard F. Neary,
Department of Indian Affairs,
Ottawa, Ontario.

Dear Mr. Neary,

We have 6,360 copies, in sheets, of JOE AND RUTH GO TO SCHOOL. The orders from the Department of Printing and Stationery for this book have been comparatively small in recent years, and we realize that the need for such a primer may be not as great now as it was when the book was first published. However, we only undertook to publish the book in the first case upon condition that the Department of Indian Affairs would eventually absorb our stock.

We are writing now to know if the Department would be willing to take these copies off our hands at a very cheap price? The last quantity with which we supplied you was sold to you in paper binding at a price of 58 cents net. We are pleased to quote you a price that will merely enable us to get back our costs out of the venture, and we should be grateful if you would advise us what can be done to take these copies off our hands, either this year or during the course of the next two years, as we have no sale for them elsewhere.

6,360 copies in paper binding..... 26¢

We shall very much appreciate your giving this matter consideration, and you may be sure that we will be willing to co-operate with you in any way possible.

Yours sincerely,

C. J. Eustace.

Dear Mr. Eustace:

I have for answer your letter of January 9th.

At the present time we can take two thousand (2,000) of the primer "Joe and Ruth Go To School" from you. We are writing today to the Department of Public Printing and Stationery requesting that they place an order with you for this number, at the price quoted, viz. 26 cents each.

We will do everything possible to push the use of these books in our schools, and will advise you in the near future of the possibilities of taking further quantities of this text from you.

Yours sincerely,

Dear Colonel Neary:

Perhaps you will remember seeing my exhibit at Ottawa last year. At that time I made a note to write you about now, regarding your requirements for 1948. When I saw you, you expressed interest in our little FOREIGN FRIENDS Series, Abdul of Arabia, Manuel of Mexico, etc. as listed on page 7 of our Elementary Catalogue, which we are sending you under separate cover.

We have other books of this same inexpensive type, which you will find on pages 38, 39, and 41. You will also find many other inexpensive books from 5 cents up listed, particularly in the section beginning on page 34.

We would be very glad of the opportunity of sending you examination copies of anything you might like to see before purchasing. Two copies of our Elementary Catalogue are being mailed to you.

Yours sincerely,

Phyllis Taylor

I have for acknowledgment your letter of January 16th, and I am pleased to receive copies of your new catalogue.

We are asking the Department of Public Printing and Stationery to stock the following new titles in My Indian Book Series:

50 copies Antelope (Navaho Indian Boy),
50 " Morning Star (Pueblo Girl).

I am interested in Our Foreign Friends Series, and I would appreciate receiving a sample copy of each of the following:

Abdul of Arabia,
Wilhelmina of Holland.

I would also like to study your Comparative World Atlas (Canadian Edition).

With regard to story books, I would also like to receive sample copies of The Little Red Hen, from My First Book Series; Tom Thumb, from My Own Fairy Book Series; Uncle Wiggily Learns to Dance, and the Child's Book of Birds.

Colonel Bernard F. Neary,

Department of Mines and Resources,
Indian Affairs Branch,
Ottawa, Canada.

Dear Colonel Neary:

I have had on my desk for some weeks your letter of December 12 to Mr. Robinson and his reply of December 22. This had primarily to do with your letters of September 12 and 13.

The strike which has been going on in Toronto for the past four weeks has now been settled, the men having gone back to work yesterday. The settlement includes a retroactive increase in pay from $1.07½ to $1.35, two weeks' holiday with pay as against one week, and eight statutory holidays with pay as against three. This, together with the sharp increases in the cost of materials, unfortunately is going to result in a very sharp increase in the price of books. So far we haven't worked out complete costs on our various titles. We were forced to raise a number of prices on January 1 of this year and other increases will probably have to be made when we have worked out complete costs.

For the time-being, however, we are able to quote you definitely on one book: CARIBOU ARITHMETICS, Grade Three. On this title we can give you a price of 80¢. It seems to me that this book should be particularly suited for your needs inasmuch as it is written primarily for use in the small school where a teacher has more than one grade. It is, as far as I know, the only arithmetic at this grade level written from this point of view. The Grade-Four CARIBOU ARITHMETIC is in active preparation and will be ready next fall.

The workbook for STORIES FOR EVERY DAY is almost ready for press. I am sending you under separate cover a set of page proof of this book. This is not final proof and there may be some errors in it. You may rely on these being corrected before the book is published. Also we are making some minor changes here and there in the exercises, particularly in the poetry selections where the exercises will be less factual and more imaginative.

We have had this proof read by a number of very good teachers, and the changes which are being made are the result of suggestions from them. I hope you will decide to use this in your schools.

Colonel Bernard F. Neary,
Superintendent of Indian Education,
Welfare and Training Service,
Department of Mines and Resources,
Ottawa, Canada.

Dear Colonel Neary:

I have your letter of January 29, and I find that we received your order 61778 for 150 HEALTH, SAFETY AND SUCCESS and 75 YOUR HEALTH AND SAFETY on January 21 and that the order was shipped complete on January 27. I expect, therefore, that the Printing Bureau has the books by now.

The printers' strike has been settled on the basis of an increase in wages from $1.07½ an hour to $1.35, with two weeks' holiday with pay in place of one, and eight statutory holidays with pay in place of three. Thus, it has been estimated that, counting these additional holidays, the actual wage increase is to $1.45, rather than to $1.35. The wage increase is retroactive to October 1, 1947. This, combined with increases in the price of paper and very drastic increases in the price of cloth have added tremendously to our manufacturing costs, and we are presently working on a new schedule of prices. The increases are going to be startling - somewhere between 20% and 30%, in many cases. This is just as astounding to us as it probably will be to you, but of course every publisher is in the same boat and there is nothing we can do about it. Our books could, of course, be cheapened by the use of lighter paper, the omission of colour, and that sort of thing, but the demand today is for a first-class book, and we don't think books cheapened in quality would meet with favour in the schools.

With all good wishes,

Cordially yours,

Ottawa.

Dear Mr. Neary:

In reply to your letter of January 28th. we have sent you a copy of the outline of the Programme of Studies for our elementary and high schools. This is the only printed course of study we have available for distribution.

We shall ask the Principal of the Normal College to send you a copy of the Calendar, and will send you a copy of the Summer School Bulletin for 1948, as soon as it is ready.

The Educational Institutions for under-privileged children, of which there are three - The Halifax School for the Blind, The Halifax School for the Deaf, and the Nova Scotia Training School, Truro, N. S.,are not directly under the jurisdiction of this Department,and we would suggest that you secure infomation direct from them.

Very truly yours,

GOVERNMENT OF THE PROVINCE OF ALBERTA
DEPARTMENT OF EDUCATION

EDMONTON, ALBERTA

February 3rd, 1948.

Dear Sir:

Reference your 150-99(WT.8)

Your letter of the 28th ulto. has been received and contents noted.

We are forwarding you today under separate cover the following Courses of Study.

1. Elementary Course of Studies (two) Grades 1-VI
2. Intermediate Course of Studies (Grades VII to IX)
3. Social Studies in Grade IX (this replaces the Social Studies in Grade IX which is outlined in the Course of Studies.
4. Social Studies in Grade IX (Units V & VI)
5. Social Studies in the Intermediate Grades (Grades 7,8,9)
6. Community Economics. (For Intermediate Schools)
7. Course of Studies for High Schools (13 separate bulletins)
8. Bulletin on Consumer Education. (High School)
9. Social Studies Bulletins Nos 1,3,4,5, 9,10,11,12,13. Bulletins 2,6,7,8 are out of print.

The above are the courses of studies used in this Province for both Protestant and Separate Schools.

We have requested the University of Alberta, (Faculty of Education Branch), to forward you any bulletins or pamphlets they may have on Normal Schools and Summer Schools. You may expect a reply from them in due course.

The Education of under-privileged children comes under the Deptartment of Health. Upon request, it is possible that bulletins may be secured from them. We do however, send the Blind, Deaf and Dumb to Schools outside the Province and Government expense.

We hope that these courses of studies and bulletins will be satisfactory to you. There will be no charge for these bulletins, as it is presumed that they will be used for reference purposes.

Yours sincerely,

Dear Sir:

I am pleased to forward a Faculty of Education Calendar and a summer session bulletin.

I wish to advise that Normal Schools were discontinued in Alberta two and one-half years ago and the University took charge of all teacher training. The former one-year Normal School Program has been replaced by a regular two-year program and an emergency program which is one year in length (Junior Elementary and Intermediate Certificate Program).

DEPARTMENT OF PUBLIC PRINTING AND STATIONERY

OTTAWA, November 8, 1947

Ref: "Stationery"

Mr. Edmond Cloutier,
King's Printer,
Government Printing Bureau.

I am in receipt of copy of a letter from the Deputy Minister of the Department of Mines & Resources, dated October 31st, which you sent me for my comments.

In reply I wish to advise you that I see no reason for the Department of Mines & Resources not ordering their supplies through this office the same as the Indian Schools in the Department of Indian Affairs order theirs.

On many requisitions received from Mines & Resources they are asking for books which are stocked regularly for the Department of Indian Affairs. The only exception that might be made is where they are asking for textbooks of the different provinces which are not carried in stock and which are urgently required.

Regarding the delay, I might state there is no long delay if the department would send me their requisitions with a notation that the goods are urgently required. In many cases books that are required for Indian Schools are ordered from the publishers, but a delay is caused owing to the fact that they cannot be procured at once, in many cases they have not yet been printed.

Some items such as scribblers, pencils, etc., are carried regularly in stock and could be supplies at once providing the department states they are urgently required. Evidently a lot of the delay is caused by the department's regulations as to where the goods should be ordered. In the Deputy Minister's letter he quotes the procedure that requisitions must take before the goods are supplied. A lot of these regulations are inter-departmental and is not caused by any delay on the part of this Department.

I would suggest that before ordering goods the Department of Mines and Resources communicate with Col. B.F. Neary, Superintendent of the Indian Branch, Department of Indian Affairs, who will be in a position to state what text-books are used for his Indian Schools. As already stated many

of ones for the Department of Mines and Resources are the same as those stocked for the Indian Schools.

Goods that are not carried in stock are forwarded to the Controller of Purchases to be ordered. If there is any delay in ordering, it is not the fault of this Branch.

I would suggest that the Department of Mines and Resources forward their requisitions to this office and preference will be given where the goods are marked urgent.

Dear Mr. Luckett:

I have for answer your letter of March 15th, with regard to requests by some of our teachers for donations of pencils and crayons for use in Indian schools.

The information contained in your letter came as a complete surprise, as we have been filling requisitions for pencils and crayons in full. It would seem, therefore, that exaggerated statements have been made to you, and we would sincerely appreciate being advised of the schools from which you have received these requests.

It is quite possible that some of these requests may have been forwarded from combined schools for Indian and half-breed pupils which are operated jointly with the provincial Departments of Education. While we provide free pencils, books, etc., for Indian children, these are not provided for half-breed children.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education.

Gentlemen:

We are having calls from Indian Schools in various parts of Canada, asking us for donations of Pencils and Crayons for use for the Indian students. Some of these, we are told, that in spite of their urgent demands, that your Dept. have not furnished them with enough of these Crayons to take care of their work properly.

This may be an exaggerated statement or it may be an oversight on the part of some of your clerks in not taking care of the requirements of the various schools, as we feel quite sure that you are intensely interested in seeing that these Indian students are supplied with the necessary equipment to develop them in their educational and artistic abilities.

Our Pencils are obtainable from the Dept. of Public Printing & Staty. or from any Stationer, wholesale or retail in Canada.

Samples of our Colored MONGOL, our EBONY and our #482/HB are enclosed.

The above is respectfully submitted, and not in any sense of the word, intended as a criticism of your Dept.

Yours very sincerely,

Gentlemen: Attention: Mr. Murray Fogarty,
Supt. of Indian Education

These inquiries come [illegible] and go into our files. Needless to say we cannot comply with their request for free merchandise, but we do occasionally send them a few samples.

We cannot at the moment honestly remember just who the schools were, but we have the impression that one came from somewhere in Saskatchewan and another from an Indian school somewhere in Quebec.

You realize, we trust, that our letter to you was merely in the interest of educating these children and you will recall that we stated in our letter that the statements might probably be exaggerated. It might be in order to suggest that your Inspectors or whatever method you have for checking these things, be asked to keep their ears open for any complaints of this nature.

Dear Sirs: Penmanship

I was interested in your display of penmanship books at the recent O.E.A. convention. Unfortunately I was unable to contact your representative, but I wish some information concerning penmanship manuals.

We have been using the Bailey Writing Course in our Indian schools but, I understand, we formerly obtained two separate manuals; one for the junior grades and one for the senior grades. It would seem from your order form that you are now supplying only "The Bailey Method of Penmanship" at 31½¢ each. Could I please be advised as to whether you are still publishing the two manuals in the Bailey Writing Course or only the one manual mentioned above?

Mr. Hoey

You will recall that last year we purchased Books of Knowledge and Encyclopedias from the Grolier Society Limited, Federal Building, Toronto, Ont., in the following quantities and prices:

30 sets Book of Knowledge @ $37.50 per set,
10 sets Grolier Encyclopedia @ $37.50 per set.

Due to the increased costs of printing, the price of the Book of Knowledge and the Grolier Encyclopedia has advanced from $72 to $79. Therefore, the best price that this Company can now offer us on the demonstrator sets is $44.00 per set. In view of the fact that we are getting these books for approximately 50% of their cost on the normal market, I would recommend the purchase of 10 sets of the Book of Knowledge and 15 sets of the Grolier Encyclopedia.

Last year we found that the schools were most grateful for these books and we have had several comments in Inspector's Reports concerning them. We provide them only for schools in which there are twenty children in Grade 7 and upwards.

These books are in excellent condition and it was difficult to tell that they had even been used for demonstration purposes.

Dear Colonel Neary:

We are writing at this time to advise you that we are sending to you to-day examination copies of our Canadian Reading Development Series as follows: UP AND AWAY the Grade IV Reader, WIDE OPEN WINDOWS, Grade V Reader and ALL SAILS SET, Grade VI Reader, together with a Workbook and a Teacher's Manual to accompany the Grade IV volume. The Workbooks and Teacher's Manuals for the Grades V and VI Readers are in course of preparation and will be ready in the very near future.

In bringing these books to your attention, we would like to say that these are an entirely Canadian project--the entire editorial and manufacturing work has been carried out here in our own plant. One interesting feature which we think will appeal to you is the fact that these Readers are in keeping with the modern trend of reading as outlined for elementary schools. They have a controlled vocabulary and with such tie in with the vocabulary load presented in the Curriculum Foundation Series, that is the elementary set of Readers produced by the Scott Foresman Company and distributed in Canada by the W. J. Gage Company. Teachers who have had the opportunity to examine and test our new books seem to be unanimous in their opinions regarding the presentation and the usefulness of our Readers. We believe they are also the first set of Canadian Readers prepared in Canada entirely by offset lithography.

Mr. R.F. Davey, District School Inspector,

In view of the contents of your letter of the 22nd ultimo, file 0-11-1, we will in future address school supplies to "The Teacher" instead of the individual name of the teacher.

We have followed this procedure at some schools in the past but this practice also presents some difficulties and I therefore suggest the following:

(1) That you notify the Indian Agents that we will adopt this procedure in connection with school supplies for schools in British Columbia.

(2) That the Indian Agent in turn notify the schools in his Agency and advise each teacher that he or she should immediately get in touch with the post master of the post office where their mail is received and advise this official that any communications addressed "The Teacher" should be delivered to him or her.

This is especially necessary in the case of new teachers as it has happened in the past when the local post master is not personally acquainted with the teacher at an Indian day school, when he receives a letter or parcel addressed to "The Teacher" he is not definitely aware to whom it should be delivered.

Considerable confusion has arisen through the practice of addressing supplies and correspondence to individuals rather than to the teacher at a given school. As a result supplies and blue sheets from the Department of Public Printing and Stationery have been following teachers about the Province, causing confusion and a shortage of goods for the schools concerned.

It is recommended that the Department might request all teachers to use a standard form of address such as the following sample:

The Teacher,
Port Simpson Indian Day School,
Port Simpson, B.C.

This would ensure that the supplies went to the school rather than to the teacher who might have moved away from that area.

Thank you for your letter of April 2 concerning the Bailey Penmanship Textbook. The writer knows only the Bailey Penmanship in its present form, and the penmanship chart made available for use with the Bailey text. Investigation also suggests that no other book has ever been made available by Mr. Bailey.

It occurs to us that probably you have in mind "Sprott's Metronomic System of Writing" of which we are the publishers. Originally, this work was published in two books - Parts 1 and 2. Book 1 is now no longer published. In case you may not be acquainted with Part 2, a copy is being sent to you to-day with our compliments.

April 13, 1948.

Colonel B. F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Canada.

Dear Colonel Neary:

Mr. Robinson has reported to me on his conversation with you and Mr. Doucet regarding the wood-working books. I understand that you do not care for either of the formats which I suggested but would prefer to have the book saddle-stitched, somewhat after the style of Jolly Numbers. This is perfectly feasible and we are working on this basis. I understand also that you do not like the idea of imitation typewriter type because you think that this would be harder for the children to read. That, also, is perfectly all right with us and we are planning to use regular school book type. I understand from Mr. Robinson that you wish a number of extra copies of the students' record sheet, the bill of material, and the chart of basic operations. Mr. Robinson said that you wished a price on 10,000 each of these sheets, as a separate form. It will be perfectly possible to have these made, but I wonder if it would not be better to provide a sample of each of these forms in the text of the book (which, I understand, is what Mr. Doucet wants) and then, at the back of the book, to print a number of copies of each of these and have the pages perforated so that they can be torn out. I think that you would find this much more satisfactory than handling loose sheets, and the difference in cost would be trifling.

Quite a bit of editorial work has to be done on these pages in order to secure an attractive format. One of the troubles is that the amount of material on the pages varies in length. Another thing is that where we have drawings which occupy a full page, as in the case of the tea-pot stand, the instructions should face the drawing, so that the student doesn't have to turn the page to and fro while he is reading the instructions. Also, as a matter of routine, we want to check the material against the texts which are referred to. We have tried to obtain copies of these texts in Toronto but have been unable to do so, except in one case, namely HAND WOOD-WORKING by Evans, Parks, and Slatterie. Would you be good enough to mail to us copies of WOOD-WORK FOR JUNIOR HIGH SCHOOLS and INSTRUCTIONAL UNITS IN HAND WOOD-WORKING? We can return these to you eventually - I imagine you have an ample supply of these books.

One of our editors is working on the book just now, making a layout for it, and I shall write you in a day or so, giving you a figure for the book with the

Mr. O. P. Larsen,
Superintendent of Schools,
BASSANO, Alberta.

Dear Mr. Larsen:

You will have received by now a set of the FAITH AND FREEDOM Readers for Grades One to Three. Please accept these books with the compliments of Ginn and Company through me.

FAITH AND FREEDOM is a complete basal reading programme, made up of pupils' texts, workbooks, teachers' manuals and certain supplementary aids to reading. A list of all these materials with prices is attached to this letter.

FAITH AND FREEDOM Readers, as you know, are the authorized texts in primary reading for the Separate Schools of Saskatchewan. In addition, this new series is prescribed for use in the Catholic Indian schools throughout Canada, being supplied through the Department of Indian Affairs. Col. H. F. Neary, the superintendent of Indian schools, has asked me to draw your special attention to the FAITH AND FREEDOM Readers. It is of prime importance that the teachers have, and use, the appropriate teachers' manuals.

In several ways, the FAITH AND FREEDOM Readers are far in advance of all basal reading programmes. First of all, the stories in FAITH AND FREEDOM present situations which are part and parcel of every child's life at home and school and at play, and which develop moral choice and ethical action. This feature in itself is by no means new, but it is unique so far as any modern reading programme is concerned. FAITH AND FREEDOM has led the way, and there are signs that forthcoming readers will reflect a return to content illustrating the simple virtues, such as brotherly love.

No basal reading series today present the techniques of reading better than FAITH AND FREEDOM. The teachers' manuals which accompany each reading level teach every page of the primary books. More important though, than the lessons plans, is the fact that the manuals keep constantly before the teacher specific and varied techniques in presenting basal reading.

In the final analysis, though, the pupils' books themselves determine the real worth of any reading series. Here, when you come to examine the readers, you will find content based

ARCHIVES PUBLIQUES
CANADA

Indian Affairs. (RG 10, Volume 6007, File 1-1-4, part 7)
School Files

POOR COPY

unmistakably on children's real life interests, yet the stories are always worthwhile and literate even at the pre-primer level. Even with this high literary standard, the first pre-primer, HERE WE COME, is the easiest pre-primer published today. In case you wish to make further comparisons with the FAITH AND FREEDOM Readers, I am attaching a pamphlet which gives a helpful analysis of the series. Please note particularly the vocabulary chart reproduced on Page 4.

There are many other features of the books that you will like. The vigorous and appealing illustrations by Charlotte Ware are works of art in themselves. Not least to the credit of the FAITH AND FREEDOM Readers is the sturdy binding designed to withstand the daily use to which basic texts are subject.

FAITH AND FREEDOM is without question the leading reading series in its field. It is used basally in seven thousand of the eight thousand parochial schools in the United States. In addition to this, the series has been adopted in the Province of Quebec and in Newfoundland for use beginning in September.

Yours very truly,

Dear Colonel Neary:

Thank you for attending the lecture which Miss Brodie gave to Dr. Macdonald's teachers last week when we were in Ottawa. The demonstration class did not perform as well as a smaller group, but I am afraid I was overly enthusiastic about the number of children she would like to handle in front of an audience.

Copies of the FAITH AND FREEDOM Readers and the pamphlets, giving some of the details with regard to the mechanical aspects and the purpose of the Readers, have been sent to the four inspectors whose names you gave me. Since Mr. Litch travels this territory, he thought it better that he should write to these inspectors, and, when he is next in Alberta, visit them.

For your information, a copy of the letter which he has written these gentlemen is attached. I hope that it expresses what you would like them to know, and I am sure Mr. Litch will be able to give them a further briefing when he next sees them.

PERSONAL:

, June 17, 1948.

Dear Bob:

We have today received the prescribed text book list issued by the Department of Education for British Columbia for the year 1948-49.

I note that at least one of the Provinces has made up its mind as to the Reader which they will adopt for Grade 4. I note that they have decided to use Dent's Book "Young Explorers" in your Province. Therefore, I have today asked the Printing Bureau to place in stock three hundred copies of "Young Explorers" and fifty copies Teachers' Manual "Teaching Reading Today". We may, of course, have to wait a long time before these books are supplied by Dent but I thought we should get our order in early.

I will expect to hear from you as to whether you think this quantity will be sufficient.

As Ever,

Bernard F. Neary,
Supt. of Indian Education.

Dear Bernard:

Regarding the readers for Grade 4 which you are authorizing for use in the Indian Schools of this province, I note that you have ordered 300 copies of "Young Explorers" published by Dent. If this is to supply only the Protestant schools the 300 copies should be sufficient, but if they are to be used in the Catholic schools as well I think the number should be increased to 600.

I had a long visit from Bill Wouat yesterday afternoon and he is debating whether to apply for an inspectorate that has been advertised in B.C. with the Provincial Department. I think that he would like to go after the position but is hesitating because he would probably be stationed in the North. Living conditions in some of those places do not appeal to Jean and he also has the two children to consider of course. Apparently the addition to the high school is still at the planning stage. Jimmy Scammon has left him and has gone into Burnaby South. Otherwise he seems to be holding on to his staff fairly well, and apparently the last academic year has been a good one for him.

With best wishes to yourself and family.

Yours sincerely,

Bob.

Dear Sir,

On the occasion of my last visit to your school while Mr. Clark was there I suggested that there was a definite need for books which could interest the children in our world and the way we live.

Yesterday Mr. Roberts of the Grolier Society was in to get our orders for the Book of Knowledge' and'Lands and Peoples'

Our teachers are very enthusiastic about these sets and I am convinved that they are one of the finest contributions we have made to our school libraries. Grades 3, 4, 5, and 6 make a great deal of use of these books and intermediate and High School pupils find them very useful for social studies.

I suggested to Mr. Roberts that he call on you so that you may know about these books from having reviewed them yourself.

If there is any way of procuring these books for your school I would certainly recommend their purchase for I know they will contribute a great deal to pupil interest and knowledge.

Very sincerely yours,

The text matter has been prepared by a number of noted authorities such as Vilhjalmur Stefansson, the famous explorer, and many others, who have traveled many thousands of miles with camera and typewriter to present this outstanding work to you.

LANDS AND PEOPLES PROMOTES PEACE THROUGH UNDERSTANDING

There would be no wars if the peoples of the world could visit each other, discuss their mutual problems, learn each other's viewpoints and traditions.

Lands and Peoples makes these visits practical. It takes you right into the homes and the hearts of the peoples of every country in the world — it teaches you to understand and sympathize with other cultures and other viewpoints.

"How can peoples get on with each other," says Dr. Bowman, in his introduction to Lands and Peoples, "unless they do talk over their problems and try to understand each other in all their common ways as well as in their unusual and peculiar manifestations? To help understand the citizens of other countries these books on Lands and Peoples have been brought together, with a wealth of color and story. With all of them we as heirs of a 'human civilization,' have business or political relations and all of them act as real forces playing upon us and the rest of the world. They are realities, profoundly interesting realities with their unlikenesses, their (to us) strange civilizations, customs, religions, dress and food. Who would not wish to go a-voyaging among them?"

GENERAL ARRANGEMENT OF LANDS AND PEOPLES

THE SEVEN VOLUMES of the work are arranged to bring, so far as possible, contiguous countries together. Beginning with Western Europe we move eastward until the globe has been encircled. The dominions, territories or dependencies of a nation in another continent are treated not with the nation itself but according to their geographical location. For example, Algeria is described not under France, but in the volume on Africa. The general scope of each volume is indicated below.

VOLUME I
Western Europe

Includes England, Scotland, Wales, Ireland, Belgium, the Netherlands, France, Spain, Portugal and the islands of the Atlantic and of the Mediterranean, with 112 pages in full color.

VOLUME II
Central Europe

Includes Norway, Sweden, Finland, Greenland and Iceland, Denmark, Germany, Poland, Latvia, Lithuania and Esthonia, Czechoslovakia, Austria, Hungary, Switzerland, the Toy States and Italy, with 88 pages in full color.

VOLUME III

VOLUME V
Africa, Australia and the Southern Islands

Includes Morocco, French Africa, Egypt, British Africa, Abyssinia and Liberia, Portuguese Africa, Italian Africa, the Dutch East Indies, Madagascar, Borneo, the Philippines, Australia and New Zealand, Australasia and Oceania, with 72 pages in full color.

VOLUME VI
North America

Includes a full treatment of Canada, Newfoundland and the United States, including Alaska and Hawaii, with special articles on

IN ALL THE WORLD there is no other set like it. It gives the student, the traveler, the lover of romance and the adventurer a true insight into the peculiarities, traditions, customs and backgrounds of every nation from the beginning of time to today.

It makes you understand the reason for national aspirations and ambitions; it puts action into history and makes the past live again.

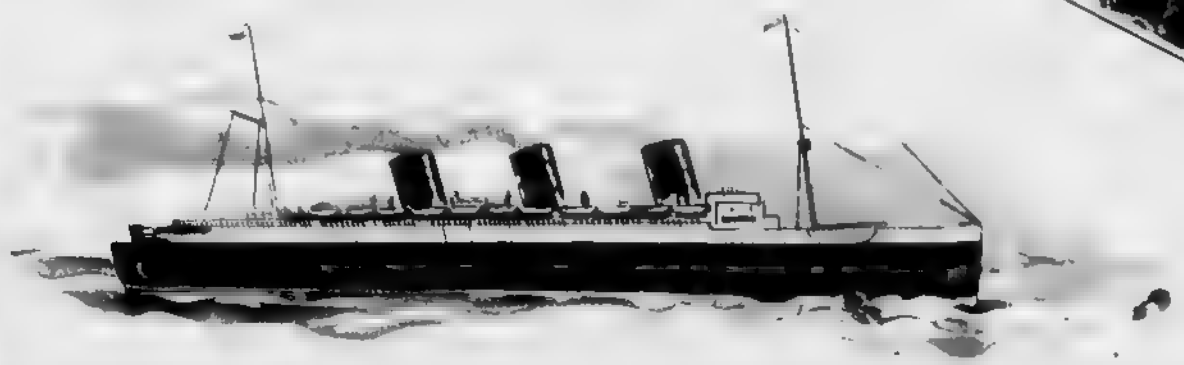
While fascinatingly interesting, the authority of Lands and Peoples is so well established that it has been recommended by Boards of Education everywhere for school use in the study of the social sciences, and it is the standard set in hundreds of educational institutions. Lands and Peoples is ideally adapted for the arrangements of pageants and costume shows.

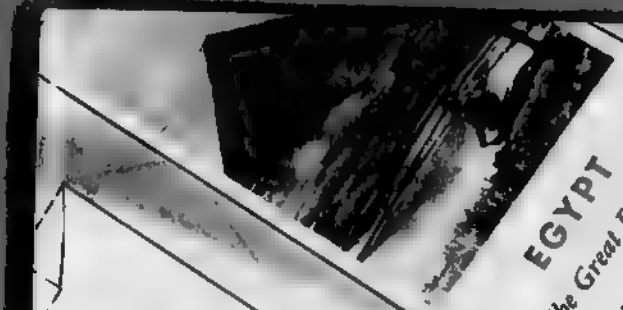
It is an inspiring source of material for artists and designers, for writers and research workers, for schools, women's clubs and other cultural groups. It is often chosen for special study on such topics as Transportation, Food, Clothing, Forms of Government and other comprehensive subjects. Lands and Peoples is a rich storehouse of information and pictures on these and hundreds of other subjects. A few of the index headings will serve to show the range of project material: Agriculture, Air Service, Art Treasures, Betrothal Customs, Bridges, Monuments, Burial Customs, Canals, Colleges, Costumes, Customs, Dancing, Festivals, Industries, etc.

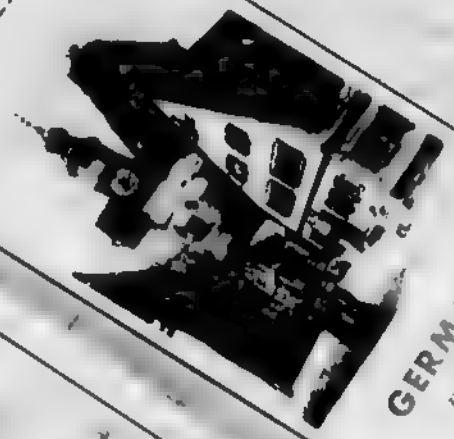
Lands and Peoples fits perfectly into school curricula wherever the social sciences are taught. It is grouped and arranged to go along with school courses and, for the convenience of teachers, students and general readers, is indexed as follows: Alphabetical Index in each volume; Cumulative Alphabetical Index in Volume VII; Cumulative Index of color plates in Volume VII; Table of Contents in each volume.

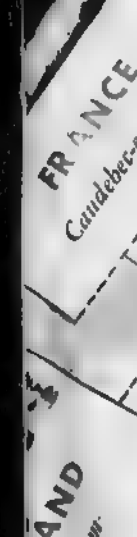
Lands and Peoples is written in simple, narrative style, and in addition to the descriptive text, contains an encyclopedic article of facts and figures at the end of the article on each country.

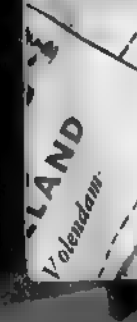
sentative of its contents. Each volume is also heavily gold-stamped and gold-topped, with headbands and strongly reinforced back.











Near and Middle East

Includes Greece, Albania, Yugoslavia, Bulgaria, Rumania, Russia and its allied and dependent states, Persia, Iraq, Turkey, Syria, Lebanon, Palestine and Arabia, with 88 pages in full color.

VOLUME IV

Asia

Includes Afghanistan, India and dependent and allied states, Ceylon, Malay States, Siam, French Indo-China, China and dependencies, Japan and dependencies, with 96 pages in full color.

the American Indians and upon the regions around the North Pole, with 92 pages in full color.

VOLUME VII

Latin America and General

Includes descriptions of the twenty Latin-American republics, the West Indies, the Antarctic Continent, together with twelve general articles on such subjects as volcanoes, waterfalls, deserts, the evolution of the boat, etc., which could not be treated elsewhere. There are 92 pages in full color and a complete index.

THE PALACE OF CONGRESS at Buenos Aires is one of the show places in a city of splendid buildings. TO THE STUDENT, the artist, the designer, Lands and Peoples is indispensable.

Arranged for easy reference, grouped according to classifications, indexed so that even a child can quickly find his way, Lands and Peoples is a treasure-house of ideas, of pictures, of descriptive matter, of facts and figures.

It makes the study of geography and social science a pleasure, research work becomes entertainment, and the creative mind finds Lands and Peoples a veritable Fountain of Youth.

"Within twenty-four hours after I got my set," says a noted commercial artist, "I got an idea for a South Seas folder out of it that made me two hundred dollars. What an investment, in addition to the pleasure I get out of it."

And here is a mother's comment: "My twelve-year old girl never showed the slightest interest in geography. But since Lands and Peoples came into the house, she can't get enough of it."

AT THE JOURNEY'S END both man and beast, though hardened to desert life, are glad to see before them the walls and minarets of a town and to know that soon they will find plenty of water for their refreshment. While the Arab on the right bathes his weary feet, the camels come to drink, still wearing over their humps the basket "coats" that prevent their backs and sides from being chafed by saddle or pannier. Two of the camels are not yet unloaded. The presence of a horse shows that this city is only on the fringe of the desert.

I have your letter of July 7th in connection with the purchase of a set of reference books "Lands and Peoples" published by the Grolier Society, Federal Building, Toronto, Ontario, for $57.50.

Please be advised that the purchase of these books is not recommended as it is felt that the Department is supplying sufficient reference books in form of "The Books of Knowledge" and "The Grolier Encyclopedia".

In the June Bulletin, Article No. 54, it was outlined that larger schools in which there are fifteen or more students in attendance in Grade 7 and upwards, the Department would supply them with a set of either "The Book of Knowledge" or "The Grolier Encyclopedia". As neither of the two Residential Schools qualify for these books, I would suggest that this matter be taken up with the Principals concerned in order that a more determined effort might be made to have a larger number attain higher education. Most Residential Schools can qualify for the reference books provided, because they have the required number of students in the upper grades.

Dear Sirs: Attention: Mr. Bernard F. Neary.

Your letter of the 22nd instant has been received, and in reply we regret to advise that we are not manufacturers of blackboards.

We do, however, supply Cork Carpet to Armstrong Cork Canada Limited, Decarie Blvd., Montreal, who, we understand, convert it into bulletin boards and like articles for schools.

However, your letter would indicate that this is not the type of board you are looking for and, frankly, we have no information as to where same could be procured, unless through school supply houses.

Gentlemen:

Subject: Murray Modernite Chalk Board

We wish to thank you for your inquiry of July 22 regarding blackboard. While this inquiry was directed to Modernite Industries, Limited, we would advise that we have the selling franchise for all Modernite products in Canada.

We note from your letter that you are interested not only in the board itself but in various accessories. We would advise that we only handle the board itself.

Murray Modernite Chalk board is available in sizes of 4'x4' and 4'x6' in a thickness of 3/16". For your information, the backing of this product is Donnacona Hardboard with a special processed surface. The price is 44¢ per square foot F.O.B. the rail or water freight terminal nearest to destination.

The above prices include the 6% Federal Sales Tax, all other taxes present or future to be added. Prices subject to change without notice. Material to be invoiced at prices in effect at time of shipment.

We are mailing to you under separate cover a sample of both green and black chalk board. Delivery would be dependent on the quantity involved but we would suggest that minimum of six weeks be required after receipt of the order before any quantity could be shipped.

We thank you for your inquiry and trust that the above information will be found to your satisfaction.

Yours very truly,

W.S. Lee,
Manager, Insulation Division.

Dear Sirs:

ATTENTION BERNARD F. NEARY

We have received your letter dated July 26 but regret very much that the supply of our large catalogue is entirely exhausted at the moment. Perhaps you will have available some editions of the Christie School Supply or the Western School Supply catalogues and any of these could be used for the selection of goods. But there have, of course, been changes in prices as the catalogues were issued some years ago.

We have large stocks of all general school supplies and could take care of orders for the heavier goods such as Pupils' Desks, Blackboards, all the way down to the smaller supplies that may be needed.

Hyloplate @ 55¢ per square foot
Slate or green chalk strip 9½ feet moulding 2".
3½ or 4 feet wide.
Question of ready stock.

We are enclosing herewith some supplementary lists. Your address will also be on our mailing list for catalogues and circulars as they are issued from time to time.

Please be assured of our very best attention to your commands.

Dear Sir:

Re: File 1-1-4 (E6)

As requested in your communication of July 22nd, we are forwarding under separate cover two sets of our latest catalogues and trust that these will be of considerable assistance to you in placing future orders for our school supplies or equipment.

We have recently been informed that tentative plans have been made for the erection of four new residential schools during 1948, as well as 97 new day school classrooms. In addition to the equipment required, a considerable quantity of general supplies will no doubt be needed and we would appreciate very much the opportunity to be of service.

From time to time we have been in contact with the Indian agents at various locations in Ontario regarding equipment required in Indian day schools in the process of erection, and from the meagre results obtained it appears that the actual orders are placed by the Ottawa Division of the Indian Affairs Branch. On the other hand, such supplies as we have shipped during the past year or so have been in connection with orders placed by Mr. Maul A. Gay, through the Department of Public Printing & Stationery. If you will provide us with any definite information as to whom it will be best to contact in connection with the supplies and equipment required for the new projects, we will be very grateful.

In the meantime, we have placed your name on our permanent mailing list and you will receive all publications within a short time after they have been received from the printers. Should you desire any additional information in connection with the foregoing, please address correspondence to the attention of the writer so that the necessary details can be forwarded promptly.

Attention: Mr. Bernard F. Neary

Gentlemen:

In answer to your request for quotation of July 22nd we are pleased to advise that we indeed manufacture blackboard, and are pleased to enclose herewith three samples of the blackboard we manufacture.

The samples enclosed are ¼" thick but we don't make the ¼" anymore, but make the 1/8" thick blackboard on the same material as it is the only thickness we can obtain now. We make same in the black and green at $0.40 sq. ft. F.O.B. D'Ville exclusive of sales tax. We call it tylo blackboard and it is the only type we manufacture. Delivery on same is four to six weeks after receipt of an order.

We make this in two sizes only namely 4' x 4' and 4' x 8' as it is also the only size sheets we can obtain from the mills.

Hoping this will be satisfactory and hoping to be of service to you in this instance, we remain

Yours very truly,
THE J.A. GOSSELIN CO., LIMITED.

Dear Sirs:

I have for answer your letter of July 29 and also wish to acknowledge receipt of your latest catalogues.

Our requisitions for textbooks, school supplies, etc., are placed through the Department of Public Printing and Stationery. Our requisitions for desks are placed through the Purchasing Agent for the Department of Mines and Resources.

However, we do make enquiries ourselves and are particularly interested at the present time in blackboards for our new schools and also in desks for these schools.

Therefore, it would be appreciated if we could be advised as to whether there has been any change in the prices of these two articles since the issuance of your last catalogue.

Yours sincerely,

Dear Sir:

On going over the Delivery Records forwarded by you a few days ago and by comparing them with our Demands for School Supplies, it appears that delivery is between 175 to 200 requisitions, or about a month behind the Demands. I quite realize that this is the busiest time of the year as far as school supplies are concerned. You will readily agree that it is important that the schools get their supplies before September as the teachers on opening the schools start re-ordering supplies on the assumption that the original requisition did not reach Ottawa, resulting in duplication of work, cost and material.

To assist you in speeding up the delivery of the supplies, I am discontinuing to send further requisitions for supplementary Reading Books and it will be in order for you to discontinue shipping out any Supplementary Reading Books for the present, but to concentrate on the regular school supplies until it is felt that the requisitions for school supplies are satisfactorily cleared up . Then we will proceed with the shipping of library books.

Sincerely,

Bernard F. Neary,

RE: File 1-1-4

Dear Sir:

We appreciate your cooperation in replying to our recent inquiry concerning equipment and supplies for Indian schools and hope that a much larger volume of business in our lines can be developed. However, it is noted that the requirements of teachers and pupils will continue to be requisitioned through the Department of Public Printing & Stationery, so must endeavour to convince officials concerned that we offer a superior selection of suitable items, based on 50 years' experience in the educational field.

Regarding blackboards, we list three different kinds of material on pages 12 and 13 of catalogue #47A, copy of which was sent you last month. There is as follows: Natural Slate, Black Hyloplate, Green Lite-Site. If you are not familiar with any or all of these, please let us know and we will see that you are provided with samples. At the same time we hope you can give us some idea as to what quantities are likely to be needed for institutions under your jurisdiction, because special terms would apply and we would like to be placed in a position to estimate minimum costs according to the amount and method of purchasing. By the latter we have in mind that you may intend to order in bulk and distribute from Ottawa, which would be the most economical from our point of view - while on the other hand, direct consignments of small lots to various destinations would automatically increase the overhead in handling, crating, etc.

Much the same remarks apply to school furniture and here again we should have some indication as to size, quantities, and, of course, it is important to know the type of pupils' desks that you prefer for Indian schools. A few are listed on pages 2 to 4 of catalogue #47A, and we

THE LATEST IN KINDERGARTEN CHAIRS

SUPER COMFORT — SMART APPEARANCE—

MODERN DESIGN — STRONG CONSTRUCTION

Here is a new, up-to-date type of chair that all Teachers of young children should welcome for their Kindergarten and Primary Classes. It fills a long-felt want. Immature bodies need no longer be accommodated on hard, uncomfortable chairs of poor design and doubtful construction.

The appealing appearance of this model is equalled by the practical features that have been embodied. Seat and back are softly upholstered in tan Fabrikoid, durable and serviceable in all respects. The frame is of bright chrome steel tubing, gracefully shaped and built to assure a lifetime of hard use. The legs are domed; cushioned glides can be added if required.

Trustees and School Officials should see that their Junior Grade rooms are equipped with this outstanding chair.

Quotations will be provided upon request.

Re: Blackboards

I refer to Mr. Neary's letter of Jully 22nd, concerning the possibility of securing blackboards from Dodd & Steele Ltd. Inspector Davey has contacted this company and has been informed by them that they can make delivery within a week of quantities up to 1,000 sq. ft.

These blackboards come in standard sizes of 4 x 8, 4 x 12 and 4 x 10. They can also supply sheets of the same length in a 3½ ft. width. The price which they are prepared to give us is 36¢ per sq. ft., f.o.b. the factory crated for shipment.

A chalked sample of the green colour is forwarded under separate cover. This board is almost identical with the Minster blackboard with which the Department is familiar. Inspector Davey is of the opinion that it would give good service.

I might add that we have no difficulty in securing Hyloplate or Minster blackboard in small quantities for [illegible] Schools.

Dear Sir:

In addition to the 148 chair desks already manufactured for your Department by St. Vincent de Paul Penitentiary, and about which we enquired of your Superintendent of Education for shipping instructions on August 17th, the Warden of St. Vincent de Paul Penitentiary advises that he has on hand sufficient materials to manufacture approximately 350 additional units.

Our arrangement for manufacturing these chair desks has been that orders are issued for them as they are made up in sizeable lots and are ready for shipment and, in order not to encumber funds unnecessarily, no blanket order is issued. We would, therefore, appreciate instructions from you to proceed with the manufacture of the additional 350 units for which the penitentiary has the materials, on the same basis.

Your letter of December 13, 1946, suggests that chair desks be made up 60% of the small size, 20% of each medium and large. Is it desired that additional manufactures follow these percentages of size?

Dear Sirs:

We acknowledge receipt of your August 16th inquiry concerning prices and types of available school desks. Unfortunately, we are unable to supply the required details as at the present time, we are not producing any type of school desk.

During the war years, it became necessary to eliminate many of our lines due to material shortage and one of these was the school desks which was hardest hit not only because of a lack of good lumber but also pig iron and scrap iron was unavailable to produce the castings. Since cessation of hostilities, the lumber market has been anything but good and in fact, we would not produce school desks from the very poor stock that is available on the market. Consequently we have not re-entered this line nor can we see any future improvement for quite some time.

Most desk manufacturers are much in the same position as ourselves and we hesitate offering even a suggestion as to where you might contact a possible source of supply.

Dear Colonel Neary:

The workbook for STORIES FOR EVERY DAY is now ready and I am sending you a copy with my compliments. This workbook was written by a first-class teacher who has been using the corresponding text for several years. We think we have a very good workbook, thoroughly in line with modern paedagogical ideas. I would draw your special attention to the list of skills developed which is given on the inside of the back cover. I believe you ordered some of these books some time ago but that you cancelled your orders as the book was not ready. I am hopeful that with its publication you will reinstate your orders.

Mr. Robinson has written me of his talk with you and explained the delay in the approval of the woodworking project. I hope we may receive your approval within the next three or four days. We have, as you know, already done the bulk of the work on the first book of this series and get it out for you in very short order once we receive a final clearance.

Mr. Robinson tells me that you and Phil are going to the C.E.A. in Winnipeg. I shan't be able to attend the meetings this year, but Mr. Litch will be there, and I hope you will see something of each other. Best wishes for a pleasant trip.

Cordially yours,

Dear Sir: Re: File 1-1-4

Two months have elapsed since we wrote you regarding equipment and supplies for Indian schools but, up to the present moment, nothing further seems to have resulted and we wondered what action, if any, had been taken towards purchasing requirements.

You will appreciate that we cannot supplement catalogues with specific details or costs relating to groups of items or individual lines until we obtain your reply to various points raised in the exchange of correspondence.

We hope you will be in a position to guide us shortly and, if you feel that a discussion of such matters would facilitate consideration, we shall be glad to arrange for a representative to pay a visit to Ottawa.

Dear Sir:

May we solicit an order for the new edition of [illegible] FOR HOME AND SCHOOL, by Thomas B. Kelady.

This edition, released in 1948, contains forty stories altogether, three of them new, and the rest revised. All the illustrations are entirely new, and the book is cloth bound, with colored jacket.

Our price to Schools is $2.00 less 20%, or $1.60 net, F.O.B. Toronto. The Book is designed for Grades 5 through to 10, and bears the Imprimateur of His Eminence James C. Cardinal McGuigan.

Hoping to be favoured with your order, we are

Yours sincerely,

The story of each saint is told in relation to the period in which he or she lived, but with a practical eye to the life of the present day child.

The author, after close observation of children over many years, has used various methods in telling these stories to capture and hold the interest of young readers.

The book will be found particularly useful to parents as an aid in forming a taste for noble things in the minds of their children.

In schools, one story per week may be used in the classroom, and thus the entire book may be covered in one school year.

The book is an ideal gift for any child of nine or more.

Dear Colonel Neary:

The Text-Workbook edition of the CANADIAN PUPILS' OWN VOCABULARY SPELLERS is available now and copies are going to you, under separate cover. There is one book for each grade from II to VIII moderately priced at 45¢ each, less the usual educational discount.

As you will note, these are not workbooks alone, but contain all the material of the text edition plus space for pupil work. The advantages of this edition and the earlier text edition are outlined in PERTINENT POINTS, a copy of which went forward to you last spring. If you would like additional copies of this circular, please let us know.

We feel that the CANADIAN PUPILS' OWN VOCABULARY SPELLERS are a real contribution to Canadian education and a practical solution to pupil spelling problems and hope that you will plan for wide experimentation in your Inspectorate.

DEPARTMENTAL PURCHASING AGENT

It has been the practice of this Branch to authorize Indian Commissioner Arneil to purchase school desks for the schools in British Columbia where the cost does not exceed $500.00.

We are now in receipt of a letter from him which reads as follows:

"We are having considerable difficulty in securing desks for Indian Day Schools throughout this Province as the firm which formerly produced these has been out of production for several months.

"We would appreciate having information as to any source of desks outside this Province."

We would appreciate any information in connection with the above which you would like to give us so that we can supply same to Mr. Arneil.

Re Schools desks for B.C.

Replying to Mr. Neary's memorandum of the 20th instant, File 1-1-4 (E.1), I may say that our best source of supply for these desks is the Vilas Furniture Company, Cowansville, P.Q., who have supplied our requirements during the war years when we were unable to procure the desks from any other source. If B.C. firms are unable to supply the desks, I see no reason why we should not ask this firm to supply our needs. I would be pleased to arrange accordingly upon receipt of requisitions for B.C. requirements.

In this connection I may say that the figure of $500.00 was agreed upon as the maximum for emergency purchases to be made by the Indian Commissioner. The purchase of school desks can hardly be considered in this class.

AM REGISTERED

Dear Mr. Neary:

Both the writer and Miss J. Casselman of our organization have been in contact with Mr. Davies, your British Columbia Inspector of Indian Schools and we have discussed with him the need for library equipment in your Indian schools.

Mr. Davies is familiar with Compton's school encyclopedia and we are the distributors for here in Vancouver and Western Canada and Mr. Davies asked if we would forward you our illustrated material which describes the more recent editions of this publication.

Under separate mail we are sending you our illustrated booklet which describes the 1948 edition. The new Compton's is further improved in every way. No doubt you are familiar with "Compton's Pictured Encyclopedia" as it is in so many libraries and schools throughout Canada.

The price to you would be $109.50 f.o.b. Chicago per set. There would be no duty, of course, but delivery and any other charges would be additional. In other words I am quoting you a net price in Chicago. However, on a purchase of five or more sets there is a discount of $5.00 and there is also a discount of $5.00 a set for cash - 60 days. We are giving a further discount to schools and libraries who are turning in old sets and in the event of your being desirous of placing a fair size order, we would like to discuss the matter with you further or you could take the matter up with the Compton people in Chicago if you prefer.

Yours truly,

Dear Sir:-

Mr. T.L. McEvoy of the House of Commons, Ottawa., has told us you might be interested in getting a source of supply for fancy leathers and various craft supplies.

We are taking the liberty of sending you, under separate cover, our very modest catalogue, which will give you a fair idea of the different craft material and supplies we handle.

We also have a very great variety of fancy leathers, such as:

> Tooling leathers, vegetal tan, for leather craft work and a full assortment of sheepskins, embossed in various grain and colors, also suedes, English Moroccos. Various grades of goat skins for gloving, as well as clothing and calf skins for bookbinding and leather craft work.

We also supply veterans' hospital throughout Canada as well as sanatoriums, schools and individuals.

We would be pleased to give you quotations at any time you may be in need of those ma-

Dear Sir:

I have for answer your letter of October 6 which arrived when I was absent inspecting our schools in Western Canada.

At the present time we are using in our schools the Grolier Encyclopedia and the Book of Knowledge. By purchasing large quantities from the Grolier Company, we obtained a considerable discount. Most of our schools in which we have a sufficiently large enrolment in the higher grades now have sets of either one or the other of the series of volumes mentioned above.

Yours sincerely,

Bernard F. Neary,
Superintendent of Education.

Gentlemen:

We have been having considerable difficulty securing the book entitled "The Canadian Speller Book 1" by Frank M. Quance, Ph. D.

The Department of Public Printing and Stationery, who purchases all our school supplies advises me that they have an order for a supply of these but none have been supplied for some time.

Would you kindly advise me when we can expect the next shipment or whether it is your intention not to reprint it.

Sincerely yours,

Bernard F. Neary,
Supt. of Indian Education.

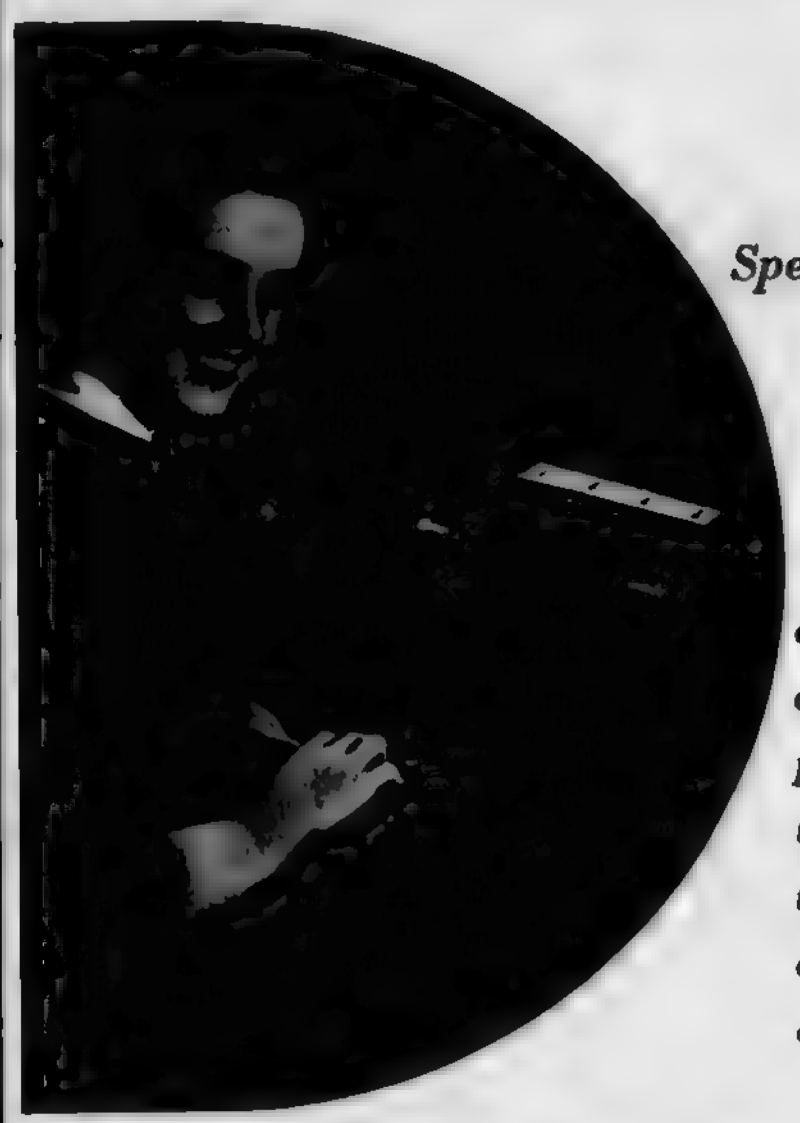
Modern office duplicating



Speed • Economy • Convenience • Versatility

The Mimeograph duplicator is the all-purpose office duplicator. As few or as many copies as may be needed can be produced from a single writing. From typed bulletins and ruled forms to illustrated copies in color, the Mimeograph duplicator is always ready to turn out copies easily, quickly, inexpensively.

Only one writing

Typing a stencil is as simple and quick as typing on paper. Pictures, ruled forms, graphs, etc., are easy to trace on the Mimeograph illuminated drawing board (Mimeoscope) with Mimeograph styli, lettering guides and accessories. Also electric accounting machines and metal addressing plates can be used for stencilizing. The Mimeograph services of die-impressing and form-topping expedite production and simplify controls when used for individual daily reports or as a means of producing papers needed for business systems.

MIMEOTYPE stencil sheets

MIMEOTYPE stencil sheets . . . finest quality for all stencil-duplicating purposes. They are excellent for typewriter or stylus work and may also be stencilized by means of electric tabulator or metal addressing plates. Especially recommended for the best reproduction of fine detail drawings and for longest runs on the Mimeograph duplicator.

Good visibility at the time of typing or proofreading and when used on the Mimeograph illuminated drawing board (Mimeoscope). Guide lines which indicate typewriter spacing and maximum duplicating surface are topped in white on all Mimeotype stencil sheets except 930, 951, 979 and 980. Guide lines for these sheets are printed on the backing sheets.

Excellent results are obtained from die-impressing or form-topping Mimeotype stencil sheets (see pages 8 and 9). They may be filed easily and quickly, without cleaning, in Mimeograph Sorbset or Oilsorb filing wrappers (see page 12) . . . best results when used with Mimeograph brand inks (pages 10 and 11).

CELLOTYPE K stencil sheets

CELLOTYPE K stencil sheets . . . used primarily for typing. Contrast between the yellow stencil sheet and the blue cushion sheet affords maximum visibility when typing. The blue cushion sheet also produces an excellent proof copy on the backing sheet.

While this sheet lacks the color contrast required for use on the illuminated drawing board (Mimeoscope), good stylus work is possible if the sheet is placed on a hard, smooth surface, with cushion sheet inserted. Guide lines which indicate typewriter spacing and maximum duplicating surface are topped in blue on all sheets except 1030K. Guide lines for these sheets are printed on the backing sheets.

Excellent results from die-impressing and form-topping (pages 8 and 9) . . . filed easily and quickly, without cleaning, in Mimeograph Sorbset or Oilsorb filing wrappers (page 12) . . . best results when used with Mimeograph brand inks (pages 10 and 11) . . . 361 correction fluid recommended.

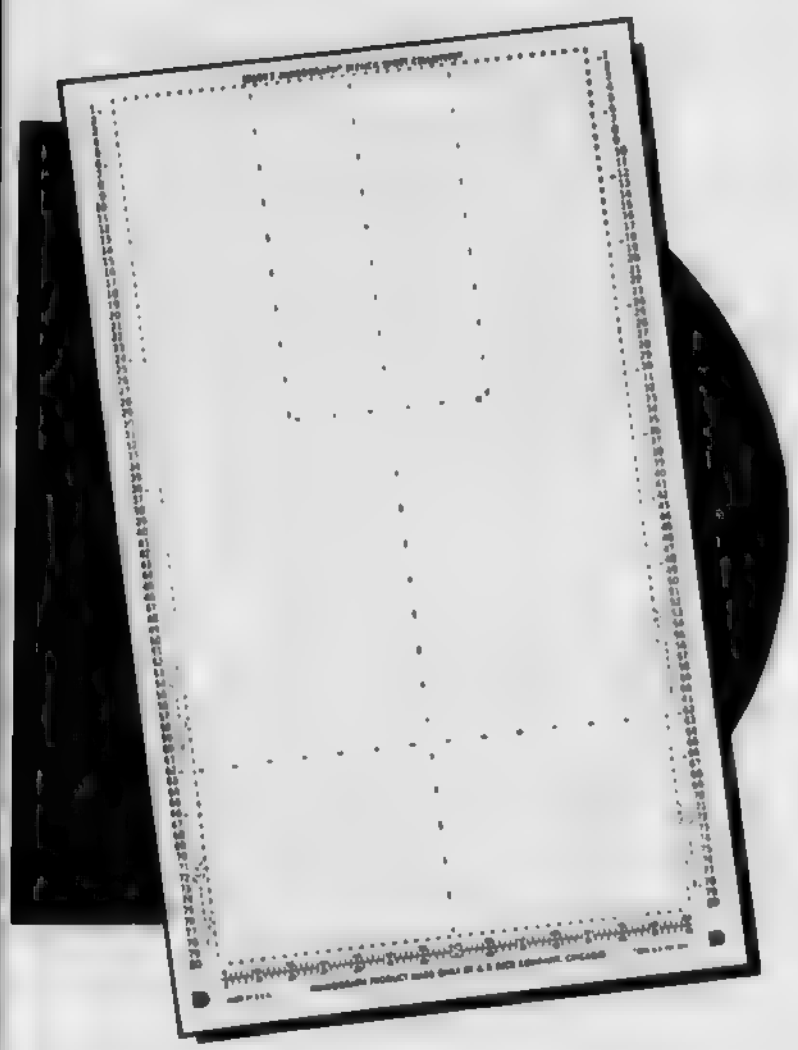
Mimeograph stubless stencil sheets



Note

Mimeograph stubless and stubless dual stencil sheets, without buttonhole stubs, can be filed in letter or legal size file drawers. Both may be attached to Mimeograph cylinders speedily and accurately with the Mimeograph universal stencil clamp and the Mimeograph stencil transfer device.* These stencil sheets may also be used, without special attachments, on Mimeograph 90 duplicators and on any Mimeograph duplicator which is equipped with a closed cylinder.*

To fit standard size files

Cellotype K stubless stencil sheets . . . highly recommended when production speed is important. Easily and quickly loaded on the duplicator when the Mimeograph universal stencil clamp and stencil transfer device are used.

Available in five sizes. The 1089K and the 1090K are the economy sizes which are recommended when only a small amount of duplicating surface is needed (*see text below*).

Small size Mimeograph stubless stencil sheets

1089K and 1090K stencil sheets are especially useful when only a small amount of duplicating surface is needed for such work as address and identification labels . . . the addition of variable information to a limited number of copies . . . and in combination with regular legal and letter size stencils. For further information regarding the uses of these special stencil sheets please write A. B. Dick Company, Chicago.

1089K and 1090K are packed in boxes containing 1000 stencil sheets with 336 blue-tinted cushion sheets. See listing above.

Mimeograph tab-cut filing wrappers

Especially for use with stencils that have been washed in the Mimeograph stencil cleaning machine No. 1043.

Similar in appearance and weight to a regular correspondence file folder. There is a full-cut index tab on one of the long sides, where name or title of the filed stencil may be handwritten on the tab or typed on a gummed label and attached to the tab. These file wrappers are specially treated so that the plastic qualities of the stencils filed in them are not reduced through absorption.

These wrappers were designed for use with the Mimeograph stencil cleaning machine No. 1043 but may be used for any Mimeograph brand stencil that has been cleaned in accordance with directions.

3. The blank paper.
4. The finished copies—form plus copy produced in one operation on the Mimeograph duplicator.

A variety of type sizes and type faces available for die-impressed stencils

What are die-impressed stencils? Stencils furnished with your ruled form or heading already stencilized into the stencil sheet. You add necessary typed or handwritten information and from this master produce both the form and added text on blank paper stock, in one duplicating operation. Saves time and cost of printed forms, and all problems incident to their storage.

How die-impressed stencils are used. These stencils are used to add variable fill-in copy to constant forms. They save time and labor when used for individual daily or weekly reports or notices. They expedite production and simplify controls when used to produce papers needed for paper-work systems or procedures.

For complete procedures. By using die-impressed stencils and blocking out portions of the constant form and the variable fill-in copy, complete systems and routines can be worked out so that rewriting of the fill-in copy is eliminated. This is done by designing the forms needed for a complete procedure in such a way that all data needed for all forms used in the complete procedure will appear on the stencil, but will be so located that certain portions, not needed for certain steps in the procedure, may be blocked out as required.

Charges . . . only three cost factors are involved: **1.** The cost of the stencil sheets. **2.** Type composition for special die (applies only to the first order). Submit copy for estimate. **3.** Die-impressing charge—based on quantity ordered. Quotation on request.

Expedite production and simplify control of paper-work procedures and forms . . . Use Mimeograph die-impressed stencils . . . and form-topped stencil sheets

These two services of A. B. Dick Company eliminate the delays and errors due to rewriting of fill-in copy on forms used singly or in procedures. They also provide a practical and efficient method of producing the forms needed.

A. B. Dick Company representatives will be glad to consult with you and give you any additional information you may need to determine whether or not die-impressed and form-topped stencils can be used to advantage in your organization. Call or write A. B. Dick Company, Chicago 6. You will not be obligated in any way.

Any Mimeograph brand stencil sheet except 1860 may be die-impressed or form-topped

What are form-topped stencil sheets? Stencil sheets prepared with facsimile of your printed form in contrasting color on each stencil sheet surface to guide typists in positioning fill-in copy accurately. The form-topped stencil, with copy typed in position, is used on the Mimeograph duplicator to reproduce the fill-in information on preprinted forms.

How form-topped stencil sheets are used. Form-topped stencil sheets are used when duplicated copy is to be added to preprinted forms. If identical copy must be added to several different preprinted forms, the forms should be so designed that the fill-in copy will be located in the same position on each printed form.

For complete procedures. Form-topped stencils are used for complete procedures in the same way that die-impressed stencils are used. The main advantage of form-topped stencils is that as many copies as you need can be produced from one typing, and several different printed forms may be filled in from only one typing. This reduces production time sharply and eliminates retyping errors. Unless it is necessary to use printed forms, die-impressing is usually preferred to form-topping because it eliminates the cost of printing and storing large quantities of forms.

Charges... only two cost factors are involved: **1.** Cost of stencil sheets. **2.** Fixed preparatory charge, regardless of the quantity ordered, on standard-size stencil sheets: INITIAL ORDER, $16.00; REPEAT ORDER, $9.00. Alterations on repeat orders require a new plate, for which initial preparatory charges apply.

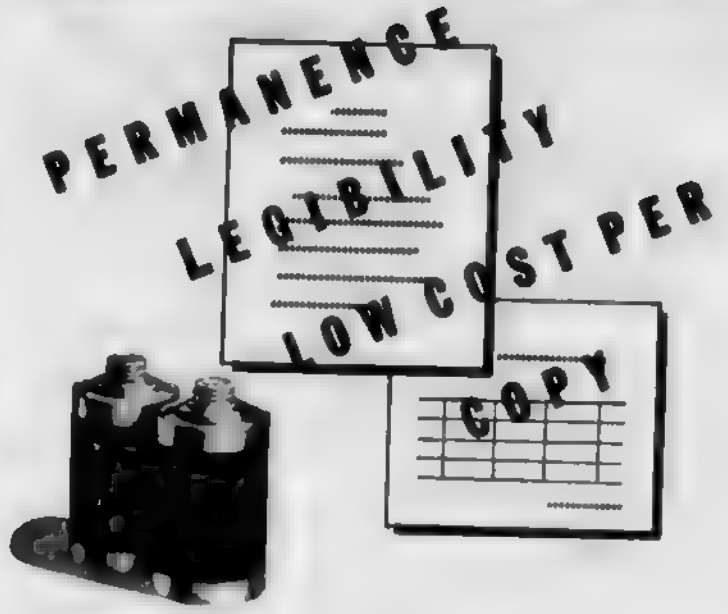
Mimeograph oil-base and emulsion inks



Mimeograph brand inks *produce the clean-cut, easy-to-read, permanent copies which are essential to the maximum usefulness of Mimeograph stencil duplication. These inks—*

- *do not fade or deteriorate, even under adverse handling conditions*
- *produce good copies on a variety of weights, finishes and colors of paper and card stocks*
- *function efficiently in the cylinders of Mimeograph duplicators*
- *can be stored for long periods without deterioration*
- *provide maximum in Mimeograph results—at low cost per copy.*

Mimeograph oil-base inks..767, 1767, 7290, 7280, 1590, 1591. These inks are all-purpose inks that give dense, black, permanent copies, suitable for all general duplicating work. Most satisfactory when used on paper or card stock having an absorptive surface. Will not dry or harden in the interior of the cylinder. Mimeograph stencils used with these inks may be filed and rerun, without cleaning, if filed in Mimeograph Oilsorb filing wrappers in accordance with directions.

Mimeograph oil-base inks . . . 1767, 767, 7290, 7280 give intensely black copies and a large number of copies per pound. Preferred for quality work. 1767 for use in closed cylinders, but may also be used in open-type cylinders. 767, 7290 and 7280 for use in open-type cylinders only. 767 or 7290 preferred for normal operating speeds at normal temperatures. 7290 also excellent for high-speed duplication. 7280 preferred for all duplicator speeds where temperatures are unusually cool.

1590 and 1591 give good black copies and are very satisfactory for general office work. May be used in either closed or open cylinders. 1591 preferred for high-speed duplication.

Mimeograph emulsion-type inks . . . 1757X, 1767X. These all-purpose inks give permanent black copies with sharp letter outline. Minimum offset when used on absorptive papers; therefore they are adapted for two-side work. Especially recommended for quality reproduction. Mimeograph stencils used with these inks may be filed and rerun, without cleaning, if filed in Mimeograph Oilsorb filing wrappers in accordance with directions.

1767X and 1757X can be used in either closed or open cylinders. 1767X is preferred for normal duplicator speeds. 1757X is preferred for high speeds.

Mimeograph hard-set inks

Mimeotype and Cellotype K stencils used with these inks may be filed and rerun, if washed with water immediately after using . . . or they may be filed without washing if filed in Mimeograph Sorbset filing wrappers according to directions.

1762 and 1764 are preferred for use in closed cylinders but may be used in open cylinders also. 1764 preferred for cool temperatures.

Caution: Mimeograph hard-set inks are not all-purpose inks. They have characteristics which make them invaluable for certain jobs—but they should be used only on recommendation of your local Mimeograph representative, in accordance with instructions. For further information regarding uses for hard-set inks by your organization contact your local Mimeograph representative or write A. B. Dick Company, Chicago 6.

No.	Description	For Models
1762	Black hard-set	Any model Mimeograph duplicator
1764	Black hard-set	Any model Mimeograph duplicator

Supplied in one-pound containers. Order by number to avoid mistakes.

Mimeograph hard-set inks . . special inks . . permanent and rub-proof on hard, soft, thick or thin papers. Can be used on a great variety of weights, finishes and colors of paper or card stocks, including rag-content bonds, linenized tags, coated papers, vellums, and for two-side work on light-weight papers. These inks—

- . . give little show-through even on thin papers
- . . will not fade or deteriorate from adverse handling conditions involving oil, grease, water, salt water, most degreasing solvents, weather, lacquers, etc.
- . . after setting, will not fade, smear or rub off even under extreme conditions
- . . produce permanent black copies
- . . provide sharp, legible copies for fast, easy reading.

Mimeograph color inks

Mimeograph color inks add distinction and effectiveness to Mimeograph copies. Color will prove decorative on bulletins, posters, news sheets; it will serve technically on graphs, charts, outlines. Pages may be done in a single color, may be divided into separate areas of different colors, or may show beautiful registration of several colors through the use of several stencils and several runs.

For use in open cylinders. For use with closed cylinders, write A. B. Dick Company for special instructions.

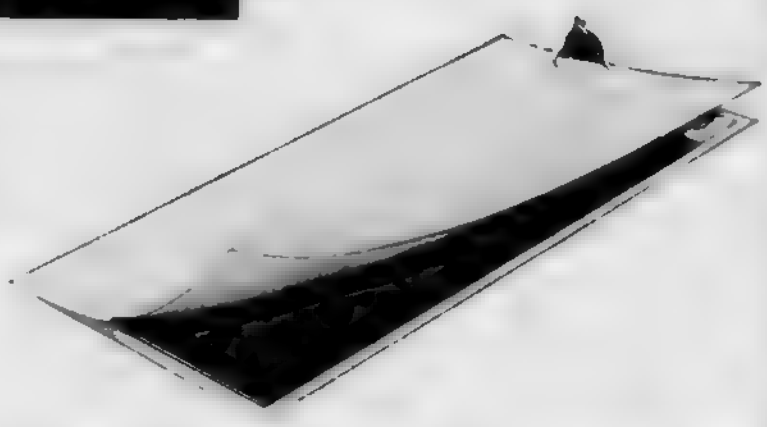
Filing & wrappers for mimeograph stencils

Mimeograph filing wrappers are used to preserve stencils for future reruns.

Oiled filing wrappers are used when the stencils are cleaned before filing.

Oilsorb and Sorbset filing wrappers are absorbent. Mimeograph stencils can be filed in them without being cleaned.

CAUTION: The type of filing wrapper to be used is governed by the particular combination of stencil, ink and operating conditions. Recommended combinations are listed below. Follow instructions in packages.



Oilsorb filing wrappers. Absorbent, for filing stencils used with Mimeograph inks 1767X, 1757X, 1591, 1767, 1590, 767, 7290, 7280.

Protective covers for cylinders

Mimeograph protective covers should always be attached to the cylinder when the Mimeograph duplicator is not in use. These covers protect and preserve the ink in the cylinder and the ink pad by keeping them clean and free from dust and dirt. They also prevent seepage of ink while the machine is idle.

No.	Description	For Models	Number in Package

Order by number according to machine model to avoid mistakes.

Mimeograph ink pads

Mimeograph cloth ink pads cover the Mimeograph cylinder diaphragm and serve as secondary ink reservoirs, insuring uniform distribution of ink to all parts of the stencil. Pads should be changed as required—usually about once a month or oftener.

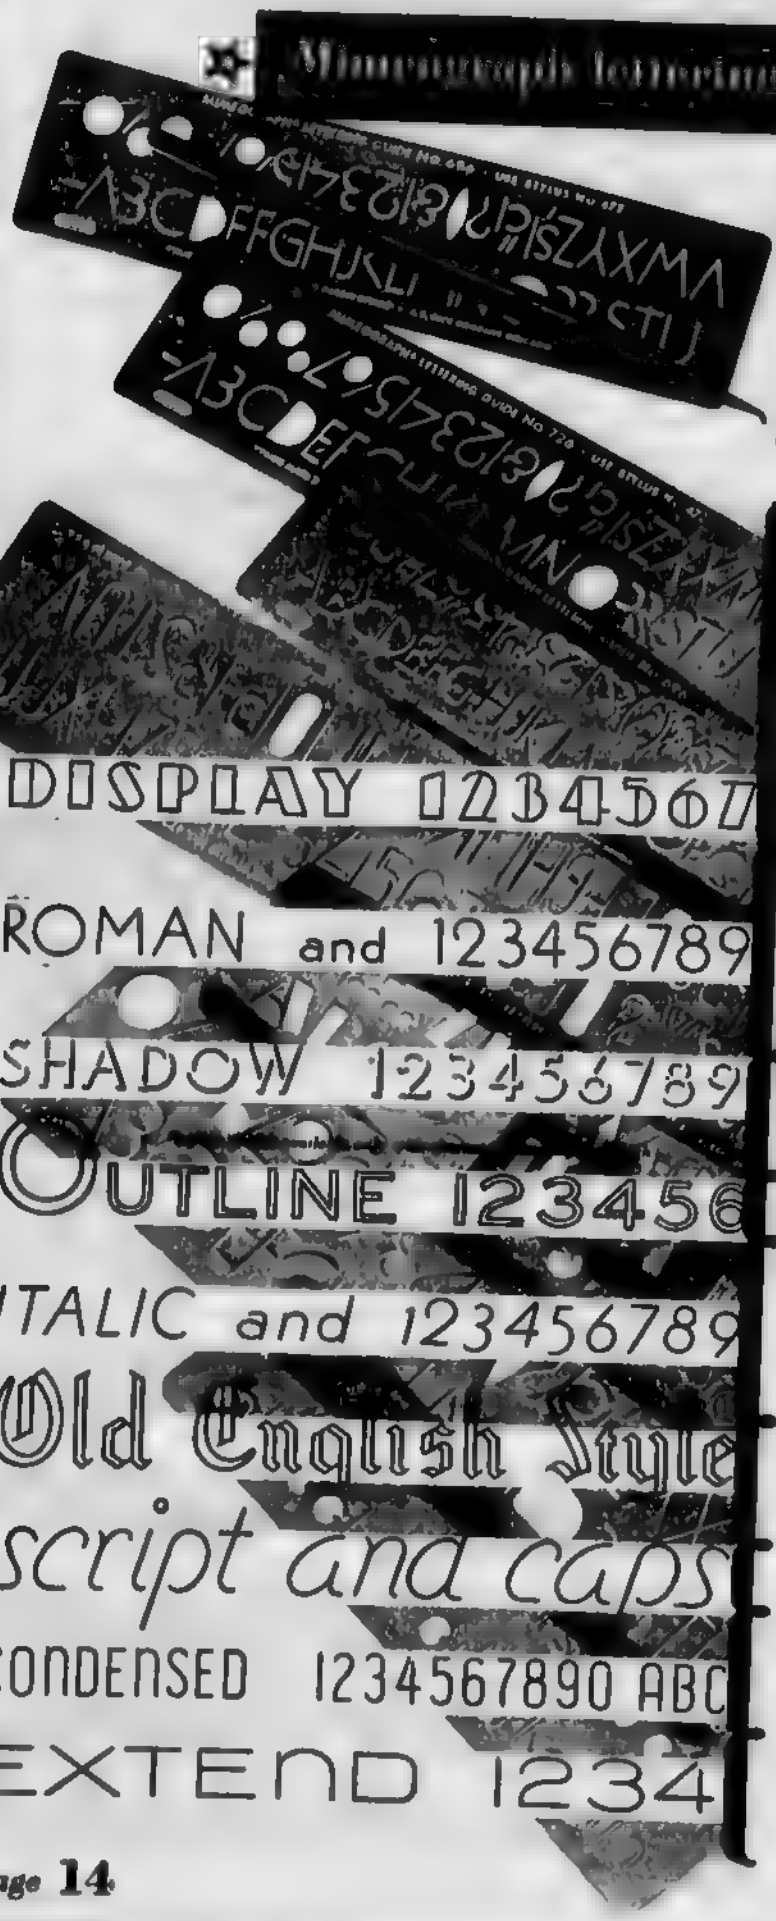
KODAK SAFETY ▲ FILM



Mimeograph (Mimeostyle) lettering guides enable the user to letter on stencils for forms and bulletins with the precision of an expert. They are easy to use—the proper stylus is simply drawn through the grooves of the lettering guide. Use of the lettering guide assures you of smooth lines and even, attractive lettering. Letters on guides are all capital letters unless "l.c." (lower case) appears in listing. STYLI for lettering guides are listed on page 15.

Mimeograph styli

For Ruled Forms, Lettering, Signatures

Mimeograph styli are pen-like instruments for stencilising Mimeograph brand stencil sheets by hand. They may be used for free-hand drawing, ruling forms, shading, tracing, handwriting and lettering with Mimeograph lettering guides.

Uses and styles of stencilization are shown below.

No.	Description	Used for
405B	Medium loop	For general use, signatures, ruling, tracing drawings, etc.
405C	Fine loop	For general use, thinner lines and delicate or detail tracings
460	Wheel	Gray-tone lines; ruled forms; large shaded areas
462	Wheel	Gray-tone lines; ruled forms and tracing drawings
467	Wheel	Dotted lines; used for a variety of form work
468	Wheel	Fine dotted lines; horizontal lines; ruled forms
410B	Blunt point	Fine screen plate work; with perforating silk for heavy lines
410S	Medium point	Medium stylus for tracing outlines
410XS	Sharp point	Signatures, free-hand music, shorthand, maps, tracings
410XXS	Needle point	Small, delicate, for detail work. For artists' use
470	Lettering guide	For guides 846, 846-L and all with characters under 1/8 inch
472	Lettering guide	For guides with characters 1/8 inch or over, except 846 and 846-L
454	Loop	For use with screen plates

Order by number to avoid mistakes.

Mimeograph screen plates

All plates 2-3/4 inches square.

Various shading effects like those in newspapers and magazines are produced with translucent Mimeograph screen plates . . . used singly or in combination. Easy to use. They add eye-appeal to line drawings.

Mimeograph screen plates are thin, flat, hard-surfaced; each has a different pattern.

Place one under a stencil sheet. Rub over it with a Mimeograph screen plate stylus (listed above). The stencil is thus perforated with the pattern and will reproduce it in any desired area, attractively and easily.

Translucent screen plates Nos. 1627 and 1642.

Dear Sir:

Judging by the Delivery Record slips, it appears that you have been short of Canadian Spellers Book 1. I took the liberty to write W.J. Gage & Company Limited in that respect.

The reply I received from the company which I am passing on to you reads:

" This book has been out of stock but now we have an ample supply to meet any normal orders".

It would be appreciated if W.J. Gage & Co., were approached to fill all your outstanding orders. I would also appreciate it if you would phone me on the number of these books you have on order, as probably we should put in another order for stock purposes as I believe you have enough requisitions outstanding for all books that may come in.

Yours sincerely,

Memorandum:

Major MacKAY

Non-delivery of School Supplies.

As I have advised you personally, this matter is now one of the most serious problems facing our Education Division. Last year, as in former years, there were some delays in deliveries of school supplies. This year, the following two steps were taken in order to expedite the passing of requisitions from here to the Stationery Branch of the Department of Public Printing and Stationery:-

1. In the November 1947 issue of the Indian School Bulletin, we sent out a standard school requisition form, a copy of which is attached. This was sent in duplicate and Principals of Residential Schools were asked to forward it to the Department by December 31, 1947. Day School Teachers were asked to forward it to the Department by May 31, 1948. These attached forms were designed to assist both our own clerks and those in the Stationery Branch by having all items listed in a standard order. In the past, a requisition form such as appendix (b) attached had been used.

2. The date upon which requisitions were to reach the Department was advanced from June 30, 1948, to May 31, 1948, as indicated above. In this way, it was felt we would provide an extra month for the Stationery Branch to fill requisitions and thus ensure their arrival at the schools concerned before school opening in September.

Just how badly these requisitions have been filled can best be indicated by the three samples which I have attached. In each instance, these requisitions were sent from here in three or four days after their arrival to the Stationery Branch on the special forms provided. It would then seem that long delays occurred before the orders were even typed on these special delivery record slips used. The chart hereunder shows the long delays which occurred in the filling of three requisitions. I would emphasize that these three requisitions were selected by me at random from the top of the last batch of delivery records sent here from Stationery:

Requisition numbers

Name of School	Date sent to Stationery Branch	Date typed on Delivery Record	Date parcel sent School
Bella Coola, B. C.	May 26	July 2.	September 14
Old Sun, [redacted]	May 20	July 2.	September 9
Ahtahkakoops, Sask.	May 26	July 2.	September 10.

It can be seen from the above that these teachers did as requested. Not only were their requisitions forwarded to the Department before May 31, but the requests were sent to the Stationery Branch from here before that date.

As I have previously told you, we are now receiving a deluge of complaints from teachers, principals, superintendents and regional supervisors. We are forwarding a letter in each case to the Stationery Branch to indicate to them the serious discontent on the part of our teachers with the way in which these school supplies are being handled.

I have visited Mr. Driscoll, the Superintendent of Stationery, from whom I have always received the utmost in

co-operation. He informed me that these delays were mainly due to shortages of staff and to absences because of illness and holidays. He has promised that two or more extra men will be put immediately on to filling back requisitions.

I feel, however, that this will merely alleviate the present condition and will in no way remedy it.

I find that I am answering letters and handling problems which should never reach my attention if these supplies were being issued properly. For example, the requisition for the Fort McPherson Indian Day School was sent from here on June 8, 1948. We were quite confident that it would reach Waterways in July. Instead, it reached there in late August or early September. As a result, it was necessary for my staff and our field staff to take the following action:

1. The parcel was returned here from Waterways.

2. It was opened here and divided into two parts, namely Essential and Non-essential.

3. Two smaller parcels were made up and were shipped to Mr. Indian Superintendent Robertson at Edmonton.

4. He was asked to send the small parcel of essential supplies by Air Express to Fort McPherson.

5. He was asked to send the large parcel, next Spring, on the first boat.

I do not feel that my time or that of the field staff should be taken up in remedying such situations as are caused by the apparent inefficiency of another department. Therefore I feel strongly that this other department must improve the facilities for handling our supplies or must be prepared to have these supplies taken out of their charge and handled by this Branch. I have prepared a draft letter for the Deputy Minister's signature to the King's Printer, with specific recommendations for the improvement of the delivery of our school supplies.

Bernard F. Neary,
Superintendent of Education.

ACTING DIRECTOR.

Hereunder please find the following files:

(a) 1-1-4 dealing with correspondence to and from firms supplying school supplies of all kinds. Please note the large number of letters on this file dealing with our endeavours to locate textbooks of various kinds, from publishers and suppliers in different parts of the country.

(b) 1-1-4, 1 containing letters to and from the Stationery Branch.

I would particularly draw your attention to the letter marked "Flag one" on file 1-1-4. You will note that on July 23 we became worried over the delays which were occurring in the filling of orders. In order to assist the Stationery Branch, we held up our requisitions for library books and for supplementary readers so that they could concentrate on standard supplies and get these latter items out to the schools by September first. You will note that in this letter I drew Mr. Driscoll's attention to the fact that they were running about one month behind the normal interval for delivery.

I would also draw your attention to Flag No. 2 (File 1-1-4) namely the letter from the King's Printer. Please note that Mr. Jackson first wrote to the King's Printer on October 31, 1947, and no reply being received, again wrote on January 6. A reply finally arrived from the King's Printer on January 27.

I will draw no conclusions from the above facts but will let them speak for themselves.

To summarize: we have been in constant touch with the Stationery Branch and have done everything possible to keep them advised as to our requirements. I hope that this will clarify the situation for you.

(2) Results following this (1) and duration of improved service.

(3) Evidence of delays in shipments (April, May and June).

(4) Situation at the end of school year 1947-48.

(5) Mention the numerous occasions subject brought to attention by phone with a view to improving the situation.

(6) The position at the present time.

(7) Refer to influence of lack of supplies on the progress of the pupils and the attitude of the teachers.

(8) Mention that unless situation improves to the extent required, the Department should move to establish its own supplies and text books division and have full authority to purchase supplies and texts not available as and when required from the Printing Division.

Add anything else that will make the letter firm and to the point and our position clear beyond any doubt.

Ottawa, October 30, 1948.

The King's Printer,
O t t a w a, Ontario.

Dear Sir:

You will recall that on October 31, 1947, I wrote to you with regard to the delays which have occurred in the delivery of school supplies from the Stationery Branch to our Indian day and residential schools across Canada. In your reply dated January 27, 1948, you stated as follows:

> "I may add that with the return to normal conditions it is hoped that the unavoidable delays complained of by your teachers in Indian schools will be completely eliminated".

Our Indian schools have now been open for nearly two months of the academic year. In most instances the teachers at these schools submitted their requisitions in the late spring and these were forwarded to the Stationery Branch in May or June. Every day's mail brings another series of letters of complaints from these teachers concerning the non-delivery of these supplies. I understand that our superintendent of education has discussed this matter with your Superintendent of Stationery and that efforts are being made to catch up on back requisitions as fast as possible. However, while this might alleviate the condition, it will not remedy it.

The children in our Indian schools are now reaching higher grades than previously. It no longer suffices to give them a reader, an arithmetic book and a few scribblers and pencils. In the senior grades they must be provided with

the history, geography and literature texts as prescribed in provincial courses of study. We must also equip our schools with supplementary reading and library books, as recommended by provincial departments of education.

I realize only too well that this means an increased number of books to be handled by your Stationery Branch. However, I would point out that as the years go by, we have every hope that more Indian children will reach higher grades and that even more books will be required than are at present being supplied.

Therefore, I would again ask you to consider the recommendation made in my letter of October 31, 1947. I feel that by authorizing the Indian Affairs Branch to purchase its own textbooks as indicated in this letter, it will do a great deal towards reducing the volume of work being required of your Stationery Branch.

It is quite possible that you might wish to present some other solution to this problem. If so, I would welcome an opportunity of discussing this matter with you and possibly some of your senior officials.

Yours very truly,

Deputy Minister.

Dear Bern:

I am sending you under separate cover a copy of a T.B. Unit which we have developed for use in our B.C. schools. Probably I should have referred this to you before taking any specific action but I was anxious to get it in operation in the current year and I felt that you would certainly approve of the idea. I am afraid the unit is a little bit rough in spots but possibly it could be improved in subsequent years. I would be very pleased to have your reaction towards it. A considerable amount of help has been received from Dr. Barclay, who was primarily responsible for its development. A lot of the work in organizing it was done by Mr. George Sinclair who was formerly employed at the Alberni Residential School. Mr. Sinclair suffers from a severe arthritic condition and is unable to do very much in the way of classroom work. He has now accepted an appointment to the elementary correspondence branch in Victoria, where I believe, he is doing quite well.

EXT 2

I have just returned from a long trip in the North, including visits to the Lejac and Cariboo Residential Schools. The matter of the supply of books is still a considerable headache and I cannot see why there should be the long delay which occurs in almost every school before the receipt of the supplies requisitioned.

As you will have heard by now the Hazelton School Board has approved in principle the operation of a combined Indian and white school at that point, and as you know we have also received applications from two other school boards for

assistance in capital expenditures. I believe that this is distinct progress and I hope that the Department will be able to give us an early reply as to the possibility of assistance towards capital expenditures in these cases. I know that the Lytton school board, which is one of the cases mentioned, is awaiting the Department's reply before determining its policy for admitting additional Indian pupils to their schools.

On the whole the work is going much more smoothly and at the moment I am considerably encouraged by an improvement in the calibre of teacners we are securing. There are however one or two notable exceptions which may have been brought to your attention.

While up North I visited the Anaham Indian Day School where the Sister in charge conducted a potato club with considerable success. I have asked her to send me a synopsis of their activities which I will forward on to you. I should like very much to have an account of this activity included in one of the issues of the bulletin as I feel that in this particular case it has been very worthwhile, not only from the standpoint of the educational value to the pupils, but the parents also have, I believe, learned something from this activity. One of the parents is saving the crop harvested by the pupil for seed for next year. However I will give you more on this when I hear from the teacher.

I am sorry that you were unable to get out to B.C. on your last trip but we will be looking forward to a visit from you some time in the near future. I notice that you have a number of problems that you will be bringing along with you and I am sure that we can add considerably to your troubles. A visit by you to the Coast would certainly be worthwhile as both Mr. Arneil and myself have several things which could best be decided by a conference with you.

With very best wishes.

Yours sincerely,

Bob.

Major MacKAY,

Please find attached a self-explanatory letter received from Mr. Eustace of J. M. Dent & Sons concerning Mrs. Thornton's book. You will note that the price will be $4.00 a copy (less 1/3 discount) and will include 44 black and white photographs and four four-colour photos. This is undoubtedly why the book is so expensive.

I would welcome an opportunity of discussing this correspondence with you.

COLONEL ACLAND.

When Miss S. Davis was attached to this Branch she had a typewriter for her use in connection with requisitions and other work. Later when she was transferred to Mr. Pratt's office she took her machine with her.

Now that we have a replacement in that position, namely Miss A. Moore who is in need of a typewriter, it is respectfully recommended that a typewriter be secured for use by this Branch.

I am enclosing a requisition for necessary action.

Ottawa, November 25, 1948.

The King's Printer,
O t t a w a, Ontario.

Dear Sir:

You will recall that on October 31, 1947, I wrote to you with regard to the delays which have occurred in the delivery of school supplies from the Stationery Branch to our Indian day and residential schools across Canada. In your reply dated January 27, 1948, you stated as follows:

> "I may add that with the return to normal conditions it is hoped that the unavoidable delays complained of by your teachers in Indian schools will be completely eliminated."

Our Indian schools have now been open for nearly three months of the academic year. In most instances the teachers at these schools submitted their requisitions in the late spring and these were forwarded to the Stationery Branch in May or June. Every day's mail brings another series of letters of complaints from these teachers concerning the non-delivery of these supplies. For example, our District Inspector of Indian Schools for British Columbia recently reported as follows:

> "I have just returned from a long trip in the North, including visits to the Lejac and Cariboo Residential Schools. The matter of the supply of books is still a considerable headache and I cannot see why there should be the long delay which occurs in almost every school before the receipt of the supplies

with your Superintendent of Stationery, and that every effort is being made to fill all requisitions forwarded to the Stationery Branch.

Our Education Division has done its utmost to expedite the passing of requisitions to your Stationery Branch. The following two steps have been taken during the recent academic year in order that there would be no unnecessary delay from the time the requisitions left the teacher until the time they were typed and sent over to your Stationery Branch:

(1) A standard school requisition form, a copy of which is attached, has been prepared and sent out in duplicate to all our teachers. Residential school principals were asked to forward this requisition, as well as a requisition for other than standard supplies, to our department by December 31, 1947.

(2) As previously, we endeavoured to have our day school requisitions forwarded at a different time of the year than the residential school requisitions in order that the Stationery Branch could handle them more promptly. This year, the date upon which day school requisitions were to reach the department was advanced from June 30 to May 31, 1948. In this way, it was felt that we would provide an extra month for the Stationery Branch to fill requisitions and thus ensure their arrival at the schools concerned before the opening date in September.

Three samples were picked at random from the top of a recent lot of delivery records sent here from Stationery. In each instance, our records show that the requisition was sent from our Education Division within three or four days after its arrival here to the Stationery Branch on the special forms provided. From the chart below, it would seem evident that long delays occurred before these orders were even typed on the special delivery record slips used:

29975	Old Sun, Alberta	May 30	July 2	September 9
29995	Ahtahkakoop, Sask.	May 26	July 2	September 10.

After our representations of last year, there was an improvement in the shipping of these school supplies. In most instances, the residential school requisitions were shipped out in fairly good time; however, after the Stationery Branch re-opened following the stock-taking period, it became evident that the shipping of supplies was slowing up again, either due to the shortage of staff or to the holiday season. Because of this, our Superintendent of Education wrote to Mr. Driscoll on July 23, drawing his attention to the fact that delivery was falling behind the receipt of requisitions. A copy of this letter is attached, and you will note that we discontinued the sending over of supplementary reading book requisitions in order that the standard supplies could be shipped out in time for school opening.

As a result of the lack of supplies, the progress of our pupils is not being maintained at the rate which our school inspectors have a right to expect. This situation also has a serious effect on our teachers, who are doing everything possible to improve the standard of our schools. Particularly in the higher grades, it is most discouraging for them to start the school year without the texts which they ordered some four or five months previously. Because of this long delay in the delivery of supplies, our Indian schools now face a serious problem. During recent years, every effort has been made to improve the calibre of our teachers and of the instruction given in our Indian schools. These Indian children are now reaching higher grades than previously obtained. It no longer suffices to give them a reader, an arithmetic book and a few

scribblers and pencils. In the senior grades they must be provided as and when required with the history, geography and literature texts as prescribed in provincial courses of study. We must also equip our schools with supplementary reading and library books, as recommended by provincial departments of education.

I realize only too well that this means an increased number of books to be handled by your Stationery Branch. However, I would point out that as the years go by, we have every hope that more Indian children will reach higher grades and that even more books than are at present being supplied will be required.

I would therefore again ask you to consider the recommendation made in my letter of October 31, 1947. I feel that by authorizing the Indian Affairs Branch to purchase its own textbooks, as indicated in this letter, it will do a great deal towards reducing the volume of work being required of your Stationery Branch. We realize only too well the growth in the amount of supplies which have to be purchased by your department. I am advised that your Superintendent of Stationery has always done everything possible to cooperate with our requests for the stocking of supplies and textbooks. It would seem that he is seriously hampered, however, by lack of staff and space in shipping out these supplies within a reasonable time.

I feel that by authorizing the Indian Affairs Branch to purchase its own textbooks, as indicated in this letter, it will do a great deal towards reducing the volume of work being required of your Stationery Branch at the present time.

Yours very truly,

Deputy Minister.

Dear Mr. Eustace:

I have for answer your letter of November 12 and today had an opportunity of discussing its contents with our new Director. He knows Mrs. Thornton quite well because of his previous experience as Indian Commissioner of B. C.

It has been decided that we would have to have an opportunity of reading Mrs. Thornton's manuscript before we can commit ourselves as to the purchase of some five hundred copies. We would like to ascertain its value for use as a school book and library book.

I would be glad to hear further from you in this regard.

Yours sincerely,

Bernard F. Neary,

November 12, 1948.

Mr. Bernard F. Neary,
Department of Indian Affairs,
Ottawa, Ontario.

Dear Mr. Neary,

I was so sorry to miss you in Ottawa last time I was there. I met Miss Juliette Gauthier de la Verendrye. I do think that she has a good deal of interesting material, and we have asked her to prepare a manuscript for us. This obviously is the first thing to do.

I discussed very briefly with Mr. Phelan the possibility of publishing Mrs. Thornton's book on her interviews with outstanding West Coast Indians. She has built the book around interviews with Indians whose portraits she has painted in oil. Personally I think her paintings are very fine, and certainly the book is worthy of publication. As I explained to Mr. Phelan, however, we would have to print a minimum of 1500 copies of this book to make it a publishing venture and even then we can not foresee a market of more than 600 or 700 copies of the book in Canada. The only way, however, that we can make Mrs. Thornton an offer for her book would be to find someone who would be willing to underwrite a certain number of copies in order to make publication possible. We have a tentative quotation on producing 1500 copies of the book. It would make a 240 page book and would contain 44 black and white photographs of Mrs. Thornton's oil paintings and coloured frontispiece, as well as four four-colour photos. We should have to sell this book for about $4.00 a copy.

We are wondering if the Department of Indian Affairs would care to go into the question of making the publication of this book possible by purchasing 500 copies of the book at $4.00 less one-third discount. Even with this assistance, I can assure you that the book would be, so far as we are concerned, not in the category of the usual commercial publication but rather what we call a prestige book. By this we mean that we believe that the book is worth publishing, but that its character prevents it from finding a market wide enough to make it a paying proposition from our point of view.

I am hoping very much that the Department will interest themselves in this book, since I believe it will constitute a permanent record of the appearance and life stories of a number of very interesting Indian characters whose lives will otherwise not be known to posterity.

Yours sincerely,

C. J. Eustace

Memorandum:

Major MacKAY

Non-delivery of School Supplies.

As I have advised you personally, this matter is now one of the most serious problems facing our Education Division. Last year, as in former years, there were some delays in deliveries of school supplies. This year, the following two steps were taken in order to expedite the passing of requisitions from here to the Stationery Branch of the Department of Public Printing and Stationery:-

1. In the November 1947 issue of the Indian School Bulletin, we sent out a standard school requisition form, a copy of which is attached. This was sent in duplicate and Principals of Residential Schools were asked to forward it to the Department by December 31, 1947. Day School Teachers were asked to forward it to the Department by May 31, 1948. These attached forms were designed to assist both our own clerks and those in the Stationery Branch by having all items listed in a standard order. In the past, a requisition form such as appendix (b) attached had been used.

2. The date upon which requisitions were to reach the Department was advanced from June 30, 1948, to May 31, 1948, as indicated above. In this way, it was felt we would provide an extra month for the Stationery Branch to fill requisitions and thus ensure their arrival at the schools concerned before school opening in September.

Just how badly these requisitions have been filled can best be indicated by the three samples which I have attached. In each instance, these requisitions were sent from here in three or four days after their arrival to the Stationery Branch on the special forms provided. It would then seem that long delays occurred before the orders were even typed on these special delivery record slips used. The chart hereunder shows the long delays which occurred in the filling of three requisitions. I would emphasize that these three requisitions were selected by me at random from the top of the last batch of delivery records sent here from Stationery:

Name of School	Date sent to Stationery Branch	Date typed on Delivery Record	Date parcel sent School
Bella Coola, B. C.	May 26	July 2.	September 14
Old Sun, Alberta	May 20	July 2.	September 9
Ahtahkakoops, Sask.	May 26	July 2.	September 10.

It can be seen from the above that these teachers did as requested. Not only were their requisitions forwarded to the Department before May 31, but the requests were sent to the Stationery Branch from here before that date.

As I have previously told you, we are now receiving a deluge of complaints from teachers, principals, superintendents and regional supervisors. We are forwarding a letter in each case to the Stationery Branch to indicate to them the serious discontent on the part of our teachers with the way in which these school supplies are being handled.

I have visited Mr. Driscoll, the Superintendent of Stationery, from whom I have always received the utmost in

co-operation. He informed me that these delays were mainly due to shortages of staff and to absences because of illness and holidays. He has promised that two or more extra men will be put immediately on to filling back requisitions.

I feel, however, that this will merely alleviate the present condition and will in no way remedy it.

I find that I am answering letters and handling problems which should never reach my attention if these supplies were being issued properly. For example, the requisition for the Fort McPherson Indian Day School was sent from here on June 8, 1948. We were quite confident that it would reach Waterways in July. Instead, it reached there in late August or early September. As a result, it was necessary for my staff and our field staff to take the following action:

1. The parcel was returned here from Waterways.

2. It was opened here and divided into two parts, namely Essential and Non-essential.

3. Two smaller parcels were made up and were shipped to Mr. Indian Superintendent Robertson at Edmonton.

4. He was asked to send the small parcel of essential supplies by Air Express to Fort McPherson.

5. He was asked to send the large parcel, next Spring, on the first boat.

I do not feel that my time or that of the field staff should be taken up in remedying such situations as are caused by the apparent inefficiency of another department. Therefore I feel strongly that this other department must improve the facilities for handling our supplies or must be prepared to have these supplies taken out of their charge and handled by this Branch. I have prepared a draft letter for the Deputy Minister's signature to the King's Printer, with specific recommendations for the improvement of the delivery of our school supplies.

Ottawa, October 30, 1948.

The King's Printer,

Dear Sir:

You will recall that on October 31, 1947, I wrote to you with regard to the delays which have occurred in the delivery of school supplies from the Stationery Branch to our Indian day and residential schools across Canada. In your reply dated January 27, 1948, you stated as follows:

> "I may add that with the return to normal conditions it is hoped that the unavoidable delays complained of by your teachers in Indian schools will be completely eliminated".

Our Indian schools have now been open for nearly two months of the academic year. In most instances the teachers at these schools submitted their requisitions in the late spring and these were forwarded to the Stationery Branch in May or June. Every day's mail brings another series of letters of complaints from these teachers concerning the non-delivery of these supplies. I understand that our Superintendent of Education has discussed this matter with your Superintendent of Stationery and that efforts are being made to catch up on back requisitions as fast as possible. However, while this might alleviate the condition, it will not remedy it.

The children in our Indian schools are now reaching higher grades than previously. It no longer suffices to give them a reader, an arithmetic book and a few scribblers and pencils. In the senior grades they must be provided with

the history, geography and literature texts as prescribed in provincial courses of study. We must also equip our schools with supplementary reading and library books, as recommended by provincial departments of education.

I realize only too well that this means an increased number of books to be handled by your Stationery Branch. However, I would point out that as the years go by, we have every hope that more Indian children will reach higher grades and that even more books will be required than are at present being supplied.

Therefore, I would again ask you to consider the recommendation made in my letter of October 31, 1947. I feel that by authorizing the Indian Affairs Branch to purchase its own textbooks as indicated in this letter, it will do a great deal towards reducing the volume of work being required of your Stationery Branch.

It is quite possible that you might wish to present some other solution to this problem. If so, I would welcome an opportunity of discussing this matter with you and possibly some of your senior officials.

Yours very truly,

Deputy Minister.

Ottawa, November 25, 1948.

The King's Printer,

Dear Sir:

NOV 30

You will recall that on October 31, 1947, I wrote to you with regard to the delays which have occurred in the delivery of school supplies from the Stationery Branch to our Indian day and residential schools across Canada. In your reply dated January 27, 1948, you stated as follows:

> "I may add that with the return to normal conditions it is hoped that the unavoidable delays complained of by your teachers in Indian schools will be completely eliminated."

Our Indian schools have now been open for nearly three months of the academic year. In most instances the teachers at these schools submitted their requisitions in the late spring and these were forwarded to the Stationery Branch in May or June. Every day's mail brings another series of letters of complaints from these teachers concerning the non-delivery of these supplies. For example, our District Inspector of Indian Schools for British Columbia recently reported as follows:

> "I have just returned from a long trip in the North, including visits to the Lejac and Cariboo Residential Schools. The matter of the supply of books is still a considerable headache and I cannot see why there should be the long delay which occurs in almost every school before the receipt of the supplies requisitioned."

I have been advised that our Superintendent of Education has recently discussed this matter at some length

with your Superintendent of Stationery, and that every effort is being made to fill all requisitions forwarded to the Stationery Branch.

Our Education Division has done its utmost to expedite the passing of requisitions to your Stationery Branch. The following two steps have been taken during the recent academic year in order that there would be no unnecessary delay from the time the requisitions left the teachers until the time they were typed and sent over to your Stationery Branch:

(1) A standard school requisition form, a copy of which is attached, has been prepared and sent out in duplicate to all our teachers. Residential school principals were asked to forward this requisition, as well as a requisition for other than standard supplies, to our department by December 31, 1947.

(2) As previously, we endeavoured to have our day school requisitions forwarded at a different time of the year than the residential school requisitions in order that the Stationery Branch could handle them more promptly. This year, the date upon which day school requisitions were to reach the department was advanced from June 30 to May 31, 1948. In this way, it was felt that we would provide an extra month for the Stationery Branch to fill requisitions and thus ensure their arrival at the schools concerned before the opening date in September.

Three samples were picked at random from the top of a recent lot of delivery records sent here from Stationery. In each instance, our records show that the requisition was sent from our Education Division within three or four days after its arrival here to the Stationery Branch on the special forms provided. From the chart below, it would seem evident that long delays occurred before these orders were even typed on the special delivery record slips used:

Requisition Numbers	Name of School	Date sent to Stationery Branch	Date typed on Delivery Record	Date parcel sent School

28975	Old Sun, Alberta	May 20	July 2	September 9
28995	Ahtahkakoops, Sask.	May 26	July 2	September 10.

After our representations of last year, there was an improvement in the shipping of these school supplies. In most instances, the residential school requisitions were shipped out in fairly good time; however, after the Stationery Branch re-opened following the stock-taking period, it became evident that the shipping of supplies was slowing up again, either due to the shortage of staff or to the holiday season. Because of this, our Superintendent of Education wrote to Mr. Driscoll on July 23, drawing his attention to the fact that delivery was falling behind the receipt of requisitions. A copy of this letter is attached, and you will note that we discontinued the sending over of supplementary reading book requisitions in order that the standard supplies could be shipped out in time for school opening.

As a result of the lack of supplies, the progress of our pupils is not being maintained at the rate which our school inspectors have a right to expect. This situation also has a serious effect on our teachers, who are doing everything possible to improve the standard of our schools. Particularly in the higher grades, it is most discouraging for them to start the school year without the texts which they ordered some four or five months previously. Because of this long delay in the delivery of supplies, our Indian schools now face a serious problem. During recent years, every effort has been made to improve the calibre of our teachers and of the instruction given in our Indian schools. These Indian children are now reaching higher grades than previously attained. It no longer suffices to give them a reader, an arithmetic book and a few

scribblers and pencils. In the senior grades they must be provided as and when required with the history, geography and literature texts as prescribed in provincial courses of study. We must also equip our schools with supplementary reading and library books, as recommended by provincial departments of education.

I realize only too well that this means an increased number of books to be handled by your Stationery Branch. However, I would point out that as the years go by, we have every hope that more Indian children will reach higher grades and that even more books than are at present being supplied will be required.

I would therefore again ask you to consider the recommendation made in my letter of October 31, 1947. I feel that by authorizing the Indian Affairs Branch to purchase its own textbooks, as indicated in this letter, it will do a great deal towards reducing the volume of work being required of your Stationery Branch. We realize only too well the growth in the amount of supplies which have to be purchased by your department. I am advised that your Superintendent of Stationery has always done everything possible to cooperate with our requests for the stocking of supplies and textbooks. It would seem that he is seriously hampered, however, by lack of staff and space in shipping out these supplies within a reasonable time.

I feel that by authorizing the Indian Affairs Branch to purchase its own textbooks, as indicated in this letter, it will do a great deal towards reducing the volume of work being required of your Stationery Branch at the present time.

Yours very truly,

Deputy Minister.

Dear Colonel Neary,

Thank you for writing to me so frankly about Mrs. Thornton's book.

We are only too delighted to send to you the manuscript, which is going to you, under separate registered cover. I have advised Mrs. Thornton that we have sent the manuscript to your Department for a reading.

As we have pointed out in previous letters, we should like to publish this book because we think it contains a good deal of material of genuine interest that would be very difficult if not impossible to obtain again.

We shall look forward to hearing from you as soon as you have had an opportunity to have the manuscript read.

Best wishes,

Yours sincerely,

The new and progressive plan for teaching science and the social studies

The UNITEXT PROGRAM offers the following series for teaching science and the social studies: *The Basic Science Education Series; Basic Social Education Series; The Way of Life Series; Our Freedoms Series* and *The Good Neighbor Series.* (Titles are listed on pages 18, 19, 21-27.)

Each series consists of numerous small publications (UNITEXTS). Each UNITEXT draws its material from one or more of the fields of science, geography, civics, economics, and sociology, and deals with an important aspect of life surrounding the student

The UNITEXT PROGRAM offers these major advantages

The program is *selective.* These small texts make it possible for you to select only that material required to meet your needs

The program is *flexible.* You can meet variations in grade placement, in individual interests, in shifting needs of emphasis.

The program is *practical.* With these small texts you can keep your teaching programs stimulating, alive, and up-to-date at all times

The program is *economical.* Buy only what you need, when you need it.

The program is *complete.* Each series offers a complete scope of instructional materials to meet varying requirements.

Dear Sir:

In the past, we purchased the following books from your firm:

Duplicopy Workbooks
Bob and Sue
Reading Book 1
Reading Book 2
Health Book

These books went over well with the teachers and we are anxious to re-stock them. Would you kindly advise if you carry these in stock at present.

It would also be appreciated if you would advise us of any other books that you may have in this series. A sample of each would be helpful.

Sincerely yours,

Dear Sir:

The attached letter which you forwarded to Mr. R.A. Gibson, Northwest Territories Branch, Department of Mines and Resources has been referred to the Indian Affairs Branch.

Mr. Gibson advises that all accounts received by his Branch have been paid except one for $1.44. I note from the last sentence of your letter of December 24th that you claim two outstanding accounts amounting to $176.52. Before we can ascertain by whom payment should be made, it will be necessary for us to have detailed accounts showing the places to which you forwarded books.

We would also like to know if the order on which the books were delivered was issued by the Department of Public Printing and Stationery or by the Department of Mines and Resources.

Sincerely yours,

Bernard F. Neary,
Supt. of Indian Education.

In reply refer to File No. L-48 December 24, 1948.

Dear Sir:

It is highly important that the outstanding amount in your account with the School Book Branch be received before Jan. 15, 1949. We know that you will understand the necessity of our bringing the accounts for the last calendar year, into balance, at a very early date.

An examination of our ledgers shows that there is an amount of $176.52 due to the School Book Branch from the Dept. of Mines and Resources as at November 31, 1948.

This sum is represented by the books supplied to you during the past year. Invoices for all charges to your account have been sent at the time your orders were shipped.

You will remember that your original agreement called for full payment within 60 days of the receipt of the book which you requisitioned from the School Book Branch. Please give your attention to this request for the remittance of the $176.52 outstanding, before January 15, 1948.

Yours very respectfully,

(W.H.Noble)

THE STORY OF THE UNITEXT PROGRAM

The new and progressive plan for teaching science and the social studies

The UNITEXT PROGRAM offers the following series for teaching science and the social studies: *The Basic Science Education Series; Basic Social Education Series; The Way of Life Series; Our Freedoms Series* and *The Good Neighbor Series.* (Titles are listed on pages 18, 19, 21-27.)

Each series consists of numerous small publications (UNITEXTS). Each UNITEXT draws its material from one or more of the fields of science, geography, civics, economics, and sociology, and deals with an important aspect of life surrounding the student.

The UNITEXT PROGRAM offers these major advantages:

The program is *selective.* These small texts make it possible for you to select only that material required to meet your needs.

The program is *flexible.* You can meet variations in grade placement, in individual interests, in shifting needs of emphasis.

The program is *practical.* With these small texts you can keep your teaching programs stimulating, alive, and up-to-date at all times.

The program is *economical.* Buy only what you need, when you need it.

The program is *complete.* Each series offers a complete scope of instructional materials to meet varying requirements.

SCIENCE

THE BASIC SCIENCE EDUCATION SERIES

By Bertha Morris Parker and Glenn O. Blough
Mabel O'Donnell, Reading Consultant

The Basic Science Education Series presents a basic program in a more practical form than that of the traditional textbook. The Series consists of numerous small books, called "Unitexts," each of which is a complete unit of 36 pages on a science topic. Each book is independent of the others in the series yet when a suggested course of study is followed, they form a complete basic program from primary grades through junior high school.

Teachers' Manuals are free with quantity orders.

Books of the Seasons For First Grade

FALL IS HERE
WINTER IS HERE
SPRING IS HERE
SUMMER IS HERE

$0.[redacted] 53

Each of these beautiful new books of the seasons is illustrated in four colors on every page and is written in simple first grade vocabulary. The text matter is correlated with the first grade vocabulary of the Alice and Jerry Readers, but the books are easy enough to use in any first grade, regardless of the reading system being followed.

These new books explain clearly in picture and simple text the biological and physical changes in the four seasons: hibernation and migration of animals, the young of various animals and their care; plant life as found in the different seasons, changes from season to season in the sky and clouds, in the simple constellations, in the thermometer recordings, in the height of the sun in the sky as indicated by shadows, clothing appropriate to the different seasons, special holidays and activities. The next to the last page in each book carries a puzzle picture in which the pupil is asked to identify signs of the season; and the last page shows pictures which may be used as an oral test or as the basis for simple activities.

Mr. Bernard F. Neary,
Supt. of Indian Education,
Department of Mines and Resources,
Indian Affairs Branch,
Ottawa, Ontario.

Dear Mr. Neary:

In reply to your letter dated January 13th, re Basic Science Education Series, we wish to advise you as follows:

The following titles listed in our 1946-47 catalogue, namely, TELLING TIME AND PLACE, HARNESSING THE FORCES OF NATURE, THE SCIENCE OF TRANSPORTATION and THE SCIENCE OF SENDING MESSAGES, have not as yet been published. For some reason these titles have been delayed and the publishers have temporarily dropped the same from their new catalogue. We can only surmise that some difficulties have arisen which have delayed publications.

The following are all available and examination copies are being sent to you under separate cover to-day. THE SCIENCE OF BUILDING, SUPERSTITION OR SCIENCE, MATTER AND MOLECULES, THE WORK OF THE BODY, FOODS, and KEEPING WELL. There is one little difference and that is in connection with number 59 of this series. This book was to be entitled THE WORK OF THE BODY, but the author and publishers deemed it necessary to change the title on publication, and this will now be recognized as HOW WE ARE BUILT.

Numbers 62, 63 and 64 will all be available within the next week or ten days and examination copies will be mailed to you as soon as possible. Here again we would like to inform you that a slight change has been made in the titles of numbers 63 and 64, which will go under the titles now of DOMESTICATED PLANTS and DOMESTICATED ANIMALS.

Four new titles suitable for the Second Grade in our schools will also be available within the next month, and here again we shall send you examination copies at the earliest possible moment. These you will find listed on the attached clipping under the titles -- LEAVES, TOYS, SIX-LEGGED NEIGHBORS, BIRDS IN YOUR BACKYARD.

We enclose in the parcel three new publications which may be of interest to your Department. One entitled SALLY by B. K. Thomson, a supplementary reading book suggested for Grades VII and VIII. The other two handicraft books for school use, namely, MAKE THESE YOURSELF by Roseaman and THE SCISSORBILL BIRD by Louise Selworthy, are both new publications from the Dryad Press of Leicester, England. The SCISSORBILL BIRD, as you will observe, is a combined story book and handicraft book containing suggestions for cut paper work in the schools.

We hope these new publications will be of interest. If we can be of further help in any way, please do not hesitate to write us.

Yours sincerely,

Dear Sir:

I wish to express to you my sincere appreciation for the courtesy and interest shown in arranging for the trip yesterday of our Regional Supervisors to two of your auxiliary education schools.

As you are probably aware, we feel that advances in Indian welfare can only be made possible insofar as there are advances in Indian education, both child and adult. We feel that it will be necessary to give serious consideration to the operation of such auxiliary education classes in certain of our schools. As our Regional Supervisors are the men directly responsible for the implementation of departmental policy in the various provinces, this inspection of auxiliary education classes in action was therefore most valuable for them.

Yours very truly,

Director.

GINN AND COMPANY: PUBLISHERS

FOUNDED IN 1867 BY EDWIN GINN

863 Bay Street, Toronto 5

January 13, 1949.

Colonel B. F. Neary,
Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Canada.

Dear Colonel Neary:

We have had a letter dated January 4 from the Department of Public Printing and Stationery in which they inquire if all or part of their orders 45828-29-30 may be returned for credit. These three orders cover 800 copies each of Teaching First Grade Reading I, Teaching First Grade Reading II, Teaching First Grade Reading III and the First Grade teachers' manuals for the Faith and Freedom series.

Our rule, as stated on our invoice form, is that books sent as ordered are not returnable, but we would not want to interpret this too strictly as against a good friend and customer such as you. The trouble, however, is that in this particular case, these books are of American manufacture and were imported especially for you. The schools are now pretty well supplied with these manuals and as a result, orders now are infrequent and small in number. While they can be returned across the border, there is a very considerable amount of red tape involved. We have an adequate stock here in Toronto to meet our estimated requirements for 1949. If we take back from the Department 200 copies, that would probably see us through 1950. We do not like to look further ahead than that because it may be that there will be a revision in the pupils' books, which would render the manuals out of date and unusable.

Would it be entirely satisfactory to you if we offer to take back 200 copies of each manual which would amount to one-quarter of the total order?

I do think it important that all your teachers using Faith and Freedom be supplied with the teachers' manuals and I wonder if it would be possible for you to distribute the other 600 copies of each manual to your schools, either immediately or eventually. On the other hand, we want to avoid embarassing you in the slightest degree and if you say so, we shall take back the full amount, endeavouring to make the necessary arrangements to send all your stock of them back to the United States.

With all good wishes

Cordially yours,

Norman G. S. Ingram

Dear Colonel Neary:

Miss Welsh is out of town on business and your letter of January 13 has been brought to my attention.

Unfortunately since this time of year is approaching inventory our stocks are at their lowest, and we therefore could not complete an order for you for 100 copies of each of the titles listed in your letter. However, we should be very glad to import copies from England for you. This would take approximately eight to ten weeks.

We are listing the present list prices below, with discount and net prices:

The Adventure of Reading Series:	Grade	List	Net
TREASURE CAVE	IV	1.10	.88
CROCK OF GOLD	V	1.25	1.00
CARGOES AND CRUISES	VI	1.30	1.04
Joy in Reading Series:			
GOLDEN DREAMS	V	1.10	.88
JOYFUL HOURS	VI	1.35	1.08
PATHS AND VISTAS	VII	1.60	1.28

We are delighted to know of your interest in these readers and hope that we shall have the opportunity of supplying them to you.

Dear Colonel Neary:

Thank you for your letter of January 13 which was brought to my attention following my return to the office.

I was interested to learn that you are seeking reading material for the Intermediate Grades and hope that the NEW WORLD READERS which went to you before Christmas will fit in with your programme.

We have also several pending publications which we feel will be of interest to you and I am looking forward to discussing these with you next month, possibly February 14 - 16.

When my plans are definite, I shall write you further.

Dear Mr. Eustace:

I have for answer your letter of January 25th. We have already had two of our officials read Mrs. Thornton's Manuscript. I am at present reading it myself and hope to finish this week-end. You should get our comments during the next week.

Please accept my regrets at the delay which has occurred in this regard, but we have had all our Regional Supervisors in Ottawa for the last two weeks and our normal business routine has been somewhat slowed down.

Dear Colonel Neary:

We wrote you on January 13th relative to a request from the Department of Public Printing and Stationery as to whether they might return for credit all or part of their orders for 800 copies each of Teaching First Grade Reading I, Teaching First Grade Reading II, and Teaching First Grade Reading III, the First Grade teachers' manuals for the Faith and Freedom series. I enclose copy of our letter.

We are wondering if you have had a chance to consider our proposal yet, and if so, we would appreciate hearing from you as we have today had another letter from the Department of Public Printing in this connection.

Colonel B. F. Neary,
Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Canada.

Dear Colonel Neary:

We have had a letter dated January 4 from the Department of Public Printing and Stationery in which they inquire if all or part of their orders 45828-29-30 may be returned for credit. These three orders cover 800 copies each of Teaching First Grade Reading I, Teaching First Grade Reading II, Teaching First Grade Reading III, and the First Grade teachers' manuals for the Faith and Freedom series.

Our rule, as stated on our invoice form, is that books sent as ordered are notreturnable, but we would not want to interpret this too strictly as against a good friend and customer such as you. The trouble, however, is that in this particular case, these books are of American manufacture and were imported especially for you. The schools are now pretty well supplied with these manuals and as a result, orders now are infrequent and small in number. While they can be returned across the border, there is a very considerable amount of red tape involved. We have an adequate stock here in Toronto to meet our estimated requirements for 1949. If we take back from the Department 200 copies, that would probably see us through 1950. We do not like to look further ahead than that because it may be that there will be a revision in the pupils' books, which would render the manuals out of date and unusable.

Would it be entirely satisfactory to you if we offer to take back 200 copies of each manual which would amount toone quarter of the total order?

I do think it important that all your teachers using Faith and Freedom be supplied with the teachers' manuals and I wonder if it would be possible for you to distribute the other 600 copies of each manual to your schools, either immediately or eventually. On the other hand, we want to avoid embarassing you in the slightest degree and if you say so, we shall take back the full amount, endeavouring to make the necessary arrangements to send all your stock of them back to the United States.

With all good wishes.

Cordially yours,

ngai:gd

Colonel B. F. Neary,
Superintendent of Education,
Indian Affairs Branch,
220 Queen Street,
Ottawa.

Dear Colonel:

We have decided to produce a new Quebec province map along the same lines as the other maps as the former edition has been out of print for some time.

Size approximately four and one half feet by three feet and mounted on cotton and rods to cost $ 7.50 plus tax.

Your orders for eastern and Maritime maps have been received but your requirements for the new Economic, product map of Ontario has not arrived, if I remember correctly you wanted sixty copies mounted on cotton and rods.

Thanks for these orders and we will do our best on deliverys but it is going to be tough going to complete the order by March the 31st as the orders suggest,

Yours sincerely

E. A. Tough.

Dear Sir:

As you are probably aware, there seems to be an unsettled state of mind among the Provincial Departments of Education across the country about the authorized reader for grades four, five and six.

As yet we have been using your Highroads to Reading for these grades but lately the Department of Public Printing and Stationery advises that the Grade 4 Reader is not obtainable as it is out of print.

I am not anxious to place a quantity of these Readers in stock as if the provinces should suddenly change to another Reader, we would be stuck with a batch of useless readers. I am, consequently, placing small orders as required.

I am anxious to know whether your stock is expected to be adequate for the balance of this academic year and the academic year 1949-50, as I do not want to place a large number of orders for these readers and later be advised that these books are out of print and orders cannot be filled.

Thanking you for the information, I am,

Dear Mr. Toughs

I have your letter of the 11th instant in reference to our order for maps.

Referring to your map of the Province of Quebec, I cannot give any decision for the present. However, when you have this map printed, further consideration will be given at that time.

In our discussion of the Economic Products Map of Ontario, I do not recall giving you the impression that an order would be placed at that time, for you had no definite price set and at any rate, I would like to see the actual map before placing an order.

When an order will be placed for this map, we will want it on cotton and rods.

Gentlemen:

I have for answer your letter of February 16 concerning the desks and blackboard required at our new school on the Caughnawaga Reserve.

I have passed the information included in your letter, with attached samples, to the Chief Architect of the Department so that he will have your quotation on hand when the installation of the blackboards is being considered.

I note that you have a new line of chromium-plated steel furniture and that you are interested in quoting on our desk requirements. At the present time we have not ascertained the actual quantities of desks which we will need at this project as we have on hand a number of good desks which will render some years' service. However, we are always buying desks for our schools across Canada and therefore would like to have from you quotations on the following:-

(a) Small desk and chair.
(b) Medium desk and chair.
(c) Large desk and chair.
(d) Teacher's desk.
(e) Teacher's chair.

Sincerely yours,

Gentlemen:

We are writing with reference to the new school under your jurisdiction, which you are presently building in the Caughnawaga Indian Reserve.

At the request of Mr. Becker of the Ontario Hughes Owens Co. Ltd., our Ottawa representatives, who had the privilege of visiting you recently, we are pleased to mail you under separate cover samples of the different blackboards we can offer.

Mr. Becker also requests that we quote on school desks, and states that you have been using a school desk similar to our Type "M" illustrated in our catalog 47A which was left with you. However, since we have now a new line of chromium-tubular steel furniture similar to illustrations, which we are enclosing, we would greatly appreciate if you would give us further specifications regarding your requirements, like the number of pupils'desks, teacher's desks, side chairs, folding chairs, etc.. and also the date at which this furniture would be required. This would enable us to quote only on the furniture which could be delivered by the time required.

When the list of your requirements is received, we shall be pleased to submit our prices which, we believe, will be found to be of interest.

Looking forward with pleasure to hear from you in this connection, we are,

Dear Major MacKay

I learned only this morning that J.M.Dent's has sent my manuscript to you for the blessing of the Indian Dept.

I need not tell you how much thought and toil has gone into the book - you know better than most people for you have helped to make it possible .This is only a fraction of the material I have ~~and~~ I am hoping it may have historic as well as artistic interest of value, and the human element cannot be discounted altogether. Dr Scott wrote the foreword long ago.

The publication of the book would mean the culmination of a lifetime of effort. Needless to say if you can offer any suggestions, or if you find any inaccuracies I shall be most happy to have you tell me of them. While I have endeavoured to use the utmost care, I do not claim to be infallible and would be very grateful for any advice you may be able to render.

Manuscript - Mrs. Mildred Valley Thornton

I have now had reports from our officials concerning this book and have read most of it myself. It is interesting and well written, but it deals mainly with the personalities of the Indians met by Mrs. Thornton in her travels as an artist among them. While these verbal descriptions of the Indians and their surroundings are informative and accurate, I doubt the value of the manuscript as a textbook or even as a reference book in our schools.

The vocabulary is such that I doubt if it would hold the interest of any but Indian boys and girls in the senior grades. Therefore, I feel that we could only recommend the purchase of about 250 copies for use as library books. This number, of course, would depend entirely on the price which Dent's set for the published text.

Dear Mr. Eustace:

Manuscript - Mrs. Mildred Valley Thornton.

I have now had an opportunity of studying the reports from our Education officials concerning this manuscript.

It is interesting and well written, but it deals mainly with the personalities of the various Indians met by Mrs. Thornton in her travels among them as an artist. While these verbal descriptions of the Indians and their surroundings are informative and fairly accurate, I have been advised by the Superintendent of Education that he doubts the value of the manuscript as a text book or even as a reference book in our schools.

The vocabulary is such that we doubt if it would hold the interest of any but Indian boys and girls in the senior grades. Therefore, we could only consider purchasing a small number of these books for use in school libraries. The number of books which we could consider purchasing, would naturally depend on the price set for the published text.

Mr. B. F. Neary,
Superintendent of Indian Education,
Department of Mines & Resources,
Ottawa, Ont.

Dear Mr. Neary:

Thank you for your letter in which you enquire about the "Highroads to Reading" series.

This series has recently been revised, and we are glad to be able to report that there is an ample supply on hand of the new Fourth Grade Reader. The new Fifth Grade Reader will be out very shortly, and the Sixth Grade text is in active preparation. Each reader has a workbook and teacher's guide to insure a complete programme for teacher and pupil. In addition, they are handsomely illustrated in colour.

The revised "Highroads" focus attention upon Canada, and upon the thoughts, feelings, interests, and appreciation of Canadian children from coast to coast.

The price of "Riding with the Sun", the Fourth Grade Reader, is $1.00, "Over Land and Sea", the Fifth Grade Reader, is priced at $1.40. These prices are subject to our educational discount of 20%.

We are sending you to-day an examination copy of "Riding with the Sun" to be followed by "Over Land and Sea" as soon as it is delivered to us by the printers which should be within a matter of days.

Incidentally, you might be interested to know that the revised edition has been authorised by the Province of Alberta.

Dear Mr. Eustace:

Manuscript - Mrs. Mildred Valley Thornton

I have now had an opportunity of studying the reports from our Education officials concerning this manuscript.

It is interesting and well written, but it deals mainly with the personalities of the various Indians met by Mrs. Thornton in her travels among them as an artist. While these verbal descriptions of the Indians and their surroundings are informative and no doubt accurate, I have been advised by the Superintendent of Education that he questions the value of the manuscript as a text book or even as a reference book in our schools.

The vocabulary is such that we doubt if it would hold the interest of any but Indian boys and girls in the senior grades. Therefore, we could only consider purchasing a small number of these books for use in school libraries. The number of books which we could consider purchasing would naturally depend upon the price set for the published text.

Sincerely yours,

Director.

Dear Sir:

We are interested in subscribing to a number of school publications dealing with teaching procedures and methods, teachers' guides and magazines dealing with similar topics.

Some of the magazines we had in mind are The Canadian Teacher; The Western Teacher, Grade Teacher, The Instructor, Woodworker and others.

In the past, you dealt in these and other publications. Would you kindly advise me whether you still accept subscriptions and if you do, please let me have samples and prices of all publications you deal with.

Sincerely yours,

Bernard F. Neary,

REGISTERED

Dear Mr. Neary:

This is in reply to your letter of 22nd February respecting the supply of HIGHROADS TO READING. One aspect of the situation about which you inquire is this: HIGHROADS TO READING, Book IV, will not be used in any of the Provinces during the coming school year except possibly in Quebec, and because of the very small quantity required in the Province of Quebec, we have asked the Department there if they would be willing to discontinue it. Book V and VI are both used this year in Saskatchewan and Manitoba, and Book VI, this year, in British Columbia, I believe, as well.

Next year we expect that Book V will be discontinued and we would no doubt declare it out of print; that is, Book V is unlikely to be available for the school year 1950-51. Whether the two Provinces of Manitoba and Saskatchewan will continue Book VI in that year, we do not know, but certainly by the following year, Book VI also will be out of use.

At the moment, therefore, we do not expect to have further copies of Book IV; we shall have copies of Book V available throughout the school years 1949-50; and we expect that Book VI will still be available for the school year 1950-51. On this latter point, we are not absolutely sure.

Might I ask whether you feel that it is more appropriate to use, as Readers, the texts authorized in a given Province? The reason that I ask this is that for Indian children, you might find it useful to continue in Grades IV, V and VI with the New Basic Readers. These books are used widely across the country, and are authorized in the Province of Quebec. If you have not seen these books, a note to me would get them to you quickly.

With very kindest regards,

Sincerely,

W. R. WEES,
MANAGING EDITOR

Dear Sir:

This morning a shipment of school supplies for the Providence Mission Residential School, Northwest Territories was delivered to this office.

Casually checking the parcels it was noticed that these are not very substantially packed. What seems to be missing is a bit of cord. Some of the parcels are merely taped with kraft paper, and as you are no doubt aware, these parcels will have to be loaded and unloaded several times before they reach their destination. In fact, one or two of the parcels are partly broken already and will have to be tied and taped again. I would respectfully suggest that the packers be instructed to use cord or steel tape on all parcels shipped any great distance.

Sincerely yours,

Bernard F. Neary,
Supt. of Indian Education.

Thank you for your letter of February 24th about Mrs. Thornton's manuscript. I can understand that this book would not appeal to Indian boys and girls in any but the senior grades. REC'D

Dear Colonel Neary:

My attention has been drawn to a bulletin recently issued by your Department recommending supplementary reading material for the various grades. We notice that this list does not contain the Canadian Reading Development Series published by our House, nor our Alice and Jerry Series.

You have, I think, had samples of our Canadian Reading Development Series (UP AND AWAY, WIDE OPEN WINDOWS, and ALL SAILS SET). The Series has been exceptionally well received and is now authorized for Grades 4, 5, and 6 in the provinces pf New Brunswick, Saskatchewan, and Manitoba, and is also one of three series authorized in the province of Alberta. I wonder whether its omission from the list was an oversight.

The new Alice and Jerry Series you may not have had an opportunity to examine. This is the revision of the old Alice and Jerry but has been so completely revised as to make it one of the most effective, interesting, and valuable of the primary series. It offers three levels of achievement, for the immature, average, and superior students. Since it came on the market a year ago we have had an exceptionally heavy sale of this series wherever we have been able to promote it, having sold approximately 100,000 copies in the province of Ontario alone, where it is offered only as supplementary material since there

has been no change in the authorized texts. I mention these facts merely to draw your attention to the enthusiasm with which teachers have received the new Series. I am taking the liberty of forwarding you sample copies of the books in Grades 1, 2, and 3. I shall be very glad to have your Department examine these for their usefulness in your Division.

With kindest regards,

Yours very truly,

Re: Grade 2 Readers

In number 2 of Volume 2 of the Bulletin issued in 1947 the list of prescribed texts omitted any reference to the readers to be used in Grade 2. It has been assumed that we would receive notification of the name of the book to replace the text currently in use in the Catholic Schools, which is "Playmates". New teachers who are not familiar with the Corona series do not know what book to requisition.

I shall appreciate the Department informing me whether teachers are to requisition this year for "Playmates" or for some other book.

Re: Grade 2 Readers.

I have your letter of March 2nd in reference to Grade 2 readers for Catholic Schools.

Our stock of Playmates has been exhausted, therefore, we are gradually supplying a Grade 2 Reader in the Faith and Freedom Series, namely "These Are Our Neighbors". A workbook is also supplied.

This book is a continuation of the other Primary Readers already used by the Catholic Schools.

RECEIVED
A.I.

Dear Mr. Neary:

We wrote you the other day to tell you that HIGHROADS TO READING, Books IV, V and VI would, one after the other, probably be going out of print.

We find now that because of a desire on the part of the Department of Education in Quebec to maintain these books as authorized texts in that Province, they will continue in print for some time to come. This applies to Book IV which we thought would be out of print this year, as well as to Books V and VI.

We hasten to send you this supplementary information in case you should wish to have it in making your plans.

Very sincerely yours,

W. R. REES,

Dear Sir:

Re: Highroads to Reading Books 4, 5 and 6.

As you are aware, the Highroads to Reading readers are published by Thomas Nelson and Sons Limited and W.J. Gage & Co., Limited. As only a few of the Provinces have decided on an authorized reader for these grades, our position is not clear for we are anxious to use the readers authorized for the province in which the schools are located. To overcome this situation we would like to use the Highroads until such time as a definite decisions is made by the different Departments of Education.

I wrote the two publishers asking whether the publication of these readers will be totally discontinued or whether there will be a limited publication for some time.

In reply, Thomas Nelson and Sons Company have stated that they are definitely discontinuing the printing of Highroads to Reading and are publishing a revised Highroads to Reading. I am not particularly interested in this reader at the present time, unless it becomes authorized by the Provincial authorities.

W.J. Gage and Company reply that because of a desire on the part of the Department of Education in Quebec to maintain these books as authorized texts in that Province, they will continue to print for some time to come. This applies to Book 4 which was thought would be out of print this year, as well as to Books 5 and 6.

In view of the above stand taken by W.J. Gage and Company, it is respectfully requested that all our requests for these books be booked with W.J. Gage and Company. It would not be wise to place a quantity of these Readers in stock, therefore, orders should be placed as requisitions come in.

Yours sincerely,

MEMO TO A. G. Bounsall March 29, 1949

Dear Mr. Bounsall:

In reply to your letter of the 21st instant, with the last 2 samples of #5 and 6 Artist brushes (which we submitted for the Government's approval) attached.

We note your remarks in the letter and our suppliers state that they cannot guarantee these brushes to be exactly the same on the #1096, which is more or less a cheap quality.

They state that they could guarantee the brushes to be uniform in the #3017 quality, and they are forwarding samples of the latter, which we will in turn forward to you, as soon as received.

If these are satisfactory, to the Government, we will quote price on same.

Yours very truly,

W. J. GAGE & CO. LIMITED.

Dear Mr. Driscoll:

This refers to your letter of February 4th in connection with 2000 water colour brushes # 5 (medium) of which two samples were received.

The samples were tested and tried, and as a result of these tests, brush No. 3017 was found satisfactory but too expensive. No. 494X 5 was found to be unsatisfactory.

As we were interested in securing a brush that was cheaper than 3017 and better than No. 494X5 several firms were approached, and I am pleased to say that we have located a brush that would suit our purpose.

This is No. 1096, size 5 brush sold by W.J. Gage and Company Limited, Toronto at 96 cents a dozen. Would you kindly, therefore, stock these brushes for use in our Indian Schools.

Yours sincerely,

Bernard F. Neary,

I have heard indirectly that you are preparing a new Programme of Studies for use in the Elementary and High Schools in the Province of Manitoba.

I am anxious to advise our Indian School Teachers in the Province of Manitoba about this, in order that they may begin the New Year with the new curriculum.

Would you kindly advise me of the date you expect these books to be available, and I would appreciate it if you would send me a copy.

When the present stock of Canadian School Atlases is depleted, I would suggest that you order in its place the new school atlas provided by Thomas Nelson and Sons Limited, 91 Wellington Street West, Toronto.

They are quoting 87½. on these atlases and I feel it is superior to the one now being stocked. It is printed by Bartholemu in Scotland and should prove quite satisfactory for our schools.

Sometime ago, we ordered Poster Paper, Assorted Colours, 100 sheets 6 x 9, from G.[illegible] HALIFAX CO. LTD. In place of poster paper the Company supplied folding paper. Upon asking for an explanation, I received the following letter:-

"We have your letter of March 23rd, regarding the paper which we supplied on your orders, numbers 21302, 21303 and 20449, and wish to submit the following explanation.

This paper as originally received from the mill is known as Poster Paper. However, for the sake of clarity, so that all of our customers may know the purpose for which it is intended, we have adopted the trade name of 'Economy Folding Paper' since the texture of the paper lends itself readily to work which involves considerable folding. In other words there is absolutely no difference between Poster Paper and Folding Paper, other than the name.

Dear Sirs:

We have a number of students from near Indian reserves, and the question of the progress the Indians children make in learning to read English has come up. Do you use primers especially suited to the frontier and trapper life of the Indians in your schools, and would you kindly give us the name of those you find most effective? I would also appreciate information of general interest dealing with the Indian population of Canada, and especially that of the West.

Dear Mr. Stolee:

I have for answer your letter of April 28 concerning primers which are particularly adapted for use in Indian schools.

You have probably seen the Joe and Ruth primers and the Two Little Indians primers which were specially prepared for use in our Indian schools. These are used as supplementary readers, but the main reading programme is based on the readers used in provincial schools.

In other words, we follow the reading programme of the province in which the Indian school is located but supplement this with the two primers mentioned above. I am enclosing two other supplementary books which will be of interest to you. One is "The Beaver and the Muskrat" written by Mr. A.J. Doucet of our own staff here. The other is the little Health Primer now being distributed to all our Indian schools across Canada.

Any other information you require can be obtained from the Annual Report of the Indian Affairs Branch. You can write for this to the Secretary of the Indian Affairs Branch, Department of Mines and Resources, Ottawa.

Sincerely yours,

Dear Sir:

I have your letter of May 12th in reference to a list of the names and post office addresses of Indian schools and Indian Day Schools.

As it is presumed that this list is required by you for approaching the schools to purchase school supplies and books from you, it is felt that it would be a waste of time and effort on your part to proceed with such a project, as all school supplies and books are supplied to the schools from the Department of Public Printing and Stationery in Ottawa through this office.

Bi-monthly, we publish the Indian School Bulletin which goes out to all our schools. The next issue will be going out on the first of June, and any materials you might wish to send to the five hundred different schools can be sent to me and I will arrange to send it along to the school with the bulletin at no cost to you.

As I am constantly on the alert for various school supplies, books and school furniture, I would appreciate it if I was placed on your mailing list for catalogues, circulars, etc.,

TO SCHOOL OFFICIALS, TRUSTEES AND TEACHERS

This folder gives you the prevailing prices on just a few of the general lines of school supplies. We also have large stocks of the lines still available which were shown in the large Christie and Western School Supply Catalogues which were issued several years ago. Select goods from those catalogues. There have been changes in prices since the catalogues were issued but goods will be billed at lowest prevailing prices.

Please remember all prices quoted on this circular are carriage charges prepaid. The prices quoted are the total cost to you, but prices are necessarily subject to change.

OUR TERMS to private individuals are cash with order, if you remit more than the amount of your order we will promptly refund.

With School Districts we are pleased to open a charge account and payments may be made every two or three months, which saves cost of money order purchases or exchange on cheques. We make no interest charge when accounts are paid in three or four months. For a longer time, interest is at the rate of 5% up to 12 months.

SCIENCE APPARATUS ,CHEMICALS, BIOLOGY SUPPLIES are carried in stock and we give you real prompt delivery on these lines. Price lists were sent out early in the term. If you have not now one of these lists, send us a postcard and we will mail promptly.

Whether you can give us catalogue numbers or not, send us along your orders. Just write down what you want, we have been in the school supply business over 60 years and should know what you need.

GUARANTEE: Please remember; every article we supply must be to your entire satisfaction or you may return the goods at our expense We of course cannot guarantee baseball bats, bladders and similar goods, but we do supply you with the best quality we can get for the money.

Send us along your orders, your orders will be shipped promptly.

Please be sure and mention the name and number of your School District every time you write. We keep all orders and correspondence under the name and number of your school district. Private orders should be marked PRIVATE.

Yours truly,

CHRISTIE SCHOOL SUPPLY LTD., P.O. BOX 300, BRANDON, MAN.

Mr. Bernard F. Neary, Supt. of Indian Education,
Indian Affairs Branch,
OTTAWA, Ont.

Dear Sir:

We thank you for your letter dated May 18, and on checking our mailing list, we find that we do have a plate addressed to the -

Superintendent of Indian Education,
Dept. of Indian Affairs,
OTTAWA, Ont.

We do not show the names of individuals on these address plates, just in case of change of personnel. We hope that you have been getting our circulars, as they have been issued from time to time, but regret that it is now some time since we have issued a complete catalogue, and we will not likely have a new one ready until early in the new year. We will, however, send one along as soon as ready.

Our reason for asking for a list of the Post Office addresses of Indian Residential and Day Schools was to send to the principals, circulars covering special items which a school principal might be purchasing for his own personal use, and would, perhaps, not be requisitioning through the Department so that if it is possible to get a list it would be appreciated. Perhaps it might show in the annual report of the Department of Indian Affairs.

We do hope that you have in your files, a copy of one of our large catalogues, or perhaps a copy of the catalogue of the Western School Supply, which was a branch of ours in Regina but which is now closed.

These catalogues were issued some time ago, and of course, prices are entirely out of line but they may be used for the selection of goods.

Assuring you of our very best attention to your commands at all times.

Yours truly,

CHRISTIE SCHOOL SUPPLY LIMITED

Dear Sir:-

We have for acknowledgement and thank you for your inquiry of June 1st 1949, File 1-1-4 (E6), covering water coolers of 3, 4, or 5-gallon capacity, complete with push button faucets, for use in your schools across the country.

We regret to advise that we do not manufacture water coolers of any type.

We do manufacture drinking fountains which are connected with ordinary city service, but they have no cooling arrangement, this is just a bubbler and receptacle with a self-closing faucet in connection with city water.

Again thanking you for your inquiry, and regret that we do not have the item covered by your inquiry.

CANADA

BOOK
COPY

The new edition of Native Trees of Canada has been completely revised and modernized, profusely illustrated in black and white and in colour. Consisting of over 300 pages, it meets the demand for authentic information on Canadian trees. The greatest care has been taken in the securing and final selection of the hundreds of photographs used in the preparation of the plates, and they will be invaluable both for the student and the layman in the identification of the tree species. In a few words Native Trees of Canada is a handsome and valuable addition to all libraries.

Copies will be available for distribution in April; meantime fill in enclosed postcard and mail, stating number of copies required.

- *The book is protected by a four colour (Kodachrome) jacket.*
- *Two full-colour Kodachrome plates.*
- *124 full-page black and white plates.*
- *117 maps showing distribution of trees.*
- *Over 150 native tree species illustrated and described.*
- *A large number of exotic species commonly planted in Canada are referred to.*
- *Completely revised and expanded check list, including botanical, English, and French names of native tree species.*
- *For sample page arrangement, see overleaf.*

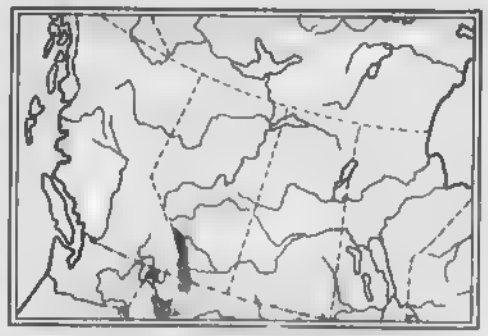
LIMBER PINE

Pinus flexilis James

Rocky Mountain pine, Rocky Mountain white pine.

The limber pine, like the white-bark pine which it closely resembles, is a small alpine tree 25 to 40 feet in height and 1 to 2 feet in diameter. The trunk is short, thick, limby, and crooked, and the crown is irregular on account of the irregular whorls of thick limbs. On exposed slopes at high altitudes much of the limber pine growth is prostrate and shrubby. In old trees the lower branches are very long and tend to droop. The young branches are very tough and flexible, hence the name limber pine.

This tree is found in Canada in the mountains of southern British Columbia and Alberta, at an altitude of 5,000 to 6,000 feet. It is adapted to a great variety of soils, but is most often found on dry, rocky, and exposed slopes. It occurs in small pure stands or singly in mixture with mountain hemlock, whitebark pine, lodgepole pine, Douglas fir, and Engelmann spruce. In southern Alberta it is also found on the tops of the foothills.



LEAVES—Needle-like, in bundles of 5, stout, stiff, slightly curved, 1½ to 3½ inches long, dark green, mostly clustered on the ends of the twigs.

FLOWERS—Late June; unisexual, small reddish bodies, usually in clusters, male and female on the same tree

FRUIT—September of the second year; a cylindrical cone, 3 to 8 inches long, short-stalked, with long, narrow, pointed, yellowish-brown scales, rounded, somewhat thickened at the tips; opening at maturity and falling during the winter. Seeds nearly wingless.

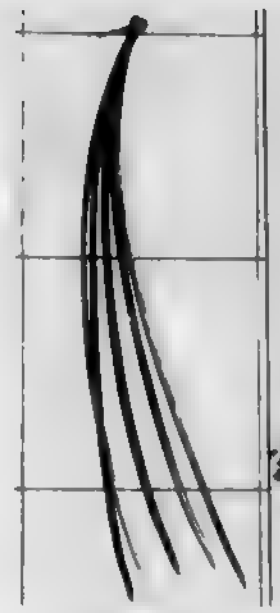
TWIGS—Stout, tough, at first hairy, orange green; later, smooth, darker; buds ovoid, pointed.

BARK—On young stems, smooth grey or silvery-white; becoming rough, dark brown to almost black, deeply fissured into wide, scaly plates.

WOOD—Light, moderately soft, close-grained, non-porous; lemon-yellow with nearly white sapwood

---

The limber pine, although occasionally used locally for fuelwood, has no commercial importance.



FIVE NEEDLES

PARTIALLY OPENED CONES

CROOKED TREES, HIGHWOOD RIVER, ALTA

ONE-YEAR-OLD CONES

The SPRUCES *Picea* A. Dietr.

The spruces are widely distributed throughout the cooler parts of the northern hemisphere. About 40 species have been named, of which 7 are found in North America. Five of these and one variety are native to Canada. One native species, the red spruce, is found only in the East, and 2 others, the Sitka and the Engelmann spruces are confined to the West. The remaining 2 species, the white and the black spruce, range from the Atlantic Coast westward almost to the Pacific and northward to the limit of tree growth in the arctic regions. The range of the variety western white spruce is not fully known as yet, but it has been reported from Manitoba, Alberta, and British Columbia. Two foreign species widely planted in Canada for ornamental and other purposes are the Norway spruce, *Picea abies* (L.) Karst., from Europe, and the blue or Colorado spruce, *Picea pungens* Engelm., from the mountains of the Western United States.

The spruces are evergreen trees and have long, often cone-shaped crowns and straight, gradually tapering trunks. They have thin, scaly bark and slender, often drooping, lower branches. In the open the branches usually extend down the trunk nearly to the ground. Since the root systems are nearly always shallow, spruce trees are easily uprooted by wind.

The short, needle-like leaves are stiff and sharp-pointed, and, with one exception, are 4-sided in cross-section. They are single and stemless, and each is attached to a tiny peg-like base. They never appear to be 2-ranked, as is often the case with the firs and hemlocks, but either bristle out all around the twig or are curved and twisted toward the upper side.

Spruce flowers are unisexual—either male or female, never both—but the two sexes are found on the same tree. The mature cones always droop from the branches. They ripen in the autumn of the first season, open to discharge the seeds, and then either drop off before the new crop is formed, or in one case remain on the tree for many years. The seeds are very light and each has a broad wing attached to one end.

The Norway spruce is easily distinguished from the Canadian spruces by its yellowish-green foliage and larger cones. The blue spruce is distinguished chiefly by the colour of its leaves and the smooth, hairless twigs.

The wood of the different species is very similar in colouring and mechanical properties. Light-weight spruce timber resembles somewhat that of the white pines and it is often used for the same purposes. Its light colour, its freedom from resin, and the length and strength of the fibres make spruce the premier pulpwood of the world. It is also widely used in general construction, interior finish, and boxes and crating. Its tasteless character makes it of exceptional value for food containers.

Attention: Mr. Bernard F. Neary

Dear Sir: File No. 1-1-4 (E6)

In reply to your letter of June 1st with reference to Water Coolers, we attach hereto and illustration of our Japanned Metal Water Coller in White finish with Black Trim.

The prices on the three sizes of Water Collers are as follows for the Provinces of Quebec and Ontario only.

3-gallons	$5.70 each
4-gallons	6.10 "
5-gallons	7.80 "

These prices are subjected to a discount 10%. Federal Sales Tax included. Delivered in Ontario or Province of Quebec.

We are unabel to quote you prices for the Western Provinces, but no doubt the prices for delivery in the Western Provinces or Maritimes would be slightly higher. However, if you should decide that these would be satisfactory for your requirements we will be pleased to accept a further quotation from you if you will advise us delivery point on your requirements and we will procure prices for any Western Province.

Trusting we may be of further service to you, we remain,

Yours truly,

Mr. W.S. Arneil,
Indian Commissioner,
P.O. Box 70,
Vancouver, B.C.,

As we are purchasing a considerable number of water coolers for schools across the country, I contacted several manufacturers for better prices.

Attached you will find copies of two letters which we have received in reply.

The Medalta Potteries Sales Limited have quoted a price of $4.29 for a three gallon ice water keg, brown glazed inside and out and complete with cover and nickel plated faucet.

This water keg would, I believe, be more suitable for your schools due to lower freight charges.

Memorandum:

DEPARTMENTAL PURCHASING AGENT

During the past years we have been purchasing water coolers for the day schools from Moyers and other agencies at a price of $9.55 for three gallon capacity and made of glazed stoneware.

I have written several manufacturers of water coolers and General Steel Wares have quoted a price of $5.70 each for a Japanned Metal Water Cooler in white finish with black trim of three gallon capacity.

Considering the abuse these coolers receive, it is felt that this is a better buy and more economical. It is proposed, therefore, to purchase a dozen of these coolers to be stored in Ottawa, and shipped out to the schools as required, on an experimental basis.

Attached you will find a requisition for a dozen of these coolers to be delivered to Ottawa.

July 5th, 1949.

Colonel B.F. Neary,
Superintendent of Training,
Indian Affairs Branch,
Dept. of Mines & Resources,
Ottawa, Ontario.

Dear Colonel Neary,

I thought you would be interested in seeing samples of some of our most recent publishing. Under separate cover you will receive gratis copies of the preprimers in the New Alice and Jerry Series, Skip Along and Open the Door.

The sale of Alice and Jerry books in Canada has been so successful that we were able to arrange with the American publishers to do the basic books in the Series on our presses. The two preprimers noted above are the first off press, and these will be followed by New Day In and Day Out and New Round About, basic primer and first reader respectively, before summer's end.

I think you will agree from the samples submitted that the lithography and printing are every bit as good as the American originals. But more than that. By printing these books ourselves we have been able to effect a substantial reduction in price. For example, Skip Along will now retail at 30 cents as against 45 cents for the American edition, and Open the Door at 35 cents as against 50 cents for the original edition.

Yours very truly,

THE COPP CLARK CO. LIMITED.

"ALJO" Chair

"ALJO" school furniture is the product which results when school board, principal, teacher and craftsman work together. School boards expect quality and value; the teaching staff wants something practical; the craftsman takes a pride in his product. In "ALJO" furniture all these combine to give a line of school furniture which is:

DURABLE

PRACTICAL

ECONOMICAL

The "ALJO" Chair

1. Tubular steel and kiln dried wood construction.
2. Seat of Maple.
3. Bolted construction and replaceable parts.
4. Kindergarten or standard size.

NOW-Decorate Fabrics with Color!

with EASY-TO-USE Prang TEXTILE COLORS

. . . FOR COTTON, RAYON, AND LINEN . . .

WASHABLE, DRY CLEANABLE, NON-FADING . . . APPLIED BY FREE BRUSH, STENCIL, SILK SCREEN, AIR BRUSH, HAND BLOCK.

Prang Textile Colors are permanent—washable, dry cleanable, non-fading—available in a wide range of colors and offering for the first time, an amazingly simple and easy method for the permanent decoration of fabrics. They are fully recommended for rayon, cotton and linen—to a lesser degree for silk, wood or velvet. If used on the latter they must be dry cleaned.

PRANG TEXTILE COLORS make it possible for anyone, even a child, to decorate articles of clothing, household linens, draperies with bright, glowing color. Designs may be as simple or as intricate as desired, with a single color or ranging through the entire spectrum. Colors mix and blend.

PRANG TEXTILE COLORS can be applied by any one of several techniques, of which the simplest, the stencil method is the most widely used by beginners. No art training whatever is needed to make beautiful, colorful designs with this method of application.

There is no limit to the possibilities of PRANG TEXTILE COLORS—you can decorate a handkerchief or guest towel with a simple monogram, or execute a large wall hanging with an intricate design of many colors

PRANG TEXTILE COLORS offer a marvelous opportunity for self expression, for the creation of a smart, highly individual wardrobe, or even a home in which you are surrounded by lovely, colorful evidences of your own creative ability.

Everything You Need to Start

IN THESE PRANG TEXTILE COLOR KITS

They're Complete—Ready-to-go—Containing Everything You Need For Either Stencil or Free Hand Application.

No. 1904 Kit—1 jar each of red, blue, yellow, white; extendor, cleaner, stencil brush, 3 small ready-cut stencils (one color), 3 small sheets stencil paper. Instruction folder. **$2.00**

No. 1907 Kit—1 jar each of red, blue, yellow, orange, green, violet, white, black extendor, cleaner; stencil brush, stencil cutter, 3 ready-cut stencils (1, 2, and 3-color). 3 large sheets EZ Cut stencil paper, instructions, booklet "DO IT YOURSELF", 3 sheets original Zweybruck designs. **$3.50**

Dear Mr. Driscoll:

On reviewing the latest Delivery Record Slips, it is noted that articles listed on the attached list have not been supplied.

It has been customary until now to ask you to place an order for these supplies, but I feel that orders have been placed by you but the suppliers have not filled them.

As I am constantly in contact with the different suppliers and publishers, I shall write the respective suppliers and ask them to fill the orders at once as I do not wish to have a recurrence of last year's predicament. Would you kindly mark on the attached list the number of individual items ordered, the name of the firm and the date the order was placed.

Checking with our records of Delivery Slips, it is noted that you are now filling requisitions placed by us in late May and early June. I trust you will see your way clear to send out all requisitions reaching you up to July 31st by September 1st, 1949. This would indeed be a happy situation as all the schools could start the new school year with a full supply of supplies, books, etc.

Dear Mr. Eustace,

I have for answer your letter of July 10th and note that Miss Gaulthier's book will run from 300 to 400 pages.

We were primarily interested in a book which could be used in our Indian schools for Social Studies. We wanted a text which would cost between $1.00 and $1.50 and which could be used in all schools across Canada.

Our former Director Mr. Hoey, was very interested in this material and I understand, advised Miss Gaulthier that we would handle about 5,000 copies. I also understand that the Boy Scouts Association is interested and you might write to them for their ideas as to the type of book which they require. I wonder whether it would be possible to publish in one volume form the material which has a "popular appeal" and to do the sections on medicine, ocean life, etc., in pamphlet form.

I hope that the above classifies our position in this matter. Thank you for your words of sympathy and I do appreciate this expression on your part.

Sincerely yours,

Bernard E. Neary,

July 10, 1949.

Colonel Bernard F. Neary,
Department of Indian Affairs,
Ottawa, Ontario.

Dear Colonel Neary,

Miss Gaulthier de la Verendrye was in the office last week and brought us her material which is now in some sort of shape. As a matter of fact, there seems to be a vast amount of material in the five or six booklets she brought in, and we have not yet been able to estimate how long this material would be if put into book form. I should think, however, that it would make a book of 300 or 400 pages, which would probably be both too unwieldy and expensive for the Department of Indian Affairs to interest itself in the publication as a book which should be placed in the schools for the use of the students.

This letter, therefore, is to explore the situation from your point of view. Miss Gaulthier tells us that you are interested in seeing the book published, and that it might be possible for the Department to purchase five thousand copies. If this is so, I should very much welcome your tentative suggestion as to the size of the book that you would want, and whether or not all the material that Miss Gaulthier has collected should be used.

The legends and myths are arranged at the moment in sections. One section contains legends and myths concerning Medicine, another consists of ocean life, another of animal life, and so forth. Do you think we should publish them in sections, or should we make a selection of the best material in all the sections and publish this material in one volume? I do hope you will forgive me asking these rather pointed questions, but from what you know of Miss Gaulthier you will gather that she might not be as explicit as we would wish about this matter.

Could you please advise if the Department would be interested in purchasing some copies of her book if we publish it? Also, could you please tell us if you want want to place this material in your schools for the use of the Indian children themselves? Could you also confirm the possibility that the Department might be interested in the material

to the extent of purchasing five thousand copies?

I should say, of course, that we are very interested in the material which is evidently authentic and seems to us to be very interesting. We think it is material that should be published, and we see a small market for it through other channels than the Department of Indian Affairs, although it is doubtful if these alone would justify publication.

I was terribly sorry to hear from Miss Gaulthier about the very sad loss you sustained recently in your family. Having children of my own, I can only send you my profound sympathy.

Dear Mr. Driscoll:

This refers to my letter of the 18th instant and our telephone conversation in reference to the Department's desire that all requisitions of school supplies reaching you by July 31, 1949, be filled by September 1st in time for the school opening on September 6th.

Attached you will find the number of Delivery slips received from you on July 25th covering each particular series of requisition numbers and the dates these were placed. It will be readily noticed that there were the largest number of slips covering requisition numbers 30000 to 30189 (Section B) which would indicate that this is the regular order of requisitions being filled at present.

The requisition numbers below 30000 (Section A) are back orders and above 30189 (Section C) are urgent orders. Requisition Number 30189 was placed on May 31st. It is admitted that all requisitions are not the same size and all do not call for the same items, but as we are now working on requisition 30479 you will appreciate our concern about the matter.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education.

Dear Sir: Re: Your File 458-6 (E6) 1-1-4

Thank you very much for your letter of July 14th and your interest in workbooks for Grades 1 to 3 is appreciated. We are pleased to quote as follows:

Grades 1-3	Cat. No. 7-275	Exercise Book $4.85 per 100
Grade 1	Cat. No. 7-904	Exercise Book $5.20 per 100

These prices are sales tax included, F.O.B. destination.

We also carry loose sheets of pages, similar to the Cat. No. 7-904 in packages of 500 sheets at $1.35 per pkg. We thought it best to quote on the above quantities in case this method of purchasing appeals to you.

Under separate cover, we are sending samples of the two workbooks and they have been marked with the catalogue number.

We would appreciate very much the opportunity of supplying this or any other materials for your Indian Schools, and we are also sending along with these samples a copy of our catalogue No. 47A for your ready reference. Prompt attention will be given to all orders or enquiries received,

Dear Colonel Neary,

I am afraid my letter of yesterdays date must have crossed your letter of July 26th. Thank you very much for telling me what you have in mind. What we shall have to do is to select from the material the parts most interesting to make a text in social studies which will cost between $1.00 and $1.50.

I am writing to Miss Gaulthier who is after all the person who should do this to know if she can help us. I will also write to the Boy Scout Association, although I am quite sure that if we publish the text for you containing a selection of the Legends with pictures, that they would also be interested in this book. Of course they would also be interested in the sections on medicine, ocean life, etc.

I am expecting to make a trip to the Maritime Provinces during the first few weeks in September, and would like to come to Ottawa for a day. Perhaps at that time I might be able to discuss further this project with you and make a selection of the material.

Yours sincerely,

Dear Colonel Neary,

This is just to follow up my letter regarding Miss Gaulthier's book on Indian Legends, concerning which I wrote you about a week or so ago. Quite probably you have been or are still on holidays, but as you probably realize, Miss Gaulthéer is quite an aggressive person, and I should like to be in a position to indicate our interest or otherwise in her book as soon as possible.

Re: 1-1-4 (E6)

Dear Sir,

I have your letter of July 22nd enclosing list of the teachers and Indian Schools in the Province of Manitoba.

At the present time our programme of studies appears in three parts:

1. The elementary curriculum, consisting of 7 pamphlets by subject. There has been no change in this since 1946.

2. The junior high school programme, (in 8 pamphlets arranged by subject), in which there has been no change since 1947.

3. The senior high school programme, appearing in one pamphlet, covering Grades X to XII, has been substantially revised within the last year.

In addition to this basic material, we publish annually a# Book List, which in addition to the texts, contains an outline of the various courses and any minor alterations that may have been made. I am sending therefore, to each of the teachers on the list that you have submitted, a copy of the Annual Book List for the current year. If any of them desire the more detailed progtamme of studies, as listed above we will be very pleased to send them the same, and to forward the invoice to your Department. There will be no charge, of course, for the book lists.

Yours sincerely,

Dear Mr. Neary:

We regret that our letter of July 27 was not completely clear. The charge for the programs of studies forwarded to the seven schools you listed (with two copies to the Calgary school) is 25 cents each copy, making a total charge of $2.00, instead of the $14.00 which you mention in your letter of August 3.

We trust this explanation will clear the matter up for you.

To All Staffs
R.C.I.S. DISTRICT DIVISION VII

We are again reminded of the urgency of providing as much suitable readi[illegible] material as possible for all classes, particularly Grades 1, 2, and 3; you are again commended on the considerable improvement in most of your schools during the past year, in reading material available, and therefore in reading proficiency.

May I repeat that you should aim to make it possible, as far as you can, for grades to have reading mastery (recognition, pronunciation and meaning) of the following numbers of words:

By the end of:	Gr. 1	Gr. 2	Gr. 3	Gr. 4	Gr. 5	Gr. 6
	600	800 additional	800	900 additional	1100	1400 additional

A Grade I pupil needs to have a <u>daily average</u> of 3 words throughout the year; many come to school with a very limited stock. Since most of the Grade I groups provide about 800 words, at least three Grade I groups of titles are advisable; further, something relatively difficult--a toughening agent--such as "Happy Days" or "Mary, John and Peter", before the end of Grade I, is an important supplement to the "pre-digested baby food" provided by most of the easy and more attractive titles.

This constitutes a costly set of books for any, particularly a Grade I, pupil; if you can't have all you need from the Board, the library might provide part and the parent the balance.

<u>One</u> copy of <u>each</u> title in each of several of the following series is advisable for at least <u>every 3 pupils</u> in Grades 1 and 2; (at least enough for 1/3 of class):

Alice and Jerry - Copp Clark
Faith and Freedom - Ginn
Cathedral Basic (Dick and Jane) - Gage
Reading for Meaning - Nelson
Tags and Twinkle, etc. - MacMillan → Work Pla.

plus Playmates, with or without Let's Play, its pre-Primer - Ginn and Mary John and Peter.

Beyond Grade II it is suggested that all pupils of each grade have identical "class readers" in at least one title, and that there be, <u>for Grade 3</u>, one copy, for at least every three pupils, in as many as possible of such as Dick and Jane, Faith and Freedom, Corona Readers--Ginn (Playmates, etc.), The Public School Reader, which have not been chosen as the "class reader".

Beyond Grade III, each pupil should have a copy of his "class reader" --Cathedral Basic, Corona, Public School Reader, and the following might be provided, at least one copy per grade--supplementary reading--in all the following which have not been selected as the class reader:

Canadian Parade Readers - Dent (Gr. 4, 5, 6)
New World Readers - MacMillan (Gr. 4, 5, 6)
Cathedral Basic - (Gr. 1 - 8)
Corona - (Gr. 1 - 8)
Public School - (Gr. 1 - 8)
Canadian Reading Development Series - Clark (Gr. 4, 5, 6)

Grades 7 and 8 will read those 4's and 5's and 6's, with interest and benefit.

Have something Catholic and something Canadian in each grade.

With limited resources, provision of suitable and sufficient reading material may be a five-or-six-year programme.

The above may be of some guidance through the maze of good material available; above are only some of the titles which are good.

It is believed that where there isn't money enough for both, it should be spent on books, rather than on work books.

Our Land and Our Living - Reid and Hamilton - Dent - is excellent 6 - 8 Geography, for teacher or good pupil use. At least one copy, for teacher guidance, of each of the three titles in Getting Ready to Write, etc. - Gage, at 20¢ per title, would be of great help to each primary teacher.

Please order for September, as far as money will permit, particularly if you are not returning.

Dear Sir: Re: File 1-1-4 (E6)

Replying to your letter of the 8th, the tremendous demand for school furniture of all kinds at this particular season of the year has exhausted stocks to an extent that we have only a few items available for immediate shipment. The latter do not include Home Economics tables and shop work benches so we are unable to make promises of deliveries until new runs are arranged in our production schedule.

It is impossible to forecast just when we shall again be in a position to fill orders nor do we know our costs because they will depend on the quantity of each type and size manufactured.

We could probably provide you with close estimates both in respect to prices and shipping dates if you would be good enough to tell us how many you contemplate purchasing. If there are sufficient to justify a special run, or at least form a basis from which to work, we could probably offer much better co-operation than if the matter has to wait until we have an accumulation of demands before deciding the most advantageous course to follow.

If you therefore care to guide us as outlined, we will go into the subject without delay.

Dear Mr. Driscoll;

During the past years we experienced considerable difficulty securing pictures of the King and Queen suitable for Indian schools across the country.

I contacted Miss Dorothy Hall, Associate Photo Editor, Photo Service, National Film Board, 225 Sparks Street, Ottawa, who sent a number of samples and prices.

Attached you will find print XF-26 of which we will require 400 copies enlarged to 16" x 20" and mounted on double weight paper. These pictures can be made up by the National Film Board at a cost of $1.90 each.

Would you kindly place these in stock and advise me when they are received.

Yours sincerely,

Dear Miss Hall:

Referring to yours of July 20th in connection with pictures of the King and Queen, I am returning to you all pictures received except XF-26 which we are using at present.

We are arranging through the Department of Public Printing and Stationery to place in stock 400 copies of XF-26 in size 16" x 20" mounted on double weight paper.

You will be officially advised by Mr. J.W. Driscoll in that respect shortly, and in the meantime I wish to express my appreciation of your cooperation and assistance to meet our requirements.

Att: Mr. Bernard F. Neary Supt of Indian Education

Dear Mr. Neary:-

We have shipped to-day to your attention one of our No 816 school chair priced at $ 3.90. That chair is available in Honey, Maple, Oak and natural finishes and you have the choice of three different heights: 18" 16" and 14".

We have been making that chair for many years and never had any complaint about it. It is well constructed with large rails and will take a lot of abuse.

We have also shipped one sample of our school desk chair with a bottom drawer, priced at $ 12.50. That chair is the first sample that we manufactured and our regular model will come with a heavier back leg. A discount of .60 per chair of that model will be allowed for quantities over 100 chairs.

Thanking you for your inquiry, we remain,

Yours very truly,

Dear Mr. Barbeau:

This is to acknowledge receipt of your letter dated August 18th, also one kindergarten chair and one school desk chair.

We have given these two pieces of furniture a thorough examination and we are convinced that the chair is most satisfactory. You will be getting orders for these from time to time from our Departmental Purchasing Agent, Mr. Vincent.

In connection with the desk, it is noted that you are only starting in the production of these and I feel that there are a few points I would point out that may help to make this piece of furniture more substantial.

They are (1) The four legs should be reinforced by triangular blocks on the inside, as the glue on our sample is already starting to give way and with a bit of rough handling the joints will eventually let go.

(2) The outside end of the drawer should be fastened to the body by dove-tail joints.

We are interested in the price however, and with these two adjustments I feel that you will have a first-class desk on the market, and will suit our needs.

I will be expecting to hear from you further.

Yours sincerely

Dear Mr. Neary:

We do appreciate the receipt of your letter of August 18th and it is our pleasure to supply you with the information requested, on our line of school desks.

Enclosed is a circular depicting a typical class-room equipped with our #58 Senior Desk, also illustrations showing its features.

The #58 is our most popular model, and it can be supplied in two sizes - #58 Senior and #58 Junior. Attached is an illustration showing the seat adjustment that is provided, for both sizes.

The price of the #58 Senior, complete with book-box, is $27.95 Net, f.o.b. Winnipeg. The #58 Junior with book-box is $24.75 Net, f.o.b. Winnipeg.

The desks can be supplied with a vacuum (unspillable) inkwell, for .50¢ each extra, net, f.o.b. Winnipeg.

If supplied without the book-box, $2.00 less each desk in the Senior size, and less $2.45 in the Junior size.

However, as previously mentioned, the #58 with book-box is proving the most popular model and we have made, and are making, some fine installations in Western Canada as well as in the East.

EATON'S *Bargen* DESIGNED
STAPUT-MOVABLE SCHOOL DESK

EATON'S, the Store for Young Canada, presents this outstanding school desk . . . radical in design, entirely different in conception—the Bargen 'Staput' Movable Pedestal desk.

It is functionally designed to occupy a minimum of floor space. It is adjustable . . . two sizes fit all students, from first grade to university! It is movable, to utilize maximum lighting and efficient arrangement. It stays put, yet can be readily moved. It is designed to encourage and maintain natural good posture, for less fatigue and greater comfort.

Through close co-operation with inventor-designer, William J. Bargen, EATON'S now manufactures, sells and guarantees this remarkable desk through its facilities from coast to coast.

Adaptable . . . Functional . . . Posture-Building . . . Space-Saving . . . Beautifully Designed!

COMFORT WITH EFFICIENCY

The pupil is aided in correct posture by means of special designing that encourages correct body alignment. Note foot room; desk and seat may be lowered or lifted to exactly fit the individual student.

MATERIALS FREELY ACCESSIBLE

Book box, being formed of thin steel, gives ample storage space for usual curriculum requirements. Top can be easily lifted. Underseat and side book boxes also obtainable for extra storage where needed.

READILY MOVABLE

The Bargen desk can be readily moved, as one compact unit, so that school-rooms can be used for more than one specific activity. Any room can become a library, chemistry or experimental class, simply by arranging desks as you require them.

BEAUTIFULLY BALANCED

Scientific design was skilfully incorporated to assure a desk that would not tilt, tip or shift easily. This important factor eliminates noise . . . makes a desk of unusual stability and pleasing design.

NATURAL SPACE ECONOMY

Desks take up much less floor area . . . yet provide lots of leg room, extra comfort and efficiency. This desk allows more extra floor space for other needed equipment.

IT'S EASY TO CLEAN AROUND A BARGEN DESK

Simplified design, a minimum of base area, and the solid construction of the Bargen desk make the job of cleaning much easier. Also the desk can be readily moved for complete floor cleaning and waxing.

STUBBORNLY RESISTANT

Rubber-coated spring steel cushions the base and provides stubborn resistance to shoving or pushing, thereby aiding safety, helping to eliminate noise, and saving on floor repair costs.

Re: Text Books, Pupils Attending Provincial Schools

The Provincial Department of Education has recently instituted a scheme for the rental of text books to pupils enrolled in junior and senior high schools. The rental charge is $3.50 for grades 7, and 8 and I believe, $4.00 for pupils in senior high school. This covers all the required texts but does not of course provide the necessary exercise books.

It would seem that it is to the Department's advantage to make use of this arrangement and I shall appreciate receiving the Department's views as to whether or not it is required to participate rather than supply texts to students by requisition.

Dear Mr. Neary:

Your message requesting our series of Indian Cultural Pamphlets was received today when I returned home from a trip. In this mail I am forwarding on to you a set of those pamphlets that we have turned out so far. Please accept these as a gift from our organization. In the future there will be others and I will see that you receive copies. One that is being printed at the present time is titled, "Record of Six Nations Indians, World War II" and contains war record of every band of the Six Nations, Canada and the United States. It will contain names of over 2,500 Six Nation soldiers who served in the late war, a good record considering the small number of Six Nation People. The thought that the young people of the Indian reservations of Canada can find use in our Six Nation Pamphlets is a pleasant thought to those members who make up our organization.

May this message find you well

Dear Colonel Neary:

We have an order from the Department of Printing and Stationery (No. 06869) dated July 22, for 50 copies of FAMOUS FAIRY TALES (Pied Piper Books), which we presume are meant for your Branch. We wrote on August 9 to Mr. Desrosiers, Controller of Purchases, asking if we could substitute the Books, Inc., edition of this for the Pied Piper edition, at 52¢ net, but to date have received no reply.

The situation at the moment is that we have a shipment of FAMOUS FAIRY TALES at the customs, but officials there refuse to accept a certificate from the Department of Printing and Stationery saying that these books are educational. They insist that it be indicated on the certificate the schools involved. We are therefore enclosing with this letter a revised certificate, and would appreciate it very much if you could indicate that the books ordered are for Indian schools under your jurisdiction. It is assumed, of course, that you are willing to substitute the edition; if such is not the case, please feel free to ignore our request.

We shall look forward to hearing from you in this connection.

Memorandum:

COLONEL NEARY

Mr. M.J. McLean, President, McLean's Merchandize Sales Limited was in town on September 28th soliciting business for books and reading materials he is handling.

Among other things, he interested me in a set of Richard's Topical Encyclopedia. These books were originally planned as a 20 volume set for use in schools retailing at $150.a set. Through some miscalculation they overprinted eight volumes each dealing with a different topic as shown on the attached circular. Each volume carries an index for the volume and there is no reference from one volume to another, making each book complete in itself.

The binding, quality of paper, illustrations, vocabulary material etc., are exactly the same as in the Book of Knowledge. Mr. McLean tells me that the Department of Education for Saskatchewan and Quebec have purchased these sets. The price of $15. for each set of eight volumes is very reasonable.

In view of the fact that many of our residential schools have a set of the Book of Knowledge and the Grolier Encyclopedia, I would respectfully recommend that Mr. Driscoll be requested to place in stock ten sets of these Encyclopedias.

Memorandum:

DEPARTMENTAL PURCHASING AGENT

For some time past we have been shopping for a suitable chair for our Indian schools to be used as an activity chair or a kindergarten chair. After writing and securing prices from a large number of firms across the country, it was decided that the most suitable chair both in quality and price is available from Henderson Furniture Company, St. Lambert, Que., selling at $3.90 each.

This company has sent us a sample of the chair, which was thoroughly examined and our officials are convinced that this chair is strong, well constructed, well braced, has no rungs that are easily broken, and is the most suitable.

I am sending you a copy of the quotations submitted by the Company. You will note the Company makes school desks too, but we were not satisfied with the desks. Some suggestions were made to improve it, but no further word has been received from the Company in that respect.

Attention: Bernard F.Neary,
Supt. of Indian Education
Re: File 1-1-4 (E6)

Gentlemen;-

We have for acknowledgment your letter of July 7th. in connection with a substantial type of Kindergarten Table and Chair, suitable for Indian Schools across Canada.

Enclosed you will find illustration and particulars of our No. 120 Kindergarten Table, with top 20" x 36",height 23". The illustration shows square edges on the top of this table, but, we are now rounding them to conform with the other tables in our line. It is an exceptionally sturdy piece of furniture and we believe it would be suitable for your Department.

We are also enclosing illustration of our No.124R Kindergarten Chair, constructed of hardwood, finish"Light Oak" and with 1/4" steel rods running through each seat stretcher. This is a particularly strong chair and is supplied in two heights, - No. 124R with seat 14" from the floor and No. 122R with seat 12" from the floor.

We usually have a stock of all of these items on hand and if favored with your future orders would be able to look after them promptly. As in the case of other School Furniture items which we are supplying your Department for Indian Schools, the following would be our quotation for different sections of Canada -

Quebec	Ontario	Maritime Provinces	Manitoba	Saskatchewan	Alberta

Dear Col. Neary:

Miss Jessie E. Casselman, Manager, School and Library Division of Sturgess Distributors, Ltd., Vancouver, called at this office yesterday. Her firm is apparently the exclusive Western Canadian Agent for Compton's Pictured Encyclopedia, Denoyer-Geppert line of maps, globes and science materials, and D.W. Davies School Furniture.

As a layman, I was particularly impressed by the encyclopedia as well as Compton's Pictured Library for visual education.

She stated that her firm would be writing you in the event that you might be interested in placing some sets of their encyclopedia in a few of our Indian Day Schools.

Yours very truly,

Dear Colonel Neary,

It was very nice of you to give me so much of your time in Ottawa, and I am sorry that I did not telephone you about the result of my deliberations with Miss Gaulthier. Actually I have her manuscript and I am a little puzzled as to what we are to do with it, although she has given us carte blanche to edit it as we please.

After thinking over the matter of this manuscript in relation to your own requirements I have come to a few conclusions which I am passing on to you for what they are worth.

It seems to me that there are two books that you require for your schools according to your needs as you outlined them to me during our conversation. The first book is a reader of about Grades VI and VII level telling something of the traditions and social customs of the Indians with a chapter on their contribution to our present civilization. The object of this book is to make the Indian youngsters proud of their own people and also to tell them something of the traditions of their people.

The second book is to show the part that Indians played in Canadian history, this to be done through a series of historical biographies or incidents.

Our Western Director is to be here next week and I am writing to him asking him to be sure to bring with him details of a book our Firm decided to do about a year ago on Indians. When we have this before us, we can find out exactly how we can help you in planning a book to meet your needs.

When in Montreal I spoke to Mr. E.C.Woodley,who is now retired from the Department of Education in Quebec,about the little book on Indian achievements, as I believe that Mr. Woodley would have both the time and ability to collect some material for us on this subject. I will, therefore, be writing to you about this at a later date. It occurs to me that we might get into the same book something about Indian customs and traditions, although possibly two books may be necessary.

Colonel Bernard Neary October 11, 1949.

How much material we shall be able to use from Miss Gaulthier's book, I do not know, but there does seem to be an opportunity to publish a third book for general consumption on the subject of the customs, legends and habits of the Gatineau Indians. Evidently the Federal Commission intends to publicize the Gatineau Park as a sort of national centre outside Ottawa, and it is expected that a good many thousands of people annually will visit the park. What we may do here, therefore, is to select from Miss Gaulthier's material sufficient matter to produce a reasonably sized book on the Indians and their customs and legends.

I saw General Spry about these matters and he expressed an interest in all three projects.

Once again I am grateful to you for your interest in this matter, I will keep you in touch with developments and will probably be writing to you again in the near future.

As you requested, I am sending you a copy of MASTERING THE READING SKILLS and ANSWER BOOK with our compliments.

Kind regards,

Yours sincerely,

Re: Pottery Water Coolers
Your file 1-1-4 (E.6)

A review of our requirements at the various day schools in this Province indicates a need for 57 water coolers.

This office has recently had a complaint from a medical officer of the Health Unit in which the Seabird Island school is located, in which the Department was critized for not supplying adequate facilities for drinking water. I feel that our Day schools should be supplied with proper facilities and would request the Department to authorize the purchase of the required water coolers, at a total cost of $244.53.

This refers to your letter of October 17th in reference to water coolers for the schools in British Columbia.

On my latest inspection of Ontario and the Maritimes, I saw the pottery water coolers and the metal ones. For the small difference in price, I am satisfied that the metal ones are a better buy.

I am, therefore, arranging with the Departmental Purchasing Agent for the purchase of 57 3 gallon Japanned water coolers in white finish with black trim. These coolers will be individually crated and ready for re-shipment as required.

DUPLICOPY DUPLICATING WORKBOOKS HELP YOU
Because . . . They Are

1 TIME AND LABOR SAVERS

No more night drudgery. Lessons are already prepared. Simply remove a sheet and reproduce desired number of copies on any gelatin or liquid duplicator.

2 PROPERLY EDITED

Classroom teachers of recognized ability in scientific and educational fields are authors of DUPLICOPY Workbooks. Familiarity with actual present day problems enables them to present the latest developments in the art and science of teaching.

3 PROGRESSIVE

All of the material is well within the range of pupils for the intended grades. The language is simple and the units are flexible. All vocabularies have been checked for proper grade levels with Thorndyke and Gates' word list. Special attention has been given to development of proper eye movement.

4 MECHANICALLY CORRECT

Length of line, mechanics of type, and spacing were selected after careful research in visual perception tests by Dr. Carl P. Sheppard in Betts' Survey of reading.

5 PRACTICAL

Every book consists only of material which has been tested and tried in actual classroom practice. The diagnostic and achievement tests provide the teacher a basis for measuring individual progress.

6 ECONOMICAL

DUPLICOPY Workbooks are printed in positive form with hectograph ink for use on any gelatin duplicator. For the first time they are also printed in reverse for use on any liquid duplicator. Each sheet in a DUPLICOPY book is a master which will produce 50 or more copies.

GUARANTEE

All books are guaranteed to please you. If for any reason you are not satisfied after examination you are privileged to return the merchandise and the amount paid will be promptly refunded or full credit given. All books are new and of recent copyright and not reprints of old books now on the market.

Colonel B. F. Neary,
Superintendent of Education,

Ottawa, Ontario.

Dear Colonel Neary:

It would be appreciated if you would have Mr. Track send me a copy of requisitions covering supplies which have been shipped to Indian schools in the Northwest Territories. The Lands and Development Services Branch have been following this policy. It is a good procedure in that I know what has been shipped to schools and am thus in a position to scrutinize requisitions and make recommendations knowing what is on hand.

I would also like to suggest that, in future, non-denominational readers be supplied to our schools and that we use books as authorized by the Alberta Curriculum. Otherwise, we shall have a hodge-podge of books in our schools -- with each individual school using practically anything they wish. In this connection, Indian Agent Kirkby informed me upon his return from Rocher River that the parents of the children in that area were quite annoyed that the Faith and Freedom Readers have been introduced into the school. In all our schools in the Northwest Territories, we have children of every denomination. Therefore, it seems to me that it is most unfair to request all these pupils to follow books expostulating the faith of any particular denomination. The only fair and satisfactory solution is to provide books as authorized by the curriculum for non-denominational schools as Protestant and Roman Catholic parents alike do not wish readers of a denominational nature introduced into our schools.

Yours very truly,

Dear Mr. Mc Kinnon:

I have your letter of October 17th in reference to copies of requisitions covering supplies which have been shipped to Indian schools in the Northwest Territories.

We feel that it is not possible and not feasible to send you copies of requisitions as many of the requisitions are not filled for a considerable length of time after the requisition is placed. In fac , we have a large quantity of supplies in the office now to be shipped to the North early next Spring.

As you are aware, when the supplies are forwarded by the Department of Public Printing and Stationery a delivery slip is sent to the teacher with the parcel. The teacher is required to sign the receipt and return it to Ottawa. It would appear that if you wish to be informed on what supplies have been shipped to the school, you might ask the teacher to sign the receipts and forward them to you. After you have noted them you should forward them to the Department of Public Printing and Stationery.

The contents of your letter regarding the readers and other text books for the schools in the Northwest Territories have been noted. There will be an article with reference to this in the next issue of the Indian School Bulletin.

Yours sincerely,

Bernard F. Neary,

Nouveau petit Larousse Illustré

(édition 1948)

imprimé au Canada

Format 7¾ x 5½ pces, 1802 pages.

Prix: l'exemplaire $4.50

Le **Nouveau Petit LAROUSSE Illustré** est assurément le dictionnaire le plus populaire au monde. Chaque foyer le possède et le consulte.

L'édition de 1948, que nous venons d'imprimer, renferme dans sa partie **HISTOIRE - GÉOGRAPHIE** les tout derniers renseignements sur les hommes et les pays. Elle est enrichie en outre d'un supplément de trente-quatre pages sur les événements de la **SECONDE GUERRE MONDIALE.** C'est le premier dictionnaire à nous apporter ces renseignements du plus haut intérêt.

Raoul de Navery

Nous devons au talent fécond de Raoul de Navery, un grand nombre de romans d'une belle tenue littéraire et morale. La Librairie Granger est heureuse de présenter aujourd'hui, un choix des douze meilleurs livres de cet auteur si estimé. Ce sont des romans puissamment agencés, très dramatiques, mais toujours irréprochables. Navery est d'abord un romancier chrétien. Ses œuvres jouissent des plus hautes appréciations de la critique catholique. Sagehomme et Bethléem, dans leurs guides de lectures, les recommandent sans réserve à la jeunesse et aux familles.

Paul Féval

Edition soigneusement revue

Paul Féval composa avec une facilité prodigieuse de nombreux romans qui, par la verve, l'imagination féconde, la sensibilité vibrante, la maestria de la mise en œuvre, demeurent au premier rang des romans d'action. Féval est toujours d'une lecture agréable, souvent amusante, jamais ennuyeuse. Il sait allier à un récit vivant les plus belles qualités de l'écrivain chrétien, conscient de sa mission. Ses livres sont recommandés à tous, jeunes et adultes. Les aventures captivantes n'y manquent pas. L'auteur nous transporte tantôt en Bretagne, sa patrie, tantôt aux pays de l'or, l'Amérique, l'Australie, tantôt en Irlande au moment des luttes pour la libération. Paul Féval méritait d'être présenté au public canadien dans la belle réimpression que vient d'exécuter la Librairie Granger.

Outstanding Books for Primary Grades

By EBERLY AND STILES — Drawings by JOHN LEHMAN

64 pp (8½ x 11)—1st grade, 1st semester

These books are the result of a survey of hundreds of teachers to determine what features they most desire in elementary Number Work.

We have put emphasis in these books as nearly as possible [illegible]

They are not the work of only two teachers but the combined judgment of representative teachers who we believe, reflect their own desires.

These books promise to take the lead for the season and you will surely want to try them in your own classes.

THE NUMBERLAND SERIES

Schlegel · Bristow · Moore · Eberly · Stiles

IN THE PRIMARY GRADES

THIS SERIES helps teachers share their number experiences with children. It encourages experimentation in *working with numbers* and opens the door to a world which can only be understood through numbers and *number relationships.*

THIS SERIES is a product of *actual classroom experience.* The pictures, representations, and situations used are familiar to children. Concrete experiences with numbers are suggested to *develop number readiness.*

Having children do things creates *interest.* *Relationships* are established by relating symbols to *pictures* and situations. The *progressive difficulty* and character of the exercises help to build an *orderly sequence.* Emphasis is placed on *meanings.*

32 PAGES (8½ x 11) — **Teachers Keys Free With Class Orders**

ADDITION AND SUBTRACTION OF FRACTIONS

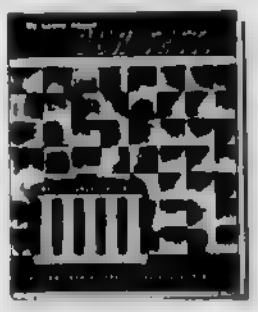
New! Here is the answer to the requests of hundreds of teachers for easy, teachable drill material for fixing principles. Number difficulties are held to a minimum. The various exercises in the use of common fractions are so arranged that they insure a high degree of pupil skill. Only fractions occurring in every day life situations are included. Can be used on any level from fifth grade up.

MULTIPLICATION AND DIVISION OF FRACTIONS

A brand new number! Tackle an old problem wherever it appears from grade 5 up in a new way. Fix basic principles of multiplication and division of fractions by using this excellent background material. Only fractions commonly used in real life situations are used. Just the thing conscientious teachers have requested for years.

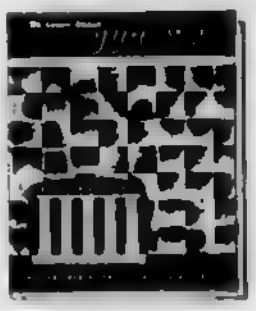
WORKING WITH DECIMALS

Here is a new practice unit in decimals. Designed to provide extra drill to give the pupils the desired proficiency in the fundamentals of decimals. The practice contained in this book is the result of years of experience in the field of arithmetic. The exercises are so arranged that they insure a high degree of pupil skill. May be used as a beginning book or as a review of basic principles.



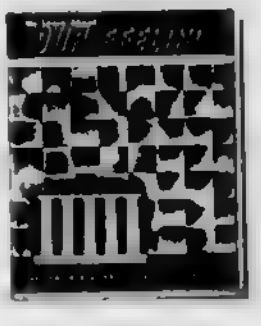
WE LEARN ABOUT OUR TEETH

An outstanding new book with practical applications of real life experiences turned into definite lessons. Highly motivated and written under the guidance of specialists. This is a "do" kind of book rather than mere rules for the care of teeth. Perfect for your special unit on teeth. Usable from grade 3 up.



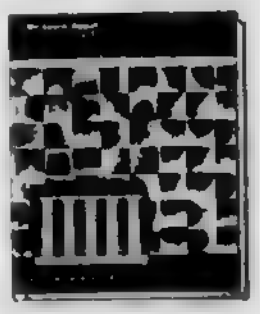
WE LEARN ABOUT OUR EYES

Here is new material in a form directly usable with children from third grade up. The inventory at the beginning of each study starts with actual life experiences with this most vital topic—our eyes. The delightful activities drawn from everyday environments have strong appeal to the child.



WE LEARN ABOUT OUR FEELINGS

This new study guide definitely teaches children how to live happier in the home, school and community. Abstractions are minimized. This material is written with the guidance of specialists in the field. Emotions play an important part in the daily relationships of the child. Meet his need through this pleasing learning situation. Suitable for grades 3 up.



WE LEARN ABOUT OUR FOOD

Practical applications of the child's health environment are turned into interesting lessons. The topic of food is indeed revitalized by the authors in this new "do" kind of approach. The child's enthusiasm is aroused at once because of the lively learning experiences. Just what you need for your unit on food.

THE LABORATORY METHOD

This series makes use of the Laboratory Method by Providing means whereby the pupil does his own checking. This relieves the burden of the teacher and at the same time increases the pupil's contacts with the words. All new words are introduced in interesting sentence context. Provision is made for practice in arranging words alphabetically and to syllabify words.

Units and Activities

New Edition

The unit method of instruction permits you to teach the standard subjects in many ways. Perhaps your pupils don't like to be taught arithmetic by itself. But if they are interested in travel, the unit method enables you to teach transportation and arithmetic at the same time. The wise teacher keeps a supply of units on diverse subjects. This book contains complete ready-to-use units on transportation, health, homes, community life, social studies, primitive life, Indians and countries. 64 pages, 60c postpaid.

Science Units

Today science is about equal in importance to the three R's. Children must have some basic science instruction to understand the modern world. You need all the science material you can find. Here are 43 comprehensive units covering such basic topics as heat, light, weather, oil, agriculture, conservation, the solar system, bird life, etc. An almost complete science course in 80 pages. For intermediate and grammar grades. 60c postpaid.

Choral Speaking and Speech Improvement

Not only does this book contain choral speaking poems and verses, it also gives you complete and specific suggestions for making the best use of this material. Teachers who have hesitated to try choral speaking because they weren't certain of how to make the best use of it will find in this book all they need to know about choral speaking.

Part I contains 75 selections with suggestions for their use. They're interesting, easy to read, and carefully selected for their value in stressing the important sounds.

Part II has about 75 more selections, each designed to provide exercises for the diagnosis and elimination of difficulties with specific phonic sounds. Each selection is labeled, for easy identification, with the sound it stresses.

96 pages, spiral binding, $1.50 postpaid.

The Story Telling Hour

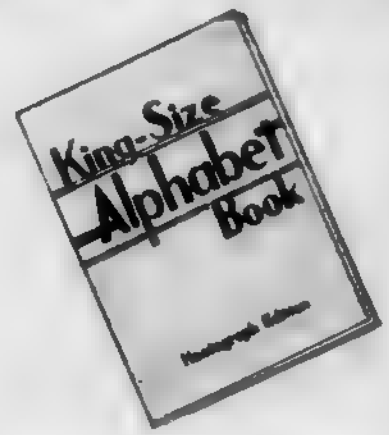
New Edition

There's nothing like a good story to raise the spirits of your class on a Friday afternoon. You need good stories both for teaching and for entertainment purposes. *The Story Telling Hour* will give you 137 of the best kind of stories for classroom use. 80 pages, 60c postpaid.

Your Reading Problems

This book brings you 60 articles packed full of hints on easily usable methods for getting the best results in your reading classes. It is a collection of articles in which teachers tell of the ways they have devised for overcoming specific reading difficulties among their pupils. There are hints for elementary teachers on every grade level. Every teacher whose pupils have reading difficulties should keep this book always within reach. 80 pages. $1.00 postpaid.

BIG LETTERS for little hands



This book not only provides the activity which children enjoy most, that of coloring, but it also creates a desire to write. Both letters and pictures are large, an important factor in teaching the young child.

Eye-hand coordination is developed by following the dotted lines. The alphabet becomes familiar to the child and he learns to recognize common words in his speaking vocabulary.

Two color charts and several pages of matching activities are given to introduce color words. At the bottom of each letter page are two dotted letters, capital and small.

A cover page is provided for each child, on which his name, school and grade should be written. Books may be sewn together with an overcast stitch or tied.

32 pages, 8¼ x 10¾ inches

Cut paper projects —posters, boxes, Christmas Tree ornaments, Valentines, and other things such as mittens, spool toys, block prints, wall hangings, etc. The fascinating illustrations provide easy-to-follow, step by step instructions that will stir your pupils to enthusiastic action. There are enough things to make for the whole school year, profusely illustrated. 48 pages, $1.00

Mother Goose Activities Book

FOR ALL YEAR 'ROUND

The ever-popular Mother Goose never fails to interest the child. Here you will find fascinating ways to use the old familiar characters. Directions are clear and simple. Suggestions and ideas are given to enable the teacher to use this book in connection with other classroom studies throughout the school year. 32 pages, 8¼ x 10¾ inches. $1.00 postpaid

Self-Helps in Reading

Hectograph Series

Book I—Reading Readiness for Beginners. Along with a teacher's manual you'll get simple nursery puzzles, pages of "Alike and Different", "Name the Picture", and other exercises to help eye and hand coordination. 48 pages, $1.50 postpaid.

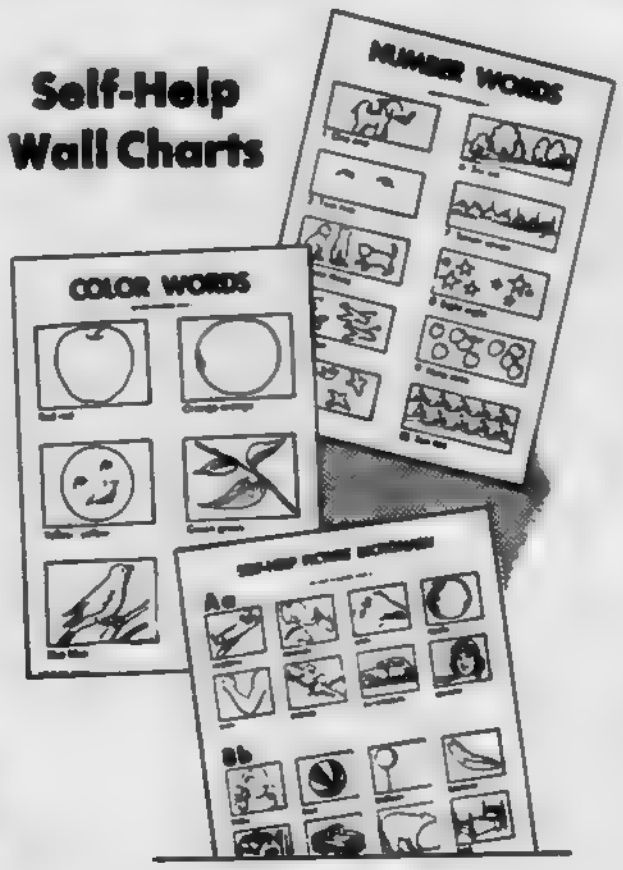
Book II—Helps in Primary Reading. For pre-primer and primer levels. There are pages of matching words with pictures, find the rhyming words, number work, multiple choice word recognition. 13 pages are a Mother Goose book for the children to assemble and keep. 64 pages, $1.50.

Book IV—Word, Phrase, and Sentence Building. For second and third grades. Exercises on short and long vowels, suffixes, phonograms. Completion pages, pages of "Words That Mean the Opposite", "Words That Mean the Same Thing", "Words That Tell When", etc. 48 pages, $1.50 postpaid.

Book V—Reading for Understanding. Also for the second and third grades. There are pages of reading on the Community Helpers, transportation, animals, the seasons, holidays, children together, and many pages of questions. There are also true-false and multiple choice tests. 48 pages, $1.50 postpaid.

(Note: Books II and III of the original series have been combined into the new Book II described above.)

Self-Help Wall Charts



The Self-Help Picture Dictionary

is a series of 18 wall charts designed to enable beginners to identify new words quickly. In addition to the Number Words, Color Words, and Action Words the charts cover a vocabulary of 280 words from A to Z. They are attractive, large (20" x 26"), legible, and encourage daily use. Your beginners will enjoy using them. 18 charts, $2.00 postpaid.

Department of Mines and Resources,
Ottawa, Ontario.

NOV 12 1949

Dear Colonel Neary:

I note in your letter of November 4th, (your file 1-1-4(EB) that you are unable to supply this office with copies of requisitions covering supplies which have been forwarded to schools in the Mackenzie District of the Northwest Territories for the current school year. I regret that you are unable to supply our office with this information as we are most anxious to keep a complete inventory of all equipment and supplies provided to schools in the Mackenzie District.

You will recall that when Miss Davis was in charge of requisitions, you were good enough to provide us with this information. I also find that the Lands and Development Services Branch have found it quite possible to provide this office with copies of requisitions covering all supplies forwarded to schools in the Mackenzie District for the present school year.

There are various difficulties in getting this information from the blue delivery slips as suggested in your letter. This method is unfeasible and practically impossible at this time of the year as most of the blue delivery slips will have been returned to Ottawa by now. Even if this were possible, we have not sufficient help to do this work.

You may have misunderstood my request as all that we require is that the officer in charge of requisitions in your Branch run off an additional copy for our files when he is preparing the requisitions. Then, in turn, this list would be checked by this office against the blue delivery slips and a notation made of all supplies provided.

We shall not have any difficulty in this regard another year as all requisitions will be submitted though this office to Ottawa. This will enable us to keep a complete record of all equipment and supplies ordered for the coming school year and, by checking these lists against the blue

Dear Sir:

This will acknowledge with thanks your recent order.

We regret that there was a shortage in the order sent you recently, of which we were not aware until the books were received by us.

The publishers have assured us that this shortage will be made up, and your most recent order shipped to us on November 30, or before. Their own stocks of these numbers have been exhausted, so that they have found it necessary to reprint in mid-year, a circumstance which I gather from the tone of their letter is most unusual; (but probably gratifying, since it indicates an increased demand.) Books will be shipped from Toronto immediately they have been cleared through Customs.

With apologies for troubling you in this matter, may we please have two signed copies of the attached certificate for Customs purposes in connection with this shipment?

With sincere appreciation of your interest in the publications we handle,

Yours sincerely,

Regina, January 31, 1949.

Dear Sir:

In reply to your recent letter I wish to advise you that our Department recommends Compton's Pictured Encyclopedia as the best work of this kind for elementary schools. We do not list it as such in our Circular Relative to Textbooks but through our School Librarian, Miss L. E. Evans, we are in constant contact with teachers and school boards regarding library needs. We do furnish mimeographed material upon request indicating the relative merits of various encyclopedia. This, however, is only for our own teachers.

I should be very pleased to receive any advertising material which you have together with the cost at which the set could be laid down to us from Vancouver.

I have my own personal copy of the 1948 edition of the complete set and can tell you that it is continually an inspiration to my own children.

Yours faithfully,

Dear Miss Casselman:

As a teacher and as a Librarian, it is really a pleasure to have the opportunity of making a recommendation for the use of "COMPTON'S PICTURED ENCYCLOPAEDIA" in our schools.

We find it extremely useful and suited to the needs and the capacity of both Junior and Senior High School pupils. On account of our lack of space the Grade School pupils are unable to make much use of the Library(which serves two other purposes also), but the Grade School teachers find it very useful in preparing their work and sometimes carry one or more volumes along to their classes.

The subject matter, the illustrations, and the style are all at the level of the school boy or school girl. This is an encyclopaedia prepared for school use, not a general service set which may be also used in school. The FACT INDEX adds greatly to the value of the book.

I can assure you that any school authorities that purchase this encyclopaedia will surely be satisfied.

Yours truly,

(Rev.Br.)P. V. SHEA,FSCH,MS

Mr. F. Sturgess,

P.O. Box 47,
Vancouver, B. C.

Dear Mr. Sturgess:

I am very pleased to hear of your new connection with Compton's Pictured Encyclopedia. I have used this work for many years and have nothing but praise for it. It is in my home, is in various departments and branches of the library, in school libraries and wherever young people and children need it, we have it.

I happen to know considerable about the internal organization of the Compton Company. I am familiar with their methods as well as their officials and staff and can say they do a most meticulous and careful job of whatever they undertake. They use only the best authorities for compiling their articles which are geared to the school curriculum wherever possible. Their material is accurate, up-to-date and presented in a pleasing and attractive manner.

It is the illustrations which are a special feature of their encyclopedia and on which I wish to comment particularly. They spend an enormous amount of time and money on their art work, all of which is designed to be educational as well as informational and recreational. The pictures are simple but illustrate the text clearly and as completely as possible. Their maps and diagrams are clear and easily understood by the youngest child. I can safely say, there is no more attractive set on the market today than Compton's at any price.

Their method of keeping the set up-to-date is costly but effective. They are constantly revising it and re-writing those parts which need changing or the addition of new material. You can present this encyclopedia to any home, school or library without fear that it will not do the work required of it. I can only congratulate you on your connection with Compton's and wish you every success in introducing it in Canada where we lack such first-rate encyclopedias for children.

Sincerely yours,

E. S. Robinson

Dear Mr. Sturgess:

I was very interested in learning that you had become the official representative of Compton's Pictured Encyclopaedia for the Province of B. C.

This encyclopaedia is one of two which has been chosen by our Library Pool Committee as being most suitable for use in the elementary schools. We find that the children make very great use of this encyclopaedia and that it provides practically all the information necessary for children of these grades in their school work. In addition to this it is such an attractive set of books that the children often take volumes off the shelves simply for browsing purposes.

As you probably know we placed a set of these encyclopaedia in every elementary school in the City of Vancouver two years ago. I do not believe that any other set has received as much use as has Compton's.

Sincerely yours,

Re: File No. 1-1-4 (E2)

Dear Sir:

Replying to your letter of November 2, we do not publish catalogues or specifications, covering Home Economics equipment, because the line is only in limited demand and, in recent years has developed into more or less household furniture.

The note appearing in catalogue No. 47A to the effect that "other types of tables can be supplied", is intended to convey to customers that our facilities for manufacturing enable us to meet individual requirements, based on details or sketches that the prospective purchaser submits.

However, the writer will be visiting Ottawa November 14th to 16th and, will be glad to discuss the matter with you. We can probably have available illustrations, etc., of designs other than those shown in No. 47A.

On account of a somewhat crowded program for the Ottawa visit, would you be good enough to let us know by return mail, whether you wish to discuss the subject in question.

Colonel Bernard Neary,
Department of Indian Affairs,
Ottawa, Ontario.

Dear Colonel Neary,

Subsequent to my recent letter to you in which I sent you a first tentative outline for a projected reader for the Indian schools. Since writing to you, we have heard from our Western Director who has made some good suggestions for amplification of Mr. Woodley's outline, and I shall hope to send you a revised outline very shortly for your approval or suggestion.

Mr. Woodley tells me that there will be no difficulty in checking the language, as he is acquainted with your Inspector of Schools at Caughnawaga and will use his Sixth Grade for testing the selections.

My own feeling is that Mr. Woodley is on the right track with his outline. I hope you will let me know whether you think it interesting, and whether the venture is practical before we proceed further with it.

We have been over a part of Miss Gaulthier's manuscript, and we are of the opinion that the material is in such a state that the editorial task is too great for us to undertake in this office. We are informing Miss Gaultheir that unless she can submit to us a manuscript that is in some kind of order, we cannot undertake publication of it. We realize that there is some immensely valuable material in the manuscript, but Miss Gaultheir really needs the services of an editorial assistant who can reorganize and partly rewrite her manuscript for publication. We wish we had the time in this office to do this, but unfortunately we have not.

We shall look forward to hearing from you about the other matter.

Yours sincerely,

Dear Mr. Eustace:

I have for answer your letter of November 7th and I am trying to go over the suggested outline for the book.

I think that possibly the best arrangement would be for me to see Mr. Woodley when I next visit the Caughnawaga school.

Has Mr. Woodley a copy of Dr. Jenness' book on The Indians of Canada? If not then I think he should get one at once as we feel his work in this regard is the most authoritative yet published.

With regard to Miss Gaulthier's manuscript, I believe that she does not have the funds to get an editorial assistant to go over her manuscript. I think she is contacting a retired professor at McGill University in this regard.

Dear Mr. Query:

Please find attached the requisition pad which we are sending to all our Indian day and residential schools for use in ordering text books for the coming year.

I believe that you will find our instructions in complete accordance with our recent conversations concerning school text books and stationery. I would ask you particularly to note the following features:

(a) The dates for submission of requisitions are spread out over a considerable period of time so that your staff will not be overwhelmed during the late spring and early summer.

(b) The requisition pad is divided into three sections, as follows:

(i) Standard stationery;

(ii) Standard text books (in stock);

(iii) Text books which have to be ordered specially from publishing companies or text book bureaus.

I am enclosing extra copies of this requisition for Mr. D.Scott, Mr. Lajoie and Mr. Joly.

(a) Requisitions from your School must reach the Department by 31st December, 1949, or as soon thereafter as possible.

(b) Sufficient of the requisition forms to be filled in and submitted are attached to the Supplement mentioned above to enable you to forward the number of copies required by the Department and retain a copy of each completed form for your own records.

In your own interest, it is essential that you study the Supplement above mentioned carefully and submit your requisitions, properly compiled, ON TIME.

Yours sincerely,

Henry G. Cook.

Henry G. Cook,
Superintendent.

Dear Mr. Woodley:

I have for answer your letter of the 29th of November and I will contact you on my next trip to the Caughnawaga School.

In the meantime I am arranging to have you mailed a copy of Mr. Jamieson' book on the Indians of Canada. It is a copy from our own library and I know you will take care of it while doing the necessary research.

It is probably the most authoritative book and should give you very valuable background concerning the various tribes, their characteristics and environment.

I am also sending you a copy of the Story Workbook in Canadian History, which has proven to be very satisfactory in our Indian schools. This type of book appeals greatly to our pupils and to our teachers because of the following reasons:

(a) The work is divided into connected units.

(b) Each unit is followed by enetwork problems.

(c) The content is simple and yet interesting.

(d) The black and white illustrations help to make the book more appealing to our Indian children.

Sincerely yours,

Copy sent to Mr. C. J. EUSTACE,

Dear Colonel Neary,

Mr. C.J.Eustace of J.M.Dent and Sons has suggested that I should write you regarding a prospective Reader for Indian children, in which his firm is interested. He mentioned the book to me last month when visiting Montreal and asked me if I would consider its preparation.

I understand that Mr. Eustace has communicated with you about the Reader and that, naturally, you are greatly in anything related to Indian education.

Some time ago I made a tentative outline in accordance with the objectives described to me by Mr. Eustace. I think that he has sent you a copy of this outline. The outline was only intended to be an initial step and will probably be changed to some extent before the actual writing begins. One of the major problems will be the accommodation of the language to the understanding of Grade VI pupils.

Would it be possible for us to meet during one of your visits to Montreal? I should like to discuss a number of aspects of this proposed book before I go much further. If you will let me know when you will be in Montreal I shall gladly arrange for our meeting.

In his letter to me, Mr. Eustace mentions your inquiry regarding my knowledge of Mr. Jenness' work on the Indians of Canada. I know the book well. I have a copy of the Bulletin of Dr. Jenness on the "Indian Background of Canadian History" but do not possess a copy of the larger work which I have been able to consult only at Libraries. Can the larger book still be procured? I thought that it was out of print. If the book is still available, through your Department, I shall be glad to purchase a copy, as it will facilitate my work.

Very sincerely yours,

E.C.Woodley

Dear Colonel Neary:

Under separate cover, we are sending you a copy of ACROSS CANADA one of the most attractive and valuable Canadian Juveniles we have published in some time.

The author and illustrator is Mr. Clare Bice, curator of the London Art Gallery, and author of JORY'S COVE, a children's story of Nova Scotia.

As you will note ACROSS CANADA is a series of stories about children in each of the significant geographical areas in Canada from Nova Scotia to British Columbia and the Northern territories. In addition there are eight full pages of coloured illustrations and numerous black and white sketches which should give school children a new sense of the beauty of their country.

ACROSS CANADA seems to us a suitable supplementary book for Social Studies as well as a library title and we hope that it will find a place as such in your recommended lists.

Yours very truly,

Irene A. Welsh

Attention Mr. Bernard F. Neary
Sppt. of Indian Education

Dear Sir:

Thank you for your inquiry of December 1st, in regard to Cosy Corner books.

These are a series of children's books belonging to the Whitman line, and we have much pleasure in enclosing our catalogues and current price list. If we could be of any assistance with samples we would be glad to do so.

We would particularly like to draw your attention to some of the semi-educational books available in these lines, such as ABC., Color Rhymes Paint Book, etc. We have x'd the items which are of a more or less educational nature, as we believe you might find them very useful for your purposes.

Thanking you again for your inquiry, and hoping that we may be of service to you,

Sincerely yours,

Gentlemen:

I am anxious to secure suitable picture moulding for pictures of the King and Queen for our Indian schools across the country.

Would you kindly quote your prices on suitable moulding by lineal feet and by each frame. These frames need not be assembled, but what is required is four pieces of moulding cut and trimmed to fit. No glass is required. The size of the picture is 20" x 24". Samples would be appreciated. Approximately four hundred frames will be required.

Yours sincerely,

Dear Mr. Query:

Last year we stocked a set of nine booklets known as the Geographical Aspects. There was a booklet for each province in the Dominion and the complete set was in a box. This set of booklets proved very attractive and the demand was encouraging.

The Canadian Geographical Society, 36 Elgin St., Ottawa, have now on the market the tenth booklet entitled "Province of Newfoundland".

Would you kindly stock four hundred copies of the booklet "Province of Newfoundland" in order that our sets might be complete and teachers who already have the set will be able to complete their sets by requisitioning for the new booklet.

Yours sincerely,

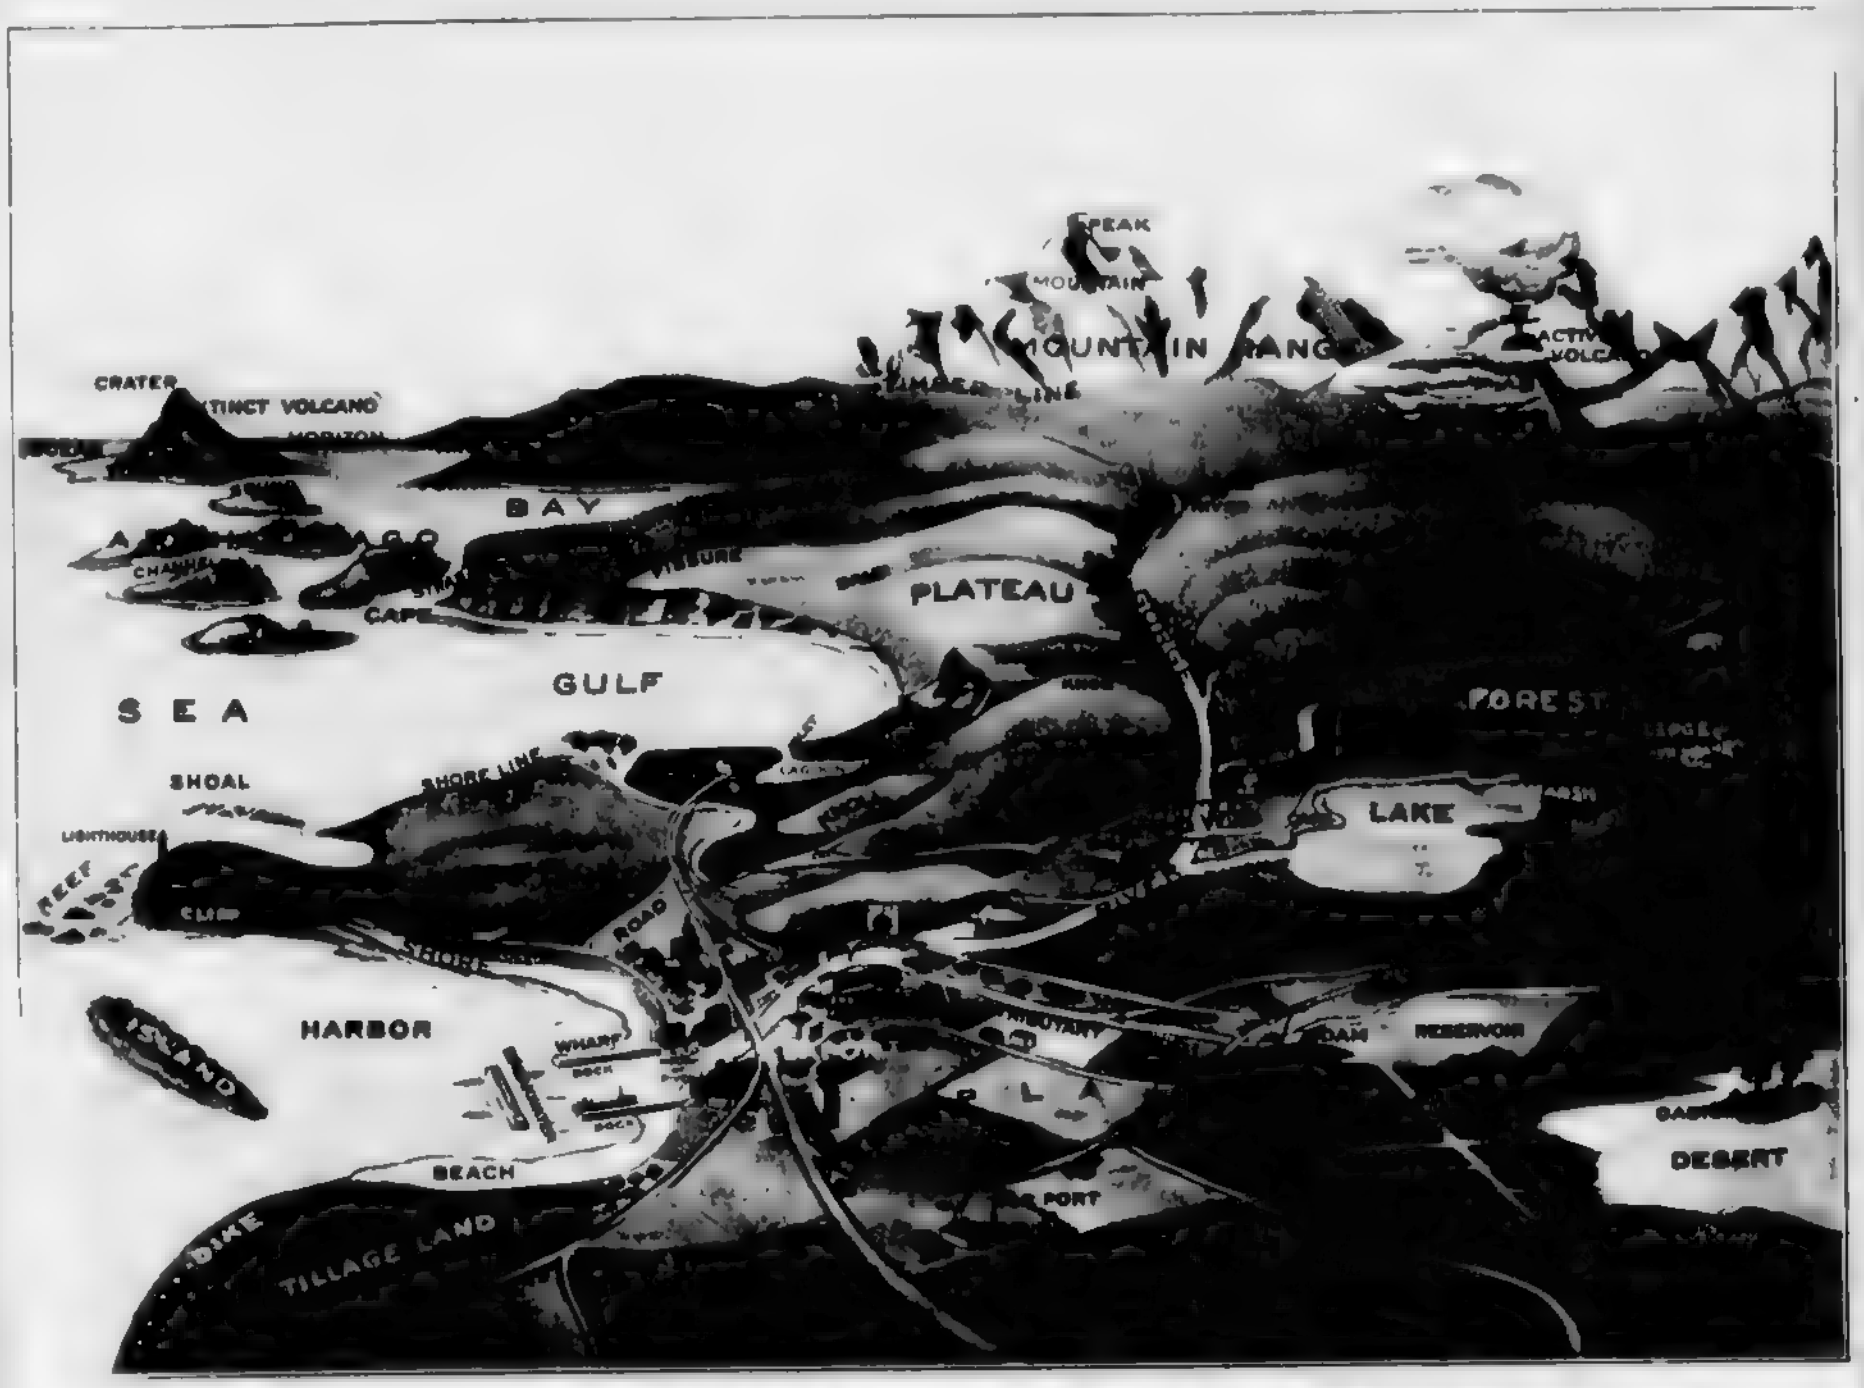
The majority of children lack factual experience with the geographical terms which confront them when they commence the study of geography. By illustrating and naming the various geographical terms in common usage, J100—Map of Standard Geographical Terms aids considerably in the acquisition of proper visual conceptions of the geographical formations of the earth.



Portrayed above is a halftone reproduction of Section J100 of the map, depicting a composite landscape. This illustration is in three colors only, the actual map is lithographed in full natural colors. Directly beneath the landscape scene, but not shown here, is a complete dictionary of definitions

Illustrated overleaf is Section J100b of the map, showing various types of natural phenomena. There are 20 black and white photographs, averaging 6x8 inches each

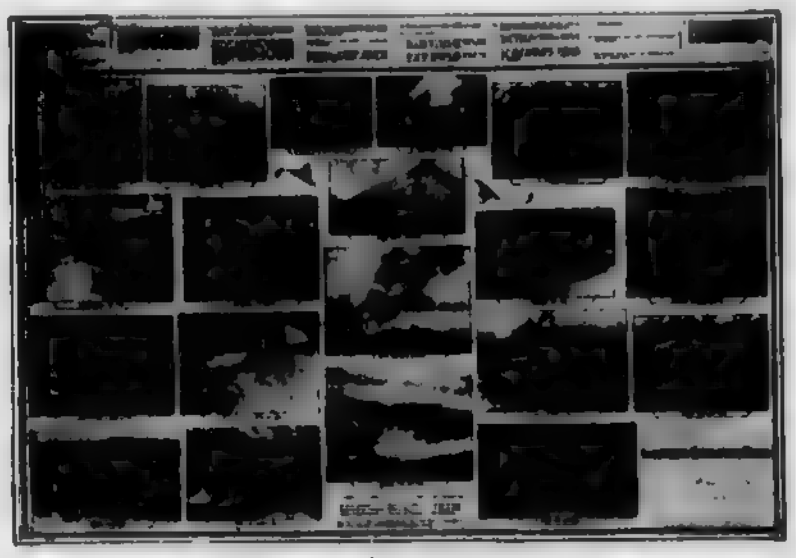
A BASIC MAP

The Standard Map of Geographical Terms has been produced by the Denoyer-Geppert Company to aid the school children in gaining a clear understanding of the various physical features of the earth represented by the common geographical terms. By acquainting the children with the different types of land forms, this basic map or chart lays the foundation for correctly interpreting the regular maps to which they are eventually introduced, and on which all physical or natural features are necessarily portrayed by means of symbols.

IN TWO SECTIONS

The two sections of this map supplement each other, and each is 44x36 inches in size. The first section (J100) consists of an artificial landscape, lithographed in full natural colors. It is done on a composite plan that illustrates all manner of land forms, with the names thereof printed on. Immediately below the landscape appear definitions of the geographic terms illustrated in the landscape.

The second section (J100b) consists of 20 black and white photographs, depicting various natural features of the earth. Several of them also illustrate how men have adapted themselves to different natural surroundings. At the top of the sheet appears an explanation of the type of phenomenon illustrated by each picture.



J100b Photographs of Natural Phenomena

Both sections, J100 and J100b are hand-mounted on a heavy quality of closely woven muslin. Mounted together as a single unit, or separately as individual maps.

OTTAWA, Ontario.

Dear Col. Neary:

I apologize for being so long in answering your letter which I received on November 21st. I was waiting for some information re the Denoyer-Geppert maps which just arrived this afternoon.

COMPTON'S PICTURED ENCYCLOPEDIA

We are the exclusive representatives for Compton's for Western Canada, from Fort William west and can give you the following price for schools: The School price is $119.50 f.o.b. Chicago, payable in Canadian funds to our Vancouver office, less $5.00 for cash (60 days). We will give a quantity discount of $5.00 per set when 5 or more sets are ordered as one order for shipment to the same address. Besides this, we would be glad to give a $10.00 trade-in allowance on an old reference set per new set providing you ask for it and providing you guarantee to get the old set out of the school and to replace it with Compton's. If you can take advantage of this complete offer, you can see what a nice reduction is allowed. I know that your teachers and pupils would be delighted with Compton's Pictured Encyclopedia and hope that it will not be long before there are sets in the Indian schools of Western Canada.

Denoyer-Geppert maps, globes and science materials

Under separate cover, I am sending you a copy of two Denoyer-Geppert catalogues. You asked about a map of Canada--we recommend our J11 which is a Political and Industrial edited by Dr. Cornish--see page 22, Catalogue #49. The mounting you requested is known as -10 and is handmounted on muslin with wooden rod top and bottom. These sell at $8.00 and are size 44 x 58. On pages 16 and 17, you will see our Jrp series which includes a fine map of North America and several World maps. These also sell at $8.00 and are 44 x 58. If you want a larger world map, I would recommend S9arp or S79rp, on page 13. These are 64 x 44 and in the -10 mounting, sell at $9.75. Should you be interested in a Slated

rld map, I would refer you to CS9b, size 64 x 50, illustrated on page 8. In the -10 mounting, this sells for $12.00. Denoyer-Geppert is planning on getting out a Slated map of Canada which will be known as CS11b and will sell at $12.00. Also, the plan is to produce a combination map, on one side the Slated World and on the other, the Slated Canada. This combination will be called CS911b and will sell for $15.00 in the -10 mounting. These prices are all f.o.b. Chicago and in American funds.

It is not anticipated that there will be separate maps of Alberta or any of the Provinces at present. Should these be available, I would be glad to let you know.

I am enclosing a partial price list of School Furniture--we can make practically anything you need to your specifications. We also have a good line of Gymnasium and Playground equipment. Would be glad to send information on request.

Also enclosed please find a miniature Geographical Terms Chart, J100, size 44 x 40, in -10 mounting, price $8.00. This would be very useful to your teachers in teaching the beginning of Geography.

Should there be any further questions, do not hesitate to write me, c/o Sturgess Distributors Ltd., 2146 Yew St., Vancouver, B.C. If you desire to see samples of any of our lines, do not hesitate to ask for same.

Hoping that we may be privileged to serve your department,

Yours very truly,

Jessie E. Casselman

P.S.

* The prices quoted above on Compton's is in a Fabrikoid binding which is very strong and beautiful. However, we can supply Compton's in a Dura-Cloth binding for $5.00 a set cheaper. This binding, I am sure would suit your purpose. So, if you are interested in the cheaper binding, just deduct another $5.00 from price listed above.

Dear Colonel Neary:

The charts showing the history of Canada in money that I had the pleasure of exhibiting to you a few days ago were prepared by Mr. W. H. Kernohan, of Forest, Ontario. Mr. Kernohan is an old man who is nearly blind, and he has put a lot of study and expense on these charts ~~on these charts~~, and I am sure that you agree that they are most interesting and educative. They could be used to distinctive advantage in schools throughout Canada.

I have mislaid the price list of these charts but will mail it to you in a few days' time.

Thanking you for your time and courtesy while in your office and trusting that these maps will be of real service in your schools, I am,

Sincerely yours,
Hugh MacKenzie

Dear Sir:

We acknowledge and thank you for your kind inquiry of the 7th, and we are shipping you via express three (3) only sample frames. We are pleased to quote you a price of frame #1 made from 1½" moulding at $ .90¢ each. Frames #2 and #3 2" moulding at $1.10 each.

If we might be permitted to suggest to you we believe it would be more economical and more satisfactory for you to take these frames made up other than ship in pieces cut that is mitred ready for joining. There is a great possibility of the corners of the mitres being damaged, consequently when the frame is joined it leaves a very pronounced bad corner on the frames.

Prices which we are quoting you we believe will be almost as economical with regards to cost, infact cheaper than it would be for you to assemble the frames if same were shipped in pieces. Prices quoted are f.o.b. Kingston, plus tax, packing charges included.

Thanking you, we are,

Yours very truly,

Dear Sir:

Reference your file letter 1-1-4 (E6), recently received.

To quote on this intelligently so as to make the best looking job consistent with price, we would like, if possible, a little further information. The general rule of framing is that a picture showing a white border or matt uses a narrower frame than one framed close. Then, again, there are so many types of finishes, some of which look better on coloured pictures than on black and white. If possible, we would like to see one of these prints, failing which, however, could you advise us as to whether a white border shows, and as to the colouring of the picture, and if you have any choice on types of finish in the moulding.

We sell now a coloured picture of the King & Queen, approximately your size, which shows a white border, for which we use a one-inch Natural coloured frame. This, we believe, looks very well, and we find it goes with practically any finish which could appear in the schools.

Thanking you for this inquiry, and hoping we will be able to be of service to you in this matter.

Yours very truly,

Dear Colonel Neary:

I am pleased to tell you that our work on the manuscript of the fourth grade Faith and Freedom reader, This is Our Land, is well along and practically the only writing which remains to be done is for some of the exercises. We cannot finally determine the length of the exercises until the main part of the book is actually in type. We have therefore commenced to set the type.

I am sending you a copy of the manuscript and would be grateful if you would read it and let us have any observations that you care to make. I should point out that we are sending you a copy which has not been carefully read against the original. It is quite possible, therefore, that there are errors of spelling, a word omitted, or something of that nature. You may be quite sure that this will not be carried into the finished book.

The manuscript has involved almost complete re-writing. We have had numberless conferences with the authors and various school people about the material, and we are just about as sure as we can be that it is what is wanted. You will be pleased to note that all the features of the American book have been retained and that the plan and purpose of the Canadian book is in full accord with the aims of the whole Faith and Freedom programme.

Following the plan of the American book, we take the children on a sweep right across Canada which, of course, is in accordance with the title, This is Our Land. I think you will enjoy reading the selections. The writing is all excellent, - in some cases, I think, brilliant. The more I have worked with this manuscript, the happier I have felt about it.

The manuscript is being read also by a priest in Montreal, to make sure that we have nothing unfortunate from the French-Canadian angle. I believe we have guarded quite well against anything which might cause trouble in the Indian schools, but I should like you to read the manuscript particularly from this point of view. The authors have been very careful to omit any references to the Indians being cruel, bloodthirsty, wild savages, or anything

[illegible]nat nature which occurs so frequently in the usual story about Indians for white children. We felt it quite important to have several stories about Indians such as, for example, the story of Father Brebeuf. Similar stories in the Corona Readers have, as far as I know, been quite acceptable and I hope these will prove to be the same.

Apart from the necessity of having the material in type to determine the space available for the exercises, it is even more important to determine exactly the space for illustrations and get the artists started on their work. The book will have the same type of illustrations as in the original edition.

We hope to publish This is Our Land next spring. If, therefore, you could read and return the manuscript and let us have your observations at the earliest possible moment, I shall be very grateful indeed.

My wife and I enjoyed seeing you in Fredericton. I hope, if you are in Toronto, you will give me a ring and come out to the house to have a meal, if you can spare the time.

Cordially yours,

Norman L. Ingram

Attention: Mr. Bernard F. Neary

Dear Sir:

We have your enquiry of December 7th for moulding suitable for pictures of the King and Queen.

Now, we have a very extensive line of moulding and if you would be kind enough to forward us samples of the pictures in question, we would frame these appropriately for you and quote on your requirements as outlined in your letter.

If this arrangement is satisfactory to you, please have the samples forwarded immediately otherwise we will have to forward you samples of moulding selected at random and which would probably not be suitable for the purpose you have in mind.

Dear Sir:

We thank you very much for your letter of December 8th, and would like to take this opportunity of advising you that our stock is quite limited at the present time.

We anticipate, however, having a new shipment of stock the beginning of the year - at which time we will be very pleased to forward you the sample copies requested in your letter. We will also send you a new listing of titles and the new price setup, as soon as we have this data completed.

We expect to have a representative in Ottawa about the middle of January and he will be very glad to contact you at that time. If we can be of any service to you in the meantime, kindly advise us.

Yours very truly,

, December 17, 1949.

Dear Mr. Query:

You will recall that some time ago an order was placed with the National Film Board for 400 pictures of the King and Queen. These pictures are presently in stock. However, there are no frames to go with the pictures.

It has been decided to purchase a suitable frame for each picture and despatch the picture and the frame together.

We have contacted a number of picture moulding manufacturers who have quoted prices on a picture frame 20 x 24. We found the price quoted by K.D. Manufacturing Co., Ltd., 670-680 Montreal Street, Kingston, Ontario to be the most fair and just.

Would you kindly place in stock, therefore, 400 picture frames # 2, size 20" wide by 24" long, completely assembled (glass, cardboard, backing not included) costing $1.10 each.

As soon as delivery is made on these frames, it is our intention to submit a requisition to your office and have the pictures sent out to the schools at once, as there are no pictures of the King and Queen in our schools at present.

Yours sincerely,

Mr. Romeo Query,
Director of Services,
Dept. of Public Printing & Stationery,
Ottawa.

Thank you for your letter of 29th November. I was glad that you found some of the titles suitable for your purposes, but I would like to inform you that since sending you the books we have had notice from America that two of these titles are now out of print. They are:- Ootah and his Puppy, and Riches of South America. The remainder of these titles are of course all readily available, and we will be able to fill any orders for you that you care to place.

Colonel Bernard Neary,
Department of Indian Affairs,
Ottawa, Ontario.

Dear Colonel Neary,

I have pleasure in enclosing herewith a first outline, necessarily tentative, of a reader designed to be written at Grade VI level and following along the lines that we discussed when I was in Ottawa. The author of this is Mr. E.C.Woodley, M.A.,F.R.Hist.S., who is retired now from the Department of Education in Quebec where he occupied the position of Education Officer to the Director of Protestant Education. Mr. Woodley is well known as a competent Canadian historian and he has written a number of text books for the schools. He will guarantee to present these little stories in language suitable for Grade VI,and if you are interested at all in this book,perhaps it would be possible to arrange for someone in your Department to check the material from the point of view of comprehension by Indians, as it is written.

In the meanwhile, would you be kind enough to look over this outline and make any suggestions either for additions or omissions.

It occurs to me that the last section "The Indians To-day" could probably be enlarged as there must be other contributions that Indians have made to our present life in Canada which Mr. Woodley has not mentioned.

I should also like to have your comments on the sections he suggests such as (a) the games they played (b) the things they made. etc.

You will not want a book that is too long, and it occurs to me that perhaps two books might be necessary if you want a good deal of material devoted to the games they played, etc. However, it would be best to have everything in one reader.

You may also be interested to know that our Firm has completed a manuscript on the "Life of the Eskimos" at Grade III level and we are at work on one on the Indians. The book on the Eskimos will be published during 1950 and the manuscript of the Indian book will probably be finished some time next year also.

Please be assured that we appreciate very much your interest and cooperation in this venture, and for our part we shall do our best to produce an interesting and attractive looking book. However, since this book will

Proposed Social Studies Texts for Indian Schools

Dear Sir:

I have not been able to get down to Caughnawaga to see Mr. Woodley but I have been further discussing his outlines with our officials.

We believe the section dealing with "Tales Told by the Campfire and in the Tepee" could be well omitted. We are primarily concerned with a Social Studies text and the legends could well be left out, possibly for a future book.

Sincerely yours,

Bernard E. Neary,
Supt. of Indian Education.

Dear Sir: Re Your File 1-1-5-(E)

Replying to your letter of December 15th regarding the use of Cinoplate blackboards, there has been very little blackboard material of any kind sold to schools since the depression and we do not know of any installation in the neighbourhood of Ottawa. Canadian Commercial Corporation have bought this material on a number of occasions and some few months ago for the Department of National Defence, Royal Canadian Engineers, Camp Borden, Ontario. One of our Toronto architects who builds a number of schools, Mr. C. P. Band, specifies Cinoplate blackboards along with slate. Natural slate, however, is the blackboard material used in 90% of Ontario schools.

We have been supplying this material for fifteen or twenty years and have had no complaints of its character or quality, consequently, have no hesitation in recommending it to you.

We will be glad to know if there is anything further we can do for you in this connection.

Yours very truly,

Dear Mr. Query:

You will recall that some time ago an order was placed with the National Film Board for 400 pictures of the King and Queen. These pictures are presently in stock. However, there are no frames to go with the pictures.

It has been decided to purchase a suitable frame for each picture and despatch the picture and the frame together.

We have contacted a number of picture moulding manufacturers who have quoted prices on a picture frame 20 x 24. We found the price quoted by K.D. Manufacturing Co., Ltd., 670-680 Montreal Street, Kingston, Ontario, to be the most fair and just.

Would you kindly place in stock, therefore, 400 picture frames #2, size 20" wide by 24" long, completely assembled (glass, cardboard, backing not included) costing $1.10 each.

As soon as delivery is made on these frames, it is our intention to submit a requisition to your office and have the pictures sent out to the schools at once, as there are but few pictures of the King and Queen in our schools at present.

Yours sincerely,

Gestetner SERVICE NOTES no. 9

Cushion Sheets

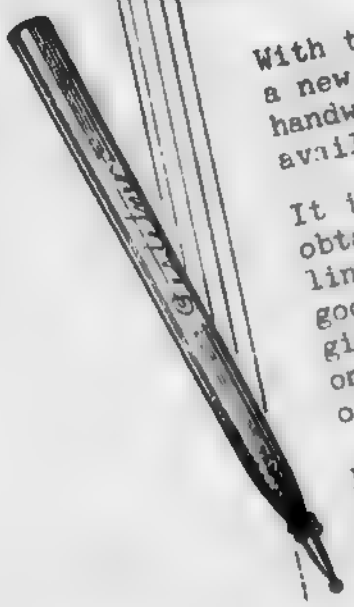
With the introduction of the Gestetner CUSHION SHEET, a new and efficient method of reproducing signatures, handwriting, and simple line sketches has become available to all Gestetner Users.

It is not necessary that one be a skilled artist to obtain pleasing results. Anyone who can trace an outline picture can, with very little practice, cut a good stencil by following the simple instructions given on this page. The only equipment required is one or more Stylus Pens, as illustrated, and a pad of Cushion Sheets.

Each pad contains twelve sheets which are tinted blue-black so that Stylus work cut on the stencil shows up distinctly. The top cover of the pad is folded under the top sheets, thereby acting as a cutting base. Each sheet may be used several times before losing its efficiency.

You will find the enclosed card a convenient means of ordering both Stylus Pens and Cushion Sheets. The cost of these items to Gestetner users is only $1.00 each for Stylus Pens, and $1.50 per pad for foolscap size Cushion Sheets.

If you have an illustrating, lettering or ruling problem beyond the scope of the Stylus Pen technique, we suggest you discuss it with your Gestetner representative on his next visit. If more convenient, write to us direct, enclosing specimen or rough draught of the type of work you have in mind.



THE STYLUS PEN IS RECOMMENDED FOR SIGNATURES, LETTERING, HANDWRITING, AND CERTAIN FREE-HAND SKETCHING. THESE ARE AVAILABLE IN EXTRA FINE (#78), FINE (#79), MEDIUM (#80), BROAD (#81)

Dear Sir:

For some time it has been next to impossible for us to secure suitable kindergarten school scissors for use in our Indian schools across the country. We have, however, managed to secure small quantities from jobbers from time to time, who sell us English made scissors. These supplies have been inadequate for our needs.

We have become interested in placing an order for approximately 10,000 pairs of inexpensive kindergarten scissors priced in Canada at approximately twenty to thirty cents a pair. These scissors should be about four inches long either cast or pressed. However, it is understood that cast scissors are slightly more expensive. It is not expected that all the scissors will have to be delivered when the order is placed but deliveries may be made as scissors are available.

Would you kindly quote me a price in Canadian funds including cost of shipping charges, duties, sales tax, etc., on scissors that you consider suitable for our needs naming your Canadian representative; minimum quantity we would require to purchase before you would be interested in an order if this applies to your firm, speed of delivery after order is placed. A sample would be appreciated.

I will be interested in hearing from you as to what you have to offer and in the event that you do not manufacture the type of scissors we are interested in, we would appreciate being advised of a firm who does.

Thanking you, I am,

Yours sincerely,

Colonel Bernard Neary,

Department of Mines & Resources,

Dear Colonel Neary,

I have a reply from Mr. Woodley to my recent letter to him. He encloses a new tentative outline of the book on the Indians, which I attach hereto. You will note that he has followed your suggestions and eliminated the section "Tales told by the Camp Fire and in the Tepee".

I like the outline now better than I did the first one, as it seems to me to deal rather definitely now with the history of the Indians and to do it in a factual manner. Perhaps, however, the title "The Indian Heritage" is not a very good one if the legends and myths are to be left out, since these are part of the heritage of the Indian, although you will know better than I what influence, if any, these myths and legends would have on modern Indians.

I hope it will be possible for you to contact Mr. Woodley when next you are in Montreal. He is anxious to proceed with the writing of this book, but feels that he should not do so until the outline is approved. Is there any possibility that we can get the outline approved, - at least unofficially - in the near future?

Yours sincerely,

C. J. Eustace

WELCOME NEW CANADIANS.

MAYOR'S WELCOME TO NEW CANADIANS

On behalf of the people, the City Council and myself, I have much pleasure in welcoming you to our Canadian City. We are glad to have you join our great and happy Canadian family. I feel sure that you have a great contribution to make to our Canadian way of life and that you will appreciate the privileges of our Canadian way of life, known as Democracy, especially that of an education in our Night School. I trust that you will make good progress in Citizenship and English and that you will thereby enjoy to the full this great Dominion of Canada, and that you will always enjoy your association with other Canadians

W. [illegible]. Hughes-Games, Mayor,
CITY OF KELOWNA

To all the members of this class in English and Citizenship I give a hearty welcome. You have come to make your home in Canada. We welcome you and want you to be happy and prosperous and to do all you can to help make Canada prosper as the home of free and well satisfied people. These studies will help you to do all these things.

A. S. Matheson, Inspector of Schools
DEPARTMENT OF EDUCATION.

I am pleased that we have this opportunity of helping you through our Night School Classes to gain a wider knowledge of this Canada of ours and our Canadian way of life. Through willingness to attend these classes you are showing your desire to become good Canadians and to take your part in building this great country of ours. We trust that you will benefit from your attendance at these classes, and that the knowledge you will acquire and the associations you will form will be both pleasant and profitable. We are glad to welcome you as New Canadians and we trust that you will make your contribution to the building of a better Canada.

Rev. Father O'Grady,
Principal, Indian School
Kamloops, B. C.

Dear Father O'Grady;

Please find enclosed two copies of my booklet, "What a Canadian Should Know", an illustrated primer in Citizenship.

Some time ago I sent a copy of it to the Indian Affairs Branch in Ottawa. In reply Mr. Neary, the Superintendent of Indian Education suggested that we try this booklet in your school.

The booklet enclosed are the original notes as prepared for my Citizenship Classes for New Canadians. I might add here that my eight year's work with the Indians helped for I have not forgotten their needs.

Shortly before Christmas I completed a revision of this booklet. The number of questions and answers have been reduced to a hundred, and I have added Word Study and Work Book sections. The word count is well within the bounds set by Basic English Authorities and every illustration has a definite teaching value as a teaching device. All material used has been carefully tested in classroom (both High School and Night School) for interest, language, and general suitability.

Since I have not the time to cut the stencils for the revised booklet I wondered whether you would undertake to publish this booklet as a classroom project, that is, if you have a duplicating or mimeographing machine. If you are interested, I can send you my handwritten copy.

While it is true that the trend has been away from factual presentation of historical facts towards the storybook type of history, many teachers and business men feel that it has resulted in no learning! To prove this loss I conducted three separate experiments with control groups among our Grade 9 classes. The results indicated without doubt the need for mastery of at least some minimum essentials.

During the past three years I have examined a great number of books dealing with the same material and I invariably found that they were written at a reading level above that required of most public school students.

Now that the Indians of British Columbia have the right to vote, I feel that the booklet should be made available to all Indian Students as well as to adults of voting age

I have received very favorable comments from various educators, including the extension Department of the University of British Columbia. Mr. John Fisher heard about our work here and showed considerable interest. He gathered much information which he will used in a future broadcast. It might be added that the booklet is also under consideration for use in some of the provincial school systems.

With best wishes for a Happy New Year.

Sincerely yours,

J. M. Barr.

Dear Mr. Eustace:

I have for acknowledgment your letter of January 9 and Mr. Woodley's outline, attached.

We are now approaching the type of thing which we have in mind but I think that more stress will have to be laid on the Western Indians. I am having mailed to Mr. Woodley two or three books which might help him in giving more details concerning these Indians. There will certainly have to be more mention of the Prairie Indians and of the B. C. Indians. I am sure that Mr. Woodley will get some ideas from the books I am sending to him. There should be more detail also concerning the social life of the various tribes of Indians.

I believe that Mr. Woodley could start to write his book now and that he could deal with the outline already given. He could then fill in to his outline sections on the Western Indian as I have mentioned. Exercises in seat-work should certainly follow each section as we are anxious to make this as practical a book for use in our schools as possible.

Bookmailed Jan 23/50 G.M.

I have had to postpone my trip to Montreal on several occasions but believe I should be down there during February.

Yours sincerely,

Bayfield F. Neary,
Superintendent of Education.

Please find attached a memorandum from the Departmental Purchasing Agent. It would be appreciated if we could have more information concerning this Purchase Order. If it is for High School books, I would suggest that in future Father O'Grady forward a requisition here in the usual way.

We have greatly improved our shipping facilities for books and the Printing and Stationery Department are very cooperative. We have many more children in High School grades at the Spanish school and the Principal there orders his books in early July so that he has all the High School texts required by September.

We have your enquiry of December 7th for moulding suitable for pictures of the King and Queen.

Now, we have a very extensive line of moulding and if you would be kind enough to forward us samples of the pictures in question, we would frame these appropriately for you and quote on your requirements as outlined in your letter.

If this arrangement is satisfactory to you, please have the samples forwarded immediately otherwise we will have to forward you samples of moulding selected at random and which would probably not be suitable for the purpose you have in mind.

Dear Sirs:

I have your letter of January 17th and a copy of Volume 6 of The Home University Encyclopedia.

We have given the book a careful study and feel that it leaves much to be desired. Although it would appear from the face page that the edition was revised in 1946, on going through the book it is found that the information was not brought up to date, (e.g.) Hamilton, Halifax, Goering, etc.

The volume we received has several pages on which no printing appears, making the whole book defective.

This encyclopedia may be useful for United States schools but cannot comply with our requirements.

I am returning the sample copy in order that you may note the defects.

Yours sincerely,

Bernard F. Neary,

Dear Colonel Neary: File 1-1-4

Thank you very much for your letter of the 23rd about Mr. Woodley's outline. I quite agree with you that more stress on the Western Indians is no doubt necessary, particularly as you have so many schools in British Columbia. If you wish, after we receive the manuscript we could send it on to our Western Director in Vancouver and ask him to have it checked with your Inspector there.

I am glad that you think Mr. Woodley might now begin to do some writing, and I have forwarded on this information to him.

One of these days I hope to be in Ottawa again, and shall look you up as there are a number of things I should like to discuss with you.

With very best wishes,

Yours sincerely,

Ottawa, Ontario, Canada

REF: File 1-1-4 (E6)

Dear Mr. Neary:

Thank you for your inquiry of January 24 for an inexpensive No. 5 water color brush. We regret that we do not have available this type of popular brush as our brush manufacturing is confined to the artist grade only.

However, for your future guidance, we are sending to you, under separate cover, a copy of our latest catalog listing materials which we believe are now used in your Indian schools. This material can be purchased from any of the prominent school supply and wholesale stationery houses in your country.

Very truly yours,

Gentlemen: Bernard F. Neary
Supt of Indian Education

We are in receipt of yours of the 24th in which you advise that you are shopping around for a suitable type of water color brush for your Indian schools across the country.

We are asking our distributor in Canada, the E. Harris Company, 1 Leslie Street, Toronto, Canada, to get in touch with you and furnish you with the necessary samples and information. They carry a representative stock of our brushes and are in a positon to give you prompt and careful attention.

We appreciate your getting in touch with us.

Very truly yours,

Dear Sir:

We recently received the Indian Service publications file from the Office of Indian Affairs, Washington, D. C. with the request that the distribution list be brought up-to-date.

We found your name on the list of those who had, at some time in the past, requested free copies of Indian Service publications as they came from the press. However, no information was given concerning the type of books or pamphlets to be sent.

Would you like for your name to be retained on the revised list? If so, will you kindly notify us to that effect and state whether you desire copies of all books being printed or merely copies from specific interest groups (arts and crafts, Indian life and customs, Navaho series, Pueblo series, Sioux series, or miscellaneous).

Will you please send the above information to us at your earliest convenience in case you are still interested.

Sincerely yours,

Dear Mr. Neary :-

Since I wrote you last regarding the Encyclopedias that we had, we are very sorry that we sent you a defective volume for review. However, in a previous letter you asked us if we had any more of the Richard's Encyclopedia in 8 volumes that you bought, I think, 10 sets of.

There is just a possibility that I may be able to get a few more sets, but it will be very few, and if you will kindly let me know how many more you can use I will be very glad indeed to see if I can secure these for you at the same price as we sold you the last ones.

Thanking you, and hoping to hear from you, I remain,

Yours very truly,

Dear Sir: Attention: Mr. Track

We are enclosing under separate cover samples of two types of Kindergarten Scissors and #5 squirrel hair Paint Brushes, as per the order placed with our Mr. Butterwick recently. We outline prices and delivery date herewith:-

#5 squirrel hair Paint Brushes

$19.20 per gross - delivery 4 to 6 weeks.

#26/2 Kindergarten Scissors

In view of the quantity which you require, we are able to offer these Scissors at $12.80 per gross rather than $14.40 as quoted by Mr. Butterwick. Delivery 4 to 6 weeks.

#3026 Kindergarten Scissors

$21.00 per gross - delivery approximately 3 months.

We hope you find samples satisfactory, and anticipate with pleasure your acknowledgement of this order, at which time we will take immediate steps to have these goods prepared for shipment.

We await your reply with interest and remain,

Yours truly,

THE COPP CLARK CO. LIMITED.

Dear Sir:

This morning I received a parcel from your firm containing nine library books and three dozen conductor punches.

When our Mr. Track saw your Mr. Butterwick it was pointed out that the books should be shipped to my office where they would be reviewed for further purchases for our library lists, but the punches should not be shipped to me but to the Department of Public Printing and Stationery on receipt of an order, as this Department does all our quantity purchasing and stocks them for us. This is necessary as we have no room to stock all our school supplies nor have we the authority to make large purchases.

I am returning to you the punches prepaid as it will not be possible for us to pay for them. I expect you will be getting an order from the Purchasing Agent of the Department of Public Printing and Stationery shortly.

Yours sincerely,

Dear Sir:

We have your enquiry of December 7th for moulding suitable for pictures of the King and Queen.

Now, we have a very extensive line of moulding and if you would be kind enough to forward us samples of the pictures in question, we would frame these appropriately for you and quote on your requirements as outlined in your letter.

If this arrangement is satisfactory to you, please have the samples forwarded immediately otherwise we will have to forward you samples of moulding selected at random and which would probably not be suitable for the purpose you have in mind.

Awaiting your reply, we are,

I have your letter of February 8th with regard to frames for pictures of the King and Queen.

When we wrote your firm, letters were sent out to other picture moulding manufacturers who quoted prices as you did.

We reviewed all the quotations and selected the most suitable quotation. Unfortunately, your quotation was not the one selected. The order has been placed with the manufacturer selected and delivery has already been made.

Dear Colonel Neary:

When I was in Ottawa a week or so ago I had some talk with Mr. Track about supplementary reading books for the libraries of your Indian schools.

As a result of this talk we are sending to you two groups of books, one group was selected by Mr. Track from the list of books for Indian and Eskimo children, sent to you some time ago. The other consists of a number of books published by an English firm we represent in Canada, and are inexpensively priced.

We hope that several of these books will prove acceptable additions to your library lists.

The prices noted are subject to your usual educational discount.

In answer to your letter of February 10 - file 19022 - I would suggest that you would recommend the following three books for your correspondent:

(1) Arts and Crafts for Canadian Schools, by Lewis A. Shore, published by J. M. Dent & Sons, Toronto.

This is a very good book with chapters on Woodcraft, Textiles, Leathercraft, Wondcraft, etc. It also has a chapter on where to secure art and craft supplies. It is well illustrated and the directions are easy to follow.

(2) The Art Class in Action, by Joicey M. Herne, published by Longmans, Green & Company, Toronto.

The author is the instructor in Art at the Toronto Normal School and this work is also useful. There are chapters also on Weaving, Carving, Silk Screen Process, etc.

This is one of a series of paper-covered books which deal in detail with various craft subjects. It is well illustrated and very easy to follow. It gives more detail than the two books mentioned above. If a particular arteraft were being studied, these books would be helpful.

There is another series of individual craft books also available. These are published by the Macmillan Company, Toronto, Ontario.

Paper Requirements - Indian Day Schools

As outlined in a previous letter of today's date, it is our feeling that a considerable saving can be made in the purchase of janitor supplies for our Indian day schools. We have already outlined to you our proposal with regard to the purchase of soap.

We would appreciate your action also with regard to the supply of paper. These requirements fall into two categories:

(a) Toilet paper; (b) Paper towels.

Each one-room school requires 30 packages of paper towels (equivalent to Eddy's ONLINOW Junior Paper Towel). Each school also uses about 100 rolls of toilet paper (equivalent to Eddy's HAVY Tissue, or similar).

We would appreciate your immediate action in contacting the Paper Company concerning this request. We would require 400 cartons of each type of paper, as mentioned above, and would supply detailed addresses, etc.

ALL COMMUNICATIONS TO BE ADDRESSED TO THE KING'S PRINTER

Ottawa, February 7th, 1950.

Ref: "Stationery"

Mr. B. F. Neary,
Supt. of Welfare & Training,
Department of Mines & Resources,
Ottawa.

Dear Sir:

This Department is now preparing a Catalogue of stationery items which will be kept in stock and in this connection we would ask you to supply us with a complete list of all the kinds of paper used by your Department, giving for each the purpose for which used, e.g. typewriter, writing, duplicating, etc., also the size, colour and any other detail which would help us to identify each particular kind of paper.

Since it is planned to bring out this Catalogue by the 1st of April and that your Department will draw great benefits from its introduction, please make every effort to supply the requested information before the end of this month, the deadline specified by the printer.

In addition and to enable us to give you entirely satisfactory service, you might let us have in each case your estimated requirements for one year, submitting this detail separately if you feel that its inclusion in your report would delay the submission of the information requested in Para. 1 above.

Yours very truly,

Dear Sir:

In reply to yours of February 7th re plastic tumblers, we wish to advise that the only reason we shipped you a straight tumbler was because of our experience in the past, it has proven to be a sturdier tumbler than the flared style which you are asking about.

If however you feel that you would like to receive the flared style, we can supply you with some at the same price as the straight tumbler.

In your last paragraph we note you are looking for a substantial plastic cup for use in your schools and we might add that we have several thousand cups which are regularly sold at $5.45 per dozen that we could let you have at $2.50 per dozen. Under separate cover we are forwarding you one of each of the colours we have at the present time.

Trusting we will hear from you favourably in this connection, we remain,

Yours very truly,

Dear Mr. Jeanneret:

The revision of the Indian Act is forecast for this coming session of Parliament. In the Speech from the Throne on February 16, 1950, there appeared the following statement:

> "You will be asked to consider a Bill for the revision of the Indian Act".

It is expected that this legislation will deal with both the points raised in your letter.

With kind personal regards,

Dear Mr. Eustace:

I have for answer your letter of February 10 and would like to know how many JOE AND RUTH WORK BOOKS you still have on hand and at what price we could purchase them from you.

We do not anticipate any further need for this book after the present stock is exhausted and I feel that the type can be disposed of.

I have sent several other Indian books to Mr. Woodley and one in particular is very good in its treatment of the Indians of the Prairies.

I concur in your suggestion that the manuscript might be sent to your Western Director in Vancouver as there are books on the B. C. Indians which I have not been able to obtain and which I know would be useful to Mr. Woodley.

Yours sincerely,

Re: Cataloguing Equipment and Supplies

At a recent meeting of the teachers and agent of the Tyendinaga Reserve, the above subject was discussed. We feel that it is desireable that all equipment and supplies on hand in the Schools should be catalogued, and that the equipment at least should be checked at regular intervals. This would protect the teacher, enable us to transfer equipment from one school to another without the teacher carrying any of the responsibilities, enable us to list requirements with the minimum of work, and finally in the event of a change of teachers, both the new and the old teacher would be protected.

The Ontario Department of Education has a standard type of catalogue, but this does not meet with my approval because we want a type of catalogue that could be used for checking purposes over a number of years. With the Ontario Catalogue it is necessary to erase the check marks each year or as is usually done, write out a list of the equipment each year and check from this written list. If your Department has no standard catalogue in supply, I would be in favor of using No.200 Government of Canada Register, with a supply of Index Tabs. We would require at least 5 of these books to start with.

We also discussed the cataloguing of Library Books. Some of our Schools are building up a nice library and consequently it is proving quite a chore to find any particular book. We are therefore interested in systems of cataloguing libraries. If the Department has no standard system in their shhools we would like to catalogue the books according to the subjects on our curriculum. This system has many disadvantages, but I feel its simplicity outweighs them all. We would require for our book shelves some type of metal card holder. I would suggest that 3 dozen of these would be sufficient at the present time.

Colonel B. F. Neary

I acknowledge receipt of your memorandum of the 18th instant, regarding paper requirements for Indian Day Schools.

This matter was discussed with the E. B. Eddy Company, Hull, Quebec, and they reserve the right to supply Navy Tissue Toilet Paper to chain stores only in the size of one case (30 rolls), 550 sheets per roll. However they have a substitute equivalent to this paper in every way except that the number of sheets per roll is 550 only, and is lower priced accordingly.

The prices quoted me were as follows:-

Universal Toilet Tissues
(30-Roll Case - 550 Sheets Per Roll)
Price Halifax to Fort William Per Cs $5.85
Price Ft. William and West to Vancouver $6.60
(Sales Tax Included)

Onliwon Towels
(100 Rolls Per Case - 550 Sheets Per Roll)
Price Halifax to Fort William Per Cs $ 4.65
Price Ft. William and West to Vancouver $5.05
(Sales Tax Included)

The only objection raised was the matter of delivery. The firms will not ship less than five cases to any given point. They suggest that in the cases of small shipments of one or two cases that probably the bulk could be sent to

Memorandum:

Plastic Drinking Cups

We always have a demand for drinking cups for our day schools and have been providing various types over the past few years. Recently we have been providing plastic tumblers and they have proved to be very satisfactory, providing they are heavy enough.

Unfortunately the heavy plastic cups are quite expensive and often cost forty or fifty cents each. We have secured an excellent price from Maple Leaf Plastics Limited of Toronto quoting $2.50 per dozen on a heavy plastic cup. We have received samples of these cups and they are just what we want.

I have, therefore, prepared requisitions for the stocks which we will need for the next year in our Indian day schools.

I attach also a copy of the tander letter from Maple Leaf Plastics Limited.

Bernard F. Neary,
Supt. of Indian Education.

Colonel Bernard F. Neary,
Superintendent of Education,
Indian Affairs Branch,
Ottawa 23, Ont.

Dear Colonel Neary:- Re File 1-1-4

I am grateful to you for your letter of February 23rd advising us that we may dispose of the type of the Joe and Ruth Workbook. We have 2900 copies left, and we shall be glad to let you have these at a special price of 24 cents a copy.

I shall be seeing Mr. Woodley in Montreal in a couple of weeks time on my way back from a trip to the Maritimes. I will see what progress he is making on the book on the Indians. I appreciate very much your sending Mr. Woodley the Indian books, as I know these will be useful to him. I will also suggest to Mr. Woodley that he get in touch with our Mr. Stephen of Vancouver about books on the B.C. Indians.

I am hoping to be in Ottawa in the early Spring, and shall look forward to seeing you at that time.

Yours sincerely,

J. M. DENT & SONS (CANADA) LIMITED

Dear Mr. Query:

W.J. Gage and Company Toronto have in stock for immediate delivery ten gross of G 4 Blunt Kindergarten Scissors at $1.95 a dozen.

As we are experiencing considerable difficulty in securing suitable scissors and as it is feared that other firms will not be able to make deliveries as promised, it would be appreciated if this stock would be placed in your warehouse at once.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education.

Mr. R. Query,
Director of Services,
Dept. of Public Printing & Stationery,
75 St. Patrick St.,
Ottawa.
